(1) Request of Mr. L. D. Felsheim, former county judge of Coos County, presently Editor of "Western World," Bandon, that the State Highway Commission give consideration to the acquisition and development as a state park of the lighthouse property across the Coquille River from the City of Bandon which has been declared excess property by the Coast Guard and has been assigned to the General Services Administration for sale to the public: The Parks Superintendent advised that the old lighthouse has been abandoned and in his estimation there is justification for a study of the area as a state park. He requested authority to make a study of the possibilities of developing a state park at this location including a study of the area at Bullards Bridge a few miles upstream from Bandon. The Commission authorized him to make such studies which are to be the subject of a report to be rendered at a future meeting.

(2) Relocation of park facilities necessitated by the flooding of a portion of the Cove Palisades State Park when construction of the Pelton and Round Butte Dams in the Deschutes River by the Portland General Electric Company have been completed: The Parks Superintendent advised that when these dams are completed back water will flood portions of this park. The Pelton Dam, he said, is nearly completed and construction of the Round Butte Dam appears to be quite immi ent. In view of the situation he requested authority to make a thorough study of the matter so that present facilities may be relocated for satisfactory use by the general public. The Commission unanimously approved his request.

(3) Relocation of park facilities in Cascadia State Park: The Parks Superintendent advised that in connection with the program for construction of flood control and power dams in the Willamette Valley, it is quite likely that within a short time a dam will be constructed on the South Fork of the Santiam River which will flood the present facilities in Cascadia State Park. In order to provide necessary facilities for the park patrons, he said, it will be necessary to make studies now to determine where they should be established so that best use of the unflooded portion may be obtained. He requested authority to make such a study. The request was granted by the Commission by unanimous vote.

The Right of Way Engineer, Mr. R. L. Porter, reported on the following right of way matters. Preliminary to presenting the several items, Mr. Porter explained for the benefit of Commissioner Fridley the procedure that the State Highway Department follows in connection with the acquisition of right of way that is required for state highway improvements:

(1) The Right of Way Engineer presented for consideration options that have been obtained for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration of the individual options, the Commission unanimously approved the closing of the options at the prices mentioned therein by adopting the attached resolution relative thereto marked Exhibit "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(2) Request of Logan and Lucy Kay for a change in the access to their property on the Davis Slough-Bandon Section of US 101, Coos County. The Right of Way Engineer advised that this is a minor change and he recommended approval of the same. The Commission adopted the recommendation.

(3) Renewal of lease obtained from Robert Harper covering material needed for improvement of the Territorial Highway, Lane County. Upon his favorable recommendation, the Commission unanimously approved the renewal of the lease.

(4) Proposed sale to Mr. M. B. Hinds, Portland, of a small parcel of land, containing 0.4 acre, located on the Progress Section of the Beaverton-Aurora Highway, Washington County, File No. 9282: The Right of Way Engineer recalled that this matter came before the Commission at the previous meeting and was referred to him for further study. He advised that the property was originally purchased to be used as a roadway leading to a state-owned stockpile site, that it is 30 feet wide and 574.6 feet long, that Mr. Hinds wants to acquire it for use in connection with his purchase and development of adjacent property, and has offered to pay for the same at the rate of $1,500 per acre, or the sum of $600 for the acreage involved. He recommended acceptance of the offer conditioned upon Mr. Hinds purchasing the adjacent property on both sides of the road; also, that the Commission authorize a direct sale of the property to Mr. Hinds. The Commission approved sale of the property to Mr. Hinds for $600 by direct sale subject to the condition mentioned by the Right of Way Engineer.

The Chief Counsel reported two condemnation cases that have been tried since the last meeting of the Commission, both concerning acquisition of right of way for the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, Multnomah County as follows:

(1) State vs. Elizabeth Telecky, L-2814 and R-26345: He stated that the offer made in connection with this case was $760 and that the verdict that was handed down by the court was in the sum of $750.

(2) State vs. George A. Rahoutis, L-2840 and R-22772: The Chief Counsel advised that the offer made in connection with this case was $22,650, and that the verdict handed down by the court was $28,750, which is the amount of the high appraisal of the property, the low appraisal being in the sum of $21,500.

The Commission approved both reports after Commissioner Fridley had been advised by Chairman McIver and the Chief Counsel of the procedure that is required by the Federal Government.

Request of the City of Roseburg to lease 16.34 acres of State Highway property for city park purposes: The Chief Counsel advised that the City wants to lease this property until the 6th day of December, 1977. The property, he said, consists of real property that is not needed required or useful for highway purposes during the leasing period, and he recommended approval of the City's request subject to the right of the United States of America to all gas, oil and minerals that may be located on the land, together with the right of the United States through its authorized agents to enter upon the property to mine and remove such material sofar as such right does not interfere with the continuous use of the property for public park purposes; also subject to certain reservations and conditions contained in the quitclaim deed, dated December 7, 1956, that the Commission received from the Federal Government. He advised that the City contemplates development on the property that is estimated to cost $21,000. The Commission approved the recommendation by adopting the attached resolution relative thereto marked Exhibit "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Deputy Highway Engineer reported the award of contracts as follows, pursuant to authority previously granted him, the conditions of the awards having been fulfilled.

(1) Grading, stone base and paving the West Unit, Shogren-Rowena Section of Columbia River Highway, Wasco County. Bids received February 28, 1958. Contract awarded March 31, 1958 to Roy L. Houck & Sons and Roy L. Houck Sons Corporation, Salem, low bidder.

(2) Grading and paving North Kutch and East Monroe Streets in the city of Carlton, Yamhill County. Bids received March 28, 1958. Contract awarded March 31, 1958, to Warren Northwest, Inc., Portland, low bidder.

(3) Grading and oiling South Mission Road Section of South Mission Road, Umatilla County. Bids received March 27, 1958. Contract awarded March 31, 1958 to Shannon Construction Company & Sardine Creek Timber Company, Sweet Home, low bidder.

(4) Grading and construction of reinforced concrete bridges on timber piles on East Unit, Paulina-Trout Creek Section of Paulina-Logdell Road, Crook County. Bids received March 28, 1958. Contract awarded April 2, 1958 to George E. Blaisdell & Son Construction Company, Portland, low bidder.

The Commission confirmed the awards by unanimous vote.

The Deputy Highway Engineer reported that the Highlands Interchange Project on the Sunset Highway, State Highway Contract No. 5025, is going to cost more than was originally anticipated due to slides that have occurred,

and indications are that the overrun in the project authorization will amount to about $59,000. He asked the Commission to approve an increase of such amount in the project authorization for this project. The Commission approved his request unanimously.

This concluded the discussion of matters appearing on the agenda.

There followed a general discussion of procedures that had been established for bid openings. Chairman McIver explained details in connection therewith and at his request the Deputy Highway Engineer outlined for the benefit of Commissioner Fridley the Commission's financial status, with particular reference to the emergency money that is now under discussion in the Congress.

The meeting adjourned at 11:15 a.m.

Minutes of April 3, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27087 W. R. Grace & Co. (Grant)
Right of Way, Sta. 91
Option expires August 18, 1958
8,000 sq.ft. at $0.55 per sq.ft. $4,400.00
Amount to be paid owner - chrg to Right of Way $4,400.00

Entire taking -

27502 Madonna, Frank and Doris R. (Grothaus)
Right of Way, 3318 S.W. Macadam, Stas. 99-100
Option expires September 25, 1958
5,000 sq.ft. at $0.80 per sq.ft. $4,000.00
House and garage 2,750.00
Amount to be paid owners - chrg to Right of Way $6,750.00
Grantors to vacate 30 days after notice.

Entire taking -

EXHIBIT "A" (Cont)

PORTLAND INTERNATIONAL AIRPORT - N.E. ALBERTA STREET SECTION - CASCADE HIGHWAY

27341 Aube, Crystal R. et al (Grothaus)
Right of Way, 8231 N.E. Webster, Stas. 109-110
Option expires September 26, 1958

5,992 sq. ft.	$1,500.00	
House	6,150.00	
Yard improvements	300.00	
Amount to be paid owners - chrg to Right of Way		$7,950.00

Grantors to vacate 30 days after notice.

Entire taking -

NEWBERG-GEARIN CORNER SECTION - HILLSBORO-SILVERTON HIGHWAY

26318 Palmer, George B. SUPPLEMENTAL REPORT (Boehmer)
Right of Way, Stas. 11-12
Option expires September 26, 1958

871 sq. ft. at $0.06- per sq. ft.	$ 50.00	
Encroachment damage	350.00	
Amount to be paid owner - chrg to Right of Way		$400.00

This in addition to $4,750 approval of January 16-17, 1958 for 0.11 acre.

Access not controlled -

ALBANY-LANE COUNTY LINE UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

25380 Jackson, Delos K. et al (Friess)
Right of Way and Channel Change, Stas. 1822-1855
Option expires June 25, 1958

37.56 acres at $250 per acre	$9,390.00	
House, 1,200 sq. ft. at $4.50 per sq. ft.	5,400.00	
Damage	2,370.00	
Amount to be paid owners - chrg to Right of Way		$17,160.00

Grantors to vacate 30 days after notice, but may harvest 1958 crop if same does not interfere with construction. If harvesting not allowed, Grantor to be paid for crop loss at $20 per acre, 20 acres now in crop.

THINGS TO BE DONE BY THE STATE

Fence right of way.

Complete restriction of access -

EXHIBIT "A" (Cont)

CASCADE LOCKS-VIENTO SECTION - COLUMBIA RIVER HIGHWAY

27015 Oregon Conference of the Free Methodist Church of America (Grant)
Right of Way, Stas. 491-493
Option expires September 25, 1958
0.32 acre $ 160.00
Amount to be paid owner - chrg to Right of Way $160.00

THINGS TO BE DONE BY THE STATE

Provide S. frontage road.

Complete restriction of access -

ONTARIO-SNAKE RIVER SECTION - OLD OREGON TRAIL HIGHWAY

27445 Martin, Marie (Bucknum)
Right of Way, Stas. 1283-1285
Option expires September 25, 1958
0.34 acre at $350+ per acre $ 120.00
Re-est. irrigation system 55.00
Amount to be paid owner - chrg to Right of Way $175.00

Complete restriction of access - .

EXHIBIT "B"

Minutes of April 3, 1958

RESOLUTION

WHEREAS, pursuant to ORS 366.395, the State Highway Commission may lease real property, when said real property is, in the opinion of the Commission, not needed, required or useful for highway purposes during the leasing period; and

WHEREAS, the City of Roseburg, acting by and through its city officials, has requested that the State Highway Commission lease to the City of Roseburg for public park purposes until the 6th day of December, 1977, certain real property, hereinafter more fully described, which said real proper y is now owned by the State Highway Commission; and

WHEREAS, the State Highway Commission is of the opinion that said real property is not needed, required or useful for highway purposes during the leasing period.

NOW, THEREFORE, be it hereby resolved by this Commission as follows:

1. That the following described real property is, in the opinion of this Commission, not needed, required or useful for highway purposes for the period of the above mentioned lease, and may be leased to the City of Roseburg for public park purposes. Said real property consists of a parcel of land situated in Section 13, Township 27 South, Range 6 West, W.M., County of Douglas, State of Oregon, known and described as follows, to wit:

> Beginning at a point on the northerly boundary of a parcel of land conveyed to the United States of America as described by Deed recorded in Vol. 94, Page 157, Deed Records of Douglas County, Oregon, said point being at the intersection of said northerly boundary and the easterly right of way line of relocated Pacific Highway (U.S. 99) as described in Deed of Easement from the United States of America to the Oregon State Highway Department, recorded in Vol. 219, Page 119 of said Records; said point being also the southeasterly corner of a parcel of land conveyed by Laurel Lodge No. 13, A.F. & A.M. to the State of Oregon described in Vol.226, Page 627 of said records, said point being also the southwest corner of a parcel of land conveyed by said Laurel Lodge to Roseburg Memorial Gardens, Inc., described in Vol. 226, Page 766 of said records, said point bearing N. 4° 44' 30" W., 2096.7 feet from the northwest corner of J. Huntley D.L.C. No. 56 situated in T. 27 S., R. 6 W., W.M.; thence east 1151.05 feet, along the said northerly boundary of property herein conveyed to its intersection with the west right of way line of the Southern Pacific Railroad, thence along said Railroad Right of Way line in a 5° curve to the left, the chords of which

EXHIBIT "B" (Cont)

are as follows: S. 20° 21' E., 212.7 feet, S. 30° 32' E., 199.8 feet, S. 42° 47' E., 299.3 feet, and S. 56° 25' E., 259.65 feet, to its intersection with the meander line of the right bank of the South U[illegible] River; thence, following said Meander Line, N. 7[illegible] W., 994.3 feet, N. 88° 50' W., 389.15 feet and S. 87° 52' W., 183.1 feet, to its intersection with the easterly right of way line of said highway; thence N. 19° 56' 30" W., 579.9 feet, along said highway right of way line to the place of beginning, containing 16.34 acres, more or less.

Subject to the right of THE UNITED STATES OF AMERICA to all gas, oil and minerals in the said tract of land, together with the right of the United States of America through its authorized agents, representatives or lessees at any time, to enter upon the lands and prospect for, mine and remove such minerals, so far as such right does not interfere with the continuous use of the property as and for public park and public recreational area purposes, as determined by the Secretary of the Interior, or his successor in function,

and also subject to the reservations, conditions, and covenants contained in the quitclaim deed dated December 7, 1956, from the United States of America, acting by and through the Administrator of General Services, Grantor, to the State of Oregon, acting by and through the Oregon State Highway Commission, Grantee.

2. That this resolution be entered in the minutes and records of the Commission this 3rd day of April, 1958, as Miscellaneous Resolution No. 215.

Portland, Oregon
May 2, 1958

A public hearing was conducted by the State Highway Commission at 10:00 A.M. this date in the City Council Chambers in the City Hall, Portland, as requested by the City Council to satisfy the legal requirements of the State of Oregon and of the Federal Government, with respect to the Commission's plans to construct a section of a proposed freeway along the east side of the Willamette River in Portland, commonly known as the "East Bank Freeway."

Present, representing the State Highway Department were:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy Highway Engineer
G. S. Paxson, Assistant Highway Engineer
P. M. Stephenson, Assistant Highway Engineer
Tom Edwards, Construction Engineer
D. J. Barbee, Assistant Construction Engineer
H. B. Glaisyer, Secretary

Also present was C. G. Polk, Division Engineer, representing the United States Bureau of Public Roads.

Chairman McIver called the meeting to order with the following statement: Good morning, ladies and gentlemen. This public hearing is called for the purpose of explaining to you the plans of the State Highway Department for the "East Bank Freeway" here in Portland, and to satisfy the requirements of the State and Federal Government. When the State receives Federal Aid to help finance an improvement such as this, the Government requires that after the plans are developed but before they are adopted, there must be a public hearing to give the people concerned an opportunity to express themselves on the subject. We will have Mr. W. C. Williams, State Highway Engineer, explain the two plans that have been prepared, after which those who wish to be heard will be given an opportunity to say what they have in mind. In order to save time I wish those of you who want to be heard, representing organizations or individuals, would please give your name to Mr. H. B. Glaisyer, Secretary of the Commission, while Mr. Williams is explaining the plans. Your name will be announced and you can then come forward to the microphone so all can hear you. As you know, this meeting has to be recorded and in that way you can be heard and what you say will go in the record. In order that you may know who is here from the Highway Department, I would like to introduce to you my fellow Commissioners, Mr. Robert B. Chessman of Astoria and Mr. Kenneth N. Fridley of Wasco; also, Deputy Highway Engineer, Forrest Cooper; Glen Paxsnn, Assistant Highway Engineer; Tom Edwards, Construction Engineer; P. M. Stephenson; Assistant Highway Engineer; Herb Glaisyer, Secretary of the Commission; Floyd Query, Assistant Secretary; Mr. C. G. Polk, representing the U.S. Bureau of Public Roads. I'd also like to have stand a man from the city of Portland who has spent a great deal of time working on this project

with the Highway Department Engineers and whom we think a great deal of, Mr. Fred Fowler.

Now, Mr. Williams, will you please explain your plans to the people here. What we are hearing concerns the piece of road from Russell Street on the north to the point where it connects with the Baldock Freeway on the south. This is the part that we are having the hearing on, notwithstanding the fact that we are only going to ask for bids at the first letting for construction of the section which extends from this point where the Banfield Expressway terminates at the river to the Morrison Bridge. Mr. Williams.

MR. WILLIAMS: I'll have to talk loud because I can't use a microphone while I'm pointing at the map. There are two plans proposed; the first one I shall discuss is what is called the "high level route." Leaving the Baldock Freeway just north of the Ross Island Bridge a new structure is proposed which we have called the Marquam Bridge because it is approximately opposite the end of old "Marquam Gulch." The high level structure will run directly north to a point past the Banfield Freeway at an elevation of approximately 100 feet, all in the air. That is about 70 feet above the ground level which is in the neighborhood of 30 feet. This structure is indicated in red, in fact, all of the red coloring on the map indicates structures. The same connections are provided at the "Banfield Expressway" and the new Morrison Bridge and a connection to and from the one-way couplet on southeast Union and Grand, both plans are similar. Then there is the so-called low level route which we consider most desirable. One reason being that it is very much more economical, some $3,000,000 or $4,000,000. Secondly, it is along the river at ground level All of the blue coloring on the map indicates ground. The red structure is where it is necessary for interchanges to go over or under, but they'll all go over the proposed route. That will be at elevation 35 which is some two feet higher than the highest flood waters we have known in this area. In other words, it is about two feet higher than the '94 or '48 flood, so that it would act as a protection as well as a roadbed. I wish to emphasize that we are building a roadbed, not a seawall, but this would be right along the water's edge, and would meet the river on a flat slope. The slope will be rip rapped with grouted concrete or possibly precast concrete slabs five feet in thickness to protect against erosion and seepage. I will now describe briefly the connections at the Morrison Street Bridge. Coming in from the Banfield Expressway, traffic will flow freely onto the new Morrison Street Bridge. Going out, it will go the same way, come back where it can go either to the Banfield or go north on the new facility On the Banfield Freeway, traffic may go in any direction, either northerly to the steel bridge, or onto this freeway which flows directly to the Morrison Street Bridge. There will be no traffic lights, no cross traffic of any nature on the "freeway" until you reach the west end of the Morrison Street Bridge. All of this, of course, will be a complete freeway. This plan goes around the E-R Center. The E-R Center is right in here (pointing to map). It is completely outside the limits of the E-R Center and there is no barrier, so it would not affect that. Running north, this is as far as the plan is now proposed because right at this point where we get the facts about the Interstate just north of Russell Street, which is here, (pointing to map), we will be getting into the vicinity of what eventually will be an interchange that is near Freemont Street. At such time as we build that west routing, the so-called stadium routing with the new bridge at Freemont,

there would be an interchange in here so the plan would be temporary for the time being. We're only talking about approval of the overall plans as shown on this map and, as Mr. McIver, Chairman of the Highway Commission, has told you, our first plan is to acquire the rights of way and to build this section from Banfield Expressway, here, to the north so that it will relieve the congestion that is now experienced on Banfield Freeway, and will also make a better flow of traffic to the Morrison Street Bridge, which is indeed one of the finest bridges in the nation and has a much better entrance into Portland because, coming in on the one-way street system, traffic can feed out in any direction. Now those are the basic principles. That is our overall program; and is part of the Interstate System. Ninety-two per cent of the funds which will go for rights of way and the construction are provided by the Federal Government, the other eight per cent will be provided by the State of Oregon. I believe that is about all of the information that I can give you at this time. It is a preliminary outline.

MR. McIVER: Thank you very much, Dutch. That gives to you the plan pretty much in full of what we are asking for or what we're going to approve probably at the next meeting. Now all of this has been studied a great deal by the Highway Engineers and the community here, the city of Portland, also the Bureau of Public Roads. If suggestions are offered at this meeting that seem beneficial to the plan, they can be incorporated. We're ready now to hear from any of you that wish to be heard. I will call first the representative of the Portland City Planning Commission, Mr. Lloyd T. Keefe.

MR. KEEFE: My name is Lloyd Keefe and I am Director of the City Planning Commission for Portland. I believe you gentlemen have received copies of a short statement prepared by the Planning Commission. Here are some others for those who want them. The Planning Commission took official action at its meeting on April 24, of this year, approving or recommending approval of this route when it comes before the City Council for official action. The recommendations are four in number; (1) adoption of the East Bank Freeway alignment essentially as shown in plan B-2, the Oregon State Highway Department Report which I believe is the plan over here on my right. (2) provision by the Highway Department for a strip at least 50 feet wide between the top of any revetment on the east side of the river and the edge of the roadway; (3) agreement between this city and the State Highway Department about the public use and improvement of that strip, and (4) the Planning Commission would like to reserve approval of interchanges and connections until further studies are made by its own staff or until further proposals are made by the State. By way of explanation of these four recommendations, naturally, the Planning Commission is pleased with this particular proposal. Back on January 18, 1954, the Planning Commission adopted a tentative plan for freeways the thoroughfares in the city and this particular location for a freeway was shown on that plan. Locally, the functions of that particular link which we're interested in are that there be provided a means of getting the Banfield Freeway onto the new Morrison Bridge and of course, not shown on this map but will be shown as you get to it, is a connection from the Mt. Hood Freeway, to get onto the Morrison Bridge because the Morrison Bridge itself has a limited traffic shed, that it is the area on the east side, because it is somewhat cut-off by the topographic obstacle which is Mt. Tabor, means that most of the traffic from the east side will have to approach the downtown area and the central area from the corners

as it were, not be straight onto the Morrison Street Bridge, so that was one of the essential thoughts. The other is that this would be a great opportunity to make a continuous north-south freeway route using McLoughlin Boulevard all the way around the East Bank and the new Burrage-Delaware Freeway to Vancouver, and to serve the penninsula district of the city. The Planning Commission favors the low level route over the high level route principally because we feel that the economic activities which would be affected by the high level route are perhaps more essential to the city than the small amount of river frontage or harbor frontage which would be taken out by the low level route. Not very many of the users that run on the river really are users of the harbor facilities. However, those activities, warehouses, factories, etc. that would be affected by the high level route, do have an essential need for the railroad trackage that they have there and also because they have a need for a central location. Their activities must be central in the city. Some of the uses along the waterfront are also in this same category, but if there is a question about taking away some of our harbor facilities I can say that Portland has inside the city limits 27 miles of frontage which is or can be developed for harbor facilities. Now this in effect would only take out about one mile of that, and being located in the central part of the city directly across from the downtown area, an area which attracts a population each day equal to the population of Portland. In other words, about 350,000 to 400,000 people come through this area every day. We are very much concerned about the appearance of our river front and therefore the recommendation about some pedestrian esplanade in connection with this. And also we'd like for you to give due consideration to the fact that if the ramps going to the Morrison Bridge are so designed that they would obscure the downtown area entirely, we think that it should be restudied from that standpoint. This statement that you have has some detailed suggestions about connections which I'll not take time to go into at this time but you can study at your leisure. If there are any questions I'll be glad to answer them.

CHAIRMAN McIVER: Thank you very much, Mr. Keefe. Is there anyone else that wishes to be heard for the city of Portland? If not I'd like to call on a representative of the Portland Chamber of Commerce. Mr. Harry Clement.

MR. CLEMENT: My name is Harry Clement. I represent the Chamber of Commerce and I have a very brief report and suggestion here regarding the matter under discussion. I have much data here which I won't attempt to go into. The Chamber has worked on this problem for many years and has come up with a suggestion favoring the low level route for the river front highway, and the few facts that I have here that will point up this is that it is possible apparently, from the information that we have and have been able to obtain, that this project will go through in the near future rather than be held up for possibly a longer time with the high freeway providing for labor sooner than if it were put off. There is one point that Mr. Williams brought out that I know all the members of the Chamber of Commerce are very pleased with and that is that the State and the Federal Government are picking up the tab for the improvement which, having a lot of Scotchmen in the Chamber, that goes over very well. The revetment set up as is outlined, the Chamber is in favor of. It will be free from flooding and the landscaping has been approved by the Chamber and that's about all that I have here. The Chamber

is wholeheartedly back of this project known as, I believe, B-2.

CHAIRMAN McIVER: Thank you, Mr. Clement. Mr. Floyd L. Martin representing the Portland Chamber of Commerce.

MR. MARTIN: Mr. Chairman, Mr. Clement didn't state that he is the present Chairman of the Roads and Highways Committee for the Chamber. I am the retiring chairman of that committee and have worked on this program as Mr. Clement has, and have been on the committee for a number of years. We've made considerable study over a period of five months that this matter has been before our committee. We have heard from various engineers in the Highway Department, local people who are interested in this route, and when I say this route, it's the north-south route through the city. This particular section ties in so completely with the overall freeway system as planned for the community, that we have favored this over any other route as a general route. Getting down to the matter of the high level as compared with the river bank level, the committee has studied that quite thoroughly. We heard pros and cons on it. It appears to us that the high level is scarcely suitable for that particular section of the city; the elevation being 70 feet above the present ground level through the business district seems entirely unsuitable for a community of this type. You couldn't have, at least from what we've seen in elevated structures through a community, say, Seattle, they have a much different terrain there that they go through, they have the hill back of it but it's certainly not an asset to the city and certainly wouldn't be here. This route along the river bank can be, and we presume is, planned for a certain amount of landscaping as is being done on the other routes and we haven't questioned but what it will be done in this case. The revetment will certainly improve that side of the river. The revetment as compared with the seawall, the seawall is an extremely expensive structure for what it could accomplish. However, this revetment does not preclude the building of the seawall in the future if it should be required, but I can see no reason why at any time there should be need for a seawall with this type of construction. The question was asked as to whether or not the river would cut along the revetment and let it slide into the river. That is an engineering problem and I will assure anyone here with the engineering that we have seen on our highway system, we have engineers that equal and are superior to any in the nation and I will guarantee that the revetment will not be built on that basis. It will have a solid foundation so it can withstand the flooding or anything of that kind. I have gone along with calling this the low level route not withstanding the fact that it actually is higher than the route on the west side. That is quite important, I think, with our high waters. It would be higher than even the '94 flood. We, I believe, can be assured that we won't have floods of that type due to the water storage and that sort of thing on the upper Willamette and the tributaries to the Willamette River. We have control of that sort of thing now that we haven't had in the past and the probabilities are that high water that occurs now with the same amount of rainfall would not be as high as we had in the '94 flood. By the way, I said "we had", I was born in '94. That will be two feet less than the '94 flood and this is planned two feet above the '94 flood level. That's something we hadn't thought about because we didn't feel it was within our committee's jurisdiction to follow out anything over the normal landscaping that we would expect the Highway Department to do as they are doing on the other sections of the city, something that will have to be worked out with the city to maintain this landscaping after it is put in. That, we feel sure, can be and will

be handled in very good shape. One of the big assets, I think is this, rather than having a high level structure cross the city, we will improve the east bank of the river. We won't have the eyesore that we have over there now, and it certainly is an eyesore looking across from this side. It's a very bad condition over there which will be cleaned up. Lastly, the saving of, as our estimate was made from $3,000,000 to $6,000,000, on the river bank construction over the high level construction, I think is very much in favor of that. That's quite a piece of money for that mileage. I don't know of anything further that I could bring up here at this time but there's one thing that is very important and that is the tying in, a route that can tie in with the other freeways that are to be built, and this one fits in so very well with the plan and program. Thank you.

CHAIRMAN McIVER: Thank you very much. We will now hear from Mr. Walter J. Miesen of the East Side Commercial Club.

MR. MIESEN: Our club, the East Side Commercial Club, is not a provincial organization. It doesn't confine itself to promotion for east side merchants only. We are city-wide, metropolitian, and state. To give you an idea of what our activity encompasses, we helped promote the section of road south of Oregon City to Salem, we helped promote the west side seawall, we helped instigate and encourage the Sunset Highway, so we feel that we are a very energetic organization for the benefit of this particular area. We appreciate all of the technical energies extended by the State Highway Commission and the City Planning Commission in lining up the East Bank Freeway. We feel now that action should be taken to eliminate what would be classed as now "dead-end." We have the Baldock Freeway coming in from the south, we have the Banfield Freeway from the east, and we also now have the Interstate. We are stymied on the east side, and it also affects the west side, because we do not have the link that will take care of these three traffic flows, and so we urge that as expeditiously as possible, that the link be constructed. I would like to present our President, Mr. William H. Boland, Mr. Chairman.

MR. BOLAND: I'm William H. Boland, President of the East Side Commercial Club. Mr. Chairman, members of the Commission, ladies and gentlemen, the main problem that we have looked forward to solving on the east side and on behalf of the welfare of the city of Portland, has been this matter of a north-south link for our highway interchange in that area. Our businesses on the whole have been faced with some real problems since the Banfield Expressway has been completed up to Grand Avenue and we've had a real traffic problem. I think our biggest traffic problem in the city of Portland right at this time is a north-south link problem. This East Bank Freeway will solve that main traffic problem as we see it and as our people represented by my club see it. For many, many years the East Side Commercial Club has fought for a seawall for the east side of Portland comparable to the seawall on the west side of Portland. We had flood problems over many years. Our people on the east side have had to face the same or similar problem that happened to the west side earlier and we see in this north-south link, the East Bank Freeway, a solving of this problem of flooding from high water at various flood stages of the river over a period of time. From that standpoint there is no question about it that the merchants of the east Portland area desire very, very much this low level plan B of the State Highway Commission

which would encompass not only a north-south freeway but also a river seawall. With such a seawall I think that many of the problems of our east side merchants will be solved in terms of flooding, in terms of traffic interchange that they have been facing, a real problem over the many, many years, since we've sought to have a north-south interchange. We have mainly on the central east side wholesale distributive businesses of the nature of food and other commodities principally, and each one of those will be placed in a much better position to serve their personnel, their clients, their customers, through such an interchange emanating from this north-south interlink and seawall. So, from that standpoint we are interested in one thing mainly and that is we want to see this thing accomplished as soon as possible with this seawall low bank interchange plan number 2.

CHAIRMAN McIVER: Mr. John Winn representing the Port of Portland.

MR. WINN: Mr. McIver, the preliminary studies which have been made by the Port of Portland Engineering staff and their consultants indicate that the plan which is being advanced here, either plan, will not do anything that is detrimental and may do much to help the commerce of the area in which the Port is vitally interested. The fact that has been brought out by a previous speaker that if the time comes when a seawall is needed at this particular place such a seawall can be constructed. The fact that adequate steps have been taken to handle flooding conditions is another point, however, the Port is primarily interested in the development of commerce of the area as a whole, and that can only be done by communication and transportation because if transportation isn't civilization it's at least the life blood of it. I think the thing has been extremely well done and the Port is quite pleased. Thank you.

CHAIRMAN McIVER: Thank you very much. The Portland Retail Trade Bureau, Mr. Richard Paulson.

MR. PAULSON: Richard Paulson, President of the Retail Trade Bureau. Mr. Chairman, members of the Commission, ladies and gentlemen, the Portland Retail Trade Bureau has studied this, the two plans, the high level and the low level and we favor the low level East Bank Freeway for a number of reasons. In the first place, the high level would be a blight on the skyline of Portland and would accomplish nothing so far as beautifying the city is concerned. We feel that the low level route would be attractive, it would be more attractive so far as beautifying the east bank, it would provide a seawall, which the east bank needs. The plan is less expensive and therefore more desirable from that standpoint. Therefore, the Bureau definitely favors the installation of a low level route. Thank you, very much.

CHAIRMAN McIVER: Thank you. Next is the Portland Association of Building Owners and Managers, Mr. William L. Brewster.

MR. BREWSTER: William Brewster, property manager. First let me speak personally as a representative of a number of plants who have property both on the west side and the east side. I think they'll be best served by the low level route because it will destroy less of our facilities than the high level. The high level will interfere with a number of industries that

depend on trackage permanently located there whereas we can probably sacrifice a portion of our water front without the sacrifice of a great deal of our water traffic, because we have plenty of other water frontage. The Building Owners and Managers Association, of which I am a member, is in favor of the low level route. We have been very much impressed with Lloyd Keefe's city planning studies, Fred Fowler's careful study of the two alternate routes from a city wide point of view and we're convinced that their recommendation is based on sound analysis and the best interests of the city. A number of us on the Art Commission for the City of Portland have been concerned with the appearance of the east side water front and we believe the low level route would not only of itself improve the appearance of one of our assets, beauty assets of the city, the river, but also would provide as has been pointed out, perhaps an esplanade or walkway which could be worked out with the city. I hope the Commission gives some consideration to anything that the city can do in acquiring some of the land between the river and the freeway itself so that a walkway for pedestrians can be provided between the pavement and the water edge. Thank you very much.

CHAIRMAN McIVER: Thank you, Bill. Hollywood Boosters, have they a representative here to talk?

MR. SCHATZ: Mr. Chairman, members of the Commission, I am William P. Schatz, Jr., President of the Hollywood Boosters. Out in our district on the east side we try not to be selfish, we know we're not, but we feel that anything which is good for the city of Portland and the State of Oregon is good for our district and by the same token we believe that anything that is good for our district is good for the city of Portland and the State of Oregon. Our Traffic Commission, Committee rather, represented by Hugh Martin is here at the present time. We haven't made too much of a study of this freeway but seeing the presentations made here this morning I believe that I can speak on behalf of our enterprising Hollywood District that the low level route would do a very find job in connecting the two major highways, the Banfield and the Baldock, and we in the Hollywood District are proud of the work that you have done and we commend you. Thank you.

CHAIRMAN McIVER: The Portland Realty Board, Richard H. Lucke.

MR. LUCKE: The Portland Realty Board indorses the plan as you have proposed it. We feel that in expediting the flow of traffic and in tying in the expressway system in a logical and proper manner that you are taking a very worthwhile step. The plan as it is proposed represents the hopes and the plans of many organizations and we join with all of them in commending you on the work that you are carrying out. Thank you.

CHAIRMAN McIVER: Thank you very much. Mr. Mel Erland representing the Associated General Contractors. Mr. Erland. While he's coming down from the balcony I will call on the next speaker, Mr. Rudie Wilhelm who represents the Rudie Wilhelm Transportation Company, Mr. Wilhelm.

MR. WILHELM: I have very little to say. Although I dislike to lose my building I do not oppose the low level route.

CHAIRMAN McIVER: Thank you very much, Rudie. Mr. Robert Hudson is here to talk for Hudson House, Inc.

MR. HUDSON: I have very little to say. I feel as the others do. Anything that has anything to do with helping the city of Portland. The low level route helps the heart of Portland and provides a connection with the St. Johns District.

CHAIRMAN McIVER: Thank you, Bob. Now, Mr. Mel Erland who represents the Associated General Contractors.

MR. ERLAND: Thank you. I'm Melvin Erland of the Associated General Contractors, the Portland Chapter. We have taken no active part on the low level versus the high level route. We feel whatever route the Highway Department picks will be for the benefit of the city of Portland and the Highway Department, so that's all we have to say. Thank you.

CHAIRMAN McIVER: Thank you, Mel. Is there a representative here of the Lloyd Corporation? (no response) Mr. Waldemar Seton representing the Portland General Electric.

MR. SETON: Mr. Chairman, members of the Commission, ladies and gentlemen. My name is Waldemar Seton and I'm the vice-president of the Portland General Electric Company. I want to say this, that the company is not taking any stand in opposition to this, (low level route) however, we are directing our attention to the approaches to the Marquam Bridge and their affect on our plant at that location. That plant is of great importance to the city of Portland and we have just finished acquiring some additional 14 acres there so we now have in all 31 acres looking to future expansion. I want to express our appreciation to Mr. Williams and his staff in attempting to relocate the approaches so as to minimize as far as possible the effect on our plant. However, it doesn't do it entirely. I have here Mr. Sid Callwell, our Assistant Chief Engineer, and I'd like to have him speak to the Commission and explain in more detail some of the problems that are involved. Thank you.

MR. CALLWELL: Mr. Chairman, members of the Commission, I have prepared a brief summary here of an engineering and operating standpoint, what we would like to have the highway engineers consider. Portland General Electric Company's Station L which is located at the foot of east Lincoln Street is a main source of supply to the west side business district and other hospital, commercial and industrial loads in the adjacent west and east side areas. For this reason it is one of Portland General Electric Company's most important stations and as such it has been designed and constructed with sufficient reserve capacities and facilities to provide for any forseeable contingency and to maintain at all times continuous and uninterrupted service to the area. The station is normally supplied from the northwest transmission grid which brings the hydro-electric power into the area. However, one large steam-driven generator is in continuous operation floating on the line so that it can pick up the westside business district and other important loads without interrupting service in case the transmission grid breaks up. Now there is a total of 21 miles of medium and high voltage lines terminating at this station.

Nine of these lines cross the river and serve the west side business district and the Marquam Hill hospital areas. Eight lines serve the adjacent east side industrial, commercial and residential areas. At the end of this year we will have four transmission lines terminating at this station and in addition there will be a number of new lines required to take care of the load group. Now, as Mr. Seton pointed out, additional land has been acquired for new steam generator capacity that will be required shortly to serve this area. The location of this station, being in the heart of the Portland metropolitan area, makes it an ideal location for firming up the transmission system that serves this area. In the design and construction of a station such as station L safety of personnel and the service reliability are two of the important factors that we have to give consideration to in designing the station, and if a bridge ramp were constructed over or adjacent to a switching structure as proposed at this location, an extended service outage to the entire adjacent area could result, if some objects such as a wire or other metal object were thrown into the high voltage or hot portion of the structure. Also we feel that a serious outage to the area could result if some mishap or collision of a tanker transporting gasoline or other petroleum products over the ramp should occur. Furthermore, with elevated bridge ramps constructed adjacent to or over our Station L switching structures, substantial additional sums of money would have to be expended in rearranging and in adding new facilities to this station. Also many of our high voltage lines which are otherwise overhead, would have to be replaced with underground cable which costs some 15 times that of the overhead construction. I have a map here I would like to turn over to the Highway Commission for their use and any questions they may have.

CHAIRMAN McIVER: Thank you. Please hand the map to Mr. Glaisyer, our secretary. Is Mr. Edward J. Peterson representing the Portland Traction Company here?

MR. PETERSON: Mr. Chairman, members of the Commission, my name is Edward J. Peterson and I'm appearing on behalf of the Portland Traction Company. The Portland Traction Company is not, of course, opposed to the progress of this area but there are some considerations which we would like to present which we believe to be important. There considerations are in relation to the low level B-1, B-2, D-1 and D-2 plans. Just south of the Hawthorne Bridge lie the main yards of the Portland Traction Company. This is the heart of the operation which serves Portland and the surrounding areas. If this plan were installed there is a distinct possibility that it would interfere with the railway operations of the Portland Traction Company; first, it could very possibly take trackage from the Portland Traction Company, and secondly, even if it took no tracks the piers which would probably be placed amongst the tracks would be a definite hazard to the switching operations in which visibility is a primary factor. We might also point out that there is no area to which the Portland Traction Company could relocate its switching yards for the river is on the west and the Southern Pacific Line is on the east.

CHAIRMAN McIVER: Thank you, Mr. Peterson. Now, Mr. Thomas Guerin representing the Commission of Public Docks.

MR. GUERIN: Mr. Chairman, members of the Commission, my name is Thomas P. Guerin, I am General Manager of the Commission of Public Docks for the City of Portland. It has been indicated to our organization through the office of Mr. Fowler, that our opinion was particularly requested with regard to the effect that the proposed freeway will have on the possible future construction of terminal properties on the east bank upstream from the Broadway Bridge area. At the present time the Commission of Public Docks does not have any official policy expressed formally by the Commission itself, on that property in the light of future terminal development, so what I am expressing today is opinion. It is my opinion that so far as commercial terminals are concerned the service of deep water vessels entering the harbor of Portland, the area upstream from the Broadway Bridge on the east side, will not have any significance in the future of our maritime commerce. There are two reasons for this, well, there are several reasons actually, but primarily there is the question of the bridges themselves, the maneuvering of vessels through those bridges, the effect that the added expense to vessels has upon the operation of them, and the delay to the ships to say nothing of the suitability of the property in the area for a modern deep water marine terminal development. It is quite possible in our view that, subject to the decisions that the individual owners of the property might take in the future, there would be development in the area for private industrial installations, dock installations. But of that we know nothing, it is simply a possibility that we are pointing out. There is also an installation roughly of that sort, today that I have reference to on the west side. I was thinking of Mr. Zidel's installation which certainly requires the availability to deep water craft. But so far as the type of properties that we operate which are commercial marine terminals open to the entire shipping, the maritime commerce of the area for the handling of all types of cargo, it would be my opinion that there would be no such development as that in the area that we have talked about. There is one thing, I do not know whether it is appropo at this time, but I believe that it has been indicated to us that this freeway does tie into future plans for a bridge across the Willamette which I understand is somewhere in the future, roughly in the area of terminal number one. On that I would like to state that the Commission of Public Docks would be very definitely interested in the construction of such a bridge as to where it would go, what effect it would have upon maritime commerce, and what effect it would have upon the terminal properties abutting the river in that area, and until those plans are more mature and we are more fully informed, I feel that I should say that the Commission of Public Docks would most certainly hold reservations as to what the conditions might be in the light of what I have said. I do not know what else that I can say. If there were any questions that you wish to ask, Mr. Chairman, or anyone else, I'd be delighted to answer them. I came up rather rapidly and I did not have the opportunity of hearing any of the foregoing discussion.

CHAIRMAN McIVER: I do not believe there are any questions. The only thing that I can say is that when the time comes for the bridge you have in mind there will be another hearing on that, of course, in which everybody will have the right to be heard. Thanks very much for coming here. We are interested in your remarks because you are vitally interested in this project.

MR. PETERSON: (speaking again) I would like to say, Mr. Chairman, for clarity of the record that what I have expressed here today is opinion of the staff only and it does not represent the official thinking of the Commission of Public Docks because at the moment we do not have a policy with respect to this project. I might add that at the moment we are engaged in the preparation of a long-range study of the harbor which it might be interesting to you to know, will first of all take into account the economics of the future, the period between now and 1980, to determine what cargo volumes we can expect to handle and the variety of those cargos which we then expect to move, from a comprehensive harbor development plan. That report will be in two steps and they are now in the process of consideration in the Commission in order to get them on the tracks to move forward. Thank you.

CHAIRMAN McIVER: Thank you very much. Mr. W. F. Hennigsen, Jr., representing the Northwest Ice & Cold Storage Company.

MR. HENNIGSEN: I have very little to say. I feel that the recommendations of the City Planning Commission should be carried out. The low level route meets with our approval.

CHAIRMAN McIVER: Thank you. Next is Mrs. Vera Hubert.

MRS. HUBERT: Mr. Chairman, I have some questions here of mine and also two of those present. My first question is, will Interstate Avenue be a one-way street?

CHAIRMAN McIVER: Interstate Avenue is not concerned in this hearing, is it, Mr. Williams?

MR. WILLIAMS: It is not in this hearing but presently there is no thought of making Interstate a one-way street.

MRS. HUBERT: My questions are pertaining to that so I will have to withdraw the rest of them. Thank you.

CHAIRMAN McIVER: Thank you. That completes the list of names we have. Are there others who have come in late that would like to be heard?

MR. ALBERT GENTNER: Mr. Chairman, my name is Albert Gentner and I represent the Portland Hotel Association. Our association is in favor of the low level route. We feel that nothing would be accomplished by the high level route that would not be equally accomplished by the low level route. We feel also that the high level route would saddle the city with a permanent eyesore and that the expense of the high level route would be an item that would help to increase the cost of the Federal Highway program without any justifiable reason, and for those reasons the Portland Hotel Association favors the low level route.

CHAIRMAN McIVER: Thank you very much, Mr. Gentner. Are there others that would like to be heard? Will you come up to the microphone please.

MR. B. W. MOREHOUSE: Mr. Chairman, members of the Commission, my name is B. W. Morehouse, representing the Morehouse Glass Company. What I would like to know as well as other property owners, is when is all this going to take place. Speaking of my own problems, on May 29 we had quite a disastrous fire and were burned out of our location on S.E. Union Avenue and Stevens, and right after that time the State Highway Commission came along and took a corner off the N. W. corner of the property, affecting our new construction, changing traffic routes and so on, and cutting down on the space that we required so we acquired another quarter of that same block, proceeded to make plans to rebuild, and we now find out about this Marquam Bridge that's going to take possibly 60 feet off the Grand Avenue side so then we go across the street on the west side of Union Avenue and we acquire another square block figuring we are out of the line of fire and then behold we find out they're going to take 60 feet off that block. In the meantime we are renting temporary quarters and warehousing our stock in two different locations, working at quite a disadvantage, paying taxes on this two square blocks of property which we are hesitant to use due to this proposed freeway, which we think is a very good idea, but the main thing that I'm interested in as well as a lot of the other property owners I believe, is what can we depend on, how soon? For example in my own predicament here, I'm working at quite a disadvantage, I'm held up by this proposal and the sooner they get under way the better I would like it. As I understand it the first thing that's going to be acquired is the property north of the Morrison Bridge. Well, my property is on Union and Grand Avenues at Stevens Street there where those two feeder lines come off the Marquam Bridge. That is what I'm interested in, Mr. Chairman. That's all I have to say.

CHAIRMAN McIVER: We will have the Engineer get in touch with you and I think he can help you out on that.

MRS. ROY VISSINT: I'm Mrs. Roy Vissint and I live just off Delaware on Kilpatrick. I was wondering whether you have any information on the Delaware Freeway and whether it's going to go. Will you have a hearing on that?

CHAIRMAN McIVER: We have no information on that now but we will hold a hearing at the proper time and you will be notified. Are there any others who would like to be heard?

MR. LEONARD CLARK: My name is Leonard Clark with the Holman Transfer Company. We are not opposed to the plan, we think it's a good one but we do have a couple of questions that we would like to ask which would perhaps help us in our future planning. We have two locations that would be effected by the freeway. The first one is the former United Grocers Building. The freeway would cut through that property which is presently under water. We would like to know whether or not that is the only part that would be taken or would they take the whole building? And we're also concerned with our Hawthorne Building which is located just to the south of Hawthorne Avenue. The low level plan heads south and then takes a curve so it apparently would go through the middle of the west half of our building. We're concerned there because it would cut out a lot of ground storage space and reduce our spur track from three rail cars down to one. We're not opposing the plan for that reason - but we would like to know, are the plans on these drawings, are they

exact or is it just an artists sketch or is that the way it's going to be? Are you going to go through that building or aren't you? Would it be possible maybe to go beyond the building and then take the curve? Those are the only two questions that I have.

CHAIRMAN McIVER: That's getting pretty close to the engineering problem to settle at a hearing. I would suggest that you get in touch with our Division Engineer, Mr. Al Skelton, or we will have him get in touch with you if you wish.

MR. CLARK Thank you.

CHAIRMAN McIVER: Mr. Bowes would you like to have a word?

MR. WM. A. BOWES; City Commissioner, Portland: Mr. Chairman and members of the Commission, I have nothing much to add to what has already been said. Speaking for myself as a member of the Council, we very much favor the low level route and I want to commend the Highway Commission and particularly the members of the staff of the Highway Commission for their bending over backwards and their cooperation, and also want to commend the Bureau of Federal Roads for their understanding and cooperation in working out this particular problem and I'd just like to say to the Commission and to the people here assembled that this is only the beginning of a tremendous highway building program in this city and it's going to take the cooperation, the understanding of all citizens of this community if this program is to succeed and if Portland is to get its full share and all benefits from the Federal Highway Building Program. This is only one, probably, of a series of hearings to be held as this program unfolds in this community, and I trust, Mr. Chairman, after all the study, after all the work and the plans are developed and hearings are held on each one of these projects as presented, that the good people of Portland will turn out like they have this morning to support the Highway Commission, to say what they think, and to present their case. That is the democratic way of doing things. To that end your city government is going to cooperate with you in every way possible. In closing I just want to give a little credit to a man whom I believe is doing more to help Portland and the Highway Commission in its big problem, and that is Mr. Fred Fowler, Former Traffic Engineer and now the coordinator for the city with the Highway Commission. I hear nothing but praise for Mr. Fowler's efforts in building this program properly and to the best interests of the city. To Mr. Fowler, "Dutch" Williams and his staff, and to the members of your Commission I want to say thank you.

CHAIRMAN McIVER: Thank you very much Mr. Bowes. I can say the same thing on behalf of the Commission, that the staff, the Highway Department has received the fullest cooperation from the City of Portland. I also want to thank the people here for the orderly manner in which they have conducted this hearing. It is a credit to the community. If there is nothing else we are adjourned.

The meeting adjourned at 11:10 A.M.

State Highway Engineer

Commissioner

Commissioner

Secretary

Commissioner

May 2, 1958

Portland, Oregon
May 8, 1958

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction were opened and read aloud by the Secretary who then announced that awards of contracts would be made at 4:00 p.m. in the same room.

Commissioner McIver introduced Mr. Kenneth N. Fridley, the new Highway Commissioner, to the contractors and others present.

The Commission approved the minutes of regular meetings held on February 27 and 28, 1958, March 27 and 28, 1958, and the minutes of the special meeting that was held in Salem on April 3, 1958.

The Parks Superintendent reported on the following park matters:

1. Bids received for the concession privilege at Fort Stevens State Park: The Parks Superintendent stated that the three high bids had been analyzed carefully as to financial standing, experience, and proposed prices. He recommended that the contract be awarded to Robert T. and Margrete F. Blake, who submitted the high bid of 18½% of the gross revenue. He also commented that the second low bid was for 10½%, the third low 5½%, and that the Warrenton Junior Chamber of Commerce had bid 5% of gross revenue. Action was deferred by the Commission pending appearance of the Warrenton Junior Chamber of

Commerce on the following day.(Following the appearance of the delegation on the following day, the Commission upon the recommendation of the Parks Superintendent, awarded the concession privilege contract to the Blakes at their high bid of 18½%.)

2. Request of Oregon Gifts,Inc., that their lease to operate the concession at Depoe Bay be extended for a period of 5 years: The Parks Superintendent advised that the present lease will expire December 31, 1958. He also said that the operation of the concession has been satisfactory although the business has not been great. He recommended that the 5-year extension be approved under the same termsas are in the existing lease, including the payment of 7% of the gross income and providing for closure of the building during January, February, and March except on weekends. The Commission approved the extension as recommended.

3. Request of Rosboro Timber Company to construct a road across Howard J. Morton State Park in Lane County for the purpose of hauling logs: The timber company owns timber back of the park and it is their plan, the Parks Superintendent explained, to remove the timber during the coming summer and fall. He pointed out that a road could be constructed across the area with little damage to the park by utilizing right of way from which the timber has already been removed to accommodate a power line. He recommended that a permit be granted to the timber company to construct a log-hauling road along the power line location. The Commission accepted his recommendation.

4. Request for authority to negotiate an easement to install a water tank and pipe line on Oregon Pulp and Paper Company property to service Beverly Beach State Park: The Parks Superintendent commented that in developing Beverly Beach State Park, difficulties were encountered in securing an adequate water supply so, in order to provide storage of pure water at an elevation sufficient to provide pressure for use in the park, it is necessary that the storage facility be located on property of the paper company. The paper company, he said, has appeared agreeable but an easement at no cost should be prepared to complete the records. Upon the Parks Superintendent's favorable recommendation, the Commission approved negotiating for the easement.

5. Request of Central Lincoln Peoples' Utility District for an agreement providing a minimum annual payment of $43.20 for a period of 5 years to extend a power line to the use area in Umpqua Lighthouse State Park: Extension of the power line, the Parks Superintendent stated, is needed in connection with the development of the park. He predicted that the cost of power used would very likely amount to more than the minimum required payment, accordingly, he recommended that the agreement be approved. The Commission approved the recommendation.

6. Proposed acquisition of 50 acres for park purposes between Newport and Waldport on the Oregon Coast Highway: This property, the Parks Superintendent stated, is owned by Miss Lorraine Randall and lies between the highway and the ocean. Previous contacts with the owner for purchase of the property revealed an asking price that was considered too high. However, an appraisal was made of the property and it was determined to be worth $13,500. Miss

Randall, he said, has agreed to accept the amount of the appraisal and has signed an option in such amount. He recommended that the option be accepted.

In this connection the Parks Superintendent also requested authority to negotiate for another small area consisting of approximately 10 acres situate south of Beaver Creek between the highway and the ocean. Commissioner Chessman inquired as to what use is to be made of the area. The Parks Superintendent replied that it is planned to develop it as a day use or picnic area. As a result of the discussion, the Commission accepted the option for the 50 acre parcel owned by Miss Randall and also authorized the optioning of the 10 acre tract.

7 Request to negotiate for acquisition of a 3 acre tract of land as an addition to Armitage State Park: The 3 acre tract, the Parks Superintendent stated, lied adjacent to present park property and is needed to straighten out the south park line and to provide a car parking area. The Commission granted him authority to negotiate an option to acquire the property.

Proposed lease to city of Roseburg of 16.34 acres of land for recreational purposes: The Parks Superintendent recalled that this property was acquired from the Federal Government subject to the condition that it would be used for park or recreational purposes only. An agreement, he said, has been reached with the city of Roseburg, approved by the Federal Government, whereby the city will develop the area for recreational purposes and after 20 years the area will be deeded to the city as specified in the Federal Recreation Act. Upon his favorable recommendation, the Commission approved the agreement, thus confirming action taken at the special meeting in Salem on April 3, 1958. (See Miscellaneous Resolution #215 adopted April 3, 1958.)

Proposed acquisition of 8.34 acres of land situate in the Columbia Gorge near Shepherds Dell: The Parks Superintendent reported that purchase of this property is desired by the Columbia Gorge Commission. The property has been appraised at $1,820.00, and the owners have agreed to accept the sum of $2,000. Inasmuch as the property fits in with park plans in the Gorge area, and as the price requested is in line with the appraisal, he recommended that the Commission approve the option.

At the request of Chairman McIver, the Parks Superintendent reviewed briefly the history of property purchases in the Columbia Gorge that have been recommended by the Columbia Gorge Commission, pointing out that the Commission had previously authorized $50,000 for the acquisition of such properties. The Auditor commented that of the $50,000 authorized, approximately $12,830 has been expended to date. The Commission accepted the option as recommended, and authorized purchase of the property for the amount mentioned therein.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked "EXHIBIT A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

In discussing the options the Right of Way Engineer pointed out that the Bureau of Public Roads has ruled that contractors must have an option as to source of materials. The State may make sources of road building materials available but cannot force the contractors to use them. In view of this ruling he requested that material source options from Vaughn and Cocherline be cancelled. Both options are on the Pacific Interstate Highway. The Commission cancelled the options. On the Ogle option, File 23578, the Commission approved the option provided that the contractor will accept this source of material. If he does not accept it authority was granted to renegotiate.

The Property Manager's monthly report covering miscellaneous sales and rentals was presented by the Right of Way Engineer. Miscellaneous sales since the last report totaled $26,283.35. Rental receipts for the month of March were $9,859.90, and for April totaled $11,344.32. The Commission accepted the reports.

A number of indentures of access were presented by the Right of Way Engineer involving changes in location for existing points of access. He explained that in no case is additional access being granted and that the changes are simply for the convenience of the property owners and for the safety of the traveling public. The Commission approved the following indentures of access:

1. Crook property, File No. 25501, on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County.

2. Simpson property, File No. 17609, on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County.

3. The Gearhart (O'Brien) property, File No. 17935, on the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County.

4. Beilke property, File No. 24871, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

5. McEntire property, File No. 24236, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

6. Peterson-Goad property, File No. 24859, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

7. Rogers-Rice property, File No. 25120, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

8. Wyland property, File No. 24872, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

9. Lyon property, File No. 24867, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

10. Miller property, File No. 24870, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

Authority to sell at public auction several parcels of excess highway right of way that no longer is required for highway purposes was requested by the Right of Way Engineer. He explained that the minimum prices as recommended represent fair value for the properties a list of which follows:

1 0.83 acre of the former Smith property, File No. 18387, on the Medford-County Farm Section of the Pacific Highway in Jackson County, for a minimum amount of $250.00.

2 0.24 acre of the former Booth property on the Big Creek Section of the Columbia River Highway in Clatsop County, File No. 17393, for a minimum amount of $1,000, without access to the relocated highway or to the approach road to the new highway.

3. 0.6 acre of the former Toberson property, File No. 22861, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County, for a minimum amount of $1,500, with one point of access. See Exhibit "B-1".

Commissioner Chessman remarked that the Clatsop County Court indicated to him that they feel that the 0.24 acre on the Big Creek Section of the Columbia River Highway should revert to the County as the land was formerly county property. The Right of Way Engineer was instructed to withhold sale of this property until the County's claim has been investigated. The Commission approved public sale of the other two parcels. The attached resolution relative to parcel No. 3 described above, marked EXHIBIT "B-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

Direct sale of three parcels of property was recommended by the Right of Way Engineer, as follows:

a. 0 44 acre of excess property originally acquired from Coos County, File No. 11501, on the Marshfield-Coquille Section of the Oregon Coast Highway. The Millington Rural Fire District has asked to purchase this property at its appraised value of $500.00. He recommended that it be sold to them for that figure.

b. 33,740 square feet of land between N. E. Cherry Street and N.E. Clackamas Street in Portland on the Interstate Avenue and Steel Bridge Section of the Pacific Highway West. The City of Portland has asked to purchase this land at its appraised value of $8,138.84. As the property is no longer required for highway purposes, and as it is desired by the City for its proposed Exposition-Recreation site, he recommended that it be sold to them for the above amount. See EXHIBIT "B-2".

c. Portions of Lots 3,4,5, and 6, Block 41, Laurelhurst Addition to the City of Portland on the T. H. Banfield Expressway. These lots, the Right of Way Engineer explained, are no longer required for highway purposes and it is planned to sell each of them to the adjacent property owners, subject to a 10-foot slope and fence maintenance and without access to the relocated N E. Halsey Street or the 33rd Avenue offleg to the Banfield Freeway. He

recommended that the lots be sold for $300 each. The Commission approved the sales as recommended.

The attached resolution relative to parcel "B" described above, marked EXHIBIT "B-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

An exchange of properties with Doris Hampton was discussed. The Right of Way Engineer explained that it is proposed that the State convey to Doris Hampton a parcel of land containing 1,168 square feet in exchange for which she will convey to the State a parcel containing 1,470 square feet, the purpose of the exchange being to facilitate construction of an irrigation project and to remove a right-angle jog from the highway right of way line. He said that the property is located on the North Jefferson Junction-Albany Section of the Pacific Highway East in Marion County, and he recommended approval of the exchange. The Commission approved the exchange.

Renewal of a stockpile site lease with the City of Tualatin on the Beaverton-Tualatin Highway in the city was presented by the Right of Way Engineer. He explained that the State wishes to continue use of this one acre tract for an additional three-year period, beginning May 16, 1958, for which there is no charge. The Commission approved the lease extension.

Consideration was given to the release of a slope easement on the N. E. Portland Highway. Lombard Killingsworth Section, and on the OWR&N Company's right of way. The Right of Way Engineer remarked that Mr. Hakon B. Jacobsen, to whom the relinquishment is to be granted, has filled the gully to the level of the highway after having placed a 24-inch culvert in the gully. The State is in possession of a new easement covering the 24-inch culvert. Upon his favorable recommendation, the Commission approved relinquishment of the easement.

The Commission also considered a request from the City of Portland for vacation of certain streets within the boundaries of the proposed Exposition-Recreation site. The Commission's consent, the Right of Way Engineer explained, is necessary because portions of Cherry Street, McMillen Street, Halsey Street, Clackamas Street, Larrabee Avenue, Benton Avenue, and Ross Avenue abut Highway Commission right of way on the Pacific Highway East. Vacation of the street sections, he stated, will not harm the State and he recommended approval of the City's request. The Commission accepted his recommendation.

A request made by the Standard Oil Company of California for a modification of their oil, gas, and sulphur lease on the Paulina Highway in Crook County was considered. The Right of Way Engineer explained that Sunray Mid-Continent Oil Company is to drill the first well and that the modification is in its behalf. He also pointed out that the Legal Division has advised that the proposed modification will not violate or change the present lease with the Standard Oil Company. Following his favorable recommendation, the Commission approved the modification as presented.

The matter of reimbursing Bonneville Power Administration for the cost of re-arranging its power lines in the vicinity of the Goshen Substation

on the Judkins Point-Goshen Section of the Pacific Highway was discussed by the Commission. The Right of Way Engineer stated that the rearrangement is required by a slide on a highway cut near the Goshen Substation and that the Bonneville Administration has requested that the State make a deposit in the amount of $5,600, which is the estimated cost of the necessary changes. He recommended that the deposit be made, with the understanding that only the actual cost of the rearrangement is to be paid by the State. The Commission accepted his recommendation.

The Right of Way Engineer reported receipt of a request from the City of Eugene for a change in zone classification near the state highway maintenance headquarters in Eugene. It appears that people in the area wish the zone changed from R1 (single residence) to R4 (multiple dwelling) for the area just east of the state's property. The proposed change, he said, will do no harm to the State and he recommended that the Commission consent to the change. His recommendation was accepted by the Commission.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following described properties that are needed as right of way in connection with the various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Myers Creek-Brookings Section of the Oregon Coast Highway

R-14754 - Marian A. Dunning Patrick
Curry County
Acquisition of certain real property interests for right of way purposes

R-14757 - B. A. Martin and Nettie C. Martin
Curry County
Acquisition of certain real property interests for right of way purposes

R-27528 - Nettie Martin and B. A. Martin
Curry County
Parcel No. 1: 10.4 acres for right of way
Parcel No. 2: 1.05 acres for slope easement
Amended resolution to include termination clause

R-27529 - Donnia N. Eggers
Right of Way (Curry County)
7.96 acres
Amended resolution to include termination clause

R-27530 - Charles H. Skinner and Esther W. Skinner
Curry County
Parcel No. 1: 10.76 acres for right of way
Parcel No. 2: 0.68 acre for slope easement
Amended resolution to include termination clause

Myers Creek-Brookings Section (Cont.)

R-27543 - Delmer Colegrove, Jr., and Laura Colegrove
Right of Way (Curry County)
3.7 acres
Amended resolution to include termination clause

R-27549 - Harvey D. Crook and Wilda R. Crook
Curry County
Parcel No. 1: 12.3 acres for right of way
Parcel No. 2: 0.25 acre for an easement for fill
Parcel No. 3: 0.29 acre for an easement to construct approach road
Parcel No. 4: 0.05 acre for an easement for fill
Parcel No. 5: 0.57 acre for an easement for fill
Amended resolution to reduce area of Parcel No. 1 and eliminate one right of access

R-27795 - S. A. Agnew
Curry County
Parcel No. 1: 12.25 acres for right of way
Parcel No. 2: 0.5 acre for easement for fill

R-27877 - Virgil Clark and Quinn Davison
Curry County
Parcel No. 1: 3.5 acres for right of way
Parcel No. 2: 2.84 acres for right of way

Trail Creek Bridge Section of the Crater Lake Highway

R-27019 - George L. Zickefoose and Ethel Jessica Zickefoose
Right of Way (Jackson County)
2.9 acres (net)

R-27020 - Anthony Joseph Miller and Elizabeth Emily Miller
Jackson County
Parcel No. 1: 1.28 acres for right of way
Parcel No. 2: 0.62 acre for right of way
Parcel No. 3: 0.01 acre for right of way

R-27022 - Irvin H. Howe and Rena M. Howe
Jackson County
Parcel No. 1: 3.62 acres (net) for right of way
Parcel No. 2: 0.12 acre for right of way
Parcel No. 3: 0.8 acre for right of way
Parcel No. 4: 0.61 acre for right of way

R-27023 - Frances M. Ash
Right of Way (Jackson County)
0.45 acre

Trail Creek Bridge Section (Cont.)

R-27024 - Carl L. Dawson
Right of Way (Jackson County)
1.7 acres (net)

R-27025 - Clyde L. Stafford and Grace Stafford
Right of Way (Jackson County)
0.03 acre

Columbia River Highway

R-25340 - Columbia-Deschutes Power Company
Park Purposes (Wasco and Sherman Counties)
200 acres

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23962 - John Stringer and Elizabeth Stringer
Malheur County
Parcel No. 1: 11.47 acres for right of way
Parcel No. 2: 0.99 acre for right of way

R-23963 - James Dejmal and Lois Dejmal
Malheur County
Parcel No. 1: 1.26 acres for right of way
Parcel No. 2: 1.1 acres for right of way

R-23965 - Walter Fritts and Shirley Fritts
Right of Way (Malheur County)
1.74 acres

R-25860 - A. F. Toedter and C. H. Toedter, et al.
Right of way (Malheur County)
3.98 acres
Amended resolution to eliminate acquisition of Parcel No. 2

R-26722 - Vyron B. Hopper, et al.
Right of Way (Malheur County)
0.46 acre

R-26729 - T. L. McKinney and Daisy L. McKinney
Right of Way (Malheur County)
0.38 acre

Albany-Judkins Point Section of the Pacific Highway

R-23578 - Charles L. Ogle and Edla M. Ogle
Linn County
Parcel No. 1: 47.7 acres (net) for right of way
Parcel No. 2: 2.2 acres (net) for right of way
Parcel No. 3: 1.2 acres (net) for right of way

Albany-Judkins Point Section (Cont.)

R-23578 - Charles L. Ogle and Edla M. Ogle (Cont.)

Parcel No. 4: 39.9 acres for a material source
Parcel No. 5: 33.2 acres for a material source

R-25385 - Omar E. Falk and Phebe E. Falk
Linn County
Parcel No. 1: 24.9 acres (net) for right of way
Parcel No. 2: 1.25 acres for right of way
Parcel No. 3: 1.05 acres for right of way

R-25455 - John Ropp and Mary Ropp
Linn County
Parcel No. 1: 15.91 acres (net) for right of way
Parcel No. 2: 0.9 acres (net) for right of way

R-25596 - Oscar W. Olson, et al.
Linn County
Parcel No. 1: 49.15 acres (net) for right of way
Parcel No. 2: 0.6 acre (net) for right of way
Amended resolution to change access provisions

R-25599 - Harvey Grell and Lelah Grell
Linn County
Parcel No. 1: 17.97 acres (net) for right of way
Parcel No. 2: 1.14 acres (net) for right of way

R-25600 - O. M. Conrad and Eda Conrad
Linn County
Parcel No. 1: 12.03 acres for right of way
Parcel No. 2: 2.68 acres for right of way

R-28034 - Harold W. Knuths
Right of Way (Linn County)
24.72 acres

L-2993 (R-25602) - Pierce Jenks and Elida Jenks
Linn County
Parcel No. 1: 18.32 acres for right of way
Parcel No. 2: 110.7 acres for a material source
Amended resolution to include provision

L-2999 (R-25189) - Juanita Wilkins Crews and John W. Crews
Lane County
Parcel No. 1: 31.4 acres for right of way
Parcel No. 2: 0.34 acre for right of way
Parcel No. 3: 0.31 acre for easement for irrigation ditch
Parcel No. 4: 0.81 acre for temporary easement for detour road
Amended resolution to change access provisions

May 8, 1958

Pacific Highway

R-27506 - Elza F. Morgan and Anna Morgan
Material Source (Linn County)
25.93 acres

R-27640 - J. E. Jenks and K. K. Jenks
Material Source (Linn County)
74.88 acres (net)

Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway

R-27673 - Oscar Offet and Mildred L. Offet
Right of Way (Washington County)
1.11 acres

Hilgard-La Grande Section of the Old Oregon Trail Highway

R-27070 - Valsetz Lumber Company
Right of Way (Union County)
2.5 acres

R-27343 - Valsetz Lumber Company
Right of Way (Union County)
1.0 acre

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-20672 - Marilyn R. Gilbert, Barbara Joan Lowe and Murray B. Marsh, Jr.
Right of Way (Multnomah County)
6,080 square feet
Amended resolution to reduct area of the taking, control access and acquire a permit of entry

Forest Grove-Cornelius Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway

L-2918 (R-26519) - Margaret Young and Andrew E. Young, et al.
Right of Way (Washington County)
0.58 acre (net)
Amended resolution to change access provisions

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25431 - Henry Martin Hazelwander and Lena Anna Elsie Hazelwander
Right of Way (Clackamas County)
0 02 acre

May 8, 1958

Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway

L-3008 (R-26327) - Homer C. Parrett and Blanche E. Parrett
Right of Way (Yamhill County)
0.87 acre
Amended resolution to change access provisions

R-28012 - Effie E. Baker
Right of Way (Yamhill County)
700 square feet

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26606 - Chris Richert, Jr., and Vera Richert
Right of Way (Coos County)
0.93 acre

Jonesboro-Tunnel Section of the Central Oregon Highway

R-27811 - Phillip Coyne
Malheur County
Parcel No. 1: 1.44 acres for right of way
Parcel No. 2: 0.6 acre for right of way

Albany-Judkins Point Section of the Pacific Highway

R-25281 - Raymond L. Briggs, Winifred A. Briggs and Marie A. Briggs
Right of Way (Lane County)
9.27 acres
Amended resolution to eliminate acquisition of Parcel No. 2

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-27909 - L. A. DesBouillons and Vista H. DesBouillons
Right of Way (Multnomah County)
3,800 square feet

L-2964 (R-19388) - Daniel F. Creary and Margaret M. Creary
Right of Way (Multnomah County)
36,210 square feet
Amended resolution to increase area of taking

Right of way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After carefully considering the proposed condemnations in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission authorized the condemnations by adopting the attached resolutions relative thereto, marked EXHIBITS "C-1" through "C-16", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

May 8, 1958

A report was submitted by the Chief Counsel showing condemnation cases which have been tried in court since the last Commission meeting, summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
March 20, 1958 through May 6, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Sullivan, et vir. R-25425	Clackamas	Mt. Hood	Sandy-Forest Boundary	$ 3,500	$ 7,500	$ 5,000
DeVeny, et ux. R-27435	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	875	6,500 (Answer)	2,750
Rahoutis, et ux. R-22772	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Blvd.	22,650	22,600	28,750
Telecky R-26345	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Blvd.	760	1,000	750
Breedon, et ux. R-26205	Polk	Salmon	Valley Jct. - Sheridan	5,600	7,500	8,000
Paulson, et al R-27107	Union	Old Oregon Trail	Hilgard-La Grande	23,640	37,000	24,250
Cooper, et ux. R-25458	Linn	Pacific	Albany-Judkins Point	4,845	4,845 (Plus defendant retaining house)	4,795 (Plus defendant retaining house)
Ralston, et al. R-23477	Multnomah	Pacific Hwy. East	Intersection Slavin Road-Barbur Blvd.	1,000	5,000	No verdict
Bailey, et al. R-21895	Curry	Oregon Coast	Euchre Creek-Wedderburn	11,888	27,000 (Answer) 22,000 (To settle)	20,000

May 8, 1958

Report of Condemnation Cases Tried (Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Longacre, et vir. R-26915	Curry	Oregon Coast	Myers Creek-Brookings	$ 12,500	$ 25,000	$ 17,000
Upp, et vir. R-26917	Curry	Oregon Coast	Myers Creek-Brookings	5,500	19,160	10,000

The Commission accepted the report. (For details, see copy of the Chief Counsel's letters of May 2 and 6, 1958, in the General Files in Salem to which are attached copies of condemnation cases tried.)

The Chief Counsel also submitted and the Commission accepted a report of condemnation cases and other cases which have been settled out of court since the last Commission meeting. The following settlements, he said, are within or very close to the appraised values:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Karaman, Eva and Mike, R-27267	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	$ 1,925	$ 2,225
Johannesen, R-27352	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	7,150	7,150
Edwards, et ux. R-27266	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	500	800
Eimers, et al. R-26966	Washington	Sunset	Murray Road Interchange	520	520
Shipps, Jr. R-26965	Washington	Sunset	Murray Road Interchange	3,330	3,330
Sefton, et al. R-24848	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	7,820	8,500

May 8, 1958

Report of Condemnation Cases Settled (Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
Peterson, et al. R-25972	Marion	North Santiam	Mill City-Gates	$ 500	$ 350

Mosier, et ux. R-26916	Curry	Oregon Coast	Myers Creek-Brookings	1,440	1,500
Gass, et al. R-26792	Klamath	The Dalles-California	Green Springs-Klamath Falls	40,000	40,000

May 8, 1958

Report of Condemnation Cases Settled (Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
Glynn, et al. R-22692	Clackamas	Cascade Secondary	S.E. Flavel St.-Lake Road	$ 3,634	$ 4,250

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Settlement
L-2703	State of Oregon	Miller	Marion	Damage to guard fence from auto collision	$ 81.87	$ 61.40
L-3002	State of Oregon	Thiele	Lane	Damage to truck	122.08	61.04
L-2845	Thorburn	State of Oregon	Grant	Flood damage	1,600.00	650.00

(For details, see in the General Files in Salem the Chief Counsel's letters of May 2, 6, and 7, 1958. to which are attached copies of his reports on cases settled.)

Offers for acquisition of real property, which offers are to be tendered to the property owners prior to the institution of condemnation proceedings, were submitted by the Chief Counsel in compliance with a resolution adopted by the Commission on December 20, 1951. The Commission confirmed the following offers:

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-27006 - Mildred Vaughan, et al. Condemnation of interest in access. Offer of $570.00 approved by Mr. McIver April 18, 1958.

R-27086 - Cecil C. Flora, et ux. 4,014 square feet for right of way purposes. Offer of $9,000.00 approved by Mr. McIver April 14, 1958.

R-27091 - Mildred Schmidt, et al. 5,000 square feet for right of way purposes. Offer of $4,380.00 approved by Mr. McIver April 21, 1958.

May 8, 1958

29902

Harbor Drive-Barbur Boulevard Section (Cont.)

R-27100 - Rudolph L. Viergutz, et al. 10,000 square feet for right of way purposes. Offer of $16,570.00 approved by Mr. McIver April 3, 1958.

R-27353 - Edmond Verdurmen, et al. 2,660 square feet for right of way purposes. Offer of $2,500.00 approved by Mr. McIver March 27, 1958.

R-27503 - William Gray, et ux. 5,000 square feet for right of way purposes. Offer of $5,000.00 approved by Mr. McIver April 4, 1958.

R-27504 - Emery Zidell, et al. 20,000 square feet for right of way purposes. Offer of $18,000.00 approved by Mr. McIver April 4, 1958.

R-27682 - Herbert P. Rutherford, et al. 0.12 acre for right of way purposes. Offer of $2,100.00 approved by Mr. McIver April 4, 1958.

R-27819 - Herbert P. Rutherford, et al. 0.26 acre for right of way purposes. Offer of $6,300.00 approved by Mr. McIver April 4, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25307 - Fred G. Knox, et ux. 15.05 acres for right of way purposes. Offer of $17,500.00 approved by Mr. McIver May 2, 1958.

R-25595 - Delazon C. Smith, et al. 22.67 acres for right of way purposes Offer of $15,400.00 approved by Mr. McIver April 11, 1958.

R-25596 - Oscar W. Olson, et al. 49.75 acres for right of way purposes. Offer of $34,600.00 approved by Mr. McIver April 29, 1958. An offer of $36,460.00 was authorized by Mr. McIver April 3, 1958. This reduction is due to additional points of access being allowed to the property owners.

R-25598 - John H. Swatzka, et al. 0.37 acre for right of way purposes. Offer of $300.00 approved by Mr. McIver April 7, 1958.

Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway

R-26314 - McCready Lumber Company. 0.59 acre for right of way purposes Offer of $17,600.00 approved by Mr. McIver April 7, 1958.

R-26326 - Walter Marion Everest, et al. 1.63 acres for right of way purposes. Offer of $890.00 approved by Mr. McIver April 17, 1958.

R-26334 - Clyde H. Brawley, et ux. 1.48 acres for right of way purposes. Offer of $1,210.00 approved by Mr. McIver April 14, 1958.

R-26337 - Carl E. Payne, et al. 0.91 acre for right of way purposes. Offer of $1,580.00 approved by Mr. McIver April 11, 1958.

Cascade Secondary Highway

R-27166 - Lloyd J. Griffith, et al. 0.2 acre for right of way purposes. Offer of $2,200.00 without building of $2,700.00 with building approved by Mr. McIver April 28, 1958.

R-27171 - Harris Distributing Company. 588 square feet for right of way purposes. Offer of $3,500.00 approved by Mr. McIver May 2, 1958.

Myers Creek-Brookings Section of the Oregon Coast Highway

R-27548 - Byrdie B. Metzgus, et al. 15.7 acres for right of way and 0.15 acre for an easement for fill. Offer of $3,796.00 approved by Mr. McIver May 2, 1958.

R-27581 - H. E. Timeus, et al. 5.0 acres for right of way purposes. Offer of $3,358.00 approved by Mr. McIver May 2, 1958.

Ontario-Snake River Section of the Old Oregon Trail Highway

R-25860 - A. F. Toedter, et al. 3.98 acres for right of way purposes. Offer of $875.00 approved by Mr. McIver April 1, 1958.

R-26061 - Thea Emison, et al. 0.05 acre for right of way purposes. Offer of $50.00 approved by Mr. McIver April 1, 1958.

Valley Junction-Sheridan Section of the Salmon River Highway

R-26207 - D. D. Willis, et al. 7.5 acres for right of way and 1.13 acres for excess taking. Offer of $2,990.00 approved by Mr. McIver April 23, 1958.

Columbia River Highway

R-27710 - Stebco Incorporated. 73.0 acres for a material source. Offer of $3,285.00 approved by Mr. McIver April 7, 1958.

Butte Creek-Burton Canyon Section of the John Day Highway

R-26861 - Joseph R. Thomas and Irene Eads, et al. 1.35 acres for right of way purposes. Offer of $520.00 approved by Mr. McIver April 11, 1958.

Forest Grove-Hillsboro Section of the Tualatin Valley Highway

R-26530 - Francetta Rustin, et al. 0.14 acre for right of way purposes. Offer of $970.00 approved by Mr. McIver April 27, 1958.

Minam-Rock Creek Section of the Wallowa Lake Highway

R-26942, R-26943 and 26944 - E. C. Fleser, et al. 16.18 acres for right of way purposes. Offer of $1,070.00 approved by Mr. McIver April 1, 1958.

May 8, 1958

Judkins Point-Goshen Section of the Pacific Highway

R-27443 - Joseph R. Kalisky, et al. 6,128 square feet for right of way purposes. Offer of $1,386.00 approved by Mr. McIver April 29, 1958.

A report was also submitted by the Chief Counsel and approved by the Commission concerning orders which have been issued by the Public Utilities Commissioner regarding railroad crossing matters in which the Highway Commission has been made a party. A summary of these orders is as follows:

PUX 256: Application of Oregon Electric Railway Company for installation of electrically operated automatic signals at the crossing of the Lebanon-Corvallis Highway near Albany. The order authorized installation of the signals and provided that Linn County and Oregon Electric Railway Company participate equally in the cost of installing the signals, with maintenance to be borne in the future by the railway Company. This crossing is on a county road not under the jurisdiction of the Highway Commission.

PUX 257: Application of Oregon Electric Railway Company for installation of electrically operated warning signals at the crossing of the railroad with Garfield Street in the City of Eugene. The order authorized installation of the signals and provided that the cost should be borne equally by the City of Eugene and Oregon Electric Railway Company. After installation the signals are to be maintained by the railway Company. This crossing is on a city street not under the jurisdiction of the Highway Commission.

PUX 259: Application of Marion County for installation of electrically operated automatic warning signals at the crossing of the tracks of Southern Pacific Company on Lancaster Drive near the City of Salem. The crossing is on a county road and the order authorized installation of the signals, with the cost to be borne equally by Southern Pacific Company and by Marion County, provided that the railway Company is to maintain the signals after installation.

The Chief Counsel submitted a report recommending the abandonment of claims against others, as follows:

CAO-58-23, Robert G. Zobel. On January 24, 1958, Mr. Zobel was involved in an accident with a State vehicle on the Airport Road in Salem, resulting in damages to the State car in the amount of $168.03. A claim was made against Mr. Zobel and his insurance company but it later developed that the State's insurance carrier paid the damages sustained by Mr. Zobel in the accident. The driver of the State vehicle was apparently at fault and the claim has been abandoned.

CAO-57-247, Clinton Mathis. On October 19, 1957, Mr. Mathis ran into a blinker light pole on the Pacific Highway about 22 miles south of Eugene. Claims were filed by both Mr. Mathis and the State, the claim against Mr. Mathis being in the sum of $66.26. Negotiations between the insurance company and the State have failed and as it appears that the unlighted pole which was

hit was definitely a traffic hazard, the claim has been abandoned.

CAO-58-21, Gerald R. McBroom. On December 10, 1957, Mr. McBroom collided with a guardrail at M.P. 274.75 on the Old Oregon Trail resulting in damages of $159.46. Mr. McBroom carries no insurance and all attempts to locate him have failed. Therefore, the claim has been abandoned.

CAO-57-267, William E. Davis. On November 30, 1957, a car driven by Mr. Davis collided with a guardrail at M.P. 197.61 on the Pacific Highway, resulting in damages in the amount of $160.67. Mr. Davis, who is deceased, carried no insurance, and left no estate. The claim has been abandoned.

CAO-58-38, Emil Anttonen. On December 23, 1957, Mr. Anttonen drove into an illumination installation at the traffic interchange on the Pacific Highway at Goshen, causing damages in the amount of $443.13. Mr. Anttonen's insurance carrier denied payment because they claimed he was forced off the road by an unidentified car. As the State has no evidence to sustain its burden of proof, the claim has been abandoned.

The Commission authorized abandonment of the claims as recommended.

Authority was requested by the Chief Counsel to dismiss two legal actions, summarized as follows:

State v. Donald F. Deulen, L-2732. On November 11, 1955, a car driven by Mr. Deulen collided with the highway fence near Harvard Street Overcrossing in Roseburg, causing damages in the amount of $247.70. Letters directed to Mr. Deulen have been returned unclaimed and all efforts to locate him have failed. It is recommended that the suit which has been filed against Mr. Deulen be dismissed.

State v. Thomas Stitts, L-2702. On January 9, 1956, a car driven by Mr. Stitts collided with a state highway vehicle, resulting in damages in the amount of $434.16. Suit was filed but later investigation has determined that Mr. Stitts is a disabled veteran of the Canadian Army in World War II and his sole income is $62.50 per month. Mr. Stitts carried no insurance and as it appears impossible to collect on a judgment the Chief Counsel recommended that the suit be abandoned.

The Commission authorized dismissal of both cases as recommended

Illegal removal of 10,000 board feet of Douglas Fir timber from the Carpenterville-Brookings Forest Wayside on US101 in Curry County was reported by the Chief Counsel. He stated that in December, 1956, Mr. L. E. Chesser removed the timber which is valued at $31.00 per MFBM, and that he has signed a statement admitting that he had committed the trespass. However, he has made no payment for the timber taken. The Chief Counsel requested authority to institute legal action to collect double value of the timber as authorized by law. The Commission granted him such authority.

The Chief Counsel mentioned briefly that there are now 42 cases pending in which the State is made a defendant in connection with damage done in

the Vanport area in Portland which involves Denver Avenue, route of the Pacific Highway. Chairman McIver reviewed briefly for the benefit of Commissioner Fridley the history of the Vanport flood and the suits which have been filed. No action was taken.

At the request of the Chief Counsel, the Commission confirmed telephonic authority heretofore granted for Frank I. Towle, Engineer Investigator, to go to Kansas City, Missouri, to interview a Mr. Frank Cortelyou concerning the Vanport flood cases. The cost of the trip is estimated at $211.65.

Attention was given to a request from Idaho Power Company for the State to determine the amount of the bond to be posted in connection with the proposed modification of its agreement with the power company concerning construction of the new highway between Richland and Copperfield via Halfway. The Chief Counsel stated that after consultation with the State Highway Engineer it had been decided to recommend that bond be required in the amount of $325,000, of which $320,000 is to cover construction items and $5,000 is to cover right of way. The Commission accepted the recommendation.

Consideration was given to a request from the District Engineer, Walla Walla District, Corps of U.S. Army Engineers, to modify terms of an agreement dated December 30, 1949, concerning relocation of state highways Nos. 395 and 730 because of construction of McNary Dam. The Chief Counsel stated that the modification is requested so that the Army Engineers can convey title to the reconstructed highways to the State by a permanent easement rather than quit claim deed as provided in the original agreement. It appears that the Army Engineers do not have authority to convey title of public lands by deed, but can do so by easement. If the modification is approved, he continued, the agreement can be closed out by obtaining title to right-of-way acquired over private lands and by permanent easement over public lands. Upon his favorable recommendation, the Commission approved the modification.

The Chief Counsel reported that a Mr. Virgil Ames, who is occupying a house in Cascadia State Park, has refused to move notwithstanding that he has been asked to do so several times because he has failed to pay his rent for the past nine months. He asked the Commission to authorize him to take such steps as are necessary to evict Mr. Ames from the premises. The Commission approved the request.

The Commission considered a claim submitted by the Stutsman family, consisting of husband, wife, and four children, for damages sustained by them in the amount of $1,195.75 when their car skidded on the Winchuck River Bridge on the Oregon Coast Highway in Curry County. The Stutsmans allege that the accident occurred because the state was negligent in not replacing a railing on the bridge which was damaged in a previous accident. The Chief Counsel stated that a temporary railing was in place at the time of the Stutsmans accident and that the damage incurred by them was not the fault of the State He recommended that the claim be denied. The Commission accepted his recommendation.

The Chief Counsel requested approval of a number of salary adjustments for a number of attorneys in the Legal and Right of Way Division. He commented that the proposed salary changes are in line with the established policy of annual merit increases and are subject to approval by the Attorney General. Following his favorable recommendation, the Commission approved the following schedule of salaries effective July 1, 1958:

Name	Present Salary	Proposed Annual Salary Increase (July 1, 1958)
Leonard I. Lindas	$ 880	$ 915
George E. Rohde	810	845
Charles Peterson	775	810
Frank C. McKinney	745	775
Joseph W. DeSouza	745	775
Fred A. Morgan, Jr.	685	715
John C. McLean	655	685
J. Robert Patterson	655	685
Leslie B. Hampton	600	625
James R. Kuhn, Jr.	575	600
William A. Mansfield	575	600
Donald R. Stark	550	575
Robert A. Holland	525	550
Leo V. Nuttman	525	550
Glen V. Sorensen	525	550

The Chief Counsel reported that the Oregon Automobile Insurance Company which wrote the Employees Comprehensive Liability Policy which is scheduled to expire on October 1, 1958, has stated that they are cancelling the policy on June 6, 1958. He requested authority to take such steps as are necessary to secure new insurance as a replacement. The Commission approved his request and ordered the new insurance purchased as a result of competitive bidding.

The Engineer reported that under authority previously granted him, he has awarded contracts referred to him by the Commission to award when certain conditions had been satisfied. He said that the conditions have been met with respect to the following projects and that contracts have been awarded:

(1) Construction of Ontario Bridges over the Snake River on Old Oregon Trail Highway, Malheur County. Bids received March 27, 1958 Contract awarded April 4, 1958 to Hoffman Construction Company, Portland, low bidder.

(2) Grading and paving on Division Street-Powell Boulevard Section of S. W. 122nd Avenue in Multnomah County. Bids received March 28, 1958. Contract awarded April 9, 1958 to Oregon Asphaltic Paving Company, Portland, low bidder.

Award of contracts (Cont.)

(3) Paving and stone shoulders on Dans Point-Plywood Plant Section of Gold Beach-Bagnell Ferry Road, Curry County. Bids received February 27, 1958. Contract awarded April 9, 1958 to J. C. Compton, McMinnville, low bidder.

(4) Grading and paving and furnishing material in stock pile on Minam-Rock Creek Section of Wallowa Lake Highway, Wallowa County. Bids received February 27, 1958. Contract awarded April 9, 1958 to McNutt and Sons, Inc., Eugene, low bidder.

(5) Grading, paving and construction of two reinforced concrete interchange structures on Tigard Interchange Unit, Harbor Drive-Washington County Line Section of Pacific Highway, Multnomah County. Bids received February 27, 1958. Contract awarded April 15, 1958, to Central Paving Company, Independence, low bidder.

(6) Grading on Long Hollow Canyon-Hunter Ranch Section of Tygh Ridge Road, Wasco County. Bids received March 27, 1958. Contract awarded April 17, 1958 to J. M. Purcell Construction Company, Kalispell, Montana, low bidder.

(7) Olds Ferry-Ontario Rock Production Project on Olds Ferry-Ontario Highway, Malheur County. Bids received March 27, 1958. Contract awarded April 21, 1958 to C. E. Leseberg, Nyssa, low bidder.

(8) Grading and paving Newberg-Gearin Corner Section of Hillsboro-Silverton Highway, Yamhill and Marion Counties. Bids received March 27, 1958. Contract awarded April 28, 1958 to Morse Brothers, Lebanon, low bidder.

(9) Construction of the Silvies River Bridge on Silvies River Road, Harney County. Bids received March 28, 1958. Contract awarded to Inter City Sand & Gravel Company, Eugene, low bidder.

(10) Grading Santiam Junction-Lebanon Road Section of Pacific Highway, Linn County. Bids received March 27, 1958. Contract awarded May 7, 1958 to J. N. Conley, Portland, low bidder.

The Commission confirmed the Engineer's awards as reported.

The Engineer reported that certain sections of state highways on which reduced load limits had been placed are now in such condition that legal loads may be transported over them. He recommended that previously imposed restrictions be removed from the following highways:

1. Enterprise-Lewiston Highway, M.P. 29.25 to M.P. 42.67, originally imposed February 27, 1958, removed 8:00 a.m. April 7, 1958.

2. Crane-Scotts Butte Secondary Highway No. 442 from M.P. 56.0 approximately 5 miles northwest of the Harney County-Malheur County Line to M.P. 66.0, southeast of the junction with the county road to Follyfarm.

This load limit was originally imposed Feb. 21, 1958, and was removed 8:00 a.m. April 28, 1958.

The Commission confirmed the Engineer's removal of such load limit restrictions.

The Engineer reported the results of bids received in Salem on April 17, 1958, for a number of highway construction projects. The Commission decided to announce the awards of the contracts at 4:00 p.m. today. (See ahead for the awards)

The Engineer also presented for the Commission's action bids received on April 17 in Salem for the furnishing of marine insurance for the Astoria-Megler Ferry vessels and for furnishing liability insurance covering the Steel Bridge in Portland as follows:

Marine Insurance for Astoria-Megler Ferry Vessels

Jewett, Barton, Leavy & Kern, Portland	$ 7,135.88
Dooly & Company, Portland	7,250.50
Durham & Bates Agencies, Inc., Portland	7,258.50

Liability Insurance for the "Steel Bridge" (Portland)

W. C. Dyer & Sons Insurance Agency, Salem	$ 954 78
Durham & Bates Agencies, Inc., Portland	1,461.32
Dooly & Company, Portland	2,127.50

The Engineer recalled that he discussed these bids with Commissioners Chessman and Fridley over the telephone, both of whom authorized acceptance of the low bidder in each instance; Jewett, Barton, Leavy & Kern, and W. C. Dyer & Sons Insurance Agency. He asked the Commission to confirm the action for the record. The Commission confirmed the award of the contracts subject to concurrence by the Department of Finance and Administration.

A tabulation of high bids received at Salem on April 22 for used equipment and scrap materials was presented by the Engineer. He pointed out that the total of high bids amounted to $22,037.15, whereas the estimated value was $19,960.00. The Commission approved the Engineer's action with respect to the bids received.

The Engineer reported the results of bids that were received by the Washington Toll Bridge Authority for the sale of $5,200,000 of bonds to fi-

nance the Vancouver-Portland Interstate Bridge reconstruction project. These bonds, he stated, were sold for a net interest rate of 2.9682%. The Commission expressed its approval of the sale of the bonds at such rate.

The Commission discussed with the Engineer a requirement of the U. S. Army Engineers for a formal guarantee of the maximum amount which Oregon and Washington will claim as reimbursement for the remodeling of the existing Interstate Bridge between Vancouver and Portland. The present arrangement, the Engineer stated, is that 50% of the remodeling cost will be assumed by the Federal Government under the Truman-Hobbs Act. Bids have been received for the project and the remodeling cost has been computed at $1,143,303, including an allowance of 15% for engineering and contingencies. Upon his favorable recommendation, the Commission approved a guarantee in such amount.

Attention was given to the Engineer's report concerning traffic conditions at the intersection of Scholls Highway with the Beaverton-Tualatin Highway in the community of Progress. The Engineer recalled that this intersection was originally a four-way stop, later changed to a two-way stop, and at the last Commission meeting was again made a four-way stop. Traffic volumes, he said, are too low to warrant the installation of a traffic signal, and construction of a left-turn refuge would not be of any particular value. It was his opinion that construction of curbs and prohibition of parking would work a hardship on some of the business establishments. He therefore recommended that the four-way stop be left in place and that no other intersectional treatment be provided unless a bad accident pattern develops. The Commission accepted the recommendation.

The Commission also considered a report submitted by the Engineer regarding a public hearing that was held in the City Hall, Portland, on May 2, 1958, relative to the plans for the "Eastbank Freeway" Section of the Pacific Highway in Portland. The Engineer pointed out that no objections to the proposed plans were voiced at the hearing. He recommended in view thereof that the Commission adopt the survey for the low level route of the Eastbank Freeway Section of the Pacific Highway as shown on Sketch Map 8B-9-13, dated May 1958.

The Commission approved his recommendation by adopting the attached resolution relative thereto marked "EXHIBIT H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman McIver inquired as to when the first contract might be advertised for this project. The Engineer replied that it is planned to start acquisition of right of way within two or three months and that the first contract may be advertised in mid 1959. He estimated that it would take about three years to complete the project.

Consideration was given to a report submitted by the Engineer concerning a request made by Mr. Fred Endicott of the William Endicott Logging Company, Prineville, presented at the Highway Commission meeting held on March 28, that log haulers be allowed to truck haul logs over state highways 24 hours per day.

The Engineer advised that inquiries have been made as to how such matters are regulated in the states of California, Washington, Idaho, and Montana, and it was ascertained that these states have no restrictions on log hauling hours. The matter has been given very careful study, he continued, and as a result thereof it is his recommendation that Oregon's regulations be revised to permit 24 hour hauling, subject to certain regulations. To accomplish this, he recommended deletion of Paragraph 5 of the present General Regulations contained in Public Utilities Commission Form 170 and substitution of the following paragraph:

> "The truck hauling of logs, poles and/or piling over or across any state highway is prohibited on Saturday afternoons between May 23rd and September 8th, Sundays, the following holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, and provided when any holiday falls on Sunday, the transportation of logs, poles and/or piling is then prohibited on the Monday following such holiday. During the period from 9 p.m., Pacific standard time, on any other day to 4 a.m., Pacific standard time, of the day following the truck hauling of piling in excess of 80 feet over-all length, including truck and load, is prohibited. Hauling equipment shall be equipped with and when operating during the hours of darkness shall display lighted lamps and other illuminating devices conforming with all statutory requirements; provided further that if the overall length of the equipment and load exceeds 50 feet, there shall, in addition, be displayed on each side of the load at approximately equal intervals two side marker lamps and two clearance lamps, which may be in combination to show to the front, side and rear, and may be unmounted or detached during daylight hours. The above side marker and clearance lamps are required in addition to the side marker and clearance lamps required on the pole trailer by statute."

The Commission adopted the change as recommended and instructed the Secretary to convey the action to the Public Utilities Commissioner with the Commission's recommendation that his general regulations relative to the transportation of logs, poles and piling by motor truck be amended accordingly.

A report was made by the Engineer concerning the proposed construction of a building to house the State Motor Vehicle Department and the Department of State Police in the Shops area at the east edge of Salem This matter, he stated, was presented to the members of the Board of Control, who asked the Capitol Planning Commission for their recommendation. The Planning Commission, he said, recommended that any building for this purpose should be constructed in the Capitol Mall area, and the Board of Control by unanimous vote endorsed the recommendation. The Engineer recommended in view of the Board of Control's action that the Highway Department withdraw from the matter. He pointed out that it is somewhat difficult to answer a criticism made by one of the Board of Control members regarding the rise of State Highway funds to finance the building when it is contemplated to ask the 1959 Legislature for additional highway revenues. The Commission took no action at this time other than to indicate that it might wish to discuss the matter at the June meeting.

May 8, 1958

Attention was also given to the Engineer's report concerning a proposal submitted by Mr. Gene Brown, Attorney, Grants Pass, for revision of the East Grants Pass Interchange to accommodate construction of a roadway to serve the "Miracle Mile" Section of the Pacific Highway immediately south and east of Grants Pass. The Engineer stated that subsequent to receipt of Mr. Brown's request, an investigation was made and it was found impractical to move the location of the Interchange because of topographical features and an existing cemetery. However, it appears that the connecting road leading toward "M" Street can be shifted easterly approximately 600 feet to allow construction of a channelized intersection northerly from the river, which intersection could be used to connect additional roads or streets as an accomodation to local business interests. He also pointed out that the "M" Street connection is the only roadway in this area that is on the state highway system and that any other road, bridge, or connection could not be constructed by the state and the Federal Government as a part of the state highway, so if other agencies, possibly the city or the county, wish to construct an access road leading to the East Grants Pass Interchange, they could do so at their own expense at the point described above. He recommended that the Commission proceed with the previously prepared plans. The Commission accepted his recommendation and instructed him to advise Mr. Brown of the decision and the reasons therefore.

Reclassification from Group III status to a Group I status of the Shaniko-Antelope Section of the Shaniko-Fossil Secondary Highway No. 291 was reported by the Engineer. He explained that a test run made over this section using a 60-foot truck and full trailer combination revealed that such equipment was able to negotiate the curves without encroaching on the opposing traffic lane. The Commission confirmed his action.

The Commission considered items of unfinished business as shown on the Secretary's Summary dated April 3, 1958, as follows:

1. Request of the National Park Service that the State maintain park facilities at Howard Prairie Dam in Jackson County: The Parks Superintendent stated that his report on this subject is not yet ready but he suggested that the item be removed from the list of unfinished business and that it be considered as new business when the report is rendered. The Commission ordered the item deleted.

2. Relocation of highways necessitated by construction of the proposed Crooked River Dam south of Prineville: The Engineer reported that the agencies constructing the dam have been asked to replace in kind an approximate five mile section of the Crooked River Highway which will be inundated. He also commented that a delegation is scheduled to appear before the Commission concerning this matter on the following day. The Commission deferred action pending appearance of the delegation and ordered the item removed from the list of unfinished business. (See delegation ahead.)

3. Request of the Parkrose Chamber of Commerce for development of Government Island in the Columbia River for recreational purposes: The Parks Superintendent commented that his study of this matter is incomplete. He suggested that the item be removed from the list of unfinished business and that it

be considered new business when his report is ready. The Commission ordered the item removed from the list.

4. Request of the Brookings Park Committee that the State take over as a state park the Loeb Memorial Forest in Curry County: The Parks Superintendent stated that his report on this subject would be rendered later in the month. The Commission ordered the item retained on the list of unfinished business.

5. Request of Representative Fred Meek for construction of a museum building at Champoeg State Park: The Engineer stated that his investigation on this matter is incomplete. The item was ordered retained on the list of unfinished business.

6. Out-of-state travel costs and allowances: The Engineer commented that a recent ruling by the Department of Finance and Administration increasing hotel and meal allowances has pretty well taken care of this matter. The Commission ordered the item removed from the list of unfinished business.

7. Out-of-state travel expenses for State Highway Commissioners: Chairman McIver stated that in his opinion the Commission should not demand greater allowances for out-of-state travel than are granted to State Highway employees. This item was ordered deleted from the list of unfinished business.

8. Handling of traffic at the intersection of Scholls Highway with the Beaverton-Tualatin Highway in Progress: The Commission ordered this item deleted from the list of unfinished business as the Engineer had presented a report earlier in the day.

9. Fort Stevens State Park concession privilege bids: This item was also ordered deleted from the list of unfinished business as the Parks Superintendent had submitted a report earlier in the day, and as a delegation is to appear on the matter on the following day. (See delegation ahead.)

10. Request of Endicott Logging Company for permission to operate logging trucks over state highways 24 hours per day: The Commission ordered the item removed from the list of unfinished business as action had been taken earlier in the day.

11. Proposal of Mr. Gene Brown, Attorney, Grants Pass, that the location of the proposed Redwood Highway Interchange near Grants Pass be moved to the south to accommodate business along the "Miracle Mile" section of US99: The Commission ordered this item deleted from the list of unfinished business as action had been taken earlier in the session.

12. Request of Baker County Court for revised routing of the Haines-Anthony Lake Highway near Haines: The Engineer stated that his investigation of this matter is under way but his report is not yet ready. The Commission ordered the item retained on the list of unfinished business.

13. Request of Tillamook County delegation for oiling a $2\frac{1}{2}$ mile section of the Little Nestucca Secondary Highway. This item was ordered removed from the list of unfinished business as funds to finance the work are provided in the special anti-recession program.

May 8, 1958

Consideration was given to a suggestion from the Eugene office of the Department of State Police for construction of a left-turn refuge on the Willamette Highway at Jasper Junction as a traffic safety measure. The Engineer stated that this intersection has been investigated several times and luminaire units were installed in the latter part of 1956. From the facts determined by a recent investigation, it now appears that a flashing beacon should be installed, and he so recommended. He estimated the cost at $500.00. The Commission approved his recommendation.

The Commission also considered a request from the City of Nyssa, through its city manager, for installation of traffic signals at the intersection of Main Street with either Second or Third Street. An investigation was made, the Engineer stated, which disclosed that cross street vehicular and pedestrian traffic is much heavier at Second thanat Third Street and that traffic conditions at Second Street are such that signalization is warranted. He recommended that a fixed time traffic signal be installed at the intersection of Second and Main Streets, at an estimated total cost of $4,000, with the understanding that the City of Nyssa is to pay one-half the cost of the installation and to assume the expense of future maintenance and power consumption. The Commission approved the installation on such basis.

A request was discussed from Mrs. Bernard Hall, Manhattan Beach, for establishment of a crosswalk across the Oregon Coast Highway in the community of Manhattan Beach. The request was investigated, the Engineer stated, and it was found that conditions warrant the establishment of a crosswalk and an overhead illuminated crosswalk sign which is estimated to cost $700. Upon his favorable recommendation, the Commission approved the installation.

Authority was requested by the Engineer to enter into an agreement with the City of Forest Grove for illumination of two channelized intersections on the one-way couplet section of the Tualatin Valley Highway at the easterly edge of the city. He explained that the City is installing illumination throughout the project and illumination of the intersections can best be done by combining it with the city project. He recommended that the work be done by the City in connection with their project and that the State reimburse the City for the cost, which he estimated at $2,818.60, with the understanding that the agreement is to provide that the City shall furnish necessary power and maintain the illumination fixtures at its own expense. The Commission approved the recommendation.

The Engineer reported completion of several surveys as previously authorized by the Commission. These surveys, he stated, have been given very careful engineering consideration to provide the best highway facility commensurate with the cost of construction. He recommended approval of surveys involving reconstruction of several state highway sections as follows:

1. Trail Creek Bridge Section of the Crater Lake Highway in Josephine County concerning which a public hearing was held in the Upper Rogue River

Grange Hall on March 18, 1958. (See Exhibit H-2.)

2. Corvallis City Section of the Corvallis-Newport Highway in Benton County concerning which a public hearing was held in Corvallis on February 13, 1958. (See Exhibit H-2.)

3. Richland-Copperfield Section of the Baker-Homestead Highway in Baker County. (See Exhibit H-2.)

Following his favorable recommendation the Commission approved the surveys by adopting the attached resolutions relative thereto marked EXHIBITS "H-1" through "H-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

An increase of $750.00 in the project authorization for Contract No. 5012, installation of illumination at Nesika Beach and Wedderburn connections with U.S. 101, Curry County, was requested by the Engineer who explained that the cost to provide illumination of the Greggs Creek-Wedderburn Section overran the estimated amount because of extra costs in installing and maintaining temporary illumination prior to the permanent installation by the contractor. The Commission approved the increase as requested.

The Commission gave attention to a letter from the City Recorder of Lakeview requesting completion of the paving and curbing on US395 in the northerly part of Lakeview from Fifth Street to the north city limits. The letter also indicated that the City would be willing to pay 25 per cent of the costs involved. The Engineer stated that a field investigation indicated that the total cost of the project would be approximately $72,000. He pointed out that a similar project is now being constructed in the southerly part of the town and he recommended that the request be denied at this time as other communities should be considered before another project is undertaken in Lakeview. The Commission accepted his recommendation.

The Commission considered a letter from the Douglas County Court requesting that the State assist in the improvement of a section of Garden Road (county road) between the old route of US99 and the new route. This road, the Engineer pointed out, is a county road which has been affected to a minor degree by the construction of the Roseburg by-pass and the Garden Road Interchange The County has suggested a curbed section improvement 66 feet in width. A cost estimate was prepared on a 50-foot roadway section, indicating that the project would cost approximately $112,000, not including sidewalks. As the road is not a state highway and performing work on it could establish an undesirable precedent, he recommended that the Commission not participate in the project. His recommendation was accepted by the Commission.

Attention was given to a letter from Hoffman Construction Company, Portland, contractor to whom was awarded Contract No. 5161 for construction of the Ontario River Bridge project in Malheur County, on March 27, 1958, in which they allege that they made a mistake in their bid by omitting the cost of false work and request the return of their bid bond. The Engineer stated that Hoffman Construction Company has refused to sign the contract which was approximately $190,000 under the next low bidder, and who brought their worksheets to his office for examination. It was his opinion that their claim of omitting false

work is not accurate as their bid was low in nearly all items. He recommended that the contractor's request be denied and that necessary legal action be taken to collect the five per cent surety bond that was furnished by Seaboard Surety Company in the amount of $36,024.60, which is five per cent of Hoffman Construction Company's bid of $720,492.00. The Commission adopted the recommendation and instructed the Chief Counsel to proceed to collect the amount of the bid bond.

The Commission discussed briefly a letter from Congressman Charles O. Porter concerning placing the Gold Beach-Agness-Selma Road on the Forest Highway System. The Engineer commented that the Commission had previously given this matter consideration and at that time denied the request because of the cost involved and because of the existing undeveloped mileage on the Forest Highway System. Conditions have not changed since that time, and he recommended that the Commission reaffirm its previous decision. The recommendation was accepted by the Commission and the Secretary was instructed to inform Congressman Porter accordingly.

A program of highway construction to utilize 'anti-recession' funds made available by the U.S. Congress under the 1958 Highway Act was considered. The Engineer presented a suggested program for the funds available. He pointed out that the program totals $6,500,000 and applies to the "ABC" (non-interstate) system only, however, an additional sum of $3,000,000 will be available under the emergency program for the 'interstate' system. All funds under the emergency program, he said, must be under contract by December, 1958, and the work must be completed not later than December, 1959. He mentioned that the suggested program contains projects which can be advanced and put under construction within the specified time limit and is based on the regular Division formula for allocation of the "ABC" funds. He explained that with three exceptions, the projects in this program are jobs advanced from the previously adopted program. The Commission carefully considered the program suggested by the Engineer but deferred its decision until the afternoon session. (See ahead for program as adopted.)

The Commission discussed a request from the Port of Siuslaw that a full-time drawbridge operator be assigned to the Siuslaw River Bridge on the Oregon Coast Highway at Florence. The Engineer reported that the same request has been made several times in the past. In 1953, a double shift of operators was used from September 3 to September 27, during which period it was necessary to open the bridge for only one vessel. From September 4 to September 22, 1954, a double shift was placed on duty and during that period, only one vessel required four openings of the span, although 293 vessels went under the bridge without an opening. In 1956, 33 openings were made on 30 different days. In 1957, 55 openings were made on 49 different days, and during the first three months of 1958, 16 openings were made on 12 different days. He gave as his opinion, in view of the small number of openings that are required, that employment of a full-time operator is not justified and he recommended that the request be denied until such time as the river traffic increases to a volume which will justify such full-time operator. The Commission approved the recommendation.

The Commission considered a request from the City of Dallas for widening and construction of curbs on a 0.45 mile section of Oregon Route 223 in the City of Dallas. The Engineer estimated the cost involved at $78,000. He mentioned that the City has indicated that it will participate to the extent of 25% of the cost and will also construct the necessary sidewalks. He also said that the project is desirable but there are no funds available to finance it at this time. Accordingly, he recommended that the request be denied for immediate undertaking and that the project be given consideration when additional funds become available. His recommendation was approved by the Commission.

The Commission also considered a request from residents of Estacada for construction of a by-pass of the Clackamas Secondary Highway at Estacada to remove traffic from Main Street which runs adjacent to the grade school and high school. The Engineer advised that this project is estimated to cost $125,000. He also stated that although traffic is considerable there is no congestion and that the school areas are zoned for 20 miles per hour speed during school hours; moreover, in his opinion, there are many highway sections throughout the state that have a higher priority status. The Commission approved his recommendation that the Estacada people be informed that it is not now possible to allocate funds for this by-pass.

A letter from the Mayor of Wasco requesting construction of a blacktop surface on the Wasco-Heppner Highway between Hay Canyon and the City of Wasco was considered. The Engineer commented that $200,000 has been programmed for 1960 for reconstruction of a 9.2 mile unit of this section and it is planned to complete the section in the near future. The Commission delayed action at the request of Commissioner Fridley until a delegation has been heard on the following day, concerning the proposed relocation of this highway south and east of Wasco. (When the delegation appeared, Chairman McIver advised them that their request would be considered and that the Engineer would advise them of the status of the programmed project. See additional entry ahead.)

The Engineer presented a tabulation showing the county "D" (anti-recession) funds available for Oregon in the total amount of $2,097,386. He said that under regular procedure, half of these funds would be allocated to county roads, which would amount to $1,048,693.00. Matched with State and County funds, the total program would be $1,410,000.00. He recommended allocation of these funds to individual counties on the basis of the formula which has been used in the past. He also presented a list of projects in 12 counties totalling $468,000 to take up a portion of the funds available, and recommended that these projects be approved for financing with county "D" (anti-recession) funds, leaving the balance to be programmed later. The Commission approved the allocation of secondary funds to county road projects and the specific projects recommended by the Engineer as follows:

D (Anti-recession) FAS ALLOCATION TO COUNTIES

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State & Counties Match Money (Rounded to (Thousands)
Baker	$ 16,761	$ 23,000
Benton	20,747	28,000

FAS ALLOCATION TO COUNTIES (Cont.)

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Clackamas	$ 67,640	$ 91,000
Clatsop	21,707	29,000
Columbia	26,380	35,000
Coos	31,939	43,000
Crook	15,564	22,000
Curry	12,615	17,000
Deschutes	21,613	29,000
Douglas	45,523	61,000
Gilliam	13,449	18,000
Grant	15,855	21,000
Harney	18,373	25,000
Hood River	17,499	24,000
Jackson	36,329	49,000
Jefferson	15,210	20,000
Josephine	22,416	30,000
Klamath	30,351	41,000
Lake	20,064	27,000
Lane	70,872	95,000
Lincoln	24,602	33,000
Linn	40,646	55,000
Malheur	34,552	46,000
Marion	57,368	77,000
Morrow	17,091	23,000
Multnomah	81,537	110,000
Polk	28,889	39,000
Sherman	11,608	16,000
Tillamook	22,156	30,000
Umatilla	43,289	58,000
Union	17,067	23,000
Wallowa	15,888	21,000
Wasco	16,863	23,000
Washington	53,105	71,000
Wheeler	11,774	16,000
Yamhill	30,351	41,000
	$1,048,693	$1,410,000

Summary, Entire State: D-FAS Funds

Total Federal Funds (D-FAS) available for entire state		$ 2,097,386
County Share (50%)		1,048,693
Plus Estimated Required Match Money:	State Funds	180,653
	County Funds	180,654
Total County Road D-FAS Fund		$ 1,410,000

May 8, 1958

PROPOSED PROJECTS - COUNTY D (ANTI-RECESSION) FUNDS

County	FAS Hwy. No.	Section & Description	Programmed Amount
Benton	364	Lucklamute River (Hoskins) Bridge. Structure only.	$ 28,000
Clatsop	757	Blind Slough Bridges (2). Structures only.	$ 29,000
Crook	453	East & West Units, Paulina-Trout Creek, 4 miles. Grading only.	$ 22,000
Hood River	871	Chamberlain Road, 1.3 miles)	
	872	Andrews Road, 0.5 mile) Surface &	
	873	Paasch Road, 0.7 mile) oil.	$ 24,000
Jackson	273	Bybee Bridge-Gregory Road, 2.1 miles Paving.	$ 49,000
Jefferson	688	Juniper Lane-Fir Lane, 4.2 miles Surface & oil.	$ 20,000
Josephine	850	Grave Creek (Leland) Bridge. Structure only.	$ 30,000
Malheur	825	West Unit, Foothills Drive. Grade, surface, & oil.	$ 46,000
Multnomah	638	122nd Avenue-141st Avenue, 0.75 mile Grade and pave.	$ 110,000
Polk	747	Rickreall Creek Bridge, Structure only.	$ 39,000
Tillamook	616	Coleman Creek-Tillamook Bay, 0.6 mile. Grading only.	$ 30,000
Yamhill	111	Panther Creek-North, 1.6 miles) Surface	
	586	Lafayette-Three Mile Lane, 2 miles) oil.	$ 41,000
		TOTAL	$ 468,000

SUMMARY:

Available Funds	$ 1,410,000
Proposed Projects, 5/7/58	468,000
Unprogrammed Balance	$ 942,000

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on basis of rural population, and 15% on basis of total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent approximately

May 8, 1958

74% of Total County D-FAS Fund with State and County Funds estimated to be approximately 13% each.

NOTE: In the event the provision for obtaining an advance or loan of fiscal years 1961 and 1962 Federal funds in the amount of 2/3 of the required local match money is utilized, actual State and County fund participation at this time would be approximately $60,000 each.

Attention was given to a request from the Springfield City Council for an addition to the state FAS system to provide for an urban section from "Q" Street southerly to the McKenzie Highway. The Engineer explained that the requested addition is in the nature of a one-way couplet connecting the "Q" Street route and County FAS Road #860 on the north with the McKenzie Highway on the south. He said that since this item was scheduled on the Agenda he received information from Mr. E. R. Turner, Springfield City Manager, that they wish to discuss the matter personally with the Commission at its June meeting. In view of this information the Commission deferred action.

The Commission considered a request from Robert A. Finlayson, City Manager of Eugene, for four additions to the Federal-aid Secondary System in Eugene. The Engineer explained that two of the requests are for additions to the County FAS System, one being an urban extension of County FAS Road 859 from 30th Avenue at the east city limits, to the Ferry Street Bridge. The other is also an urban extension of County FAS Road 862 on Jefferson and Washington Streets from 7th Avenue to the Willamette River. It was his recommendation which was approved by the Commission, that the City of Eugene be advised to take up the matter with the Lane County Board of County Commissioners as action would have to be initiated by the County. Concerning the third and fourth proposals which were for an urban extension of State FAS 238 on 11th and 13th Avenues from McKinley Street to Franklin Boulevard, and for an urban extension of State FAS 219 eastward from Railroad Boulevard (River Road) via First Avenue to Fourth Avenue to the Ferry Street Bridge approach. The Engineer recommended that both requests be denied until such time as the existing routes are improved to an acceptable standard. It was his opinion that these requests may have stemmed from newspaper reports on additional funds for highways under the so called "crash" program. The Commission accepted his recommendations.

The Commission considered and on the Engineer's favorable recommendation approved requests from Benton, Clackamas, Clatsop, Douglas, Hood River, Josephine, Klamath, Lake, Polk, and Washington Counties for additions to the County Road Federal-Aid Secondary System, totaling 165.8 miles, as follows:

BENTON COUNTY

FAS 864, 10.3 miles. From FAS 145 at Summit easterly to FAS 190.

FAS 865, 1.8 miles. From FAS 144 easterly to a sawmill road junction.

Additions to County Road Federal-Aid Secondary System (Cont.)

CLACKAMAS COUNTY:

FAS 810, 12.8 miles. From FAP Route 41 at Oregon City southeasterly to FAS 131.

CLATSOP COUNTY:

FAS 757, 9.7 miles. From FAP Route 1 near Knappa northerly, easterly, and southerly to FAP Route 1, including a spur to Brownsmead.

DOUGLAS COUNTY:

FAS 798, 21.2 miles. From Gunter southeasterly to FAP Route 20 near Drain.

FAS 800, 14.2 miles. From FAS 553 north of Roseburg northwesterly to a county road junction at Umpqua.

HOOD RIVER COUNTY:

FAS 871, 2.2 miles. From FAS 305 easterly to FAS 300.

FAS 872, 2.6 miles. From FAS 701 east of Van Horn easterly, southerly, and westerly to FAS 701.

FAS 873, 0.8 mile. From FAS 115 easterly to FAS 701.

JOSEPHINE COUNTY

FAS 850, 14.8 miles. From FAP Route 3 near Sunny Valley westerly to a road junction at the Rogue River, including a spur connection to the Leland post office.

KLAMATH COUNTY:

FAS 430, (Extension) 21.7 miles. From existing FAS 430 at Lorella southerly, westerly, and northerly to existing FAS 430 south of Lorella.

KLAMATH AND LAKE COUNTIES:

FAS 852, 51.6 miles. From FAP Route 4 northeasterly to FAP Route 16 near Silver Lake.

WASHINGTON COUNTY:

FAS 838, 2.1 miles. From FAP Route 27 southerly to FAP Route 32 in Beaverton.

The Commission approved the requests upon being assured by the Engineer that the additions qualify under applicable rules and have been approved by the U.S. Bureau of Public Roads.

May 8, 1958

The Engineer presented a list of projects on County FAS Roads in Clackamas, Klamath and Washington Counties, which the counties desire to place under contract immediately. These projects, he said, have been determined acceptable and have been approved by the U.S. Bureau of Public Roads. He recommended approval of such County FAS projects, totaling $595,000 as follows:

ADDITIONAL PROPOSED 1958 and 1959 COUNTY FAS PROJECTS
(Supplemented with Unobligated 1957 Funds)

County	FAS Hwy. No	Section and Description	Programmed Amount	FAS Fund
Clackamas	122	Shipley (Tualatin River) Bridge. Approach structure only.	$ 50,000	'59
	810	Little Clear Creek and Clear Creek (Viola) Bridges (2).	70,000	'59
		Subtotal, Clackamas County....	$ 120,000	
Klamath	430	Lost River (Langell Valley) Bridge. Structure only.	$ 40,000	'59
	852	Forest Boundary-Lake County Line Section. G. and S., 5 miles.	185,000	'59
		Subtotal, Klamath County.....	$ 225,000	
Washington	838	Walker Road-Beaverton Section. G. and P., 1 mile.	$ 250,000	'59
		TOTAL ADDITIONAL 1959 FUNDS	$ 595,000	

SUMMARY, FISCAL YEARS 1958 and 1959 FUNDS*	
Available Funds	$ 8,033,000*
Previously Approved	7,087,000
Unprogrammed Balance	$ 946,000
Proposed Projects 4/21/58	595,000
Unprogrammed Balance.....	$ 351,000

* Includes additional fiscal year 1957 funds provided in Federal Aid Highway Act of 1956 and $33,000 carry-over from regular fiscal year 1957 funds.

The Commission approved the projects as recommended.

Authority was requested by the Engineer and granted by the Commission, for an expenditure of approximately $3,500 to install air conditioning in the rooms occupied by the Key Punch Record Section and the Tabulating Section on

the fourth floor of the State Highway Building in Salem. He commented that these rooms are on the southerly side of the building and a large number of people work in them, which, combined with the heat of the machines, creates a serious ventilating problem.

The Engineer requested authority to construct by contract with Interstate funds a double median barrier on the Banfield Freeway from 42nd Avenue to 102nd Avenue, at an estimated cost of $170,000, and on the Willamette River Bridge on the Baldock Freeway, at an estimated cost of $40,000. It was his opinion that these two projects should be offered for bids as one contract. The Commission approved both projects as an accident prevention measure.

Consideration was given to a request from the Harney County Court that $18,400 FAS funds allocated under the "crash" program to be used to finance an extension of a proposed improvement on the Frenchglen State Secondary Highway. The Engineer recalled that Harney County had agreed to the use of $80,000 of FAS funds for surfacing and oiling on the northerly section just east of Burns which, when added to the State's match money of $53,000 would provide a total of $133,000. This amount plus $18,400 crash funds, plus the State's added contribution of $6,600, he said, would mean that a project costing about $158,000 could be undertaken. To keep the records clear, he called attention to the fact that this is a single transaction in which the County is participating in the amount of $98,400 of Federal funds only. The Commission accepted his recommendation and authorized the additional work as outlined.

Upon the recommendation of the Engineer, the Commission took action as noted on the following requests of contractors for extensions of time within which to complete their respective state highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted:

1. General Construction Company, Contract No. 4513, for structures, grading and paving on the Clay-Columbia Traffic Interchange Section of the Pacific Highway West in Multnomah County requested an extension of time from December 31, 1956 to December 30, 1957, the date of completion. Approved as requested. A letter was presented from the Bureau of Public Roads concurring therein.

2. West Coast Steel Works, Contract No. 3889, for construction of the Pruner Bridge over the South Umpqua River on the Riddle County Road in Douglas County, requested an extension of time from 240 to 265 work days without assessment of liquidated damages. Approved for 250 week days which was the actual date of completion.

FOOTNOTE: The action taken by the Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

May 8, 1958

The Engineer reported that Contract Nos. 4513, 4575, 4889, 4921, 4947, 4961, 5013, 5040, 5046, 5083, 5086, 5104, 5132, and 5144 for highway construction have been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to requests from the City of Empire and local citizens of that community for traffic improvements at the intersection of Newmark Avenue, route of the Cape Arago Highway and Ocean Boulevard, route of the Empire-Coos Bay Highway in the City of Empire. The Engineer reported that an investigation disclosed that the most satisfactory method of treating the intersection appears to be through channelization and installation of traffic signals; however, the City does not have funds to pay its proportionate share of the cost of such installation. In lieu of signals it was his opinion that conditions could be materially improved by construction of "jiggle bar" channelization islands and a flashing beacon which are estimated to cost $1,650. He recommended approval of such project at State expense with the understanding that the City will agree to maintain the flashing beacon and pay for power consumption. The Commission approved the project on such basis.

The Commission considered a request from Kuckenberg Construction Company, a partnership, that they be permitted to assign to Kuckenberg Construction Company, a corporation, its entire interest in state highway contract No. 5110 for grading the Lowell Street-21st Avenue Unit of the Harbor Drive-Washington County Line Section of the Pacific Highway in Multnomah County. Following the favorable recommendation of the Engineer and the Chief Counsel, the Commission approved the assignment as requested.

At the request of the Engineer the Commission granted him specific authority to remove the old bridge over the Yamhill River on Threemile Lane Secondary Highway at Dayton. The Engineer commented that Yamhill County does not want the bridge and bids for its removal were received this morning. This action, he stated, is requested in order to clarify the records.

Attention was given to a request from the City of Coquille for a construction project in the city extending northerly from the Coos Bay-Roseburg Highway at a point near the south city limits to a point where Baxter Street connects with Oregon Highway 42. The Engineer advised that this project has been proposed by the City several times in the past. He pointed out that the section in question would not be on a state highway route but would be a spur northerly from ORE42 connecting to a city street. As there are no funds available for this type of project, he recommended that the request be denied. The Commission adopted the recommendation and ordered that the action be conveyed to the City.

The Commission discussed a recommendation from the Engineer that the present access control policy be modified to allow commercial access at certain points where proper highway facilities are constructed to allow safe ingress and egress, but that no change be made with respect to the control of access

as to location and number. The Engineer pointed out that there is a growing demand for such commercial development and he mentioned the section of US 101 north of Brookings to Pistol River. He also pointed out that the property owners would be required to pay the cost of added construction features on the highway, such as the cost of acceleration and deceleration lanes. As a result of careful consideration the Commission approved the recommendation as it applies to new highway construction and subject to the policy being state wide in character. The Chief Counsel was instructed to prepare an appropriate resolution covering the matter for adoption by the Commission at its next meeting, if possible.

Commissioner Fridley inquired as to the possibility of access from the Columbia River Highway to some of the Columbia River beach areas. The Engineer replied that a conference is to be held in The Dalles with interested persons in an endeavor to work out a plan by which developments may be made at all three Columbia River dams. These would involve interchanges. No action was taken by the Commission.

The Engineer outlined the route of a proposed Commission trip in Western and Central Oregon but action was deferred until later in the day. (See ahead for additional entry.)

The meeting recessed at 12:00 noon for lunch, and reconvened at 2:00 p. m. with the same persons present and participating.

The Engineer reported that the State Speed Control Board had established a 35 mile-per-hour speed zone on the Redwood Highway in the City of Cave Junction. To carry this speed zoning to a logical conclusion, he recommended that Speed Zone Resolution No. 153, adopted May 11, 1954, be rescinded, and that a 35 mile-per-hour speed zone be adopted between a point 950 feet north of the north city limits of Cave Junction at M. P. 28. 31, and the north city limits of Cave Junction at M. P. 28. 49, except that between a point 400 feet north of the north city limits of Cave Junction and the north city limits of Cave Junction the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved the speed zone by adopting the attached resolution relative thereto, marked EXHIBIT No. "E-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer also reported that the State Speed Control Board had established speed zones on the Beaverton-Hillsdale Highway in the city of Portland. To carry their speed zoning to a logical conclusion and to emphasize school crossings, he recommended that Speed Zone Resolution No. 246, adopted February 28, 1957, be amended to provide the following speed zones:

1. 50 miles per hour between the east city limits of Beaverton at M. P. 1. 61 and a point 0. 14 mile east of S. W. 78th Avenue at M. P. 2. 89, except that in the following sections the indicated speeds shall be 20 miles per hour during the hours of school crossings:

a. Between a point 0. 11 mile west of S. W. 91st Avenue and a point 0. 12 mile east of S. W. 91st Avenue.

b. Between a point 500 feet west of S. W. Laurelwood Drive and a point 500 feet east of S. W. 78th Avenue.

2. 35 miles per hour between a point 0.14 mile east of S. W. 78th Avenue at M.P. 2.39 and a point 0.11 mile west of the Multnomah County Line at M.P. 3.30.

3. 45 miles per hour between a point 0.11 mile west of the Multnomah County Line at M.P. 3.30 and the west city limits of Portland at M.P. 4.97.

The Commission approved his recommendation by adopting the attached resolution marked EXHIBIT No."E-2" , which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Parking along the Pacific Highway West in the community of Tigard is interfering with the movement of traffic in certain sections, the Engineer reported. To correct this condition and to provide safety for the traveling public as well as for the parked vehicles, he recommended that parking be prohibited on the northerly side of the Pacific Highway West between M.P. 8.99 (Engineer's Station 77+00) and M.P. 9.45 (Engineer's Station 96+82), and on the southerly side between M.P. 8.99 (Engineer's Station 77+00) and M.P. 9.51 (Engineer's Station 99+98). The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT No."F-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

In response to a request from Mrs. C. A. Madden, Portland, the Engineer stated that an investigation had been made of hazards caused by parking along the Beaverton-Hillsdale Highway through the section recently widened to four lanes. In the vicinity of business establishments near S. W. 45th Avenue, vehicles park head-in just off the pavement, restricting sight distance for the parked vehicles and for vehicles attempting to enter the highway from S. W. 45th Avenue and other streets at this point. He recommended: 1. That parking be prohibited on the southerly side of the highway between M.P. 3.77 (Engineer's Station 109+45) and M.P. 4.15 (Engineer's Station 89+05).

2. That parallel parking be required on the northerly side of the highway between M.P. 4.31 (Engineer's Station 80+70) and M.P. 4.36 (Engineer's Station (78+25).

3. That parallel parking be required on the southerly side of the highway between M.P. 4.32 (Engineer's Station 80+20) and M.P. 4.36 (Engineer's Station 78+10)

4. That shoulder parking be prohibited on the northerly side of the highway between the easterly right-of-way line of S. W. 45th Avenue at M.P. 4.42 (Engineer's Station 75+15) and M.P. 4.43 (Engineer's Station 74+45).

The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT No. "F-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer recalled that in May, 1955, the Commission had taken action to prohibit shoulder parking on the west side of The Dalles-California Highway south of Bend between M.P. 140.91 and M.P. 140.96. Since that time a situation has developed on the east side of the highway near a truck service station and a cafe in which shoulder parking, particularly large trucks, creates a distinct hazard. He recommended that shoulder parking be prohibited on the east side of The Dalles-California Highway between M.P. 140.89 (Engineer's Station 1148+20) and M.P. 140.96 (Engineer's Station 1151+90). The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT No. "F-3", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered a request from Malheur County that the State turn over to the County the old steel truss bridge recently removed from Bully Creek on the Central Oregon Highway west of Vale. The Engineer stated that the structure, which is stored in the maintenance yard at Vale, is too narrow to be used on state highways and he recommended that it be given to the County as they have asked for it. The Commission approved his recommendation.

Consideration was given to a request made by Lytle and Schroeder, attorneys at Vale, for modification of access provisions to allow for commercial use at two access points granted for residential use on the southerly side of the Central Oregon Highway, just east of Vale. The Engineer reported that the property was acquired in 1954 from Malheur County. To allow the modification would be a violation of the granted access rights which were for private residential use only. He also pointed out that almost directly across the road is property concerning which there had been a strongly contested condemnation suit involving private and commercial access rights. The Commission approved his recommendation that the request be denied.

Authority to travel out of state was requested by the Engineer and approved by the Commission for the following highway personnel:

1. S. N. Mayhew, Right of Way Supervisor, to attend the Fourth Annual Seminar of the American Right of Way Association, in San Francisco, California on May 27-31, 1958, at an estimated cost of $160.00.

2. Members of the State Highway Commission, W. C. Williams, Forrest Cooper, P. M. Stephenson, H. B. Glaisyer, L. I. Lindas, Tom Edwards, and S. H. Probert to attend the Annual WASHO Conference in Salt Lake City, Utah, June 3-6, 1958, at an estimated cost of $185.00 per person.

3. F. B. Crandall, Traffic Engineer, to attend a Traffic Conference in Sacramento, California, June 16-17, 1958, at an estimated cost of $160.00.

The Commission considered a claim submitted by Ray Osborn, Portland, in the amount of $70.00 to replace two tires on his car, which blew out while he was driving across the Shogren Overcrossing on US30 west of Mosier. The Engineer stated that an investigation was made and it was determined that an angle iron at one of the expansion joints had become loose, allowing it to raise

above the deck surface, and a sharp corner of this angle iron had cut the tires on Mr. Osborn's car. Upon his favorable recommendation, the Commission approved payment to Mr. Osborn.

The Commission also considered reimbursing the Department of Finance and Administration for damages to one of its vehicles in the amount of $215.89. The Engineer reported that on March 5, 1958 a vehicle driven by a State Highway employee had run through a red light in Salem and struck another state-owned vehicle. Insurance coverage does not provide for damage resulting from collision between two state-owned vehicles. As the Highway Department driver was at fault, he recommended that the Department of Finance and Administration be reimbursed in the amount of $215.89. The Commission approved the reimbursement.

Attention was given to a request from Standard Oil Company of California for a modification of their existing oil, gas and sulphur lease of May 19, 1955 so as to include portions of the Paulina Secondary Highway. The Engineer stated that the proposed modification is located in the Bear Creek area and consists of approximately 30.5 acres. Addition of this area to the original lease will not be harmful to the State and he recommended that their request be granted. The Commission approved his recommendation.

The Commission discussed with the Engineer a letter from Al Flegel, Chairman of the Legislative Highway Interim Committee, requesting appointment of a committee to meet with a similar committee appointed by the State of Washington to study financing problems on the proposed bridge across the Columbia River at Astoria. The Engineer remarked that members of this committee do not need to be members of the State Highway Department and he suggested the name of Fred H. Paulus, Assistant State Treasurer. After some further discussion, it was agreed that Chairman McIver, after consultation with the other two Commissioners, would select and present a list of names to Mr. Flegel.

Amendment of the "Through Stop" Highway Resolution as it pertains to the Lexington-Echo Highway No. 320 was requested by the Engineer. He explained that on December 5, 1957, the Stanfield-Pendleton Highway was turned over to Umatilla County. The Lexington-Echo Highway and the old Stanfield-Pendleton Highway intersect in the town of Echo. The proposed amendment does not change the stop indications as they exist but is made to recognize the fact that the former Stanfield-Pendleton Highway is no longer a part of the state highway system. The Commission approved the amendment by adopting the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A letter from the State Fair Commission concerning their new plans for location of county exhibits and other agricultural products at the 1958 State Fair was discussed briefly. The Engineer stated that no action is required and he remarked that the Highway Department had furnished the Fair Commission with quite an elaborate map for their convenience.

The Engineer reported that the Memorials Committee of the Oregon

Historical Society had approved the erection of two historical monuments. One of these, the Oregon History U S. Customs House Memorial, is proposed to be erected at 34th and Duane Streets on the route of the Columbia River Highway in Astoria. The other being the Oregon History Willamette Post Memorial is proposed to be erected near the new bridge across the Willamette River on the Hillsboro-Silverton Secondary Highway. He recommended and the Commission approved the installations at an estimated cost of $450 each and the following wording:

1. OREGON HISTORY
U. S. CUSTOM HOUSE

THE FIRST U.S. CUSTOM OFFICE ON THE PACIFIC COAST WAS ESTABLISHED WITH THE ARRIVAL OF JOHN ADAIR AT ASTORIA ON APRIL 3, 1849. ADAIR, FROM A DISTINGUISHED KENTUCKY FAMILY, WAS APPOINTED BY PRESIDENT POLK IN 1849. THE CUSTOM HOUSE OCCUPIED TEMPORARY QUARTERS FOR SEVERAL YEARS UNTIL THE GOVERNMENT BUILT THE FIRST FEDERAL BUILDING WEST OF THE ROCKY MOUNTAINS ON THE SITE IN APRIL, 1852.

2. OREGON HISTORY
WILLAMETTE POST

THE FIRST TRADING POST IN THE WILLAMETTE VALLEY WAS LOCATED ON THE PRAIRIE KNOLL 1/4 MILE NORTH OF THIS POINT. THE POST WAS ESTABLISHED IN 1811 BY THE ASTOR COMPANY TO TRADE FOR FURS AND TO TAKE GAME WHICH WAS CURED AND SENT BY CANOE TO FORT ASTORIA AT THE MOUTH OF THE COLUMBIA. SUBSEQUENTLY OPERATED BY THE NORTHWEST COMPANY FOR ABOUT TEN YEARS, IT WAS INFLUENTIAL IN BRINGING SETTLERS TO THE FRENCH PRAIRIE-CHAMPOEG AREA -- THE SITE OF THE ORGANIZATION OF THE FIRST GOVERNMENT BY AMERICANS ON THE PACIFIC COAST. THE BUILDINGS OF WILLAMETTE POST WERE CARRIED AWAY IN THE FLOOD OF 1861.

The Commission discussed with the Engineer and the Chief Counsel a letter from M.D. Van Valkenburgh, an attorney in The Dalles, concerning removal of a traffic island in front of the John Day Cafe on US30 in the town of Rufus. He urged that the island and the sight posts to the west of the island be removed immediately and that the four remaining posts be replaced with curbing at the expense of the Highway Department. The Chief Counsel pointed out that the Circuit Court for Sherman County had issued a preliminary injunction enjoining the Highway Department from further interfering with access to the John Day Cafe. It was the Engineer's opinion that the island should not be removed unless curbs are installed as previously proposed. No action was taken at this time as the Chief Counsel requested that further negotiations be undertaken.

The Commission approved the Secretary's report of papers that he had signed in behalf of the Commission during the period of March 21 to May 2, 1958.

May 8, 1958

The Commission discussed the time and place for the next regular Commission meeting and set the date for June 19 and 20. The Secretary was instructed to locate a suitable meeting place as the Queens Room in the Imperial Hotel is not available at that time.

A tentative date of July 31 and August 1 was set for the next meeting. Bids are to be received and opened in Salem on May 29, June 17 and July 10. No bid opening is to be held at the June Commission meeting.

The Commission also discussed a proposed trip through western and central Oregon, beginning June 16 and ending at midday on June 19.

Attention was given to a letter from the Mayor's Advisory Council on Urban Renewal in Portland concerning an agreement with the Urban Renewal Agency to reimburse the agency for the cost of properties acquired which will be needed for the proposed Sunset Highway extension. The letter pointed out that if a measure on the May 16 ballot is passed, the Urban Renewal Agency will start acquiring properties in the fall of 1958. Some of the property to be acquired will fall within one of two routes for the proposed Sunset Highway. They urged that an agreement be consummated to provide that the State reimburse them for properties acquired which are needed for highway right of way. The Engineer remarked that although their suggestion appeared to be good, he did not know whether the State could legally acquire the properties and he mentioned the fact that the Bureau of Public Roads requires that right of way cannot be acquired more than five years in advance of construction. Concerning the amount to be paid for the property acquired, the Chief Counsel pointed out that the Commission can pay only just compensation for the value of the land when it is actually acquired. Mr. Fred Fowler, representing the City of Portland, pointed out that the State might be buying cleared land areas which the City had acquired as developed areas and from which they had subsequently removed the buildings. Chairman McIver stated that in his opinion the Commission could not say at this time what price could be paid for properties at a later date. The Commission instructed the Chief Counsel to contact the Urban Renewal authorities and advise them by letter of the Commission's position.

The Engineer reported that the U.S. Soil Conservation Service is making a survey of soil types throughout the country. They anticipate covering about three counties per year in Oregon. Testing of soils has become too large a project for the laboratories of the U.S. Bureau of Public Roads and they have requested that the States do the testing. The State Highway Laboratories, the Engineer continued, are busy with our own work and he recommended that the testing be done by Oregon State College. As there will be value to the State Highway Department in the soil classification survey and as a cooperative measure with the Bureau of Public Roads, he recommended that an agreement effective May 1, 1958 to December 31, 1959, be entered into with Oregon State College to perform the work at a cost of approximately $4,200 per year to be reimbursed by Bureau of Public Roads planning funds. The Commission approved the recommendation.

The Engineer stated that he had received a letter from Mr. Harry White of Rogue River concerning acquisition of a portion of his farm along the Rogue River which will be used as right of way for the relocated section of the Pacific Highway between Grants Pass and Gold Hill. He recalled that this matter had been presented by Mr. White at the hearing at Rogue River last December and that the property needed for right of way would take a large section of his farm. He also pointed out that there are two miles of Rogue River frontage on this property and it might be feasible to acquire the entire ranch with the prospect of

using the river frontage as a park site. Chairman McIver recalled that at the hearing, Mr. White had expressed a desire to not have his farm disturbed but as the only feasible location for the highway lies across his property, it will not be possible to avoid taking it. He also was of the opinion that it might be reasonable to acquire the entire farm with the possibility of utilizing the river frontage as a park site. No action was taken.

The Commission again considered a program of highway construction projects using anti-recession funds as provided by Congress in the 1958 Highway Act. This matter had been considered earlier in the day and after some further discussion, the Commission approved the following program as presented by the Engineer and released the information to the press.

ANTI-RECESSION PROGRAM
PROJECTS

PROGRAM III
April 10, 1958

DIVISION I

HIGHWAY	SECTION	ESTIMATED COST
	URBAN	
Beaverton-Hillsdale	Hillsdale-Barbur Boulevard	$ 350,000
	PRIMARY	
Pacific West	Middleton-Yamhill County Line (Part)	500,000
Pacific West	Hamilton Street-Slavin Road	250,000
Sunset	North Plains Interchange	425,000 *
		$ 1,175,000
	SECONDARY	
Beaverton-Tualatin	Tigard-Durham Road	$ 120,000
	Division Total	$ 1,645,000

*Not previously approved.

DIVISION II

HIGHWAY	SECTION	ESTIMATED COST
	URBAN	
Silver Creek Falls	State Street (Salem)	$ 150,000
	PRIMARY	
Oregon Coast	Roosevelt Drive (Seaside)	$ 275,000
Lower Columbia	Wauna-Westport	500,000 *
		$ 775,000

May 8, 1958

	SECONDARY	
Nehalem	Nehalem River Bridge Replacement	$ 100,000
Three Mile Lane	Airport Junction-Lafayette Road	165,000
		$ 265,000
	Division Total	$1,190,000

* Not previously approved.

DIVISION III

HIGHWAY	SECTION	ESTIMATED COST
	URBAN	
Pacific	Main Street-Avery Street (Ashland)	$ 150,000
McKenzie	10th Street-19th Street (Springfield)	135,000
		$ 285,000
	PRIMARY	
Coos Bay-Roseburg	N. Fork Coquille River-Myrtle Point	$ 600,000 *
Oregon Coast	Bullards Bridge-Bandon	300,000
		$ 900,000
	SECONDARY	
Junction City-Eugene	Santa Clara-Eugene	$ 300,000
	Division Total	$1,485,000

* Not previously approved.

DIVISION IV

HIGHWAY	SECTION	ESTIMATED COST
	URBAN	
The Dalles-California	Klamath Falls Bypass Structure Oregon Avenue	$ 125,000

May 8, 1958

	PRIMARY	
The Dalles-California	Klamath Falls Bypass Structures (2) "A" Canal	$ 210,000
Willamette	West Unit, Crescent Lake Junction-The Dalles-California	$ 310,000
		$ 520,000
	SECONDARY	
Paulina	Post-Camp Creek (Part)	$ 335,000
	Division Total	$ 980,000

DIVISION V

HIGHWAY	SECTION	ESTIMATED COST
	URBAN	
Old Oregon Trail	Tenth Street (Baker)	$ 160,000
	PRIMARY	
John Day	Service Creek-Burton Canyon	$ 650,000
	SECONDARY	
Kimberly-Long Creek	Middle Unit, Hamilton-Long Creek	$ 390,000
	Division Total	$1,200,000

The matter of opening bids for highway construction in the Salem office was brought up by the Engineer. He requested authority to hold bid openings in Salem and advertise the projects when there are enough projects ready to warrant advertising. It was his thought that bids would probably be received about every three weeks. The matter was discussed briefly and the Commission authorized the Engineer to advertise for bids to be received on construction projects at such times as there are sufficient projects and to notify the Commission. Bids are to be opened in the Salem office and referred to the Commission for award at the next following Commission meeting. Chairman McIver commented that this practice would be similar to that followed in the neighboring states of Washington and California. He inquired if any objections had been received from contractors or others concerning previous opening of bids in the Salem office. The Engineer replied that no objections had been heard and it is planned that bids will be received in Salem on May 29.

The matter of acquiring rights of way on the Eastside Freeway Section of the Pacific Highway in Portland was brought up by Chairman McIver. It was

his thought that a request should be made to the Bureau of Public Roads in Washington, D. C., for consideration of the entire Eastbank Freeway route in Portland as one project. He stated that it is not intended to ask them at this time to approve the entire project but simply to present the matter to them to see if they could consider it as a single project. He pointed out that many parcels of right-of-way will have to be acquired in completing this project and it would relieve right-of-way difficulties and save considerable money if the entire project could be approved so that property owners would know as soon as possible what property is to be acquired. On his recent trip to Chicago, he stated that he had discussed this matter with Mr. C. W. Enfield, former Chief Counsel for the State Highway Department and now holding a similar position with the Bureau of Public Roads in Washington, D. C. Mr. Enfield, he stated, had suggested that a request be made to authorities in Washington, D. C. to consider the entire Eastbank Freeway route as one project as the beginning step. The Engineer was instructed to follow up in the matter and prepare a letter outlining the request.

The Engineer requested authority to hold public hearings as required by law in connection with the recently approved anti-recession or "crash" program. He pointed out that a good many cities, towns, and communities are involved and it will expedite matters if the dates for these hearings can be set as they are required. The Commission granted the authority.

The Engineer also mentioned that Mr. Walter Pearson is scheduled to appear before the Commission on the following day to urge that insurance required on the bridges between Vancouver and Portland be placed with Oregon agents. He pointed out that an agreement had previously been approved with the Washington Toll Bridge Authority and the Washington State Highway Department outlining functions that are to be performed by each in connection with the construction and reconstruction of the Portland-Vancouver Interstate bridges. According to this agreement, the Washington Toll Bridge Authority exercises control over the insurance features. Chairman McIver stated that under the terms of the existing agreement, about all the Oregon Highway Commission can do is to place the matter before the Washington Toll Bridge Authority. (See delegation ahead.)

The Commission discussed with the Engineer subjects to be presented by delegations scheduled to appear on the following day. The Engineer outlined briefly the salient facts concerning each but no action was taken at this time pending the appearance of the delegations.

Chairman McIver stated that in the future when delegations appear before the Commission, it is planned to hear the delegations, request the Engineer or the appropriate staff officer to explain the facts, and then to advise the delegations by letter of the Commission's decision except in those instances where the answer is obvious. It was his feeling that delegations should be given an opportunity to present their requests, that the known facts should be given to the delegations, and that hearings should not be argumentive sessions. After the delegations have presented their evidence, and the facts have been outlined by the Engineer or other staff officer, the Commission can then consider the matter and advise the delegations of their decision by letter.

The Secretary stated that for the past several months, various makes of recording machines have been tried out by his staff and he requested authority to spend not in excess of $1,200 to purchase recording and transcribing equipment for Commission meetings, hearings, and office use. The Commissinn granted the authority.

Concerning the change in Commission policy in granting access on some sections of State highways, which was discussed and approved by the Commission earlier in the meeting, the Chief Counsel stated that it would probably take considerable time to prepare a statement or resolution clearly defining the policy change. Chairman McIver stated that the Commission would grant as much time as is needed to prepare a complete and proper statement.

The Commission signed the following agreements and other papers:

1. "Indentures of Access" on the following properties:

   (a) Crook property on Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, Curry County. (Agenda Item 1-B (4)

   (b) Payne property on Jones Ranch-Mitchell Section of Ochoco Highway, Wheeler County. (Agenda Item 1-B (4)

   (c) Gerhart (O'Brien, contract purchasers) property on Forest Boundary Gilchrist Unit of Lapine-Diamond Lake Junction Section of The Dalles-California Highway, Klamath County. (Agenda Item 1-B (4)

   (d) Seven properties on Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County. (Agenda Item 1-B (4)

2. "Renewal of Lease" for a three-year period of a gratis stockpile site lease with City of Tualatin. (Agenda Item 1-B (8)

3. "Relinquishment of Easement" on property situate on Lombard-Killingsworth Section of N. E. Portland Highway, Multnomah County. (Agenda Item 1-B (9)

4. "Lease" at request of Standard Oil Company of California for a modification of their previous oil, gas and sulphur lease of May 19, 1955. (Agenda Item 5-g)

5. "Consent to Street Vacation" for the vacation of certain streets within the boundaries of the Exposition-Recreation Site in Portland. (Agenda Item 1-B (10)

6. "Finance Agreement" with Benton County covering the Alsea Junction-Beaver Creek School Section of FAS 206 in Benton County. (Authorized January 16, 1958)

7. "Agreement" with City of Klamath Falls in which the city agrees to furnish the water for irrigation of the landscaped area of the South 6th Street

Overcrossing project. (Authorized December 5, 1957)

8. "Supplemental Agreement" with City of Portland covering the S. W. 14th Avenue-Washington County Line project on the Pacific Highway in City of Portland.

9. "Supplemental Agreement" with O. W. R. & N., Oregon Short Line R. R. Company and Malheur County pertaining to highway changes at M.P. 67.91 on Oregon Eastern Branch.

10. "Supplemental Agreement" with O. W. R. & N., relative to moving of a spur track located at west of N. E. 31st Avenue on T. H. Banfield Expressway.

11. "Agreement" with O. W. R. & N., covering undercrossing of railroad on the Portland International Airport.

12. "Agreement" with O. W. R. & N., relative to the Mosier-Rowena Section of the Columbia River Highway between Mosier and Rowena in Wasco County.

13 "Supplemental Agreement" with City of Portland covering the Harbor Drive-S. W. 14th Avenue Section project on the Pacific Highway in City of Portland.

14. "Agreement" with P & A Enterprises, Inc., covering the lease of the building at Rooster Rock. (Authorized March 28, 1958)

15. "Consent and Ratification" at request of Standard Oil Company of California for a modification of their previous oil, gas and sulphur lease so as to transfer to Sunray Mid-Continent Oil Company a portion of their original lease on Paulina Highway. (Agenda Item 1-B (11)

16. "Agreement" with Oregon State College covering soil classification survey as requested by the Bureau of Public Roads. (Agenda Item 5-p)

17. "Bargain and Sale Deed" for 0.44 acre on Marshfield-Coquille Section of Oregon Coast Highway, Coos County, to Millington Rural Fire District (Agenda Item 1-B (a)

18. "Agreement" with city of Roseburg release of 16.34 acres of highway department land for city purposes. (Authorized April 3, 1958)

The Commission discussed with the Engineer bids received in Salem April 17 and bids received at this morning's session and at 4:00 p.m., Commissioner Chessman announced the award of contracts as follows:

BIDS RECEIVED IN SALEM ON APRIL 17, 1958

"Oiling the Alsea Junction-Beaver Creek School Section of the Alsea Highway-Greenberry Road in Benton County. The Commission awarded the

contract to the low bidder, Babler Bros., Inc., Portland, $30,200.00.

"Construction of Muddy Creek Bridge two and one-half miles west of Pacific Highway West on Corvallis Airport Road in Benton County. The Commission referred all bids to Benton County for award.

"Clean and paint three bridges - John Day River Bridge, east of Astoria on Columbia River Highway; Lewis & Clark River Bridge, west of Astoria; and Nehalem River Bridge on Oregon Coast Highway in Clatsop County. The Commission awarded the contract to the low bidder, Collins & Foss, Los Angeles, California, at $12,375.00.

"Grading the Burnt Hill-Hooskanaden Creek Section of the Oregon Coast Highway in Curry County. The Commission elects to accept the low bid of Peter Kiewit Sons' Co., Medford, in the sum of $1,318,441.50, and directs the State Highway Engineer to award the contract to the said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving and construction of one reinf. conc. structure on the Shady-Roberts Creek Section of the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at $300,483.00.

"Clean and paint 5 bridges - Tiller Bridge; Days Creek Bridge, and 1st, 3rd, and 4th crossings at Elk Creek on Umpqua Highway in Douglas County. The Commission awarded the contract to the low bidder, O & S Painters, Inc., Tigard, at $9,730.00.

"Signals and Illumination Installation in Medford in Jackson County. The Commission awarded the contract to the low bidder, Trowbridge & Flynn Electric Co., Medford, at $27,461.00.

"Stone base and oiling the Agency Plains Section on three county roads in Jefferson County. The Commission awarded the contract to the low bidder, Porter W. Yett, Ore. Ltd., Portland, at $137,575.60.

"Stone base and paving the Eugene Airport Junction Section of the Pacific Highway West in Lane County. The Commission awarded the contract to the low bidder, The Central Heating Co., Ore. Ltd., Eugene, at $11,548.00.

"Deerhorn-Belknap Camp Rock Production Project on the McKenzie Highway in Lane County. The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at $42,531.00.

"Siuslaw River Bridge at Richardson on Richardson-Eugene Highway in Lane County. The Commission awarded the contract to the low bidder, Sig Andersson, Coos Bay, at $66,535.00.

"Clean and paint Yachats and Siletz Bridges on Oregon Coast Highway at Yachats and Kernville in Lincoln County. The Commission awarded the contract to the low bidder, Collins & Foss, Los Angeles, California, at $7,590.00.

"Construct Big Elk Creek Bridge near Elk City on county road no. 584 in Lincoln County. The Commission awarded the contract to the low bidder, Lundmark Bros., Colton, at $40,717.00.

"Oiling, structure and furnishing crushed materials in stock pile on Gilliam County Line-McNab Section of the Olex-McNab Road, near Heppner, in Morrow County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $63,743.00.

"Grading the Rooster Rock-Multnomah Falls Section of the Columbia River Highway in Multnomah County. The Commission awarded the contract to the low bidder, Rogers Construction, Inc., Portland, at $509,343.00.

"Stone base and paving the Athena (2nd St.) Section on 2nd Street in the City of Athena in Umatilla County. The Commission awarded the contract to the low bidder, K. C. Dack Construction Co., Pendleton, at $20,107.00.

"Grading and oiling and furnishing materials in stock pile on Union (Bellwood Ave.) in the City of Union in Union County. The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at $34,449.00.

BIDS RECEIVED IN PORTLAND AT 9:00 A.M., May 8, 1958

"Construct Dooley Mountain Summit Sand Shed on Baker-Unity Highway, about 15 miles south of Baker, in Baker County. The Commission awarded the contract to the low bidder, H. G. Wirtz, Grants Pass, at $13,433.00.

"Grading and paving Gladstone (First St.) Sectinn on First Street in the City of Gladstone in Clackamas County. The Commission elects to accept the low bid of Parker and Fuhrman & Rich Valley Topsoil Co., Portland, at $20,815 50, and directs the State Highway Engineer to award the contract to the said bidder as soon as approval of the City of Gladstone is received and the sum of $3,950.00 is deposited by the City.

"Traffic Signals on the Pacific Highway at Lincoln Street in Eugene in Lane County. The Commission awarded the contract to the low bidder, Steeck Electric Co., Medford, at $5,565.00.

"Division No. 3 (North) oiling project on six state highways and one camp road near Dexter, Blue River, Blachly, Swisshome, Eugene, Florence and Reedsport in Lane and Douglas Counties. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $51,528.50.

"Bridge replacement on the Thiel Creek Section of the Oregon Coast Highway, 3.2 miles south of Newport, in Lincoln County. The Commission awarded the contract to the low bidder, Isaacson Bros., Cottage Grove, at $19,786.56.

"Grading the Lebanon Road-Saddle Butte Section of Pacific Highway, about 6 miles south of Albany, in Linn County. The Commission elects to accept the low bid of Roy L. Houck & Sons & Roy L. Houck Sons Corp.,

Salem, in the sum of $582,868.00, and directs the State Highway Engineer to award the contract to the said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Reconstruct Santiam Overflow Bridge in Linn County. The Commission awarded the contract to the low bidder, McCoy & Houck, Woodburn, at $46,150.00.

"Redeck lift span of Steel Bridge over Willamette River on Pacific Highway in City of Portland in Multnomah County. The Commission elects to accept the low bid of The Steel Const. Co. of Oregon, Portland, in the sum of $119,600.00, and directs the State Highway Engineer to award the contract to the said bidder as sonn as approval of Union Pacific Railroad Co. is received.

"Grading the Coleman Creek-Short Creek Section of the Cape Meares Loop Road in Tillamook County. The Commission elects to accept the low bid of Don Greene Construction Co., Salem, in the sum of $106,574.00, and directs the State Highway Engineer to award the contract to the said bidder as soon as approval of Tillamook County is received and the sum of $24,300.00 is deposited by the County.

"Stone base and paving the Hermiston (Orchard Ave. & Maple Ave.) Section on Orchard Ave. and Maple Ave. in the City of Hermiston in Umatilla County. The Commission elects to accept the low bid of Russell Olson Construction Co., Inc., Pendleton, in the sum of $25,192.00, and directs the State Highway Engineer to award the contract to the said bidder as soon as approval of the City of Hermiston is recieved and the sum of $8,700.00 is deposited by the City.

"Addition to Maintenance Building at Ukiah on Pendleton-John Day Highway in Umatilla County. The Commission awarded the contract to the low bidder, Enoch I. Maerz, Salem, at $14,367.00.

"Structure, grading and oiling on Cornelius-Blooming Road, Tualatin River Overflow Bridge Section in Washington County. The Commission elects to accept the low bid of R. H. Jones, Hillsboro, in the sum of $36,786.50, and directs the State Highway Engineer to award the contract to the said bidder as soon as approval of Washington County is received and the sum of $8,300.00 is deposited by the County.

"Grading and paving the Sheridan (Bridge St.) Section on Bridge Street in the City of Sheridan in Yamhill County. The Commission awarded the contract to the low bidder, Central Paving Co., Independence, at $16,093.00.

"Remove Dayton Bridge over Yamhill River at Dayton in Yamhill County. The Commission awarded the contract to the low bidder, Dayton Auto Wreckers, Dayton, at $3,000.00.

The Commission instructed the Secretary to prepare name plates to be placed on the tables in front of the respective persons attending the Commission meetings so that delegations and persons who appear before the Commission can identify the Commission and its representatives.

May 8, 1958

The meeting adjourned at 4:10 p.m. to be reconvened at 9:00 a.m. on the following day.

Portland, Oregon
May 9, 1958

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who then announced that award of contracts would be made in the same room at 4:00 p.m.:

COLUMBIA COUNTY

GRADING AND PAVING ST. HELENS SECTION OF THE COLUMBIA RIVER HIGHWAY

The Central Heating Co., Oregon Limited, Eugene	$ 26,376.00
K. F. Jacobsen & Company, Inc., Portland	27,522.00
Oregon Asphaltic Paving Company, Portland	32,495.50
The United Contracting Company, Portland	33,931.50
Portland Road & Driveway Company, Portland	36,161.50

COOS COUNTY

STONE BASE AND PAVING ON POWERS SECTION ON CITY STREETS

Woodward & Son & Barklow, Coquille	$ 16,679.00
Johnson's Cement Products, Coos Bay	17,907.20

HARNEY COUNTY

BURNS MAINTENANCE BUILDING

Endicott Logging Company, Prineville	$ 22,230.00
Harney Homes, Inc., Burns	22,455.00
C. P. Patterson, Redmond	25,878.00
Bennett & Hickey, Burns	28,710.00

LANE COUNTY

CLEAN AND PAINT HENDRICKS BRIDGE OVER MCKENZIE RIVER ON MCKENZIE HIGHWAY

J. E. Brown, Portland	$ 5,568.00
Repine & Gregg Painting Company, Salem	5,932.00
O & S Painters, Inc., Tigard	6,540.00
Tri-State Painting Company, Portland	7,780.00
A. H. Barbour & Son, Inc., Portland	10,560.00

LINCOLN COUNTY

BEVERLY BEACH PARK FENCING PROJECT SOUTH OF DEPOE BAY ON OREGON COAST HIGHWAY

NO BIDS RECEIVED

LINN COUNTY

GRADING SADDLE BUTTE-TWIN BUTTES SECTION OF PACIFIC HIGHWAY SOUTH OF ALBANY

R. A. Heintz Construction Company, Portland	$1,037,844.00
Roy L. Houck & Sons & Roy L. Houck Sons Corp., Salem	1,043,313.50
Babler Brothers, Inc., Portland	1,093,779.00
G. D. Dennis & Sons, Portland	1,094,346.50
J. N. Conley, Portland	1,099,026.00
McCammon-Wunderlich Company, Palo Alto, California	1,198,904.50
Fred H. Slate Co. & E. C. Hall Co., Portland	1,276,675.00
Gibbons & Reed Company, Portland	1,353,711.00
Earl L. McNutt Company, Eugene	1,619,563.00

MALHEUR COUNTY

CONSTRUCT TWIN BRIDGES OVER SNAKE RIVER ON OLD OREGON TRAIL HIGHWAY

Hansen & Parr Construction Company, Spokane, Washington	$ 952,650.00
Wayne Construction Company, Seattle	961,130.00
Erwin-Colnon Contracting Co. & LeBoeuf-Dougherty, Inc., Richmond, California	968,345.00
Peter Kiewit Sons' Company, Vancouver, Washington	980,796.00
Tom Lillebo Construction Company, Reedsport	996,624.60
Hamilton & Thoms, Eugene	1,045,973.00
General Construction Company, Portland	1,157,630.00

MULTNOMAH COUNTY

GRADING AND PAVING HOLLADAY CONNECTION TO BANFIELD EXPRESSWAY IN CITY OF PORTLAND

C. J. Montag & Sons, Portland	$ 172,934.25
John L. Jersey, Inc., Portland	176,050.00

Gibbons & Reed Company, Portland	186,101.00
Inland Construction Company, Milwaukie	193,244.00

May 9, 1958

Holladay Connection to Banfield Expressway (Cont.)

Lord Brothers Contractors, Portland	$ 194,263.00
Birkemeier Construction Company, Portland	196,624.00
Valley Construction Company, Portland	211,750.50
Kuckenberg Construction Company, Portland	212,490.50
Hannan Brothers Company, Portland	215,108.25

WASCO COUNTY

GRADING, PAVING, AND STRUCTURE ON THE EAST UNIT, SHOGREN-ROWENA SECTION OF THE COLUMBIA RIVER HIGHWAY

Rogers Construction Company, Portland	$ 531,058.00
Babler Brothers, Inc., Portland	547,699.00
G. D. Dennis & Sons, Portland	558,738.50
Central Paving Company, Independence	570,330.00
Vernie Jarl, Gresham	586,435.00
Dolan Construction Company & J. Bacaloff, Portland	590,220.50
C. H. Strong Engr. & Constr., Eugene	643,470.50
Natt McDougall Company, Portland	690,051.25
Earl L. McNutt Company, Eugene	717,712.60
Fred H. Slate Company & E. C. Hall Company, Portland	719,060.00
J. N. Conley & S. B. Spencer & Son, Portland	722,163.50
White Brothers Const. Company, Walla Walla, Washington	758,265.00
R. A. Heintz Construction Company, Portland	766,228.50
Morrison-Knudsen Company, Inc., Boise, Idaho	774,025.85
Roy L. Houck & Sons and Roy L. Houck Sons' Corp., Salem	787,976.60
Gibbons & Reed Company, Portland	816,700.50
Newport Construction Company, Portland	873,271.50

At 10:30 a.m. a delegation composed of 106 persons, headed by Mr. Art Steele, Clatskanie, President of the Lower Columbia River Highway Association, came before the Commission and urged improvement of the Lower Columbia River Highway rather than construction of the Smith Point project south of Astoria, as proposed.

Mr. Steele read aloud and presented a prepared statement expressing appreciation for work heretofore performed on the Lower Columbia River Highway and urging that highway monies be used for highway purposes only and not for public buildings or the economic benefit of a community. The statement favored improvement of the highway in the Linnton area and use of the Lewis and Clark route for US101 south of Astoria rather than the proposed Smith Point Bridge route. Mr. Steele stated that in opposing the Smith Point Bridge project it is felt that the cost of this project will preclude any other developments in the northwest area for at least three years. He asked that a re-examination be made of the Smith Point project as he felt that traffic since 1954 had decreased rather than increased as had been contemplated. He pointed out some disadvantages of the Smith Point route mentioning among other things, congestion

in the city of Astoria, icy conditions at the mouth of Youngs Bay, and the higher cost of this project in comparison with the Lewis and Clark route.

Mr. Harry Cummings, Portland, President of the Oregon Motor Court Association, urged development of the Lower Columbia River Highway for its scenic value as an attraction to tourists, and asked the Commission to spend available funds in this area where the expenditure would provide the greatest benefit for the largest number of people.

Mr. Francis Harrington, Portland, representing the Clatsop County Improvement League, stated that studies have been made of both the Smith Point and Lewis and Clark routes, and he urged the Commission to re-examine the Smith Point project.

Mr. Ray Henderson, Portland, Secretary of the Oregon Motor Court Association, criticized the large expenditure of funds which is necessary to finance the Smith Point project. He urged that such funds be distributed more widely. He also favored improvement of the Lower Columbia River Highway as an attraction to tourists.

Chairman McIver advised the delegation that their requests would be given careful consideration and that the group would be advised later of the Commission's action.

A delegation consisting of five people, all members of the Arlington Chamber of Commerce appeared before the Commission concerning improvement of the John Day Highway between Arlington and Condon. The following people formed the group: Vern Arstill; Lester Grant; Foster Odom; Hon Jack Harford, Mayor of Arlington, and Harold Hartfield.

Mr. Vern Arstill, who acted as spokesman, introduced the other members of the delegation and presented to the Commission written material and pictures favoring the improvement. He pointed out that a great amount of agricultural produce is hauled over the 15 mile section south of Arlington and that no improvement has been made on this section since it was first constructed. The roadway, he continued, is crooked and very narrow. In fact, school buses have difficulty in staying on the paved portion of the road. He urged the Commission to make improvement to the section under the emergency highway construction program.

Mr. Hartfield stated that he has lived in this area for many years, and that the highway is in the same condition now as it was when it was first oiled in 1924. The oiled surface, he said, is narrow and rough as are also the highway shoulders, making it difficult for two trucks to pass.

Mr. Odom also emphasized the rough condition of the highway surface and the difficulty in driving over it.

Chairman McIver informed the delegation that their request would be investigated and that they would be advised of the Commission's decision.

A group representing the Nehalem Bay Expansion Association came before the Commission concerning access to the Nehalem Bay area, particularly improvement to the Necanicum Highway. The following people were present: Mr. J. H. Scott, Chairman, Nehalem Bay Expansion Association, Nehalem; Mrs. J. H. Scott, Nehalem; Mr. Walter R. Randolph, Mayor of Nehalem and President of the Nehalem Bay Expansion Association; Erling Braugi, member, Nehalem Bay Expansion Association, Nehalem; Orin Campbell, member,

Nehalem Bay Expansion Association; Clyde D. Lewis, Mayor, Wheeler; Ben S. Lane, Mayor, Manzanita; O.E. Effenberger, County Judge, Tillamook; Mrs. G. Harris, member, Nehalem Bay Expansion Association, Manzanita; and Mr. and Mrs. T. C. Niner, Portland.

Mr. Scott introduced the other members of the delegation and called attention to the very real need that the Nehalem Bay area has for better access to the rest of the state. Timber in this area, he stated, has been cut and tourists are needed to bolster the area's economy. However, tourists refuse to travel the extremely crooked and narrow Necanicum Highway which, he stated, has not been materially improved since it was constructed approximately 40 years ago. He recalled that when the Wilson River route was approved, the Highway Commission indicated that it would build a connection into the Nehalem Valley area. He urged the Commission to reconstruct the existing Necanicum Highway or relocate it on a shorter route, and to construct the so-called Nehalem River Cutoff from the Nehalem Bay area to a connection with the Wilson River Highway near Elsie.

Tillamook County Judge Effenberger stated that the County Court has endorsed this project.

Mr. Randolph urged that action be taken to provide better access to the Nehalem Bay area.

Mr. Lane stated that he was present when the Commission in 1931 had stated that an access road would be constructed into the Nehalem Valley.

Mr. Scott commented that the delegation is not attempting to say which is the best route but a better route is most urgently needed.

The delegation was advised by Chairman McIver that their request would be given careful consideration and that the Secretary would advise them later as to the Commission's decision.

Mr. E. R. Baldwin, City Manager of Warrenton; Mr. Clair Wade and Mr. John Shepard representing the Warrenton Chamber of Commerce; Mr. Charles DeFoe, Manager of the Astoria Chamber of Commerce; and Mr. Forrest Vaughn, Chairman of the Astoria Chamber of Commerce Highway Committee, came before the Commission in behalf of the Smith Point Bridge project on the Oregon Coast Highway south of Astoria. Mr. Baldwin, who headed the group, commented that the Smith Point project has been maligned and he urged reappraisal of the project be made on the basis of the facts. Mr. DeFoe observed that they would be willing to let the facts decide the matter. He also said that they will be 100% in favor of any decision the Commission may reach. He urged an early start in construction of the project. He pointed out that during the past four years nine people had been killed at a point on the old route south of Astoria known as Deadmans Corner.

Chairman McIver stated that the matter would be considered carefully and that the Secretary would advise them of the Commission's decision.

Mr. Nicholas Kutzman, Astoria, who was present, interposed that in spite of statements made by the Astoria delegation most of the people in Astoria are opposed to the Smith Point project.

A delegation representing the "Housewives of 42", Coos County, came before the Commission concerning improvement of the Coos Bay-Roseburg Highway. Mrs. Don Driscoll, Myrtle Point, acted as spokesman. Also present were Mr. George F. Burr, Mayor of Coquille; Mr. B. L. Higgins, Manager of the Coos County Chamber of Commerce; Mr. Pat Bowen and J. H. Bowen representing the Coquille Chamber of Commerce; and twenty women from Myrtle Point, Coquille and Roseburg. Mrs. Driscoll inquired as to what improvements are planned between Winston and Rink Creek. Mr. George Burr read a statement emphasizing the volume of traffic that Highway 42 carries and the need for its improvement. He also pointed out that improvement of the highway has not kept pace with the growth of the community. At the request of Chairman McIver, the Engineer outlined the plans for improvement of Highway 42. He stated that the amount of money available for highway improvements has been considerably exaggerated. He called attention to the fact that out of $859,000 available in Division #3, $600,000 has been allocated to improve Highway 42. Mrs. Brodie thanked the Commission for the prospective improvement and stated that the "Housewives of 42" are anxiously waiting for completion of the entire highway and will continue their efforts to that end. Chairman McIver commented that the estimated cost to improve the entire highway is approximately $14,000,000 and that it will take several years to get it. The Commission, he continued, plans to formulate another program in late 1958 and at that time consideration will be given to the further improvement on Highway 42. Mrs. Rosemary Linn and Mrs. Grace Stemmler asked that funds be used for improvement of the section between Winston and Myrtle Point. The Engineer stated that this section has not yet been surveyed. He also pointed out that under the anti-recession "crash program" approved by the national Congress, the work must be placed under contract by December of 1958 and completed by December of 1959.

Mr. Walter J. Pearson and Mr. Joe Newman, both of Portland, came before the Commission concerning the writing of insurance required for the interstate bridge between Portland and Vancouver. Mr. Pearson urged that as much of this insurance as possible be placed through Oregon agencies, particularly with Phil Grossmayer Company and Walter J. Pearson and Company. The Chief Counsel explained that under the terms of the agreement covering construction of this bridge the Washington Toll Bridge Authority handles the insurance on the Interstate bridges. Mr. Pearson then inquired if the Commission would recommend to the Washington Toll Bridge Authority that a portion of the insurance be placed with Oregon agencies. Chairman McIver replied that the suggestion would be given careful consideration.

The meeting recessed at 12:00 noon for lunch and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

A delegation representing Klamath, Lake, Jackson, and Josephine Counties in Oregon and Humboldt County in Nevada appeared before the Commission concerning construction of an east-west highway through southern Oregon from Winnemucca in Nevada to Grants Pass in Oregon and on to the sea. The following people were present: Francis S. Landrum, Consulting Structural Engineer, Klamath Falls; Charles Mack, County Judge, Klamath County, Klamath Falls; Jerry Rajnus, Klamath County Commissioner, Klamath Falls; Chris H. Langslet, Lake County Judge, Lakeview; C. W. Ogle, Lake County

Commissioner, Lakeview; J. D. Corum, Lake County Commissioner, Lakeview; Julian Herndon, Lake County District Attorney, Lakeview; Chester Wendt, and Ralph James, County Commissioners of Jackson County, Medford; Paul Rynning, Jackson County Engineer, Medford; Chet Hubbard, Medford Chamber of Commerce, Medford; R. A. Lathrop, Josephine County Judge, Grants Pass; Bruce Davidson, Josephine County Commissioner, Grants Pass; Frank Bengochea, Humboldt County Commissioner, Winnemucca, Nevada; Lyman Scwhartzz, Humboldt County Commissioner, Winnemucca, Nevada; Mr. Franzway, Humboldt County Chamber of Commerce, Winnemucca, Nevada. Mr. Landrum headed the group and introduced the other members of the delegation. He pointed out the need for an improved east-west highway for the economy of the region. He also called attention to the extremely crooked portion of the route now known as the Green Springs Highway, and he asked the Commission to consider adoption of the route from Fish Point to Eagle Point known as the Lake of the Woods Road. He stated that construction from Winnemucca to Denio in Nevada and from Denio to Adel would be relatively simple and cheap. A section of the Klamath Falls-Lakeview Highway near Bly Mountain, he said, is crooked and narrow and he urged that this section be improved. He called attention to action that the counties have taken, mentioning that Klamath County had agreed to take over a portion of the Klamath-Lakeview Secondary Highway when the Lake of the Woods road is placed on the Forest Highway System, and that Lake County has been developing east-west roads in their county. Humboldt County, he continued, also has plans to construct approximately 16 miles of highway. He urged that the missing gaps be constructed and that the unimproved sections be brought to acceptable standards so that the route could be designated as a federal highway. Mr. Langslet was of the opinion that the 32 mile section between Adel and Denio could be constructed for approximately $1,000,000. He read aloud a telegram calling attention to the need for this highway for the transportation of uranium from the Steens Mountains. Mr. Bengochea from Humboldt County stated that the State of Nevada has plans to construct approximately 16 miles but before they can proceed they need to know the location of the road as it will be constructed in Oregon.

Mr. Landrum inquired if Klamath County could be notified when the U.S. Bureau of Public Roads has made an inspection and approved the Lake of the Woods Road as a Forest Highway. The Engineer advised that the State Highway Commission had recommended to the Bureau of Public Roads that the Lake County portion be placed on the Federal Secondary Highway system which would enable Lake County to use Federal funds to finance improvements thereon. Regarding the Lake of the Woods, road he stated that the Bureau of Public Roads has agreed to give further consideration to placing the road on the Forest Highway system. Chairman McIver advised the delegation that when action is taken on the matters presented today they will be notified by the Secretary.

The following representatives of the County Courts of Grant, Wheeler, Gilliam, and Sherman Counties, and other organizations appeared before the Commission concerning improvements to the John Day Highway and the Wasco-Heppner Highway: E. R. Fatland, Commercial Club, Condon; R. W. Potter, farmer and grange member, Condon; Van Rietmann, Gilliam County Commissioner, Condon; O. E. Matthews, Wheeler County Judge, Fossil; A. R. Robinson, Community Club, Fossil; Jack Steiwer, Community Club, Fossil; Giles French, "Sherman County Journal", Moro; O. L. Dickenson, Grant

County Judge, John Day; Vernon Miller, Sherman County Judge, Moro; R. A. James, Jackson County Commissioner, Medford; Lester Wilson, Sherman County Commissioner, Kent. Mr. Fatland, who acted as spokesman, urged the Commission to complete the unimproved sections of these two highways. Mr. Miller expressed appreciation for work that has been performed and requested completion of the Hay Canyon to Wasco Section of the Wasco-Heppner Highway. Mr. French requested completion of The Dalles-California Highway in Sherman County. Mr. Van Rietmann called attention to the need for improving the John Day Highway between Condon and Fossil to facilitate travel to the two county seats -Fossil in Wheeler County and Condon in Gilliam County. Mr. Potter, speaking in behalf of the grange, requested improvement of the Wasco-Heppner Highway between Hay Canyon and Wasco, improvement of the John Day Highway between Condon and Fossil and additional work on U.S. 97. Judge Matthews inquired as to possibilities of improving the John Day Highway between the new section and Service Creek. He also requested improvement of the Service Creek-Mitchell Secondary Highway. Judge Dickenson called attention to the importance of the John Day Highway and the Wasco-Heppner Highway in the economic welfare of this section of Central Oregon. Mr. Fatland pointed out that the delegation is agreed on sections to be improved and because of the absence of rail and water transportation good highways are a necessity to this area. Chairman McIver informed the delegation that their requests would be given consideration and that the Engineer would advise each County Court by letter as to the present status of the improvements that have been urged.

A group of people representing the Ochoco Irrigation District, Crook County, and the U.S. Bureau of Reclamation, appeared before the Commission concerning relocation of the Crooked River Highway made necessary because of proposed dam construction on Crooked River south of Prineville. The following people were present: Harold Nelson, Regional Director, Bureau of Reclamation, Boise, Idaho; Homer Moore, Ochoco Irrigation District, Ashland; W. H. Hoffbuhr, Secretary, Ochoco Irrigation District, Ashland; F. G. Whittiger, Bureau of Reclamation, Boise, Idaho; W. L. Karrer, Construction Engineer, Bureau of Reclamation, Prineville; J. A. Callen, Bureau of Reclamation, Medford; LaSalle Coles, Ochoco Irrigation District, Prineville; Lee McCallister, Bureau of Reclamation, Salem; Hon. Harry C. Folwer, Crook County Judge, Prineville; and Neil Butterfield, National Park Service. Mr. Nelson, who acted as spokesman, introduced the other members of the delegation and stated that the highway could be relocated by using the dam as a bridge at an estimated cost of $166,000. He exhibited a map showing proposed route B, approximately 4 miles in length, and route C, approximately 7 miles in length. In constructing the dam he stated that it will be necessary to close the highway during construction. Chairman McIver commented that the state does not have funds to relocate the highway and replacement in kind is expected. The Engineer stated that in his opinion either route B or route C would be acceptable and he recommended that the Commission accept route B preferably, or route C, with the condition that it be constructed to at least the same standards as the existing highway. The Commission approved his recommendation.

Judge Fowler stated that he would like to discuss with the Engineer later a new route from the Central Oregon Highway to Prineville involving construction of a bridge and approximately 18 miles of new highway with the provision that the county would take over the old Crooked River Highway if the

new route is constructed. Mr. Nelson pointed out that there is an 830 day construction time limit on the dam and they need to know at an early date what roads they will be required to build. He also inquired again for permission to close the state highway during dam construction. Judge Fowler stated that the Crook County Court would not object but he suggested that the state help maintain the County road which is to be used as a detour. The Engineer stated that he has no objections to closing the highway but a written agreement is needed between the state, the county, and the irrigation district. The Commission approved closing of the road subject to terms to be included in the agreement which is to be prepared by the state and submitted to the other two agencies for acceptance. The Chief Counsel commented that the agreement should include Crook County as it pertains to the use of Crook County roads. Such agreement, he continued, can be prepared within a week or two.

In concluding the discussion Chairman McIver stated that the Commission will approve any arrangement for the project that is recommended by the Engineer and the legal staff. Mr. Coles then brought up for consideration a problem involving the Talent Irrigation District in Jackson County. Discussion of this matter was deferred until later in the session. (See additional entry ahead).

A delegation from Wasco County appeared before the Commission and requested improvement of The Dalles-California Highway, U.S. Route 197. The following people were present: Hon. James A. Hunt, Wasco County Judge, The Dalles; Vic Peterson, businessman, The Dalles; Frank Thomas, Tygh Valley Lumber Company, Dufur; Raymond Crabtree, farmer, Maupin; Howard Corner, Standard Oil Company, Maupin; Don McLucas, tourist hotel, Maupin; Fred Ashley, Tygh Valley Sand & Gravel Company, Tygh Valley, Judge Hunt stated that no major improvements have been made on this highway since it was constructed in 1924, and he asked particularly that the Tygh Valley grade section be improved. Improvement of this section, he said, is needed to facilitate the movement of timber and farm products to The Dalles. He presented a typewritten brief in support of his oral remarks. Chairman McIver advised that the delegation's request would be given consideration and that they would be advised of the Commission's action by letter.

A delegation representing the Warrenton area Junior Chamber of Commerce came before the Commission and urged acceptance of their bid for operation of the concession privilege in Fort Stevens State Park. The following people were present: Byron W. Olson, Darrell Greenlee, and John Shepard, of the Warrenton Junior Chamber of Commerce. Also present were Emerson R. Baldwin, Warrenton City Manager; and Mr. Clare Wade, Warrenton Councilman. Mr. Olson, who acted as spokesman, urged the Commission to accept the Warrenton Junior Chamber of Commerce's bid in the amount of 5 per cent, as their group is a non-profit organization and because they had offered to sell commodities to the general public at lower prices than did their competitors. Commissioner Chessman pointed out that in awarding this contract the Commission would have to be guided by the bid which would be to the best interests of the highway users. He also explained that in determining the best responsible bidder, factors had been used relating to experience, financial responsibility, and the amount the bidder had offered to pay. In the matters of experience and financial responsibility, the Warrenton Junior Chamber of Commerce had compared fairly well but their bid of 5 per cent on the gross sales did not compare favorably with

18.5 per cent which was bid by Mr. and Mrs. Robert Blake, the high bidder. The Commission deferred action until later in the session. Following departure of the group the Parks Superintendent recommended acceptance of the high bid submitted by Mr. and Mrs. Robert Blake in the amount of 18.5 per cent of gross sales He pointed out that the bid submitted by A.C. Frohman, the second high bidder, was 10.5 per cent of gross sales and that the Warrenton Junior Chamber of Commerce had offered only 5 per cent. The Commission approved award of the contract to Mr. and Mrs. Blake.

Mr. Carl E. Green, Consulting Engineer; Mr. Richard Atiyeh, Chairman of the West Slope Water District, and Mr. Robert Recken, attorney for the West Slope Water District, located on the Canyon Road of the Sunset Highway west of Portland, came before the Commission to ask the Commission to increase a previously approved settlement for revisions to the West Slope Water District water facilities necessitated by highway construction. Mr. Atiyeh stated that he felt the water district had acted in good faith and that the settlement offered by the Commission was not adequate. He asked the Commission to review the case. Mr. Green pointed out that the State had offered to pay less than the district asked for, because the lower 1400 feet of water line had not been considered by the State as a fair part of the claim. The Water District, he said, feels that payment should be made for the entire distance. The Engineer stated that in his opinion the State should not be required to pay for moving facilities installed on the highway right-of-way under permit. He also observed that the Water District had been advised of the highway plans but if an error had been made the matter would be reconsidered. Chairman McIver stated that there appears to be a question of whether highway users gas tax funds can be used to make the additional payment that has been requested. He suggested that the officials of the Water District confer again with the Highway Engineer.

Mr. Ralph Peterson, Chairman of the Board of County Commissioners of Lane County; Mr. Kenneth Neilsen, member of the Board; Mr. Fred Brenne, Manager, Lane County Chamber of Commerce; Mr. H. O. Walberg, Road Administrator; and Mr. Tom Jaques of the Eugene Register Guard, came before the Commission concerning improvement of "Route F", particularly the section between Walton and Austa. Mr. Peterson, who acted as spokesman, urged the Commission to make improvements on this section to facilitate the hauling of timber products from the area. He presented a letter and a map in support of his oral remarks. The Commission took no action at this time, however. Chairman McIver stated that the request would be considered.

The Engineer presented a request from a number of cities, including the City of Salem, that the following described state highway route be designated as US Route No. 320:

> "Beginning at the junction of the presently designated US Route 20 with ORE 22 (North Santiam Highway) near the summit of the Cascade Range at Santiam Pass, Linn County, thence northerly and westerly via ORE 22 to the city of Salem, thence following ORE 22 and ORE 18 to a connection with US 101 at Otis, Lincoln County."

He recommended approval of such US Route designation and that he be authorized to present a request for the same to the Route Numbering Committee of the American Association of State Highway Officials. Following discussion the Commission unanimously approved such route number designation and authorized the Engineer to recommend it to the AASHO Committee.

Mr. Harold Nelson, Regional Director of the Bureau of Reclamation; Mr. J. A. Callen of Medford; Mr. W. H. Hoffbuhr, Talent Irrigation District; and Mr. Homer Moore, Talent Irrigation District, Mgr., Talent Irrigation District, mission concerning the re-routing of a portion of the Green Springs Highway necessitated by construction of the Emigrant Dam in the Rogue River Basin. Mr. Nelson, who headed the group, stated that construction of the dam will require replacement of approximately four miles of the existing Green Springs Highway about four miles southeast of Ashland. It was his feeling that the standards required by the State for the reconstructed section of highway are higher than those used for the old road. Congress, he stated, has placed a ceiling on the amount that can be expended on this highway reconstruction project and only $256,000 is available whereas the estimated cost of reconstruction has been set at $575,000. It is planned to open bids for dam construction in June and he expressed hope that a suitable solution can be reached in the near future. The Engineer pointed out that the section of highway as reconstructed will be .7 mile longer than the existing section and that cost estimates, as of the present, should control. The roadbed section requested by the State is two feet wider than the existing roadway, but the new section will be .7 mile greater distance. It was his thought that the most the State could do would be pay the cost of the extra two feet of roadbed width. Mr. Nelson again commented on the higher standards required for the section to be reconstructed and stated that in total funds about $300,000 could be made available for highway construction It was his contention that although the new section of highway would be longer than the old one, the public would prefer it because of its more modern construction. The Engineer emphasized the point that tax funds secured from highway users should not be used to subsidize an irrigation project and he could not recommend a greater participation by the State Highway Department than the two feet of additional roadway width. Chairman McIver observed the State should have in replacement as good a road as will be inundated. He suggested that the Engineer and the irrigation authorities confer further and when a solution has been agreed upon, that the Commission be contacted by telephone.

A delegation representing the McMinnville Chamber of Commerce came before the Commission concerning improvements on US 99W, particularly construction of a bridge near the junction of US 99W and the Tualatin Valley Highway a short distance north and east of McMinnville. The following people were present: James H. Stanard, Chairman of the Chamber of Commerce Highway Committee; N. A. Cramer, McMinnville, real estate broker; H. Wayne Stanard, Ralph Farnham and Neal McCaulay, members of the McMinnville Chamber of Commerce; Cliff Elliott, Manager of the McMinnville Chamber of Commerce; Hoyt Reynolds, President of the McMinnville Chamber of Commerce; and Albert Youngberg and Charles Teagarden, representing the County Court of Yamhill County, all from McMinnville. Mr. James Stanard acted as spokesman. He urged construction of the bridge to remove a serious bottleneck in traffic on US99W. The Engineer stated that construction of a new bridge is in the 1958 program and it is anticipated that a contract can be awarded in the fall of this year. Mr. Teagarden thanked the Commission for the project and requested

that construction be started as soon as possible. Mr. Stanard called attention to the intermittent two and four lane sections of US 99W between Portland and McMinnville. He exhibited a map showing these sections and urged the Commission to make solid four-lane construction as soon as possible because of the traffic hazards which occur when motorists move from four to two lanes and vice versa. The Commission took no action.

Mrs. Rachel Strome, Leta Parker and Mary Copeland, representing the Siletz Highway Improvement Association, came before the Commission to request further improvement of the Siletz Secondary Highway. Mrs. Strome, who headed the group, stated that their Association has heard about additional funds available for highway construction. She urged the Commission to allocate some of the money to improve this highway between Euchre Mountain and Cedar Creek which had previously been on the program for improvement but had been deferred because of the collapse of a bridge on the highway. Lincoln County, she stated, ranks very high in unemployment and the project is needed to relieve this condition as well as to provide a better highway for the large number of people who travel the Siletz Secondary Highway, particularly tourists and fishermen. The Engineer explained that there are tentative plans to construct approximately half of the unimproved eight mile section this year and the balance of it as soon as funds are available. Chairman McIver informed the delegation that the Commission is aware of needs of this highway and improvements will be made as fast as funds will allow.

A delegation came before the Commission to urge a speed up in construction of the Clear Lake-Belknap Springs Secondary Highway No. 215. Twenty-two persons were present from Springfield, Albany, Redmond, McKenzie River, Prineville, Madras, Glenwood, McKenzie Bridge, and Sisters. Mr. Jack B. Lively of Springfield headed the group and acted as spokesman. He requested the Commission to increase the appropriation for construction of this highway so that it could be completed in two years. He called attention to the fact that the road will serve as an outlet for approximately two billion feet of timber, twenty per cent of which is overripe. He also mentioned the value of the highway as an attraction for tourists. Specifically, he requested the grading and paving of an eleven mile section in 1958 and 1959. The Engineer commented that the road is on the Forest Highway System and appropriations are received from Forest Highway funds. In determining the allocation of these funds it is necessary that the projects be agreed upon by the Federal Forest Service, the U.S. Bureau of Public Roads and the State Highway Commission. Chairman McIver gave assurance that the Commission would continue to give attention to development of this road.

The Commission discussed with the Engineer bids received at the morning session for highway construction and at 4:00 p.m., Commissioner Chessman announced awards of contracts as follows:

BIDS RECEIVED IN PORTLAND ON MAY 9, 1958

"Grading and paving the Columbia Boulevard-South City Limits (St. Helens) Section of the Columbia River Highway in Columbia County. The Commission awarded the contract to the low bidder, The Central Heating Company, Oregon Ltd., Eugene, at $26,376.00.

"Stone base and paving the Powers (Poplar Street and 4th Avenue) Section on city streets in the City of Powers in Coos County. The Commission awarded the contract to the low bidder, Woodward & Son & Barklow, Coquille, at $16,679.

"Construct Burns Maintenance Building in Harney County. The Commission awarded the contract to the low bidder, Endicott Logging Company, Prineville, at $22,230.00.

Clean and paint Hendricks Bridge over McKenzie River, 11.5 miles east of Pacific Highway on McKenzie Highway in Lane County. The Commission awarded the contract to the low bidder, J. E. Brown, Portland, at $5,568.00.

"Beverly Beach Park Fencing Project, about 6.2 miles south of Depoe Bay on Oregon Coast Highway in Lincoln County. No bids received.

"Grading Saddle Butte-Twin Buttes Section of Pacific Highway, about 13 miles south of Albany in Linn County. The Commission elects to accept the low bid of R. A. Heintz Construction Company, Portland, in the sum of $1,037,844.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct twin bridges over Snake River 1.5 miles south of Ontario on Old Oregon Trail Highway in Malheur County. The Commission awarded the contract to the low bidder, Hansen & Parr Construction Company, Spokane, Washington, at $952,650.00.

"Structure, grading and paving on Holladay Connection to Banfield Expressway near S.E. 16th Avenue in the City of Portland in Multnomah County. The Commission awarded the contract to the low bidder, C. J. Montag & Sons, Portland, at $172,934.25.

"Grading, paving and structure on East Unit, Shogren-Rowena Section of Columbia River Highway, 3.3 miles east of Mosier in Wasco County. The Commission awarded the contract to the low bidder, Rogers Construction Company, Portland, at $531,058.00.

A delegation from Tillamook and Lincoln Counties came before the Commission to urge reconstruction of the Oregon Coast Highway between Bay City and Garibaldi. Seventeen people composed the group. Tillamook County Judge O.E. Effenberger headed the group and acted as spokesman. He called attention to the old-time riding gear in which he was attired, stating that he and some others in the delegation had arrived at the Imperial Hotel in horse and buggy attire to emphasize that the Bay City-Garibaldi section is a type of road which was in existence in horse and buggy days. Mr. Tom Becker, President of the Oregon Coast Association, stated that for the seven counties which his group represents, improvement of the Bay City-Garibaldi Section is their No. 1 project. Mr. Vern Ayers, Manager of the Oregon Coast Association, explained the purpose of the Association and pointed out that they were the first ones to endorse the recently discussed 1 cent gas tax increase and the $5.00 increase in license plates. He also remarked that the Association in 1957 had gone before the Legislature

in favor of the bond issue for improvement of the Oregon Coast Highway in Curry County, which was passed. It was his opinion that traffic on the Oregon Coast Highway has paid for needed improvements as a tourist attraction. Mr. George Hodges, Vice President of the Oregon Coast Association, stated that the extremely narrow and crooked section between Bay City and Garibaldi tends to prevent tourists from using the highway. Mr. Charles Ross, Chairman of the Highway Committee, Tillamook Chamber of Commerce, asked the Commission to place the Bay City-Garibaldi Section as the No. 1 project for improvement in this area when funds are available. This section of highway, he stated, has been a comparative cow trail for 40 years. He also pointed out that the delegation which was present represents the entire Oregon coast. Chairman McIver expressed appreciation for the efforts of the group to secure more funds for highway construction and stated that their request would be given careful consideration.

There being no further business to conduct at this time the meeting was declared adjourned at 4: 15 p. m. by Chairman McIver.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

May 9, 1958

EXHIBITS "A" through "H"

for

May 8 and 9, 1958

EXHIBIT "A"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of the negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

26435 Tworoger, P. A. and Betty Jean (Grant)
Perm. Slope and Drainage Easement, 10813 S. W. Barbur Blvd.
Option expires October 2, 1958, Sta. 380
5,748 sq. ft. $100
Amount to be paid owners - chrg to Right of Way $100

THINGS TO BE DONE BY THE STATE

If fill slides obstruct Grantors' road or drainage ditch, restore same to original condition.
Property to access via county road or city street.

Access controlled -

HILLSBORO-CAMPBELL BRIDGE SECTION - HILLSBORO-SILVERTON HIGHWAY

27668 Darnell, Douglas and Peggy Ann (Grant)
Right of Way, Stas. 254-255
Option expires October 22, 1958
0.01 acre at $1,000 per acre $10
Moving shrubs, taking of lawn and part of driveway 40
Amount to be paid owners - chrg to Right of Way $50
Grantors to remove trees, shrubs, etc. by May 30, 1958, or they become property of State.

Access not controlled -

27681 Christensen, Julius and Ruth (Grant)
Right of Way, Stas. 288-292
Option expires October 21, 1958
0.12 acre at $900+ per acre $110
Allow. for moving yard improvements 600
Encroachment damage 900
Amount to be paid owners - chrg to Right of Way $1,610
Grantors to remove trees, shrubs, sprinkling system, and mail box by May 30, 1958, or they become property of State.

Access not controlled -

NEWBERG-GEARIN CORNER SECTION - HILLSBORO-SILVERTON HIGHWAY

26314 W. J. McCready Lumber Company (Henry)
Right of Way, Stas. 3-7
Option expires October 7, 1958
0.59 acre at $10,000 per acre $5,900
3 sheds, 1,988 sq.ft. at $2-per sq. ft. 3,650
30' of main storage shed, 1,500 sq.ft. at $2/sq.ft. 3,000
Approx. 500' wooden fence; 180' storage racks 600
Damages 6,600
Amount to be paid owner - chrg to Right of Way $19,750
Grantor to remove portion of main storage bldg. extending on r/w prior to May 15, 1958, or State to remove. Grantor to remove personal property by May 1, 1958.

THINGS TO BE DONE BY THE STATE

Construct two 30' road approaches, N., at 4+50 and 6+00.

Access not controlled -
Confirmation of phone approval by Mr. Chessman, April 11, 1958.

EXHIBIT "B-1"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Beaverton-Forest Grove Section of the Tualatin Valley Highway described as follows:

A parcel of land lying in Lot 19, Kinnesswood Acreage, situated in Section 11, Township 1 South, Range 2 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to the State of Oregon, by and through its State Highway Commission recorded in Book 371, Page 119, of Washington County Records of Deeds; the said parcel being that portion of said property lying northerly of a line which is parallel to and 28 feet northerly of the center line of the westbound traffic lane of the Tualatin Valley Highway which center line is described as follows:

Beginning at Engineer's center line Station 166+75.45, said station being 1913.16 feet South and 59.94 feet West of the N.E. corner of the Andrew Masters DLC No. 46, Township 1 South, Range 2 West, W.M.; thence N 81° 37' W 2662.46 feet to Engineer's Center line station 193+37.91.

There is reserved by the grantors an easement over and across the southerly 10 ft. of the above described parcel, the northerly line of said 10 ft. easement being parallel to and 38 feet northerly of said center line.

The parcel of land to which this description applies contains 0.6 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Tualatin Valley Highway, except one point of access not

EXHIBIT "B-1" (Cont)

to exceed 25 feet in width will be allowed to the subject property on the northerly side of the Tualatin Valley Highway, unrestricted as to use.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 64 be entered in the minutes and records of the Commission as of the 8th day of May, 1958.

EXHIBIT "B-2"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Interstate Avenue-Steel Bridge Section of the Pacific Highway West described as follows:

PARCEL #1

A portion of Lot 1, Block 5, McMillen's Addition, more particularly described as follows:

Beginning at the point of intersection of the center line of N. Clackamas Street and the center line of N. Larrabee Avenue; thence S 38° 28' 35" E along said center line of N. Larrabee Avenue a distance of 55.62 feet to a point; thence N 89° 51' 25" W a distance of 38.40 feet to a point on the northeasterly line of Lot 1, Block 5, McMillen's Addition, which point is 6.64 feet southeasterly of the most northerly corner thereof; thence continuing N 89° 51' 25" W a distance of 10.64 feet to a point on the northwesterly line of said Lot 1, which point is 8.31 feet southwesterly of the most northerly corner thereof; thence continuing N 89° 51' 25" W a distance of 40.05 feet to a point on the center line of said N. Clackamas Street; thence N 51° 31' 5" E along said center line a distance of 69.60 feet to the point of beginning, subject to reservations of record for street purposes. Containing 27.59 square feet, more or less.

PARCEL #2

A portion of Lots 3, 4, 6, 7, and 8, Block 6, McMillen's Addition, more particularly described as follows:

Beginning at the most northerly corner of Lot 8, Block 6, McMillen's Addition; thence S 38° 28' 35" E along the southwesterly line of Lots 1, 2, and 3, said Block 6, a distance of 103.15 feet to a point; thence S 54° 10' 30" E a distance of 38.27 feet to a point; thence N 51° 31' 15" E a distance of 14.65 feet to a point; thence S 38° 28' 35" E a distance of 10.0 feet to a point on the southeasterly line of said Lot 3, which point is 25.0 feet northeasterly of the most southerly corner thereof; thence continuing S 38° 28' 35" E a distance of 46.32 feet to a point; thence N 58° 06' 02" W a distance of 208.43 feet to a point on the northwesterly line of said Lot 8, which point is 45.0 feet southwesterly of the most northerly corner thereof; thence N 55° 10' 33" W a distance of 26.10 feet to a point on the center line of N. Halsey Street; thence N 51° 31' 15" E along said center

EXHIBIT "B-2" (Cont)

line a distance of 52.50 feet to a point; thence S 38° 28' 35" E a distance of 25.0 feet to the place of beginning, subject to reservations of record for street purposes. Containing 3,561.7 square feet, more or less.

PARCEL #3

A parcel of land lying in Lots 5, 6, and 7, Block 7 of McMillen's Addition to East Portland, more particularly described as follows:

Beginning at a point on the Northwesterly line of said Lot 7, which point is 68 feet southwesterly from the most northerly corner of said Lot 7; thence northeasterly along said northwesterly line 68 feet to said most northerly corner; thence southeasterly along the northeasterly lines of said Lots 5, 6, and 7, a distance of 150 feet to the most easterly corner of said Lot 5; thence southwesterly along the southeasterly line of said Lot 5, a distance of 42 feet; thence northwesterly in a straight line, 152 feet, more or less, to the point of beginning, containing 8,250 square feet.

PARCEL #4 0.4 interest in and to:

A parcel of land lying in Lots 5, 6, 7, and 8, Block 7, McMillen's Addition to East Portland, more particularly described as follows:

Beginning at a point on the northwesterly line of said Lot 7, which point is 68 feet southwesterly from the most northerly corner of said Lot 7; thence southeasterly in a straight line 152 feet, more or less, to a point on the southeasterly line of said Lot 5, which point is 42 feet southwesterly from the most easterly corner of said Lot 5; thence southwesterly along the southeasterly line of said Lot 5, 18 feet; thence northwesterly in a straight line 204 feet, more or less, to the most westerly corner of said Lot 8; thence northeasterly along the northwesterly line of said Lot 8, 32 feet; thence southeasterly and parallel to the southwesterly line of said Lot 8, 50 feet to the point of beginning, containing 4,350 sq. feet.

PARCEL #5 0.4 interest in and to:

All of Lots 5 and 6, Block 8, McMillen's Addition and the following described portion of Lots 7 and 8, said Block 8:

Beginning at the most northerly corner of Lot 8, Block 8, McMillen's Addition; thence S 38° 28' 35" E along the northeasterly line of Lots 7 and 8 a distance of 100.0 feet to the most easterly corner of said Lot 7; thence S 51° 31' 15" E

EXHIBIT "B-2" (Cont)

along the southeasterly line of said Lot 7 a distance of 100.0 feet to the most southerly corner thereof; thence N 38° 28' 35" E along the southwesterly line thereof a distance of 20.0 feet to a point; thence N 9° 51' 58" W a distance of 62.65 feet to a point; thence N 31° 52' 02" E a distance of 74.33 feet to the place of beginning, containing 17,550 square feet, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $8,138.84, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that this Property Sale Resolution No. 65 be entered in the minutes and records of the Commission as of the 8th day of May, 1958.

29985

EXHIBIT "C-1"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Samuel H. Boardman State Park has been established by and under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Samuel H. Boardman State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon, and for such purposes and in connection therewith the interests in real property hereinafter described are necessary; and

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

EXHIBIT "C-1" (Cont)

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek-Brookings Section to the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development and maintenance of the Samuel H. Boardman State Park; and does further find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section

EXHIBIT "C-1" (Cont)

of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 951.

EXHIBIT "C-1" (Cont)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 951, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29989

EXHIBIT "C-2"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain Trail Creek Bridge Section of the Crater Lake Highway; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Trail Creek Bridge Section of the Crater Lake Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "C-2" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Crater Lake Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Trail Creek Bridge Section of the Crater Lake Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 952.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 952, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29991

EXHIBIT "C-3"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Commission at its regular meeting of August 11 and 12, 1955, authorized the State Park's Superintendent to acquire such land as would be necessary to develop a state park at the mouth of the Deschutes River in Wasco and Sherman Counties.

WHEREAS, the State Highway Commission plans and proposes to develop and maintain said state park for a public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon, and for such purposes and in connection therewith, the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the development and maintenance of a state park to be located at the mouth of the Deschutes River in Wasco and Sherman counties, fee simple title to a parcel of real property located in Wasco and Sherman Counties and described as follows, to wit:

File No. R-25340
Owner: Columbia-Deschutes Power Company
A parcel of land lying in Government lots 1, 2, 3, 4, 5, 6, 7 and 8, the West half of the West half of the Northeast quarter ($W\frac{1}{2}$ $W\frac{1}{2}$ $NE\frac{1}{4}$) and the Southwest quarter of the Northwest quarter ($SW\frac{1}{4}$ $NW\frac{1}{4}$) Section 26, Government Lots 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10, the Southeast quarter of the Northwest quarter of the Southwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$ $SW\frac{1}{4}$) Section 35, all in Township 2 North, Range 15 East,

Willamette Meridian, in Sherman and Wasco Counties, Oregon, and lying between the Easterly right of way line of the Oregon Trunk Railroad and the Westerly right of way line of the abandoned Deschutes Railroad and South of the reconstructed Columbia River Highway.

Subject to the flowage easement heretofore granted to the U. S. A. and the existing right of way for county road.

The parcel of land above described contains 255 acres, more or less, of which 55 acres, more or less, is covered by said flowage easement.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcel of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 953.

29993

EXHIBIT "C-4"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-4" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 954.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 954, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-5"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

29997

EXHIBIT "C-5" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-5" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 956.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 956, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30001

EXHIBIT "C-7"

Minutes of May 8 and 9, 1948

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "C-7" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Hillsboro-Silverton Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 957.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 957, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30003

EXHIBIT "C-8"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Hilgard-La Grande Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT C-8" (Cont)

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Hilgard-La Grande Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated and widened Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the said Hilgard-La Grande Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-8" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 958.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 958, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-9"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-9" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 959.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 959, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.*

30009

EXHIBIT "C-10"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the said Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 960.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 960, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30011

EXHIBIT "C-11"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughway, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-11" (Cont)

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated and widened Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-11" (Cont)

5. That upon the trial of any suit or action instituted to acquire the real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 961.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 961, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-12"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate and maintain the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of relocating and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation and maintenance of the said Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "C-12" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Hillsboro-Silverton Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation and maintenance of the said Newberg-Gearin Corner Section of the said Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 962.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 962, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-13"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites; stock pile sites, or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways: or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-13" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners as specified. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-13" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 963.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 963, under the heading "Real Property Condemnation Resolutions," said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30019

EXHIBIT "C-14"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Jonesboro-Tunnel Section of the Central Oregon Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-14" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled, as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Jonesboro-Tunnel Section of the Central Oregon Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Central Oregon Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Jonesboro-Tunnel Section of the Central Oregon Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-14" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 964.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 964, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-15"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-15" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "C-15" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 965.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 965, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-16"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "C-16"(Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels or real property may be taken immediately.

EXHIBIT "C-16" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of May, 1958, as Condemnation Resolution No. 966.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 966, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4513 with General Construction Company for constructing Clay Street-Columbia Street Traffic Interchange on the Pacific West Highway in Multnomah County, completed December 30, 1957.

"Contract No. 4575 with Roy L. Houck and Sons for grading and oiling on the East Unit, McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway in Yamhill County, completed December 4, 1957.

"Contract No. 4889 with West Coast Steel Works for construction of Pruner Bridge over the South Umpqua River on the Riddle County Road in Douglas County, completed April 11, 1958.

"Contract No. 4921 with Peter Kiewit Sons' Company for grading on the Jumpoff Joe Creek-Louse Creek Section of the Pacific Highway in Josephine County, completed April 18, 1958.

"Contract No. 4947 with Trowbridge Electric Company for installing illumination on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, completed April 15, 1958.

"Contract No. 4961 with Barney Helser Rock Production for furnishing crushed materials in stockpile on the Pilot Rock-Grant County Line Section of the Pendleton-John Day Highway in Umatilla County, completed December 23, 1957.

"Contract No. 5013 with Clyde Hamilton for constructing the Grants Pass office building in Josephine County, completed April 21, 1958.

"Contract No. 5040 with Hamilton and Thoms for constructing bridges over Mill Creek on the Pacific Highway in Marion County, completed April 7, 1958.

"Contract No. 5046 with Steeck Electric Company for installing illumination on the Dayton Junction Section of the Three Mile Lane Highway in Yamhill County, completed April 11, 1958.

"Contract No. 5083 with W. R. Grasle Company for installing illumination on the Union Avenue-42nd Avenue Section of the Columbia River (T. H. Banfield Expressway) Highway in Multnomah County, completed April 10, 1958.

EXHIBIT "D" (Cont)

"Contract No. 5086 with Trowbridge Electric Company for installing traffic signals in Beaverton on the Beaverton-Hillsdale Highway in Washington County, completed April 16, 1958.

"Contract No. 5104 with Roseburg Sand and Gravel Company for furnishing crushed material in stockpiles on the Hunter Hill-Clover Flat Road Section of the Fremont Highway in Lake County, completed April 16, 1958.

"Contract No. 5132 with George E. Blaisdell and Son Construction Company for parking area extension of the Rooster Rock State Park in Multnomah County, completed April 16, 1958.

"Contract No. 5144 with Port of Astoria for dredging on the Astoria Ferry Channel Section in Clatsop County, completed April 22, 1958.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 72 shall be entered in the minutes and records of the Commission as of the 8th day of May, 1958.

EXHIBIT "E-1"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Redwood

Highway number: 25 Route number: 199

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
28.31 (950 feet north of north city limits of Cave Jct.)	28.49 (north city limits of Cave Junction)	35

except that between a point 400 feet north of the north city limits of Cave Junction (M.P. 28.41) and the north city limits of Cave Junction (M.P. 28.49) the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1a. of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 153 established May 11, 1954.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 153a be entered in the minutes and records of the Commission as of the 8th day of May, 1958.

EXHIBIT "E-2"

Minutes of May 8 and 9 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Beaverton-Hillsdale

Highway number 40 Route number ORE!0

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
1.61 (east city limits of Beaverton)	2.89 (0.14 mile east of S. W. 78th Avenue)	50

except that in the following sections the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1a. of ORS 483.104.

1.96 (0.11 mile west of S.W. 91st Ave.)	2.19 (0.12 mile east of S.W. 91st Avenue)

EXHIBIT "E-2" (Cont.)

M.P.	to M.P.	M.P.H.
2.46 (500 feet west of S.W. Laurelwood Drive)	2.85 (500 feet east of S.W. 78th Avenue)	
2.89 (0.14 mile east of S. W. 78th Ave.)	3.30 (0.11 mile west of Multnomah County Line)	35
3.30 (0.11 mile west of Multnomah County Line)	4.97 (West city limits of Portland)	45

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect a appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 246 established February 28, 1957.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 246a be entered in the minutes and records of the Commission as of the 8th day of May, 1958.

EXHIBIT "F-1"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the Pacific Highway West is a State Highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway on a high fill near the viaduct over the Oregon Electric and Southern Pacific railroads and in the vicinity of St. Anthony Catholic Church in the community of Tigard; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public by interfering with the movement of traffic; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the northerly side of the Pacific Highway West between M. P. 8.99 (Engineer's Station 77+00) and M. P. 9.45 (Engineer's Station 96+82) and on the southerly side of the Pacific Highway West between M. P. 8.99 and M. P. 9.51 (Engineer's Station 99+98) creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 180 be entered in the minutes and records of the State Highway Commission as of the 8th day of May, 1958.

30035

EXHIBIT "F-2"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the Beaverton-Hillsdale Highway is a state highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked head-in on the south shoulder of said highway near S. W. 45th Avenue; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public, to vehicles engaged in parking maneuvers, and to vehicles attempting to enter the highway from S. W. 45th Avenue and other streets in this location; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited or otherwise controlled on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the following parking controls be put into effect:

a. No parking at any time on the southerly side of the said highway between M.P. 3.77 (Engineer's Station 109+45) and M.P. 4.15 (Engineer's Station 89+05).

b. Parallel parking only be permitted on the northerly side of the said highway between M.P. 4.31 (Engineer's Station 80+70) and M.P. 4.36 (Engineer's Station 78+25).

c. That parallel parking only be permitted on the southerly side of the highway between M.P. 4.32 (Engineer's Station 80+20) and M.P. 4.36 (Engineer's Station 78+10).

d. That shoulder parking be prohibited on the northerly side of the said highway between the easterly right-of-way line of S. W. 45th Avenue M.P. 4.42 (Engineer's Station 75+15) and M.P. 4.43 (Engineer's Station 74+45).

That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit the present practice of parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

EXHIBIT "F-2"

3. That the Commission does further find and declare that the parking of vehicles at said location should be controlled or prohibited as hereinabove stated.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 185 be entered in the minutes and records of the State Highway Commission as of the 8th day of May, 1958.

F. 30037

EXHIBIT "F-3"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, The Dalles-California Highway is a state highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the east shoulder of said highway in the vicinity of a trucking service station and a cafe south of Bend; and

WHEREAS, the parking of vehicles in said location creates a hazard to the traveling public by restricting sight distance; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be probibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the east side of The Dalles-California Highway between M.P. 140.89 (Engineer's Station 1148+20) and M.P. 140.96 (Engineer's Station 1151+90) creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highways are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3 That the Commission does further find and declare that the parking of vehicles on the east side of said highway at said location should be prohibited.

4 That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6 That this "No Parking" Resolution No. 184 be entered in the minutes and records of the State Highway Commission as of the 8th day of May, 1958.

EXHIBIT "G"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or "through" highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain State Highways and sections thereof were declared to be and were designated as main or "through" highways and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, said resolution concerning the Lexington-Echo Secondary Highway No. 320, ORE207, provided as follows:

Road No. 320 - Lexington-Echo Highway - ORE207
(Between M.P. 0.00 at Road No. 52, Heppner Highway, ORE74, in Lexington, and M.P. 39.53 at Road No. 6, Old Oregon Trail, US30, east of Echo.)

Exceptions: Traffic on Road No. 320, Lexington-Echo Highway from Echo, shall stop at M.P. 27.28 at junction of Road No. 333, Hermiston Highway, ORE207. Traffic on Road No. 320, Lexington-Echo Highway shall stop for Road No. 337, Stanfield-Pendleton Highway in Echo; and

WHEREAS, on December 5, 1957, by Abandonment Resolution No. 342, the Stanfield-Pendleton Highway was relinquished to Umatilla County and is no longer a state secondary highway; and

WHEREAS, the Through Highway records should be amended to indicate that the Stanfield-Pendleton Highway is no longer a part of the State Highway System,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, based upon engineering investigation and the recommendation of the State Highway Engineer, that this Commission does hereby find, declare, resolve and order, as follows:

1. That said resolution of September 21, 1949 be amended to read as follows:

"Road No. 320 - Lexington-Echo Highway - ORE207

EXHIBIT "G" (Cont)

(Between M. P. 0.00 at Road No. 52, Heppner Highway, ORE74, in Lexington, and M. P. 39.53 at Road No. 6, Old Oregon Trail, US30, east of Echo.)

Exceptions: Traffic on Road No. 320, Lexington-Echo Highway from Echo, shall stop at M. P. 27.28 at junction of Road No. 333, Hermiston Highway, ORE207. Traffic on Road No. 320, Lexington-Echo Highway shall stop when approaching in an easterly direction at M. P. 35.74 and when approaching in a westerly direction at M. P. 35.91 before entering Thielson Street in the city of Echo."

That in all other respects the provisions of said resolution of September 21, 1949, shall remain in full force and effect, it being understood that the change effected will not change the stop indications as they exist at the present time.

2. That this resolution shall be entered in the minutes and records of the Commission as of the 8th day of May, 1958, as "Through Highways" Resolution No. 13g, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads, and a like copy to the County Clerk of Umatilla County and to the Superintendent of the Department of State Police for their information.

EXHIBIT "H-1"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the "East Bank Freeway" Section of the Pacific Highway through the City of Portland in Multnomah County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the "East Bank Freeway" Section of the Pacific Highway, beginning at Highway Engineer's Station 508+50, at S. W. Gibbs Street, and extending in a northerly direction to Highway Engineer's Station 333+21.78, at North Russell Street, together with the map, which for identification purposes bears Sketch Map File No. 8B-9-13, and the date of May, 1958, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a complete access controlled highway.

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Pacific Highway was designated as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly

known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 8th day of May, 1958, as Survey Resolution No. 174.

EXHIBIT "H-2"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the following described state highway routes and locations:

1. Trail Creek Bridge Section of the Crater Lake Highway in Jackson County.

2. Corvallis City Section of the Corvallis-Newport Highway in Benton County.

3. Richland-Copperfield Section of the Baker-Homestead Highway in Baker County,

and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Trail Creek Bridge Section of the Crater Lake Highway, beginning at Highway Engineer's Station 4+00 and extending in a northerly and easterly direction near the community of Trail to Highway Engineer's Station 48+00, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1130 and the date of March, 1958, (Right of way Map No. 8B-6-29, dated August, 1957), field notes, and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1b. That the survey of the Corvallis City Section of the Corvallis-Newport Highway, beginning at Highway Engineer's Station 235+20, west of the City of Corvallis, and extending in an easterly direction to Highway Engineer's Station 340+62.9 at "B" Street in the City of Corvallis, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1200 and the date of April, 1958, (Right of way Map No. 8B-1-30, dated May, 1954), field notes and other engineering data submitted by the

Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1c. That the survey of the Richland-Copperfield Section of the Baker-Homestead Highway, beginning approximately one mile east of the town of Richland, and extending on new alignment in a northerly and easterly direction near the town of Pine and along Pine Creek to the community of Copperfield, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1202 and the date of April, 1958, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over these surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary rights of way pursuant to the normal and approved method for construction of a non-access controlled highway on the Baker-Homestead Highway, and for limited access control on the Corvallis-Newport Highway and the Crater Lake Highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 8th day of May, 1958, as Survey Resolution No. 175.

Portland, Oregon
June 19, 1958

The Oregon State Highway Commission met in regular session at 2:45 p. m. in the Pompeiian Room of the Congress Hotel. Present were:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Commission approved the minutes of the telephonic meeting of the Highway Commission conducted March 24, 1958.

The Parks Superintendent reported on the following state park matters:

1. Wording to be placed on informational signs which are to be installed at the Cove Palisades State Park, Painted Hills State Park, and Azalea State Park: The wording, the Parks Superintendent explained, has been approved by Phil Brogan of The Bend Bulletin, Ewart Baldwin of the Department of Geology, University of Oregon, and Ira S. Allison of Oregon State College. He added that funds have been provided in the 1958 budget to finance installation of the signs and he requested approval of the wording so the work can proceed. The Commission approved wording as follows:

AZALEA STATE PARK

THIS AREA WAS ESTABLISHED AS A STATE PARK IN 1937 AND PRESERVES ONE OF OREGON'S FINEST NATIVE GROUPS OF WESTERN AZALEAS (Rhododendron occidentale).

THE AGE OF THE LARGER AZALEA SHRUBS GROWING HERE IS ESTIMATED TO BE WELL OVER 150 YEARS.

THE PERFECTION OF MASS-FLOWERING IS USUALLY ATTAINED ABOUT THE MIDDLE OF THE MONTH OF MAY ALTHOUGH INDIVIDUAL FLOWERS ARE OFTEN SEEN DURING OTHER SEASONS OF THE YEAR DUE TO THE MILD LOCAL CLIMATE. THE VARIETY IN COLOR OF THE FLOWERS VARIES FROM PURE WHITE TO TINTED WHITE, THROUGH DELICATE SHADES OF YELLOW, PINK, AND DEEP ROSE. WHEN IN

BLOOM THEY FILL THE AIR WITH SWEET SCENTED FRAGRANCE.

THE PATTERNS AND COLORS WITHIN THE CENTERS OF THE FLOWERS ARE OF INTEREST SINCE THERE ARE SCARCELY ANY BLOOMS OF THESE ANCIENT WESTERN AZALEAS WHICH ARE IDENTICAL.

THE COVE PALISADES STATE PARK

"THE COVE" REFERS TO A NATURAL COVE ALONG THE CROOKED RIVER IN THIS AREA AND "PALISADES" TO THE LINE OF RIM ROCK WHICH BORDERS THESE SPECTACULAR CANYONS.

THREE RIVERS MEET WITHIN THE PARK AREA. THE NORTHWARD FLOWING DESCHUTES IS FIRST JOINED BY THE CROOKED RIVER FROM THE EAST AND THEN BY THE METOLIUS FROM THE WEST.

AGES AGO THE FIERY EXPLOSIONS OF CASCADE VOLCANOES FURNISHED MUCH LOOSE MATERIAL FOR FLOOD WATERS TO FILL THE 20 TO 30 MILE-WIDE DESCHUTES BASIN, LAYER UPON LAYER. OCCASIONAL HORIZONTAL FLOWS OF LAVA FROM NEARBY CONES AND FISSURE VENTS ADDED LAYERS OF BASALT ROCK, ONE OF WHICH RIMS THESE CANYONS.

AFTER RIVERS HAD GRADUALLY CUT DEEP CANYONS HERE, A LOCAL LAVA FLOW FILLED THE CANYONS TO FORM A SOLID MASS OF BASALT, OF WHICH THE HUGE "ISLAND" AT THE JUNCTION OF THE CROOKED RIVER WITH THE DESCHUTES IS A REMNANT. THE RIVERS LATER WORE THROUGH TO THE STREAM BEDS AS THEY ARE TODAY.

PAINTED HILLS STATE PARK

THE COLORFUL FORMATIONS OF THIS AREA WERE LAID DOWN MILLIONS OF YEARS AGO DURING THE TIME IN WHICH THE VOLCANOES OF THE RISING CASCADE RANGE TO THE WEST WERE SHOWERING WIND-CARRIED PUMICE AND ASH ONTO CENTRAL OREGON.

THE VOLCANIC SEDIMENTS ARE BELIEVED TO HAVE BEEN DEPOSITED IN WATER, AT LEAST IN PART, AND DURING A TIME OF MILD HUMID CLIMATE. THE LAYERS OF VARYING MATERIAL GRADUALLY DECOMPOSED TO FORM THESE COLORED BANDS AS THE ASH WAS ALTERED TO CLAY.

THE STRATA EXPOSED IN THE PAINTED HILLS REGION ARE REFERRED TO AS CLARNO AND JOHN DAY FORMATIONS. THE FOSSIL LEAF IMPRESSIONS OF REDWOOD, CINNAMON, FIG, ALDER, AND OTHER TREES AND PLANTS FOUND IN THIS VICINITY HAVE GIVEN

CLUES AS TO THE FORMER DAMP WARM CLIMATE OF THE AREA IN THE TIME BEFORE THE RISE OF THE CASCADE MOUNTAINS.

2. Confirmation of telephonic authority to file an application with the Federal Government for additional land to enlarge the John Day-Condon Fossil Beds State Park: The Parks Superintendent recalled that several years ago the Commission filed an application for a large tract of land in this area but it was necessary to reduce the application to not exceed 640 acres of land in any one year. It appears possible now that additional land can be obtained in the same manner as the original application, thus completing the request. He pointed out that land purchased a year ago from the Government cost slightly over $1.00 per acre, which was 30 per cent of the appraised value. The Commission confirmed the previous telephonic approval given May 20, 1958.

3. Request of Mr. and Mrs. Louis N. Mark, Netarts, that the State raise no objection to their application for a packaged beer license at their store near the entrance to Cape Lookout State Park: The Parks Superintendent pointed out that the Commission has never granted any license to sell beer within or reasonably near a state park, and as the store operated by the Marks caters to visitors to Cape Lookout State Park, it was his recommendation that the Commission object to the granting of such licenses to commercial establishments that cater to state park patrons. This matter, he continued, was discussed with members of the Parks Advisory Committee, and four of six members indicated that beer sales should not be made by businesses catering to park visitors. The Commission approved the recommendation as a matter of policy.

4. Proposed opening and closing hours at Rooster Rock and Hat Rock State Parks: Heavy use of these parks is anticipated, the Parks Superintendent stated, and to avoid any night use which might be objectionable it was his feeling that opening and closing hours should be established. The sheriffs of the two counties concerned, he continued, feel that closure hours should be maintained. He recommended that the parks open at 8:00 a.m. and close at 9:00 p.m. daily. The Commission approved the recommendation. (This action was confirmed by resolutions adopted at meeting on July 31, 1958)

5. Offer of Multnomah County to deed to the State two parcels of land containing a total 18.8 acres located in the Columbia River Gorge: The Parks Superintendent explained that one of the parcels is a narrow piece of land situate east of Bridal Veil between the old Columbia River Highway and the railroad. The other is a parcel containing 10.3 acres which lies adjacent to and immediately west of Crown Point. The land, he said, is of little value but does fit in with the over-all plan of purchases for preservation of scenic areas in the Columbia River Gorge. The Commission approved his recommendation that the gift be accepted.

6. Proposed name for the Beaver Creek beach area between Waldport and Newport in Lincoln County: The Parks Superintendent stated that it would be desirable to name this area. He also said that a number of names were considered and that it is his recommendation that the area be named "Ona Beach" if and when it is developed as a state park. The

name "Ona", he stated, is Chinook jargon, meaning clam, and there is a small community known by that name a few miles east along Beaver Creek. The Commission approved such name for this area. (See resolution in Minutes of July 31, 1958).

7. Offer of the State Board of Forestry to donate for state park purposes 160 acres of land on the Chetco River in Curry County: This property, the Parks Superintendent stated, is located approximately nine miles east of the town of Brookings and presently is known as "Alfred Loeb State Park." The property previously had been offered to the Commission several times but the offers were rejected principally because of the inability to locate the property corners and because of lack of demand for use of the area. The State Board of Forestry, he continued, has now established the corners and marked the lines and there is some demand for development; also, the County has approved transfer of title to the State and has indicated that no demand will be made at this time that the State take over the county road leading to the park. He recommended that the area be accepted and that provision be made in the 1959 budget for minor day use, also that it be named "Alfred Loeb State Park." His recommendation was approved by the Commission. (See resolution in Minutes of July 31, 1958).

8. Request of Tillamook County Court and others that the State take over as a State park the Bayocean area between Tillamook Bay and the Pacific Ocean: This area, the Parks Superintendent stated, has suffered greatly from erosion by wave action, and a few years ago the ocean cut through the sand bar, leaving the main portion of the area as an island. He added that the value of the area as a State park is dubious, but he gave as his feeling that a thorough study should be made in order to determine all the facts, and he so recommended. The Commission authorized him to make such study.

9. Request of Ben F. Phillips, Cascadia, for permission to use water from a spring in Cascadia State Park for his motel and service station: The Parks Superintendent stated that this spring is located in an area that is not included in the present park development, and is also in a spot that will be flooded when the Green Peter Dam is constructed a few miles downstream. He added that the water will not be needed, at least for several years, for park purposes. The Commission accepted his recommendation that Mr. Phillips be granted a temporary permit to use the water, subject to needs of the park, at an annual rental charge of $25.00.

10. Request of J. B. Kosta, Port Orford, for permission to sell dairy products and related supplies from a vending wagon in Humbug Mountain State Park: The Parks Superintendent stated that Mr. Kosta proposes to conduct his sales in the state park each afternoon or evening and that he has agreed to furnish a monthly statement of his sales and to furnish a price list of items he proposes to sell. Such information, he added, will be helpful in determining the value of this or a similar concession. Upon his favorable recommendation, the Commission approved allowing Mr. Kosta to sell dairy and related products in the park for the consideration of $25.00 to be paid by Mr. Kosta for the 1958 summer season.

11. Resolution adopted by the Legislative Highway Interim Committee recommending establishment of a State park at Unity Reservoir in Baker

County and an expenditure of $25,000 to develop the same: The Parks Superintendent stated that he is now conducting an investigation concerning the feasibility of developing a park at this location but the investigation is not yet complete. The Engineer remarked that this matter was discussed at a meeting in the City of Baker and it was his thought that the sum of $25,000 to be expended may have originated from residents in the Baker area. The Commission deferred action pending receipt of the Parks Superintendent's report on the investigation,

Employment of added personnel in the Parks Division: The Parks Superintendent stated that the work being conducted by the Parks Planning Section is considerably behind schedule. To expedite this work he recommended that Mr. Paul R. Tschirley, a graduate of Oregon State College, be hired during the summer season at $342.00 per month. Mr. Tschirley, he stated, has a master's degree from Oregon State and is highly recommended. The Commission approved the employment of Mr. Tschirley.

Proposed enlargement of Collier State Park in Klamath County: The Parks Superintendent stated that for many years efforts have been made to secure additional land for this park and it now appears that a desirable parcel along Spring Creek may be obtained from a Mr. William Lorenz. It was his thought that the parcel which consists of 20 acres of land on the north side of the existing park can be purchased for approximately $6,000. Upon his favorable recommendation, the Commission authorized him to negotiate acquisition of the land at the best figure he can get.

The Parks Superintendent commented briefly on the increase in use of State parks during the first five months of 1958. Available figures, he stated, show that more than one-half million people used the parks during the first five months of 1958 than did during the corresponding period in 1957.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for State highway right of way or for other purposes. Action on this matter was deferred by the Commission pending study of the options. (On the following day, the Commission approved the options as presented.)

A report was presented by the Right of Way Engineer showing miscellaneous property sales and changes in property rental status. Miscellaneous sales since the last Commission meeting were listed by the Property Manager at $17,244.50. Rental receipts for the month of May totalled $9,933.78. The Commission accepted the report. (For details see copy of the report in the General Files.)

Authority was requested by the Right of Way Engineer to offer at public sale several parcels of highway property. These properties, he stated, have been determined to be excess property no longer required for highway purposes and he recommended that they be offered at public sale, as follows:

1. 0.24 acre of the former Booth property, File 17393, on the Big Creek Section of the Columbia River Highway in Clatsop County, for a minimum price of $1,000.00. Proceeds of this sale less the cost of advertising are to be turned over to Clatsop County, which originally furnished the land to the State. See EXHIBIT " B ".

2. 3,555 square feet of the former Frank property, File 22869, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County for a minimum consideration of $500.00.

The Commission authorized public sale of the properties and thereupon adopted the attached resolution relative to the "Booth property" marked EXHIBIT " B ", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Direct sale of 1,900 square feet of land situate on N.E. 47th Avenue adjacent to the Banfield Expressway in Portland to Friedman Bag Company for the sum of $900.00 was recommended by the Right of Way Engineer. He explained that the bag company is troubled with a bad drainage condition and to correct it, it will be necessary to use this parcel of land. The property, he said, is not needed for highway purposes and the price to be paid for it is at appraised value. The Commission approved the sale at the price mentioned.

Changes in access points for property owners to various state highways were presented by the Right of Way Engineer who explained that in each instance no additional access is being granted but the changes are simply changes in location for the safety of the travelling public and for the convenience of the property owners. He recommended and the Commission approved the following indentures of access which provide for the changes mentioned:

a. State Board of Forestry property, Property File 17325, on the Wilson River Highway in Tillamook County.

b. Blay (Dittemore) property, File 18122, on the Gilchrist-Willamette Junction Unit of The Dalles-California Highway in Klamath County.

c. Lively property, File 16478, on the Mehama-Mill City Section of the North Santiam Highway in Marion County.

d. Young property, File 24865, on the North Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

Consideration was given by the Commission to an agreement with the Tri-County Improvement District to prevent river bank erosion near the south end of the Harrisburg Bridge on the Pacific Highway East in Lane County. The Improvement District, the Right of Way Engineer explained, wishes to use property on which to construct a revetment which property at the present time is controlled by the State under an easement. The Army

Engineers propose to perform the revetment work which will be of benefit not only to the nearby land owners but also to the highway. Upon his favorable recommendation, the Commission approved the agreement.

The Right of Way Engineer presented a request from Bonneville Power Administration for an additional deposit of $350.00 for rearranging Bonneville power lines across the Gonyea property adjacent to the Judkins Point-Goshen Section of the Pacific Highway in Lane County. He explained that at its meeting in May, 1958, the Commission authorized payment of the sum of $5,600.00 to the Bonneville Power Administration as an advance deposit to apply on the estimated cost of revising the power lines. The Bonneville Administration has now submitted a trust agreement for the power line revision in which the cost is estimated at $5,950.00, or $350.00 more than was previously authorized. Following his favorable recommendation, the Commission approved the trust agreement including the $350.00 increase in the amount of the deposit.

Sale to the City of Nyssa of a stockpile site containing about 2.95 acres in the City of Nyssa, Malheur County, was recommended by the Right of Way Engineer. He explained that the property is no longer needed for state highway purposes and that the city would like to acquire it; moreover, has offered to pay $1,048.84 which is the book value of the property and is represented by its actual cost to the State plus the cost of the improvements located thereon. The Commission approved the sale of the property to the City at the price mentioned on the condition that the city uses it for public or recreational purposes only. Otherwise, title will revert to the State. The attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The Right of Way Engineer also brought up for discussion the matter of acquiring a 2.0 acre tract of land situate adjacent to the Mount Hood Highway at the easterly edge of the City of Sandy. He recalled that several years ago, negotiations were undertaken to acquire the land for maintenance purposes but the price at that time was considered too high and the deal was not consummated. The Maintenance Department, he said, needs the land which adjoins property that the state now owns. He requested authority to offer the present owner, a Mr. Wolfe, $3,000.00 for the property which, he stated, represents its fair value. The Commission authorized an offer of $3,000 for the property.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Roosevelt Drive (Seaside) Section of the Oregon Coast Highway

R-23349 - Standard Oil Company of California
Clatsop County
Parcel No. 1: 0.12 acre for right of way
Parcel No. 2: 0.06 acre for right of way

Roosevelt Drive (Seaside) Section of the Oregon Coast Highway (Cont.)

R-23372 - Roy E. Heckard and Ruth Heckard
Right of Way (Clatsop County)
0.11 acre

R-23373 - Earl E. Evans and Leona Evans
Right of Way (Clatsop County)
7,550 square feet

R-23375 - Howard F. Brown and Grace Brown
Right of Way (Clatsop County)
6,150 square feet

R-23376 - Carl Emmet Brown and Gretchen Brown
Right of Way (Clatsop County)
900 square feet

R-23379 - Harvey Jensen and Martha Luhr Jensen
Right of Way (Clatsop County)
5,515 square feet

R-23385 - Fred Otto Like and Lora A. Like
Right of Way (Clatsop County)
0.3 acre

R-23386 - W. B. Hollenbeck and C. P. Yates
Right of Way (Clatsop County)
0.45 acre

R-23387 - Verner D. Sanders and Thelma A. Sanders
Right of Way (Clatsop County)
0.07 acre

R-27797 - Matthew T. Dawson and Frank Buxton
Right of Way (Clatsop County)
0.26 acre

R-27802 - David F. DeTar
Right of Way (Clatsop County)
6,500 square feet

R-27804 - William Wells Woodworth and Jean A. Woodworth
Right of Way (Clatsop County)
125 square feet

R-27805 - Joseph F. Teevin and Daisy D. Teevin
Right of Way (Clatsop County)
1,500 square feet

R-27806 - Jacob Krieger, Jr., and Lillian A. Krieger
Right of Way (Clatsop County)
425 square feet

June 19, 1958

Roosevelt Drive (Seaside) Section of the Oregon Coast Highway (Cont.)

R-27813 - John Schultz and Katie Schultz
Right of Way (Clatsop County)
563 square feet

R-27882 - Seaside Laundry, Inc.
Right of Way (Clatsop County)
375 square feet

R-27946 - Clatsop County
Clatsop County
Parcel No. 1: 650 square feet for right of way
Parcel No. 2: 500 square feet for right of way

R-28123 - Esther C. Case
Right of Way (Clatsop County)
1,050 square feet

McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway

R-23410 - C. M. Fruit and Martha J. Fruit
Right of Way (Yamhill County)
7.75 acres

R-23411 - J. J. Ewen and Florence A. Ewen
Right of Way (Yamhill County)
6.1 acres

R-23412 - Ross Cruickshank and Mary Lee Cruickshank
Right of Way (Yamhill County)
5.79 acres

R-23413 - R. Kenneth Nissen
Right of Way (Yamhill County)
6.7 acres

R-28004 - City of McMinnville
Right of Way (Yamhill County)
3.6 acres

R-28005 - Carl H. Wahl and Ida M. Wahl
Right of Way
1.15 acres

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-23663 - Filomena Jcioly
Multnomah County
Parcel No. 1: 1.85 acres for right of way
Parcel No. 2: 0.3 acres for right of way
Amended resolution to acquire Parcel No. 2

June 19, 1958

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (Cont.)

R-27090 - Charles C. Grant and Eleanor E. Grant
Right of Way (Multnomah County)
5,000 square feet

R-27717 - H. L. Armentrout, James G. Perkins and G. Prentiss Lee
Right of Way (Multnomah County)
2,750 square feet

R-28040 - F. S. Wilhelm and W. C. Wilhelm
Right of Way (Multnomah County)
1,250 square feet

Cascade Secondary Highway

R-26381 - Ethel Pullen Kosher Galloway and Otis W. Galloway
Multnomah County
Parcel No. 1: 4.03 acres (net) for right of way
Parcel No. 2: 0.42 acre for right of way
Parcel No. 3: 215 square feet for an encroachment easement
Amended resolution to change access provisions and acquire encroachment easement

R-26382 - Cosmo Spada and Angiolina Spada
Multnomah County
Parcel No. 1: 2.92 acres (net) for right of way
Parcel No. 2: 0.3 acre for right of way
Amended resolution to change access provisions

R-26387 - Louis Sisk and Ira D. Brin
Multnomah County
Parcel No. 1: 2.32 acres for right of way
Parcel No. 2: 1.22 acres for excess taking
Amended resolution to redesignate necessity of Parcel No. 2

Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway

R-27643 - Fay A. Hulit and Velma A. Hulit, et al.
Right of Way (Washington County)
2.2 acres

R-27646 - Mervin W. Brink and Ruth S. Brink
Right of Way (Washington County)
0.06 acre

R-27649 - George H. W. Skuse and Emma E. Skuse

R-27890 - Samuel K. Azar and Norma Azar
Right of Way (Multnomah County)
0.08 acre

Right of way maps and other data were submitted to the Commission.

The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. Action was deferred by the Commission pending study of the several items. (The Commission approved the condemnations on the following day.)

A report was presented by the Chief Counsel and accepted by the Commission concerning condemnation cases that have been tried in court since the last Commission meeting, details of which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
May 8, 1958 through June 16, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Lyon, et ux. Tower, et ux. R-26411	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	$ 8,500	$45,000	$10,500
Nelson, et al. R-25470	Linn	Pacific	N. Jefferson Jct.-Albany Sec.	$ 2,000	$ 9,372	$ 2,800

June 19, 1958

30063

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Young & Yantti, et al. R-26519	Washington	Tualatin Valley	Forest Grove-Hillsboro	$ 6,100	$ 12,825	$ 9,500

Cantrell, et al. R-27072	Union	Old Oregon Trail	Hilgard-La Grande	19,072	25,500 (oral) 40,000 (Answer)	25,000

REPORT OF TRIAL OF OTHER CASES
June 6 through June 16, 1958

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2715 CAO-55-160	State of Oregon	Blue Mountain Mills Co.	Grant	Damages by water leakage from reservoir	Originally $2,700 amended to $3,400	$ 2,900
	State of Oregon	Virgil Ames	Linn	Evict tenant for non-payment of rent	-------	Defendant failed to appear and order of eviction obtained, however, defendant apparently voluntarily vacated the premises-case closed.
L-2608	P. N. Shown	State of Oregon	Wheeler	Flood damage	5,000	5,000
L-2688	Gladys Vera Sussman	State of Oregon Porter Yett, State Contractor #4313	Washington	Dust damage during construction	1,000	None Dismissed as to State, after demurrer.

(For additional details, see copy of the Chief Counsel's letters dated June 12 and June 16, 1958, and the summaries of cases tried attached to such letters, in the general files.)

June 19, 1958

The Chief Counsel also presented and the Commission accepted a report of condemnation cases which have been settled since the last Commission meeting, as follows:

REPORT OF CONDEMNATION CASES SETTLED
June 17, 1958

Case	County	Highway	Section	State's Offer	Amount of Settlement
Brawley, et ux. R-26334	Yamhill	Hillsboro-Silverton	Newberg-Gearin Corner	$ 1,210	$ 1,210 including fencing
Bauer, et al. R-26967	Washington	Sunset	Murray Road Interchange	1,925	2,425
Streiff R-23163	Multnomah	Beaverton-Hillsdale	Washington County Line	1,250	1,350
Edmunds, et ux. R-25706	Clackamas	Mt. Hood	Sandy-Forest Boundary	100	200
Parry, et ux. R-27590	Multnomah	Sunset	Zoo Interchange	600	750
Hazel Parks (Beaver Supply) L-2789	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Blvd.	11,000	12,500 and deposit of dirt on remaining land.

(For additional details see tabulation attached to the Chief Counsel's letter dated June 18, 1958, entitled Report of Cases Settled in the General Files.)

The Chief Counsel stated that a report had come to his attention, unofficial as yet, that the U.S. Bureau of Public Roads is going to adopt a policy of not participating in payment of attorney's fees as a part of the payment to the property owner in condemnation cases tried in court. He commented that this could amount to a sizable item in the course of the year and he mentioned that 90 cases have been tried in court during the first five months of 1958. He stated that further investigation would be made concerning this development and he would make a report at the next Commission meeting.

June 19, 1958

In conformity with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented and the Commission approved offers that were tendered to the owners for acquisition of real property prior to the institution of condemnation proceedings, as follows:

Cascade Secondary Highway

R-26382 - Cosmo Spada, et al. Parcel No. 1: 2.92 acres (net) for right of way purposes; Parcel No. 2: 0.3 acre for right of way purposes. Offer of $10,850.00 approved by Mr. McIver May 14, 1958.

R-26384 - Robert A. Bitar, et al. 4.147 acres for right of way purposes. Offer of $47,000.00 approved by Mr. McIver May 14, 1958.

R-26387 - Louis Sisk, et al. Parcel No. 1: 2.32 acres for right or way purposes; Parcel No. 2: 1.22 acres for excess taking. Offer of $78,500.00 approved by Mr. McIver May 21, 1958.

R-26388 - H. V. Higley, Administrator of Veterans Affairs, et al. 5,909 square feet for right of way purposes. Offer of $9,850.00 approved by Mr. McIver May 13, 1958.

R-26394 - Charles C. Quimby, et al. 5,992 square feet for right of way purposes. Offer of $7,500.00 approved by Mr. McIver May 19, 1958.

R-27165 - Parkrose School District Number Three, Multnomah County, Oregon. 6,009 square feet for right of way purposes. Offer of $500.00 approved by Mr. McIver May 22, 1958.

Myers Creek-Brookings Section of the Oregon Coast Highway

R-27550 - Oleta A. Walker, et al. Parcel No. 1: 17.3 acres for right of way purposes; Parcel No. 2: 1.2 acres for easement for random fill; Parcel No. 3: 1.2 acres for easement for random fill. Offer of $10,765.00 approved by Mr. Chessman May 7, 1958.

R-27549 - Harvey D. Crook, et al. Parcel No. 1: 12.3 acres for right of way purposes; Parcel No. 2: 0.25 acre for easement for random fill; Parcel No. 3: 0.29 acre for road approach easement; Parcel No. 4: 0.05 acre for easement for random fill; Parcel No. 5: 0.57 acre for easement for random fill. Offer of $4,430.00 approved by Mr. Chessman May 13, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25455 - John Ropp, et al. Parcel No. 1: 15.91 acres (net) for right of way purposes; Parcel No. 2: 0.9 acre (net) for right of way purposes. Offer of $20,650.00 approved by Mr. McIver May 14, 1958.

Albany-Judkins Point Section (Cont.)

R-25599 - Harvey Grell, et al. Parcel No. 1: 17.97 acres (net) for right of way purposes; Parcel No. 2: 1.14 acres (net) for right of way purposes. Offer of $23,775.00 approved by Mr. McIver May 14, 1958.

R-25600 - O. M. Conrad, et al. Parcel No. 1: 12.03 acres for right of way purposes; Parcel No. 2: 2.68 acres for right of way purposes. Offer of $7,000.00 approved by Mr. McIver May 23, 1958.

R-27330 - F. T. Glaser, et al. Parcel No. 1: 14.22 acres for right of way purposes; Parcel No. 2: 70.63 acres (net) for right of way purposes; Parcel No. 3: 2.55 acres (net) for right of way purposes; Parcel No. 4: 1.68 acres (net) for right of way purposes; Parcel No. 5: 0.8 acre (net) for right of way purposes; Parcel No. 6: 3.81 acres (net) for easement for channel change; Parcel No. 7: 1.55 acres for easement for channel change. Offer of $35,785.00 approved by Mr. McIver May 14, 1958.

R-27506 - Elza F. Morgan, et ux. 25.93 acres for material source. Offer of $6,000.00 approved by Mr. McIver June 12, 1958.

R-27640 - Cecile I. Forkner, et al. 74.88 acres (net) for material source. Offer of $12,350.00 approved by Mr. McIver June 12, 1958.

R-28034 - Harold W. Knuths, et ux. 24.72 acres for right of way purposes. Offer of $12,500.00 approved by Mr. McIver May 27, 1958.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-20672 - Marilyn R. Gilbert, et al. 6,080 square feet for right of way purposes. Offer of $165,000.00 approved by Mr. McIver May 15, 1958.

R-25001 - Cyril J. Murray, et ux. Parcel No. 1: 0.6 acre for right of way purposes; Parcel No. 2: 0.29 acre for right of way purposes. Offer of $41,360.00 approved by Mr. McIver May 29, 1958.

R-27082 and R-27083 - Mike M. DeCicco, et al. Parcel No. 1: 6,234 square feet for right of way purposes; Parcel No. 2: 5,530 square feet for right of way purposes; Parcel No. 3: 2,100 square feet for right of way purposes. Offer of $41,500.00 approved by Mr. McIver May 27, 1958.

R-27598 - Etta Bell Gordon, et al. 700 square feet for right of way purposes. Offer of $1,500.00 approved by Mr. McIver May 27, 1958.

Butte Creek-Burton Canyon Section of the John Day Highway

R-26857 - Robert C. Jenkins, et al. Parcel No. 1: 14.2 acres (net) for right of way purposes; Parcel No. 2: 0.57 acre for easement for a ditch; Parcel No. 3: 0.32 acre (net) for right of way purposes. Offer of $4,800 approved by Mr. McIver May 21, 1958.

June 19, 1958

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23962 - John Stringer, et al. Parcel No. 1: 11.47 acres for right of way purposes; Parcel No. 2: 0.99 acre for right of way purposes. Offer of $2,804.00 approved by Mr. McIver May 14, 1958.

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26606 - Chris Richert, Jr., et ux. 0.93 acre for right of way purposes. Offer of $1,100.00 approved by Mr. Chessman May 14, 1958.

The Commission accepted a written report submitted by the Chief Counsel concerning orders issued by the Public Utilities Commissioner regarding railroad crossing matters in which the Highway Commission has been made a party, summarized as follows:

PUX 250: Application of Baker County for improvement of a grade crossing and installation of automatic warning signals on the Wingville County Road north of Baker. The order required the railroad to bear 50 per cent of the cost of the signal installation and further required maintenance of the signals at the expense of the railroad.

PUX 252: Spring Street Grade Crossing in Klamath Falls. This matter arose upon the application of the State Highway Commission. At the time of the construction of the new Sixth Street Overcrossing over the right of way and tracks of Southern Pacific Company, Spring Street was extended to cross under the overcrossing structure and across an industrial spur track at grade. This crossing was shown on the plans for the project but was not specifically covered in the original order. The present proceeding merely validates the crossing on the records of the Public Utilities Commissioner.

PUX: 254: Overcrossings of the tracks and right of way of Oregon Short Line Railroad Company, Union Pacific Railroad Company, Lessee, on revised location of the Old Oregon Trail Highway north of Ontario. The order authorized construction of the structures and provides that the State shall assume the maintenance thereof. The facilities of the railroad companies are to be maintained by them. The railroad companies are not to participate in the cost of construction and are to be reimbursed for their necessary expenditures.

A report was also submitted by the Chief Counsel concerning claims against others which have been compromised, a summary of which follows:

Louis Kadas, CAO-57-175. On June 21, 1957, a car driven by Louis Kadas collided with the Floras Creek Bridge at milepoint 306.92 on U.S. Highway 101, resulting in damages of $471.36. Mr. Kadas was killed in this accident. As there is an honest dispute as to whether Mr. Kadas struck

the bridge in order to avoid an oncoming car, he recommended that a compromise settlement offered by Mr. Kadas' surety in the amount of $353.52 be accepted.

Standley Brothers, CAO-57-104. On April 30, 1957, an unidentified log truck with an over-height load struck and damaged the cross members of the Coquille-North Fork Bridge on Highway 42 resulting in damages of $4,812.16. As it cannot be definitely proved that the Standley Brothers truck was the one involved, he recommended that a compromise settlement offered by Iowa Mutual Insurance Company be accepted in the amount of $3,208.40.

Southern Pacific Company, CAO-57-221. On September 13, 1957, fire broke out on the Southern Pacific Company right of way near Brooks, Oregon, which caused damage to right of way fence, trees and shrubs on the Baldock Freeway in the amount of $814.14. As it could not be definitely proved that an alleged hot box on a railroad train had caused the fire, he recommended that a compromise settlement offered by Southern Pacific Company be accepted in the amount of $450.00.

The Commission approved the compromise settlements as reported.

Attention was given to a letter presented by the Chief Counsel defining 22 points of access on the Lookout Point Reservoir Section of the Willamette Highway. He explained that in relocating a section of this highway necessitated by construction of Meridian Dam and the flooding of the old highway behind Lookout Point Reservoir, the United States of America agreed to obtain and deed to the state the right of way required for relocation of the highway and also access control when the individual properties were acquired. The agreement also provided that the State Highway Commission should approve in writing all access points reserved to the several property owners. A deed has been prepared conveying the relocated highway to the State but before the transaction can be completed it is necessary for the State to give approval to the access points. The Commission approved accesses as recommended and authorized the Chief Counsel to sign and deliver a letter to the United States Corps of Engineers in Portland advising them of the action taken.

Consideration was given to a request from Tripp & Tripp Realty Company, Albany, Oregon, for relaxation of advertising restrictions on Lots 54, 55, and 56, Sudtell Acres, on the Pacific Highway north of Albany in Linn County. The Chief Counsel explained that the restrictions were contained in two deeds, both executed in June, 1945, and limited advertising to farm names or "For Sale" signs of livestock or commodities raised on the properties. Potential industrial buyers of the lots wish to advertise their businesses which are to be operated thereon. He pointed out that the advertising clause used in more recent deeds allows advertising for any use to which the remaining land may be devoted. Upon his favorable recommendation the Commission approved relaxation of the advertising restrictions contained in the deeds to allow advertising of business activities conducted on the premises, which are not prohibited by the provisions of the Interstate Highway Act.

Attention was given to a suggestion from the Chief Counsel that authority be delegated to the State Highway Engineer to sign on behalf of the Commission project agreements with the Bureau of Public Roads. The Chief Counsel stated that the matter had been investigated and that the Commission has authority to delegate such function if it so desires. The Engineer commented that the Bureau of Public Roads has delegated similar authority to Mr. C. G. Polk, Division Engineer, Salem in order to expedite Federal payments to the State and, if the Commission sees fit to delegate the signing of these agreements to the Engineer, it will speed up approval of the agreements approximately one week. The Commission granted to the Engineer authority to sign the project agreements by adoption of the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request from A. J. Sauers that the Commission consent to assignment of his lease with the State to Graham and Iris M. Woods. The Chief Counsel explained that Mr. Sauers holds a lease on 0.2 acre of land on the Reedsport-Coos County Line Section of the Oregon Coast Highway. Assignment of the lease, he stated, will not be detrimental to the State and he recommended that the Commission approve the assignment and authorize him to sign the "Consent to the Assignment" in the name of the Commission. The Commission approved the assignment and granted him the authority requested.

The Chief Counsel requested authority which the Commission granted to institute legal proceedings to recover from James L. Ferguson the sum of $50.00 for a check issued in payment of rent which was returned marked "Not sufficient funds."

Confirmation of telephonic approval was requested by the Chief Counsel to construct a septic tank on property acquired near Cottage Grove, File No. 21425, at a cost of approximately $325.00. This property, he stated, will be rented for many months and the expenditure is justified as an investment. The Commission approved the expenditure.

The Commission gave attention to a proposed revision to Miscellaneous Resolution No. 94a, adopted by the Commission February 27, 1958, concerning delegation of authority to the State Highway Engineer to determine gross weight of vehicles on highways found to be in weakened condition by the elements. The purpose of this resolution, the Chief Counsel, explained, is to remove any ambiguities and any possible interpretation that such authority cannot be redelegated by the State Highway Engineer to other highway officials. Upon his favorable recommendation, the Commission approved the revision by adopting the attached revised resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Chief Counsel action to be taken against Edwin Black, a Right of Way Agent for the State Highway Department. The Chief Counsel pointed out that Mr. Black was acquitted in court for criminal action in which it was claimed that he had improperly accepted

funds from a property owner with whom he had negotiated acquisition of right of way. It was his opinion that although Mr. Black was acquitted of criminal action he had violated the ethics and rules of the Highway Department in selling his services to people with whom he was negotiating for highway right of way and should be discharged from State service. Mr. Black, he stated, has appealed his case to the Civil Service Commission and a hearing will most likely be required. Chairman McIver commented that strict discipline must be maintained in such matters. The Commission approved the discharge of Mr. Black.

Chairman McIver brought up the matter of borrowing funds from other State agencies to establish a revolving fund to be used for the purchase of right of way for state highways. He commented that if such a fund could be set up it would greatly expedite the buying of right of way and should provide a considerable saving in right of way costs. The Chief Counsel, the Engineer, and the Chief Auditor were instructed to investigate the matter and submit a report.

Mr. Thornton Munger and Mr. Arthur Robertson, representing the Save the Myrtlewoods Association, appeared briefly before the Commission and expressed appreciation for the action taken by the Commission earlier in the session accepting from the State Board of Forestry 160 acres of Myrtlewood land in Curry County known as Loeb Memorial Park. Mr. Munger urged the Commission to exercise care in developing the park so that the Myrtlewood trees will not be damaged. It was his thought that overnight camping should not be permitted in this park, and that a picnic area should be developed on the higher ground. He mentioned a small triangle of land that they have not been able to purchase which would fit into the existing property, and he asked the Commission to acquire it. He stated that the Myrtlewoods Association has some money which could be used to pay that cost involved. The Parks Superintendent stated that the tract referred to by Mr. Munger is a very desirable one and would make a fine addition to the park. The Commission took no action on the matter.

The Commission discussed with the Engineer bids received in the Salem Office on May 29 and on June 17, 1958. At 4:00 p.m. Commissioner Chessman announced award of contracts as follows:

BIDS RECEIVED IN SALEM ON MAY 29, 1958

"Construction of one structure, highway roadbed, and stone base on the Nehalem River Bridge Section of the Nehalem Highway in Columbia County. The Commission awarded the contract to the low bidder, Babler Brothers, Inc., Portland, at $61,722.50.

"Repair pier fenders of Isthmus Slough Bridge on the Coos River Highway in Coos County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Company, Reedsport, at $14,024.50.

"Grading the Hooskanaden Creek-Thomas Creek Section of the Oregon Coast Highway in Curry County. The Commission elects to accept the low bid of Morrison-Knudsen Company, Inc., Boise, Idaho, in the sum of $2,554,745.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling Middle Unit, Hamilton-Long Creek Section of the Kimberly-Long Creek Highway in Grant County. The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at $224,558.00.

"Grading and paving Third Street-Green Springs Junction Section of the Pacific Highway in the city of Ashland in Jackson County. The Commission awarded the contract to the low bidder, M.C. Lininger & Sons, Medford, at $107,125.00.

"Grading, paving and structure, and furnishing crushed material in stock piles on the Trail Creek Bridge Section of the Crater Lake Highway in Jackson County. The Commission elects to accept the low bid of Durbin Brothers, Eugene, in the sum of $206,245.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Furnishing crushed material in stock piles on the Prospect-Park Boundary Section of the Crater Lake Highway in Jackson and Klamath Counties. The Commission awarded the contract to the low bidder, Moyer Gravel Company, Alturas, California, at $34,560.00.

"Grading and paving Middle Unit, Crescent Lake Junction-The Dalles-California Junction Section of the Willamette Highway in Klamath County. The Commission awarded the contract to the low bidder, Tuss Brothers Construction, Woodburn, at $247,870.25.

Stone base and paving Second Avenue in the city of Chiloquin in Klamath County. The Commission awarded the contract to the only bidder, Asphalt Paving Company, Klamath Falls, at $12,204.00.

"Paving Santa Clara-Eugene Section of the Junction City-Eugene Highway in Lane County. The Commission awarded the contract to the low bidder, T. C. Wildish Company, Eugene, at $171,555.50.

"Curb construction on the Knowles Creek Tunnel Section of the Mapleton-Richardson Road in Lane County. The Commission awarded the contract to the low bidder, Fred J. Stubbert, Springfield, at $6,548.00.

"Grading, paving and construction of three concrete slab span structures on the Jonesboro-Tunnel Section of the Central Oregon Highway in Malheur County. The Commission elects to accept the low bid of Central Paving Company, Independence, in the sum of $441,916.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Stone base and paving West Idaho Avenue in the city of Ontario in Malheur County. The Commission elects to accept the low bid of Russell Olson Construction Company, Inc., Pendleton, in the sum of $27,734.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Ontario is received and the sum of $11,500.00 is deposited by the City.

"Grading Lancaster Drive-Sublimity Gun Club Section of the North Santiam Highway in Marion County. The Commission elects to accept the low bid of C. R. O'Neil, Creswell, in the sum of $709,692.25, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading, paving and reconstruction of one bridge on 12th Street-East City Limits (Salem) Section of the Silver Creek Falls Highway in the city of Salem in Marion County. The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at $96,992.00.

"Grading, paving and construction of three structures on Airport-Alberta Street Section of 82nd Avenue and the Cascade Highway in Multnomah County. The Commission elects to accept the low bid of Warren Northwest Inc., Portland, in the sum of $865,349.60, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $43,500.00 is deposited by the County and necessary right of way is obtained.

Construction of 19th Avenue and Multnomah Boulevard Undercrossings on Harbor Drive-Washington County Line Section of the Pacific Highway (R. H. Baldock Freeway) in Portland in Multnomah County. The Commission awarded the contract to the low bidder, Tom Lillebo Company, Reedsport, at $280,856.75.

Grading and paving Church Street and East Street-East City Limits (Monmouth) Sections of Church Street and the Monmouth-Independence Highway in Monmouth in Polk County. The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at $33,968.00.

"Construction of addition to existing maintenance shed at Pendleton in Umatilla County. The Commission awarded the contract to the low bidder, Clark and Wells, Hermiston, at $9,608.00.

"Remove existing timber deck and precast concrete deck on the McFee Bridge (Bonner Bridge over McFee Creek) on the Hillsboro-Silverton Highway in Washington County. The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at $19,145.00.

BIDS RECEIVED IN SALEM ON JUNE 17, 1958

"Construct Luckiamute River Bridge on County Road 502 in Benton County. The Commission elects to accept the low bid of Tom Lillebo Construction Company, Reedsport, in the sum of $27,120.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County is received and the sum of $3,900.00 is deposited by the County.

June 19, 1958

"Grading and paving Wauna-Westport Section of the Columbia River Highway in Clatsop County. The Commission elects to accept the low bid of Fred H. Slate Company and E. C. Hall Company, Portland, in the sum of $468,830.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving Seaside Section of the Oregon Coast Highway in Clatsop County. The Commission elects to accept the low bid of The United Contracting Company, Portland, in the sum of $154,785.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct Milton Creek Bridge on Columbia Boulevard (Yankton Road) in the city of St. Helens in Columbia County. The Commission elects to accept the low bid of Erick Enquist, Troutdale, in the sum of $26,671.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County is received and the sum of $1,500 is deposited by the County.

"Construct Cooper Bridge over North Fork, Coquille River on Myrtle Point-Fairview Road in Coos County. The Commission elects to accept the low bid of Sig Andersson, North Bend, in the sum of $128,156.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Coos County is received and the sum of $28,800 is deposited by the County.

"Paving East 10th and North Collier Streets Section in the city of Coquille in Coos County. The Commission awarded the contract to the low bidder, Woodward and Son and Barklow, Coquille, at $14,972.00.

"Grading and oiling West Unit, Post-Camp Creek Section of the Paulina Secondary Highway in Crook County. The Commission elects to accept the low bid of Keystone Construction Company, Inc., Prineville in the sum of $296,021.80, and directs the State Highway Engineer to award the contract to the said bidder as soon as necessary right of way is acquired.

"Oiling twelve county roads in Deschutes County in the vicinity of Terrebonne, Redmond, Bend, Alfalfa, Tumalo, and Sisters. The Commission elects to accept the low bid of Babler Brothers, Inc., Portland, in the sum of $109.500.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Deschutes County is received and the sum of $35,370.00 is deposited by the County.

"Construct Myrtle Creek Interchange structure on Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Company, Reedsport, at $105,905.00.

"Grading, paving and structure on Emigrant Reservoir Section of the Green Springs Highway in Jackson County. The Commission elects to accept the low bid of Babler Brothers, Inc., Portland, in the sum of $353,602.00, and directs the State Highway Engineer to award the contract to said bidder, if concurrence of the Bureau of Reclamation is received.

"Paving Bybee Bridge-Gregory Road Section of the Table Rock County Road in Jackson County. The Commission elects to accept the low bid of Rogue River Paving Company, Medford, in the sum $45,533.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $4,780.00 is deposited by the County.

"Slide Correction on Smith Hill Section of the Pacific Highway in Josephine County. The Commission awarded the contract to the low bidder, Buchanan Excavating Company, Junction City, at $24,072.50.

"Grading and paving Springfield Section of the McKenzie Highway in Springfield in Lane County. The Commission awarded the contract to the low bidder, T. C. Wildish Company, Eugene, at $42,901.50.

"Paving and stone shoulders on the Albany Canal-Lebanon Junction Section of the Albany-Brownsville County Road in Linn County. The Commission elects to accept the low bid of Morse Brothers, Lebanon, in the sum of $58,820.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $13,450.00 is deposited by the County.

"Construct Maintenance Building at Silverton in Marion County. The Commission awarded the contract to the low bidder, John A. Pfeifer Construction Company, Silverton, at $15,046.20.

Grading and paving Browning Avenue-Rosedale Section of the Liberty County Road in Marion County. The Commission elects to accept the low bid of Central Paving Company, Independence, in the sum of $161,555.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $25,420.00 is deposited by the County.

"Construct connection and revise existing structure over S. W. Terwilliger Boulevard Unit of the R. H. Baldock Freeway in Portland in Multnomah County. The Commission awarded the contract to the low bidder, Kuckenberg Construction Company, Inc., Portland, at $308,899.50.

"Grading and paving Harbor Drive-Lowell Street Unit, Harbor Drive-Washington County Line Section of the Pacific Highway (R. H. Baldock Freeway) in Portland in Multnomah County. The Commission elects to accept the low bid of Roy L. Houck & Sons and Roy L. Houck Sons Corporation, Salem, in the sum of $890,440.40, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading Multnomah Falls-Dodson Section of the Columbia River Highway in Multnomah County. The Commission elects to accept the low bid of Fred H. Slate Company and E. C. Hall Company, Portland, in the sum of $462,065.00, and directs the State Highway Engineer to award the contract to said bidder if concurrence of the Bureau of Public Roads is received and all rights of way are acquired.

"Stone base and oiling North Powder-Davis Ranch Section of the North Powder River Road in Union County. The Commission elects to accept the low bid of C. E. Leseberg, Nyssa, in the sum of $53,257.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Union County is received and the sum of $12,000.00 is deposited by the County.

"Construct two Grande Ronde River Bridges near La Grande on the Old Oregon Trail Highway in Union County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Company, Reedsport, at $569,819.10.

"Oiling the Flora Spur Section of the Flora Spur County Road in Wallowa County. The Commission elects to accept the low bid of J. F. Konen Construction Company, Inc., Lewiston, Idaho, in the sum of $13,606.90, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $780.00 is deposited by the County.

"Grading, paving, and structure on the Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway in Washington County. The Commission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $286,239.50, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Construct Fanno Creek Bridge on Oleson Road, 0.1 mile south of its junction with Scholls Ferry Road and the Beaverton-Hillsdale Highway in Washington County. The Commission elects to accept the low bid of Central Paving Company, Independence, in the sum of $14,187.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Washington County is received and the sum of $800.00 is deposited by the County.

"Construct four structures and grading and oiling on Muleshoe Creek-Burton Canyon Section of the John Day Highway in Wheeler County. The Commission awarded the contract to the low bidder, Newport Construction Company, Portland, at $521,615.50.

"Grading and oiling West Unit, McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway in Yamhill County. The Commission elects to accept the low bid of O.C. Yocom Co., McMinnville, in the sum of $194,852.70, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

The Engineer reported that he has awarded certain contracts that were previously referred to him by the Commission with authority to make the awards when certain conditions had been fulfilled. These conditions, he said, were satisfied and the following contracts have been awarded:

(1) Construction of structure and grading and oiling on Tualatin River Overflow Bridge Section of Cornelius-Blooming Road, Washington County. Bids received May 8, 1958. Contract awarded May 19, 1958, to R. H. Jones, Hillsboro, low bidder.

(2) Grading and paving Gladstone (First Street) Section in city of Gladstone, Clackamas County. Bids received May 8, 1958. Contract awarded May 19, 1958, to Parker & Fuhrman and Rich Valley Topsoil Company, Portland, low bidder.

(3) Stone base and paving the Hermiston (Orchard and Maple Avenues) Section, Umatilla County. Bids received May 8, 1958. Contract awarded May 23, 1958, to Russell Olson Construction Company, Inc., Pendleton, low bidder.

(4) Grading the Burnt Hill-Hooskanaden Creek Section of Oregon Coast Highway, Curry County. Bids received April 17, 1958. Contract awarded May 23, 1958, to Peter Kiewit Sons' Company, Medford, low bidder.

(5) Reinforce and raise five existing piers, remove on pier, raise one existing pier of Portland-Vancouver Interstate (East) Bridge over Columbia River on Pacific Highway. Bids received March 27, 1958. Contract awarded May 28, 1958, to General Construction Company, Portland, low bidder.

(6) Steel B idge redecking on Pacific Highway, Multnomah County. Bids received May 8, 1958. Contract awarded May 28, 1958, to Steel Construction Company of Oregon, Portland, low bidder.

(7) Grading on the Saddle Butte-Twin Buttes Section of the Pacific Highway, Linn County. Bids received May 9, 1958. Contract awarded June 13, 1958, to R. A. Heintz Construction Company, Portland, low bidder.

(8) Grading on the Lebanon Road-Saddle Butte Section of the Pacific Highway, Linn County. Bids received May 8, 1958. Contract awarded June 16, 1958, to Roy L. Houck & Sons and Roy L. Houck Sons Corporation, Salem, low bidder.

The Commission confirmed award of the contract as reported.

The placing of reduced load limits on the East Diamond Lake, West Diamond Lake, and Crater Lake North Secondary Highways was reported by the Engineer as having been made necessary by the weakened condition of the roadbed caused by melting snow. He said that under authority granted him by the Commission on February 27, 1958, a reduced load limit allowing 11,000 lbs. gross on any single axle and 20,000 lbs. gross on any pair of tandem axles was placed on each of the following highways effective 9:00 a.m. May 21, 1958, but the restrictions were removed at 8:00 a.m. June 4, 1958, when conditions permitted resumption of legal weight loads:

(1) Crater Lake-North Highway No. 232, milepoint 0.0 to milepoint 3.81.

(2) West Diamond Lake Highway No. 233 (State route 230) from milepoint 8.0, two miles east of the Jackson County-Douglas County line, to milepoint 23.89, its junction with Crater Lake-North Highway.

(3) East Diamond Lake Highway No. 425 (State route 230) for its entire length which extends from junction with Crater Lake-North Highway No. 232 to The Dalles-California Highway No. 4 (US route No. 97).

The Commission confirmed the Engineer's action in this matter.

Establishment of four temporary construction speed zones as follows were reported by the Engineer who stated that he established such zones under authority previously granted to provide protection for the traveling public while highway construction is under way:

(1) Pacific Highway West, 35 miles per hour on Barbur Boulevard M.P. 6.92 to M.P. 7.92. Effective at noon May 20, 1958.

(2) Pacific Highway (R. H. Baldock Freeway), 35 miles per hour from M.P. 7.45 to M.P. 8.11. Effective at noon May 20, 1958.

(3) Columbia River Highway, Goble-Tide Creek Section, 35 miles per hour between M.P. 36.32 and M.P. 40.11. Effective June 13, 1958.

(4) Mt. Hood Highway, Sandy-Alder Creek Bridge Section between M.P. 25.08 and M.P. 33.64. Effective June 13, 1958.

The Commission confirmed the establishment of such speed zones as reported.

A proposed compromise settlement with West Slope Water District for changes in their water facilities necessitated by highway construction on the Sunset Highway near Sylvan was presented by the Engineer. He recalled that at the May 9 meeting of the Commission, officials of the water district protested the disallowance of $10,105.06, in the bill which they had submitted totaling $42,747.88. The disputed amount, he continued, was for the moving and reestablishment of 1400 feet of pipe line on the easterly portion of the water district's facility. It was the State's position, he said,

that all or most of the old line was on public right of way so should be moved at the expense of the District. The District contended that a change in plans for highway construction had increased their costs in the sum of $10,105.06. Another meeting was held with officials of the water district and as there apparently was confusion over who had agreed to pay the extra amount, it was finally agreed that the $10,105.06 which was in controversy should be paid 50 per cent by the District and 50 per cent by the State. He therefore recommended that the water district be paid $37,695.35, which is $5,052.53 more than originally approved by the Commission. The Commission approved such settlement of the matter.

The Bureau of Public Roads, the Engineer stated, has requested that the State perform certain seeding and fertilizing on cut and fill slopes on two Bureau projects on the Mount Hood Highway westerly from Government Camp. The estimated cost of this work which can be performed by State forces, he said, is $1,800.00 and the Bureau has agreed to reimburse the State for this cost. He recommended that he be authorized to perform the work on such basis under terms of a written agreement. The Commission approved the project as outlined.

Conveyance to Clackamas County of a parcel of land at the intersection of Price Fuller Road with King Road adjacent to S.E. 82nd Avenue was presented by the Engineer. He stated that several years ago, in revising the Price Fuller Road, the State had purchased new right of way and had retained title. The road is a county road maintained by the county and to clear the record, title to the roadway should be transferred to Clackamas County. In return, Clackamas County is vacating the old right of way which has been abandoned, and the State will obtain title to a considerable portion of it. Upon his favorable recommendation, the Commission approved a quit claim deed in favor of Clackamas County.

The Engineer presented a list of projects for county federal-aid secondary roads using "D" funds under the crash program recently approved by the Congress. He recalled that on May 8, a partial program for these funds was approved in 12 counties totaling $468,000. He recommended approval of the following projects in 23 counties totaling $919,000, thus completing the program of county federal-aid secondary "D" fund money with the exception of $23,000 for a project in Morrow County which County Court will select:

County	FAS Hwy. No.	Section and Description	Programmed Amount
Baker	511	Eagle Creek Bridge, structure only.	$ 23,000
Clackamas	122	Shipley (Tualatin River) Bridge	91,000
	810	Little Clear Creek and Clear Creek Bridges (2) (Substitution of DS funds for regular FAS funds on projects approved by Highway Commission 5/8/58.)	

County	FAS Hwy. No.	Section and Description	Programmed Amount
Columbia	816	Milton Creek (St. Helens) Bridge (Substitution of DS funds for regular FAS funds on project approved by Highway Commission 2/27/58)	$ 35,000
Coos	252	North Fork Coquille River (Fairview) Bridge, structure only.	43,000
Curry	876	Crook Creek Bridge, structure only)	17,000
	878	Edson Creek Bridge, structure only)	
Deschutes	658	Eby Road Section 1 mile)	
	691	East Unit, Ward Road Section 1.4 ")	
	778	Wimp Road Section 1 ")	Oiling
	784	Bailey Road Section 1.1 ")	
	792	Tweed Road Section 2 ")	
		(Supplementing regular FAS funds with DS funds on projects approved by Highway Commission 2/27/58)	29,000
Douglas	800	Garden Valley Road Section, 0.6 mile, G. & P.	61,000
Gilliam	441	Lonerock Creek Bridge (Substitution of DS funds for regular FAS funds on project approved by Highway Commission on 1/16/58)	18,000
Grant	453	South Fork John Day River Section, grading. (Supplementing regular FAS funds with DS funds on project approved by Highway Commission 5/16/57)	21,000
Harney	450	North Unit, Burns-Wright Point (state hwy.) section. (Transfer of DS funds to state highway project as requested by county and approved by Highway Commission on 5/8/58)	25,000
Klamath	430	Lost River (Langell Valley) Bridge, (Substitution of DS funds for regular FAS funds on project approved by Highway Commission 5/8/58)	41,000
Lake	699	Bates Slough Bridge, structure only	27,000
Lane	210	McKenzie River Overflow Bridges (3)	95,000

June 19, 1958

30081

County	FAS Hwy No.	Section and Description	Programmed Amount
Lincoln	150 584	Rock Creek Bridge, structure only. Mill Creek Bridge, structure only.	$ 33,000
Linn	126 214 770	West Scio-Scio, paving, 1.5 miles McDowell Creek Bridge, structure only Oak Creek Bridge, structure only	55,000
Marion	742	Browning Avenue-Rosedale Section, G & P. (Supplementing regular FAS funds with DS funds on project approved by Highway Commission 11/8/56)	77,000
Sherman	667	Grass Valley-Rutledge Section, grading, 6 miles. (See regular FAS projects for additional $14,000)	16,000
Umatilla	472	Umatilla River (Thornhollow) Bridge, structure only.	58,000
Union	481	Iowa School-Island City Section, oiling, 4.3 miles.	23,000
Wallowa	697	Flora Spur Section, oiling, 2.7 miles. (Substitution of DS funds for regular FAS funds on project approved by Highway Commission 1/22/57)	21,000
Wasco	708	Dry Creek Bridge Section, bridge & grading.	23,000
Washington	581 837	Fanno Creek Bridge Gales Creek Bridge (Substitution of DS funds for regular FAS funds on project approved by Highway Commission 1/16/58)	71,000
Wheeler	318	North Unit, Spray-Waterman Section, surfacing, 8.4 miles. (Substitution of DS funds for regular FAS funds on project approved by Highway Commission 3/28/57).	16,000
		TOTAL.....	$ 919,000

June 19, 1958

The Commission approved the program of projects as recommended.

The Engineer also presented a list of regular county federal-aid secondary projects in eight counties, amounting to $320,000. These projects, he stated, have been selected by the county courts and have been approved by him for expenditures as follows:

1958 & 1959 COUNTY FAS PROJECTS

County	FAS Hwy. No.	Section & Description	Programmed Amount
Baker	511	Powder River Bridge, structure only.	$ 24,000
Clatsop	757	Blind Slough Bridges (2) (Supplement to DS funds approved 5/8/58)	32,000
Gilliam	724	Snipton Road Section, oil mat, 4.2 miles	20,000
Jefferson	688	Juniper Lane-Fir Lane Section S & O, 4.2 miles. (Supplement to DS funds approved 5/8/58)	45,000
Sherman	667	Grass Valley-Rutledge Section, grading only, 6 miles	14,000
Umatilla	758	Birch Creek Section, G, S, & O, 6 miles.	75,000
Wallowa	485	Prairie Creek Bridge	10,000
Yamhill	746	Ballston (South Yamhill River) Bridge Section. Bridge, G, S, & O, 0.25 mile.	100,000
		TOTAL ADDITIONAL FUNDS	$320,000

SUMMARY

*Available Funds	$ 8,033,000
*Previously Approved	7,322,000
*Unprogrammed Balance	$ 711,000
Proposed Projects 6/9/58	320,000
Unprogrammed Balance...	$ 391,000

* These are revised totals from "Status, 1958 & 1959 County FAS Funds" tabulation dated 5/14/58 which reflects substitutions of DS funds for regular FAS funds on previously approved projects.

June 19, 1958

The Commission approved the projects.

The Engineer reported that on January 29, 1958, a car owned by Mr. Tom Bunch of Portland was damaged while parked near the intersection of S. E Union Avenue and S. E. Market Street, Portland. The damage was caused by a State Highway sign which was dislodged by a severe gust of wind and fell on Mr. Bunch's car. He recommended that Mr. Bunch be reimbursed for the cost of repairs which amounted to $50.36, as the Highway Department does not carry insurance covering this type of accident. The Commission approved the payment.

Consideration was given to a request from the Active Club of Salem for permission to use a portion of state highway right of way on the Willamina-Salem Highway near the west end of the Center Street Bridge in Salem. The Engineer stated that the Active Club proposes to install a midget race track for use by children. The Club is a non-profit organization and no admission is to be charged. As no objection has been raised by the Salem Parks Division, which owns adjoining property, and as the installation will not be detrimental to the State, he recommended that a revocable permit be issued to the Active Club allowing use of the property during summer months. The Commission approved his recommendation.

The Commission discussed with the Engineer items of unfinished business appearing on the Secretary's summary, dated May 9, 1958, summarized as follows:

1. Relocation of highways because of construction of Crooked River Dam south of Prineville: The Engineer stated that in line with the discussion of this subject with a delegation on May 9, an agreement had been prepared providing for replacement in kind of a portion of the Crooked River Highway which will be inundated because of dam construction. Details of the agreement, he stated, are being negotiated with the irrigation interests and Crook County. The most controversial item in the agreement appears to be the selection of a route for the reconstructed highway. No action is necessary at this time by the Commission. The Commission ordered the item deleted from the list of unfinished business.

2. Request of the Brookings Park Committee that the State take over as a state park the "Loeb Memorial Forest" on the Chetco River in Curry County: The Parks Superintendent reported on this matter earlier in the day at which time the Commission accepted the offer of the State Board of Forestry to deed the property to the Highway Department for state park purposes. The item was ordered deleted from the list of unfinished business.

3. Request of Representative Fred Meek for construction of a museum building at Champoeg State Park: The Parks Superintendent stated that plans have not yet been completed for this building but it is expected that a report will be ready to present to the Commission at its next meeting.

This item is to remain on the list of unfinished business.

4. Request of Baker County Court for the rerouting of the Haines-Anthony Lake Secondary Highway at its junction with US30 near Haines: The Engineer stated that as previously instructed the proposed rerouting has been carefully investigated. The Baker County Court proposed that consideration be given to a route approximately 3/4 mile southerly from the established federal-aid secondary highway to bring the road directly into the town of Haines. Although the proposed route is slightly longer, construction costs will be approximately the same as part of the alternate route is now improved. He recommended that the change in routing as requested by the County be approved. The Commission accepted his recommendation. This item is to be removed from the list of unfinished business.

5. Proposed sale of 0.24 acre on the Big Creek Section of the Columbia River Highway in Clatsop County: Earlier in the day the Right of Way Engineer submitted a report on the sale of this property and the transfer of the funds to the County. The Commission at that time approved the sale. The item was ordered deleted from the list of unfinished business.

6. Proposed construction of a building in Salem for use by the Motor Vehicle Department and the Department of State Police: The Engineer reported that construction of the building in the Highway Shops area appears to be stymied as the Board of Control wants to keep the offices in the Capitol Mall area if possible. The Commission took no action in the matter other than to order that the item be deleted from the list of unfinished business. It is to be considered as new business if it again arises.

7. Request of Springfield City Council for an addition to the FAS system to provide a one-way couplet with connections to the "Q" Street route and FAS860: The Engineer stated that the proposed route will serve as a connecting link between the City of Springfield and the new "Q" Street route. The Commission took no action on this matter pending the appearance of a delegation on the following day but instructed the Secretary to remove the item from the list of unfinished business. (After hearing the delegation, the Engineer was instructed to give the matter further study and render a report.)

8. Acquisition of right of way on Pacific Highway Interstate Route in the city of Portland: The Engineer stated that it will take approximately one year to complete the survey of this route so that its location can be determined accurately. The Bureau of Public Roads, he stated, has indicated that it would give favorable consideration to establishing the entire route in Portland as one project to facilitate acquisition of right of way. This item is to be deleted from the list of unfinished business.

9. Demand of Lower Columbia River Highway Association for revaluation of the Smith Point Bridge project near Astoria and Astoria Chamber of Commerce regarding construction of the Smith Point Bridge near Astoria: Securing of engineering data on this project requires considerable time and it was the Engineer's thought that a report could be presented probably in September, 1958. The Secretary was instructed to

advise the delegations who had appeared at the May meeting that an exhaustive study is being made of this project and that it is anticipated that no answer can be given until probably September, 1958. The Commission ordered the item deleted from the list of unfinished business. It is to be considered as new business when the Engineer's report is presented.

10. Request of Arlington Chamber of Commerce for improvement of the John Day Highway between Arlington and Condon: The Engineer stated that this section of highway, although not modern, can still be traveled at a good rate of speed, and in view of the low volume of traffic that it carries and the relatively high cost of the improvement, it is his recommendation that consideration be given to this project in a future program. The Commission approved his recommendation and instructed the Secretary to advise the Chamber of Commerce of the action taken. This item is to be removed from the list of unfinished business.

11. Request of Nehalem Bay Expansion Association for improvement of Highway 53 and better access roads into the Nehalem Bay area: The Engineer pointed out that construction of the "Elsie Cutoff" will cost between five and six million dollars; that in Division No. 2 there is available each year for construction approximately 1.5 million dollars; and that funds have already been committed in Division No. 2 for a large project at Smith Point on the Oregon Coast Highway. He recommended that the Association be advised of these facts as reasons for not approving their project. The Commission accepted his recommendation and ordered the item deleted from the list of unfinished business.

12. Requests from Klamath, Lake, Jackson, and Josephine Counties in Oregon, and Humboldt County in Nevada, for construction of an east-west highway across Southern Oregon: The Engineer reported that as previously authorized by the Commission during its recent inspection trip, a survey is being made on the route generally known as "Winnemucca to the Sea". Chairman McIver requested that the county judges of the various counties be advised of what action has transpired since the delegation was present at the May 9 meeting. The item is to be deleted from the list of unfinished business.

13. Request of Grant, Wheeler, Gilliam, and Sherman Counties for improvements on the Wasco-Heppner Highway, the John Day Highway, and the Service Creek-Mitchell Highway: Concerning the Wasco-Heppner Highway, the Engineer pointed out that improvement on this highway is already programmed but there still remains a question of location on a portion remaining to be reconstructed. Improvement of the Service Creek-Mitchell Highway on the basis of traffic volume and the present conditions of the road, he felt, is not justified at this time. The Commission ordered that a letter be prepared to the county courts involved advising them of the status of plans for improvement on these highways. This item is to be deleted from the list of unfinished business.

14. Wasco County delegation's request for improvements to US197: The Engineer called attention to the fact that $1,800,000 is now allocated for improvement of the section between The Dalles and Eightmile Creek

and that no additional funds are now available to carry the work further. The Commission ordered that a letter be sent to the interested parties advising them of the status of funds for improvements in this area. This item is to be deleted from the list of unfinished business.

15. Proposed relocation of approximately four miles on the Green Springs Highway because of dam construction near Talent: No action was taken as the matter is covered in a report prepared by the Engineer to be considered later in the session. The item was ordered deleted from the list of unfinished business. (See ahead for additional entry.)

The Engineer presented for the Commission's consideration surveys which have been completed for relocation of several highway sections. He outlined briefly the need for and the type of construction on each section and stated that the surveys are being presented as the most feasible construction projects commensurate with cost and benefit to the traveling public. Upon his favorable recommendation, the Commission approved the following surveys by adoption of the attached resolutions relative thereto marked EXHIBITS "I-1 through "I-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

(1) Rough and Ready Creek Section of the Redwood Highway in Josephine County. See EXHIBIT "I-3 ".

(2) Post-Lost Creek Section of the Paulina Highway in Crook County. See EXHIBIT "I-2 ".

(3) West Fork Illinois River Bridge Section of the Redwood Highway in Josephine County. See EXHIBIT "I-3 ".

(4) Tigard-Durham Road Section of the Beaverton-Tualatin Highway in Washington County. See EXHIBIT "I-2 ".

(5) Nehalem River Bridges on the Nehalem Highway in Columbia County. See EXHIBIT "I-2 ".

(6) Wauna-Westport Section of the Columbia River Highway in Clatsop County. See EXHIBIT "I-3 ".

(7) McKinley Moorage-Radio Station Section of the Netarts Highway in Tillamook County. See EXHIBIT "I-2 ".

(8) Elkton-Smith Crossing Unit of the Elkton-Kellogg Section of the Elkton-Sutherlin Highway in Douglas County. See EXHIBIT "I-1 ".

(9) Elk Creek Section of the Redwood Highway in Josephine County. See EXHIBIT I-3 ".

(10) Canyon City-Sheep Gulch Unit of the Canyon City-Seneca Section of the John Day-Burns Highway in Grant County. See EXHIBIT "I-1 ".

(11) Polallie Creek-Parkdale Road Section of the Mt. Hood Highway in Hood River County. See EXHIBIT "I-1".

The Commission gave attention to a request from Porter W. Yett, Contractor, for approval of his assignment to Porter W. Yett, Oregon Ltd., of his entire interests in State Highway Contract No. 5112, construction of the Murray Road Interchange Project on the Sunset Highway in Washington County. The Engineer pointed out that the proposed assignment provides that Mr. Yett as an individual shall continue to be held personally responsible and liable for fulfillment of the obligations of the contract. He recommended that the assignment be approved. The Chief Counsel stated that he has investigated the proposed assignment and that there are no legal objections to it. The Commission approved the assignment as recommended.

Consideration was given to a petition submitted by the City Council of Ontario, endorsed by the County Court of Malheur County requesting (1) that Ontario be by-passed so that there will be an interchange west of the city permitting traffic to enter the city from the west (2) that an interchange be constructed east of Ontario permitting traffic to enter the city from the east (3) improvement of North Oregon Street from Idaho Avenue to the interchange northwest of Ontario (4) improvement of East Idaho Avenue from Ontario underpass to the interchange east of the city including curbs, full width paving, and street lights. The Engineer reported that plans now call for an interchange northwesterly from the city where the old and new route of US30 cross and that the plans also provide for an interchange on Idaho Avenue when that portion of Interstate 80N is constructed. Concerning improvement of North Oregon Street, he stated that this type of project is one under which the city ordinarily pays 25% of the cost. However, the cost has not been determined and no funds are now available to finance it. Concerning improvement of East Idaho Avenue, he stated that this project is in the same category as the North Oregon Street project. He suggested that if the city is interested in requesting these projects that they should direct their request for consideration when funds are available. He also commented that illumination could not be included in either of the city projects as that is strictly a city function. The Commission accepted the suggestions made by the Engineer and ordered that the City Council and the County Court be advised accordingly.

Consideration was given to allocations suggested by the Bureau of Public Roads for application of additional Federal Forest Funds amounting to $619,896, granted under the 1958 Federal Highway Act. The Engineer explained that the suggested allocations include $40,000 for the Mt. Hood Loop project in Hood River County, $100,000 for the Clear Creek-Warm Springs Junction Section on the Wapinitia Highway, $400,000 for grading on Cascade Head Section of US101 and $80,000 in reserve. He explained that $40,000 for the Mt. Hood Loop is an additional sum to complete an existing project. The same is also true of the $100,000 for the Wapinitia Highway. Chairman McIver pointed out that before action can be taken on these projects it is necessary that agreement be reached on them between the State, the Federal Forest Service, and the Bureau of Public Roads. At his suggestion, the matter was placed on the list of unfinished business to be considered at the next Commission meeting.

Participation by the State Highway Department in the cost of reconstructing a portion of the Green Springs Highway around the proposed Talent Reservoir was discussed. The Engineer recalled that at the Commission meeting on May 9, 1958, a delegation representing the Bureau of Reclamation had requested state cooperation on this project. At that time he suggested that the state might cooperate to the extent by which the reconstructed road is of a higher type than the old highway as the old highway had a roadway width of 15 feet and the new highway a roadway 20 feet wide. He had also suggested that the state participate to the extent of paying 10% of the cost of the project which was then estimated at $500,000. His recommendation was submitted to the Commission by letter on May 23, 1958, and he asked that it be confirmed at this time. The Commission confirmed participation in the project in the amount of $50,000.

A letter was considered from the Secretary of State recommending an increase from five cents to seven cents per square foot in the rate charged for maintenance and operation of the building occupied by the State Highway Department in Salem. The Engineer explained that although the building was constructed by the Highway Department, maintenance of it is furnished by the Secretary of State. He also said that figures have been presented to support the increased rate, and he recommended that the new rate be approved effective July 1, 1958. The Commission approved the increased rate.

The Commission gave attention to the matter of reimbursing Union Pacific Railroad Company for the cost of removing sags from the railroad roadbed adjoining the Mosier-Rowena Section of the Columbia River Highway. The Engineer explained that when this highway section was rebuilt in 1953 it was necessary to move the railroad northerly into the Columbia River at a point approximately three miles westerly from Rowena and that an agreement was executed obligating the State to take care of unusual maintenance cause' by the shift. Sags developed in the railroad roadbed within the five year period of the agreement because of settlement. He recommended that the railroad be authorized to remove the sags at state expense which he estimated would not exceed $4,500. The Commission adopted the recommendation.

Attention was also given to a proposed project including channelizing islands and traffic signals at the junction of the Cape Arago and Empire-Coos Bay Highways in the city of Empire. The total cost of this project, the Engineer estimated, is $5,200 of which $1,200 represents channelization cost which was approved previously by the Commission, however, the traffic signals were not approved because the city did not have funds to pay its share. The city has now agreed to bear half the cost of installing the signals, estimated to cost $4,000, and has agreed to maintain them and furnish the electrical energy for their operation. He recommended approval of the entire project as originally requested, including the channelization work and the signals. The Commission approved the revised project. The matter is to be covered by appropriate written agreement.

The Engineer requested authority to spend $15,500 to revise the landscaping on Harbor Drive, Portland, where it is required by reason of construction of the new Morrison Street Bridge. He mentioned that in the original planning for the new bridge it was agreed that Multnomah County would remove the old bridge and the abutments and that the state would modify the landscaping to fit the new facility. This project, he stated, is not eligible for federal aid but must be financed with state funds. The Commission approved the landscaping project as requested.

Attention was given by the Commission to a tentative procedure requested by the Bureau of Public Roads to split among the 11 western states the cost of processing data for a report on the "Speed and Accident Study" of the western states as requested by the 1956 highway act. The Bureau proposes to do the work and each of the 11 states is to contribute the sum of $10,000 which is to be deducted from planning survey money allocated to the state. No state matching is required. The Engineer stated that if the state attempted to secure the data, the cost would be at least as great. He recommended approval of the suggested procedure subject to final formal approval. The Commission approved the arrangement as outlined.

Construction of a foot path along the westerly side of the Territorial Secondary Highway between the two grade schools in Elmira, Lane County, was requested in a letter received from Jack E. Warren, Clerk of Lane County School District 139. The Engineer stated that a short section of foot path at this place was previously constructed. He estimated the cost to construct the additional 0.22 mile section at $1,600. The school board, he said, has stated its willingness to participate in 25% of the cost, or $400. Need for the foot path, he added, has been determined and he recommended that the work be performed if the school district will contribute its 1/4 share. The Commission approved the project on such basis.

The Engineer requested increases in the project authorizations for two contracts as follows: $52,000 in connection with Contract No. 5020 for constructing the undercrossing of Barbur Boulevard and Capitol Highway. A substantial overrun in the amount of general excavation and the use of special backfill material in the abutments to the bridge accounted for the major portion of the overrun.

$1,900 in connection with Contract No. 5152 for the Old Faithful Slide removal project on the Dillard Secondary Highway. This overrun was caused by removing all material overlying the slip plane which was at a lower elevation than had been anticipated. The Commission approved both increases as requested.

The Commission considered a request from Robert White, Mayor of Salem, that the state convey to the city certain areas adjacent to the Salem By-pass section of the Pacific Highway in the vicinity of the Santiam Highway Interchange east of Salem. The Engineer explained that in four-laning the Salem By-pass, 21.93 acres had been secured from the city with the understanding that the property would be conveyed back to the city after completion of the Salem By-pass four-laning project if the state then had no further use for the borrow area. He advised that the area no longer is

of value for state purposes and he recommended that the property be conveyed to the city of Salem. He also called attention to an area which had been acquired for borrow purposes when the original two-laning of the Salem By-pass was constructed. This area, he said, consists mostly of a series of ponds with fairly deep water and is of no value for highway purposes, in fact, it is a nuisance from the stand point of maintenance and the necessity to provide protection from the hazard of drowning. He recommended that this old borrow area also be conveyed to the city of Salem with the stipulation that title would revert to the state if the property is ever used for other than park or recreational purposes. The Commission approved his recommendations.

The Engineer requested authority to advertise for bids for remodeling the Howard-Cooper Building on the Banfield Expressway in Portland, which building is to be used by the State Motor Vehicle Department and the Public Utilities Commissioner. He explained that the remodeling consists of new partitions, asphaltic tile floors, altering the lighting and heating systems, construction of a new entrance, rest room facilities, etc. etc., which he estimated would cost approximately $54,000. The Commission granted authority to issue a call for bids to be received July 10 and also approved an authorization of $54,000 to finance the project.

The Engineer also requested authority to request bids on July 10 for two highway projects. On the Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway, he stated that reinforcing of the surfacing is needed on 10.15 miles at an estimated cost of $110,000. On the Ladd Canyon-North Powder Section of the Old Oregon Trail Highway, surface reinforcement is needed on 8.25 miles which is estimated to cost $72,000. Rock production to furnish aggregates for the projects, he estimated, would cost $66,000 to be financed with 1958 rock production funds. Funds for the 0-11 resurfacing is to be taken from Federal Aid "D" Funds. He commented that the need for the additional surfacing is probably caused by subbase deflection. The Commission approved the projects as outlined.

Authority was requested by the Engineer to spend approximately $4,500 to restore a roadside rest area which was destroyed by reconstruction of the Minam-Rock Creek Section of the Wallowa Lake Highway. A suitable tract of land, he stated, has been secured. The Commission approved the project.

Attention was given to a letter from Guy H. Forsyth, County Judge of Curry County, requesting State participation in the cost of surfacing the Airport Road which extends from US101 to Curry County Airport and also serves as an access to Newburgh State Park. The Engineer advised that investigation disclosed that the improvement would cost approximately $45,000 whereas the County had estimated the cost at approximately $25,000. The Parks Superintendent stated that there are no funds in his budget for development of the road and in his estimation it would probably be several years before Newburgh Park is developed to any great extent. The Engineer stated that there are no highway funds available for the project and he recommended that the request be denied and the Curry County Judge be so advised. The Commission accepted the recommendation.

Attention was given to a request from the city of Ashland, by E. C. Biegel, City Manager, that a study be made to determine the need for traffic signals on the Pacific Highway through Ashland. The Engineer commented that the one-way couplet section has been completed through the city and that an engineering investigation disclosed that fixed-time traffic signals are warranted at the intersection of Main and Holman Streets; Main and Pioneer Streets; "C" and Pioneer Streets; and at "C" and Second Streets; also that the existing semi-actuated signal at the intersection of Main and Second Streets should be converted to a fixed-time operation, and that all of the fixed-time signals should be interconnected to form a progressive system for over all control on the couplet, and that a three phase fully actuated traffic signal should be installed at the intersection of Siskiyou Boulevard, Iowa Street, and Beach Street. He estimated the total cost of this project at $30,000, and he advised that the City has agreed to pay ½ the cost of the work, to maintain the signals, and to furnish electrical energy as may be necessary to operate the signals. Upon his favorable recommendation, the Commission approved the project as outlined and ordered the matter covered by appropriate written agreement.

The Commission gave attention to a request from the city of Portland for state participation in certain traffic improvements on S. W. Front Avenue and S. W. Harbor Drive in the city of Portland. The Engineer explained that a considerable change in traffic pattern will result from the opening of the new Morrison Street Bridge, which will require alterations in the traffic controls, including channelization work on Harbor Drive, which is estimated to cost $13,000 and is primarily the responsibility of the State Highway Department, and installation of new traffic signals which is estimated to cost $26,000 and is a project in which the city of Portland has agreed to pay ½ under the proposed setup. He recommended approval of the project on the basis that the city is to perform all of the work with the state to pay 2/3 and the city 1/3 of the total estimated cost of $39,000. The Commission approved the project as authorized and ordered the matter covered by appropriate written agreement.

Attention was given to a request from the Bureau of Public Roads that a federal-aid county road system be adopted that will permit programming of projects for several years without further system changes. The Engineer commented that in the past county roads have been added to the system as funds became available, and that individual projects are selected following conferences with the county court involved. He presented maps showing county roads and state secondary highways which have been recommended following conferences with the county courts for additions to the Federal Aid System totaling 1410.1 miles. He added that 168.2 miles on this list were approved by the Commission at the May, 1958, meeting to expedite contracting of "D" funds. Upon his favorable recommendation, the Commission approved additional mileage to the county FAS System as follows:

SUMMARY, ADDITIONS TO COUNTY FAS SYSTEM
June 3, 1958

COUNTY	TOTAL MILEAGE
Baker	----
Benton	23.3
Clackamas	19.9
Clatsop	18.8
Columbia	33.1
Coos	53.3
Crook	8.8
Curry	57.6
Deschutes	98.5
Douglas	99.3
Gilliam	37.3
Grant	23.4
Harney	116.9

Yamhill	12.6
TOTAL.....	1241.9

(For detailed descriptions of each individual addition see Engineer's letter to the Commission, dated June 9, 1958, in General Files.)

The Engineer also stated that the Bureau of Public Roads had requested that those sections of the existing state secondary system which are eligible for federal aid and which are not now on the federal-aid system be added in one group so that system changes can be made in one

operation. He presented a list showing 176.4 miles of state secondary highways not now on the federal-aid system. Upon his favorable recommendation, the Commission approved adding the following highways and highway sections to the federal-aid secondary highway systems:

STATE HIGHWAYS NOT ON FEDERAL AID SYSTEM
RECOMMENDED FOR ADDITION TO FAS SYSTEM

State Hwy. No.	Name	Section	Miles	Proposed FAS Route No. and County
125	Crown Point	Entire route (Old Columbia River Highway).	23.9	866 Multnomah County
173	Timberline	Entire route (Forest Highway).	5.6	856 Clackamas County
180	Eddyville-Blodgett	Corvallis-Newport Highway near Eddyville, easterly to Nashville.	11.7	145 (exten. exist. route) Lincoln County
201	Alsea-Deadwood	Section in Benton County	10.4	868 Benton County
215	Clear Lake-Belknap Springs	Entire route (Forest Highway).	21.0	857 Lane & Linn Counties
227	Eugene-Springfield	Marcola Road to McKenzie Highway	3.0	867 Lane County
232	Crater Lake-North	Entire route (Forest Highway).	5.3	855 Douglas County
233	West Diamond Lake	MP 9.0 to 23.9 (easterly end) (Forest Highway).	14.9	236 (exten. exist. route) Douglas County
235	Dillard	Entire route (portion old Pacific Hwy.)	8.5	869 Douglas County
250	Cape Blanco	Entire route.	5.5	870 Curry County
273	Siskiyou	Entire route.	7.6	882 Jackson County
321	Heppner-Spray	Monument Road, southerly to John Day Highway (Forest Highway).	26.2	317 (exten. exist. route) Morrow and Wheeler Counties

Cont. on next page

State Hwy. No.	Name	Section	Miles	Proposed FAS Route No. and County
331	Umatilla-Mission	Oregon-Washington Highway, southerly to Umatilla Mission.	2.7	475 (exten. exist. route) Umatilla County
351	Joseph-Wallowa Lake	Powerhouse to former end of highway	1.0	480 (exten. exist. route) Wallowa County
372	Century Drive	Entire route (Required to tie Cascade Lakes Forest Highway into FA System at Bend).	10.7	855 Deschutes County
411	Haines-Anthony	Westerly 1.3 miles ending at National Forest boundary	1.3	503 (exten. exist. route) Baker County
425	East Diamond Lake	Entire route (Forest Highway)	14.7	858 Douglas & Klamath Counties
429	Crescent Lake	Entire route (Forest Highway).	2.4	855 Klamath County
		TOTAL	176.4	(Includes 90.1 miles of Forest Highways)

The Commission considered and upon recommendation of the Engineer granted the following request of Zuber Brothers for an extension of time within which to complete their Highway Contract No. 5133. Reimbursement for engineering expense and other expenses incurred by the State in connection with the work involved during the period of the extension was waived by the Commission:

Zuber Brothers, Contract No. 5133, for construction of park facilities at Rooster Rock State Park on the Columbia River Highway in Multnomah County, requested an additional 14 work days beyond the specified 50 work days within which to complete the project. Approved as requested.
FOOTNOTE: The action taken by the State Highway Commission upon this contractor's request for an extension of time within which to complete the highway contract listed above was based upon the recommendation of the Engineer and his report which considered but did not necessarily adopt either or any of the reasons given by the contractor in his request for such extension of time. (For details regarding the extension of time, see copy of the contractor's request and the Engineer's recommendation on file in the contract in the Secretary's office.)

June 19, 1958

The Engineer reported that contract Nos. 4770, 4822, 4906, 4939, 4971, 4975, 4981, 5002, 5019, 5030, 5034, 5060, 5078, 5080, 5084, 5097, 5101, 5102, 5117. 5125, 5127, 5128, 5147, 5152, 5156, and 5167 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested approval of an increase of $4,869.75 in the project authorization for State Highway Contract No. 5144, excavation of the Astoria Ferry Channel across the Columbia River. He explained that the original plans called for deepening the channel for a distance of 3,100 feet. However, it was found necessary to extend the work to 3500 feet and also to go deeper than was anticipated. The contractor, he stated, bid a very reasonable price and even with the increased authorization the amount expended on this contract will still be within the original allocation. The Commission approved the increase in authorization as requested.

A request was considered from the Ross Lumber Company, Medford, for permission to construct and operate a log scaling station on the right of way of the Crater Lake Highway between M.P. 6.76 and M.P. 7.10. The Engineer advised that the proposed scaling station is on an old section of the Crater Lake Highway, around which a new section was constructed during the World War II. He said that very little traffic uses the old road and the installation of the scaling station will not be detrimental to highway use. He recommended that a permit be granted to the Company for the purpose intended. The Commission accepted his recommendation.

The Commission considered a request from the U.S. Forest Service for permission to transmit electrical energy over the state-owned transmission line on Hogback Mountain near Klamath Falls, and to purchase electrical energy, when necessary, to operate the Forest Service radio facility which they propose to construct near the state's radio station. The Engineer advised that the Forest Service agrees to pay the state $140.00 semi-annually as a "wheeling" charge for electrical energy consumed by the Forest Service from the state's line. The Commission accepted his recommendation that the agreement be approved.

A request was considered from Hon. E. A. Davidson, Mayor of the city of Florence, for revision of a speed zone on the Siuslaw Highway through the community of Cushman, a short distance east of Florence. The Engineer stated that presently there is a 25 mile-per-hour speed zone through Cushman, but a recent field investigation disclosed that a higher rate of speed is justified. He recommended that a 40 mile-per-hour speed zone be established on the Siuslaw Highway between a point 0.22 mile west of Skunk Hollow Road, at M.P. 2.17, and a point 100 feet east of Patterson Creek, M.P. 3.27. The Commission approved his recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered a request from Mr. Earle Richardson, Editor of the Itemizer Observer, Dallas, for an extension of the existing 50 mile-per-hour- speed zone on the Dallas-Rickreall Highway east of Dallas. An investigation was conducted by the traffic engineer, the Engineer stated, and the results of this investigation disclosed that the 50 mile-per-hour speed zone established November 3, 1955, should be extended from its present terminus at a point 350 feet west of Fir Villa Road, M.P. 2.18 to a point 0.42 mile west of the road to Bowersville, M.P. 2.95, except that between a point 0.12 mile east of the Fir Villa Road and a point 0.36 mile east of Fir Villa Road the indicated speed should be 20 miles per hour during the hours of school crossings. The Commission approved such speed zone extensions and thereupon adopted the attached resolution relative thereto marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that three requests have been received concerning the restriction of the parking of vehicles on state highway shoulders. Each has been investigated and it was found that the parking of vehicles on highway shoulders presents a hazard to the traveling public by restriction of sight distance for vehicles approaching the highway and by interference with traffic on the highway. Upon his favorable recommendation, the Commission approved the prohibition of shoulder parking of vehicles on each of the following described highway sections by adopting the attached resolutions relative thereto marked EXHIBITS "H-1", "H-2", and H-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

1. Parking prohibited on the southerly side of the Tualatin Valley Highway No. 29 in the community of Reedville from S. W. 209th Avenue. (Engineer's Station 194+15) to S. W. 214th Avenue (Engineer's Station 207 +00). See EXHIBIT "H-1".

2. Parking prohibited on the southerly side of the Beaverton-Hillsdale Highway No. 40 near the community of Raleigh, particularly between M.P. 3.41 (Engineer's Station 128+89) and M.P. 3.56 (Engineer's Station 121+00). See EXHIBIT "H-2".

3. Parking prohibited on both sides of The Dalles-California Highway, a short distance south of Madras, particularly between M.P. 96.905 (Engineer's Station 95+53) and M.P. 96.925 (Engineer's Station 96+53). In this instance the Engineer commented that vehicles parked on the shoulders interfere with the operation of a traffic recorder which has a magnetic field buried in the pavement. See EXHIBIT "H-3".

To eliminate confusion in the names of certain state highways by reason of "freeway" construction, the Engineer recommended that the existing Pacific Highway between Albany and Junction City be designated "Albany-Junction City Highway No. 58". He pointed out that the 1957 Legislature amended the description of the Pacific Highway so that the new highway now under construction between Albany and Eugene is to be known as Pacific Highway. See EXHIBIT "K-2". Likewise, the Legislature designated the T. H. Banfield Freeway as the route of the Columbia River Highway in the

Portland area. To clarify the status of the old route through Portland, he recommended that the existing highway between Parkrose and its junction with the Banfield Freeway at Fairview be designated as an extension of the "Northeast Portland Secondary Highway", See EXHIBIT "K-3"; and that the old Sandy Boulevard route from the Willamette River to Parkrose be designated the "Sandy Boulevard Highway", See EXHIBIT "K-1". He pointed out that the above designations are principally for accounting and bookkeeping purposes, and that there will be no change in route numbers at least until such time as the new Pacific Highway and the Columbia River Highway are given Interstate Highway numbers. The Commission approved his recommendations by adopting the attached resolutions relative thereto marked EXHIBITS "K-1" through "K-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer requested out-of-state travel expenses for R. B. Sipprell, Director of Permits, to attend a meeting of the Western Interstate Committee on Highway Policy Problems in Seattle, Washington, July 24, 25, and 26, 1958, at an estimated cost of $70.00. He also requested authority for himself to attend a meeting of the Test Road Advisory Committee, of which he is a member, at LaSalle, Illinois, July 10 and 11, 1958, at an estimated cost of $300.00. The Commission approved the out-of-state expenses as requested.

Attention was given by the Commission to a proposed agreement with the city of Pendleton covering levee construction on the Umatilla River along the Old Oregon Trail Highway in Umatilla County. The Engineer explained that the proposed construction will tie into state highway embankment but will not be detrimental to the highway in any respect, and he recommended approval of the agreement. The Commission approved the agreement.

The Commission considered a request from Dr. Jesse L. Ray, President of the Board of Trustees of the Physicians and Surgeons Hospital, Portland, that a truck route be established which will divert truck traffic from 19th Avenue so as to minimize the noise situation in the vicinity of the hospital. The Engineer explained that 19th Avenue has been used as the route for US30 traffic for approximately 30 years and investigations reveal that there is no other feasible route which can be used for truck traffic. He pointed out in 1952 19th Avenue and 18th Avenue were designated a one-way couplet and that since then traffic has been distributed between them so there is far less noise in front of the hospital now than before because traffic now moves under progressive signalized control eliminating numerous stops and starts. He also pointed out that any further diversion of traffic from the present routing will undoubtedly meet with objections from other sources, such as other hospitals, apartment houses, and multiple-dwelling units in this area. Because there appears to be no feasible alternate routing of US30 traffic through this district, he recommended that Dr. Ray's request be denied. After carefully considering this matter, the Commission unanimously adopted the Engineer's recommendation and ordered that Dr. Ray be informed of the decision and the reasons that prompted it.

The Commission also discussed a written request from Mr. Irving E. Jacobson, Portland, that the median barrier on Front Avenue be cut so as to permit a left-hand turn into an area which he has developed for parking purposes. The Engineer explained that the area under consideration is beneath the highway ramps and within the loops of the connection between the new Morrison Street Bridge and Front Avenue in Portland and if the request is granted, a definite traffic hazard will be created on Front Avenue. He recommended that the request be denied. The Commission deferred its decision pending Mr. Jacobson's appearance before the Commission on the following day. (Mr. Jacobson appeared before the Commission on the following day and offered as an alternate solution of his problem the installation of traffic signals at Washington Street. He was advised that the Commission would consider his proposal and would take action as is deemed advisable in the best public interest.)

Attention was given to a request from Cecil R. Luellen, Roseburg, for permission to excavate, drain, fill, and grade a portion of the Pacific Highway at the Fairgrounds Interchange near Roseburg. The Engineer stated that the proposed work will not be detrimental to the highway. Based on his favorable recommendation, the Commission approved issuance of the permit as requested.

Attention was also given to a request from the Corps of Army Engineers for a permit allowing them to erect signs on the Columbia River Highway near the entrance to The Dalles Dam containing information concerning this dam. The Engineer advised that authority to place signs of a type which they propose to erect was granted by the last legislative assembly. The signs in this instance will call attention to The Dalles Dam entrance and view point, but will contain no advertising matter. He recommended that permission be granted to erect the signs on the highway right of way. The Commission approved his recommendation.

A similar request was considered from the Upper Clackamas River Chamber of Commerce for permission to erect a sign upon the easterly side of the right of way of the Cascade Secondary Highway at M.P. 10.79. The proposed sign, the Engineer stated, calls attention to the Upper Clackamas River area as a recreational playground and contains no advertising material. The Commission accepted his recommendation that the permit be granted.

The Commission approved the Secretary's report of papers signed by him and the Assistant Secretary during the period from May 5 through June 13, 1958.

Consideration was given to a request from the Prineville-Crook County Chamber of Commerce for permission to maintain a sign on the westerly side of the right of way of The Dalles-California Highway at M.P. 96.90 directing people to Prineville and calling attention to the recreational facilities of that vicinity. This sign, the Highway Engineer stated, complies with state law and he recommended that a permit be given to allow them to maintain it on the highway right of way. The Commission approved his recommendation.

The Commission confirmed the dates of July 31 and August 1, 1958, for its next regular meeting and instructed the Secretary to arrange to hold the meeting in Public Hearing Room 6 in the basement of the State Capitol in Salem. A tentative date for the next following meeting was set for September 11 and 12, 1958.

Commissioner Chessman inquired as to when the next Commission road trip would be held. The Engineer suggested a 3½ day trip through the northeastern area of the state. After some discussion, the Commission tentatively set the last week in August for such trip.

The meeting adjourned at 5:30 p.m. to reconvene at 9:00 a.m. on the following day in the same room.

Portland, Oregon
June 20, 1958

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Pompeiian Room of the Congress Hotel. The following people were present:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I Lindas, Chief Counsel
George E. Rohde, Assistant Chief Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Hon. Edward C. Harms, Jr., Mayor of the City of Springfield; Howard Buford, Member of the Central Lane County Planning Commission; Springfield; and Bob Smith, Member of the Springfield Chamber of Commerce, came before the Commission and urged the designation of Second and Third Streets in Springfield as a one-way couplet and that they be added to the Federal-Aid Secondary Highway System. Mr. Harms, who acted as spokesman, introduced the other members of the group. He read aloud and presented a short brief outlining justification for the project, including maps and charts showing the proposed Second and Third Street couplet. He pointed out that in a study conducted by the state in 1951, Mill Street was proposed as a couplet, but, he said, under conditions as they are now with greatly increased traffic Mill Street will not be satisfactory as the right of way is too narrow and additional right of way would be very

expensive to acquire. He also said that there is no suitable street to serve as a couplet with Mill Street. A good portion of the development along Mill Street, he continued, is residential and development of the street would hurt residential values. He also called attention to the large number of intersections which are now in existence on Mill Street. The Second and Third Street route could use Second and Third Street at the southerly end and continue the couplet by using right of way on each side of the Southern Pacific railroad tracks. Right of way in this area, he stated, could be acquired at a reasonable figure because the district is not developed and access could be easily controlled. The volume of traffic which would use this couplet, he added, would be large, probably in the vicinity of 20,000 vehicles per day. He also mentioned that the proposed Second and Third Street couplet has been unanimously approved by Springfield city businessmen and is a part of the city's master planning system. He asked the Commission to take action to place this couplet on the federal-aid urban system. Chairman McIver complimented the delegation on its very comprehensive presentation and stated that an investigation would be made and they would be advised later when action has been taken.

A delegation representing the city of Hillsboro came before the Commission concerning construction of a direct route extending northeasterly from Hillsboro via Orenco to a junction with the Sunset Highway near the present intersection at Cornell Road. The following people were present: Hon. Howard Davis, Mayor; J. W. Barney, City Manager; Clayton Nyberg, County Commissioner; Frank Myers, President, Industrial Development Corporation; J. R. Anderson, President, Chamber of Commerce; Reid Cottrel, Chairman, Transportation Committee of Chamber of Commerce; George Kolzow, Chamber of Commerce; Alvin Elkins and Emory R. Dye, Directors, Chamber of Commerce, all of Hillsboro; J. R. Shick, City Attorney; M. O. Gardner, City Manager; Homer Waltz, Member of Chamber of Commerce, all of Forest Grove. Mr. Davis introduced the other members of the delegation and exhibited a large map on which was outlined the routing that they have in mind. He called attention to the volume of traffic which now uses the existing highway (Tualatin Valley Highway) and mentioned that because of a great amount of roadside development and consequent reduced speed zones the Tualatin Valley Highway is not a good one for fast moving traffic. The area east of Portland around Hillsboro, he said, is growing rapidly and additional highways are needed. He asked the Commission to authorize a survey of the route. Mr. Shick stated that the proposed highway has been endorsed by the city of Forest Grove and is favored by the western part of Washington County. He said that the grade on the proposed route is good and he urged that right of way be acquired before industrial or residential development take place. Mr. Nyberg called attention to the considerable volume of industrial development which is taking place in this vicinity. It was his opinion that the cutoff route is needed to enable workers to travel to and from the new plants. Mr. Myers stressed the industrial development and residential growth which is anticipated within the next ten years. He pointed out that building construction has been slowed down by lack of water and sewer facilities. When these facilities are made available, he said, development will be rapid and right of way cost would be much higher. Mr. Davis commented concerning the one-way grid system in Hillsboro, stating that there is no disagreement in

the city now. Chairman McIver pointed out that right of way for the proposed project cannot be acquired until the project has been approved, the survey adopted, and the Commission is ready to proceed with the improvement. He also mentioned that there are several other highway projects in Washington County which have a high priority. The question today, he added, is where to find the money to finance the improvement which the Commission knows is needed. He concluded the discussion by stating that the matter will be investigated.

Mr. Irving E. Jacobsen, Portland, appeared before the Commission concerning proposed plans for a median barrier between the north and south bound traffic lanes on S. W. Front Avenue in Portland. He stated that he operates a parking lot near Morrison Bridge which will accommodate approximately 600 cars and he exhibited a map showing the area. He gave as his feeling that a barrier constructed at the foot of Washington Street as proposed will block entry to his lot for cars traveling southwest and southeast. He proposed as an alternate measure that traffic signals be installed at Washington Street to aid traffic in getting across Front Avenue. Chairman McIver stated that this matter previously has had the attention of the Commission and that the highway engineers have studied it carefully and know the facts; also, that the Commission will give careful consideration to the suggestion offered by Mr. Jacobsen and that he will be advised later of the decision that may be reached. He pointed out that in building highways prime consideration must be for the convenience and safety of the traveling public and he advised that in this instance whatever action the Commission takes will be in the best public interests.

A delegation from Mt. Angel appeared before the Commission concerning improvement of the Hillsboro-Silverton Secondary Highway in the vicinity of Henjum's Corner south of Mt. Angel. Present were Hon. William Bean, Mayor of Mt. Angel; Carl Mucken; Bernard Kirsch; Joseph Berchtold and Peter Gores, all representing the Mt. Angel Businessmans Club. Mr. Bean headed the group and introduced the members. Mr. Mucken congratulated Commissioner Fridley on his appointment as a member of the State Highway Commission and observed that this is the sixth time a delegation from Mt. Angel has appeared before the Commission concerning improvement of the highway near Henjum's Corner. He alleged that the highway at this point is only 16 feet wide and contains a number of dangerous curves and poor vertical sight distances. He asked the Commission to give their project fair consideration. Mr. Kirsch called attention to the traffic from the Howell Prairie District that uses this road and he pointed out that Silverton being the medical center in this area causes a great many people to travel this section of highway to secure medical or hospital aid. He added that Silverton is also a canning center and has a large turkey plant and that a considerable amount of produce is hauled to the cannery in Woodburn over this highway section. Mr. Gores commented that Mt. Angel is an educational center with a new high school being planned, and that a considerable volume of traffic from the north uses this highway in traveling to Detroit Reservoir. He urged the Commission to improve the narrow winding road in the vicinity of Henjum's Corner. Mr. Berchtold remarked that the union high school in Silverton accommodates a large number of pupils from the north who must be

transported over this section of road; also, that many people seeking recreation use the road in traveling to Silver Falls Park and to the Detroit Reservoir. Mr. Mucken urged early consideration for this improvement and he suggested that the Commission drive over the road to appreciate its antiquated condition. Chairman McIver informed the delegation that the Commission is familiar with the road but that a further study of the project will be made.

Messrs. John T. Chinnock, Joe Palin, and Howard Turner, Secretary, representing the Madras-Jefferson County Chamber of Commerce; Messrs. Bill Morse and Ivan Chappell representing the Prineville Chamber of Commerce, and Mr. Ken Conroy, President of the Central Oregon Chamber of Commerce, composed a delegation that appeared before the Commission concerning additional improvements to US Highway 97 southerly from the end of the newly constructed section to a connection with US Highway 26 south of Madras. Mr. Turner introduced the members of the delegation. Mr. Chinnock stated that the highway south of the newly constructed portion which ends a short distance north of Madras was built in the 1920s, that it has a high crown which breaks up in the springtime and is generally difficult to travel. The section from Lyle Gap to Old Maid's Canyon, he stated, has a number of sharp curves which is also true on the section north of Madras. He called attention to the hazards to which the traveling public is subjected caused by cars traveling over a good modern highway from the north and then suddenly entering upon a crooked narrow section of highway. He asked that reconstruction of the highway be undertaken at an early date. Mr. Conroy also emphasized the dangers and generally antique character of the roadway. Mr. Morse stated that the city of Prineville is in favor of improvement of the section. Chairman McIver stated that the Commission traveled over this highway section on the previous day and obtained first hand information as to its condition. He added its improvement will have the attention of the Commission and its staff, and that an answer will be given the delegation by letter later when a decision concerning it has been reached.

A delegation representing the Oregon Coast Association including the counties of Coos, Curry, Tillamook, Lincoln, Lane, and Clatsop, appeared before the Commission to urge early improvement of the Oregon Coast Highway between Bay City and Garibaldi. The following people were present: James W. Harrison, Coos County Judge; O. E. Effenberger, Tillamook County Judge; Fred W. Flynn, Curry County Commissioner; Davis S. Moffitt, Lincoln County Commissioner; A. Howard Tilden, Tillamook County Commissioner; Wes Schulmerich, Tillamook County Commissioner; Ralph Peterson, Lane County Commissioner; Donald G. Malarkey, Clatsop County Commissioner; and Vern Ayers, Manager of the Oregon Coast Association, Newport. Mr. Harrison headed the group. He urged the Commission to improve the Tillamook County section of the Oregon Coast Highway and introduced Mr. Vern Ayers, the principal speaker, who read aloud and presented a prepared statement in behalf of the proposed improvement, which statement urged the immediate improvement of the Bay City-Garibaldi Section of the Oregon Coast Highway in Tillamook County, and advised that the directors of the Oregon Coast Association feel that this project should be given precedence over every other project on the Oregon

Coast Highway now programmed or planned outside of those sections now under construction. The statement also called attention to the activities of the Association in securing additional funds for highway improvements including the bond program passed by the 1957 Legislature for US101 construction in Curry County. The statement also indicated that the city of Portland will receive a greater portion of highway improvement funds than its needs of population justified. Attention was also called to the scenic attractions along the Oregon Coast and the value of the tourist trade to the state; further, that the Oregon Coast does not have the benefit of a railroad running north and south but must rely on US101 to handle its commerce and tourist travel. The statement in summary urged the Commission to (1) realign the Bay City-Garibaldi route even though it is necessary to borrow from some other district temporarily to finance the work (2) that $400,000 in "crash" funds of the forest service be used to complete the Cascade Head project and (3) that the Davis Slough-Bandon Section in Coos County be completed earlier than present plans call for. Mr. Flynn urged earlier completion of the Davis Slough-Bandon project. He also stated that Curry County is in favor of the highway improvement in Tillamook County. Mr. Moffitt stated that Lincoln County favors the Tillamook County project. Mr. Peterson stated that he takes exception to that portion of Mr. Ayers statement in which he says that the directors of the Oregon Coast Association feel that the Bay City-Garibaldi project should take precedence over every other programmed or planned project on the Oregon Coast Highway outside of those sections now under construction. He said that he does not wish to undermine projects which had been planned or programmed in previous years, but he wanted to call attention to the prospect that in 1959, Oregon Centennial year, there will be a great many visitors who will wish to visit the coast area. He suggested that signs be erected at the north and south ends of the Bay City-Garibaldi Section apologizing for its antiquated condition. Mr. Ayers expressed the thought that although the group favors construction of the Smith Point project near Astoria which is quite expensive, somewhere there must be additional funds to finance construction of the Bay City-Garibaldi Section. He also stated that it was his feeling that the Portland metropolitan area gets more than its just share of highway funds and that the formula used by the Highway Commission in allocating funds is not fair. Chairman McIver pointed out that the Commission has used the same formula for a good many years in allocating highway funds to the various sections of the state and that over these years the formula has stood up very well. He also mentioned that a large portion of the money to be spent in the Portland area is Interstate Highway money which applies to only two highways, US30 and US99, and in which the Federal Government provides 90% of the funds.

Consideration was again given by the Commission to a number of proposed condemnations submitted by the Chief Counsel on the previous day at which time he requested authority to pursue condemnation of certain parcels of real property that are needed as right of way for highway improvements or for other highway purposes. After careful consideration of the proposed condemnations and in light of the information and advice submitted together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission authorized the Chief Counsel to condemn the properties by adopting the attached resolutions relative thereto marked EXHIBITS "J-1"

through "J-[illegible]", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission also gave attention to right of way options which were presented by the Right of Way Engineer on the previous day. The Right of Way Engineer stated that the properties are needed for state highway right of way or for other highway purposes. After having given careful consideration to the individual items, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer called attention to the impending construction of The Dalles section of the Old Oregon Trail Highway and requested authority to hold a public hearing concerning the project as it affects the city of The Dalles. The Commission authorized him to hold such hearing.

The Chief Counsel reported briefly on legislative matters proposed for submission to the 1959 legislature. The Commission approved the report.

The Chief Counsel also brought up for discussion the disposition of a parcel of land in the city of Condon which a delegation at a previous meeting had requested be transferred to the city for use in constructing a swimming pool. He stated that the property is not required for highway purposes and he asked the Commission to give its consent to deed the property to the city of Condon. The Commission approved such conveyance.

Commissioner Chessman mentioned the large number of condemnations which have been presented recently and inquired if all possible negotiations are conducted before the condemnations are filed in court for trial. The Chief Counsel replied that generally speaking the time that right of way agents have for negotiations is rather short but every effort is made to exhaust all negotiation possibilities. He also mentioned that many of the properties for which condemnations are requested will be acquired through ordinary negotiations but in order to assure the right of entry to the property for contracting and construction purposes it is necessary to secure authority to condemn.

The Commission signed the following agreements, deeds, and other papers:

"Indentures of Access" on the following properties:

a. State Board of Forestry property on Wilson River Highway, Tillamook County.

b. Blay (Dittemore) property on Gilchrist-Willamette Junction Unit of The Dalles-California Highway, Klamath County.

c. Lively property on Mehama-Mill City section of North Santiam Highway, Marion County.

Indentures of Access (cont.)

d. Young (Rogers) property on North Unit, Pendleton-Pilot Rock section of Pendleton-John Day Highway, Umatilla County.

"Quitclaim Deed" conveying to Clackamas County the new right of way for the Price Fuller Road.

"Agreement" with City of Pendleton covering levee construction on Umatilla River, Old Oregon Trail Highway, Umatilla County.

"Miscellaneous Permit" in favor of Cecil R. Luellen covering excavating, draining, filling, and grading a portion of the right of way of Pacific Highway near Roseburg.

"Permit" allowing the Corps of Engineers to erect certain signs in the vicinity of The Dalles Dam entrance on the Columbia River Highway.

"Permit" with Upper Clackamas River Chamber of Commerce of Estacada allowing them to erect a sign upon right of way of Cascade Highway at M.P. 10.79.

"Agreement" with Tri-County Improvement District to prevent river bank erosion at the south end of Harrisburg Bridge on the Pacific Highway East in Lane County.

"Trust Agreement" with Bonneville Power Administration for rearrangement of its power lines on property adjacent to Pacific Highway.

"Permit" at request of Ross Lumber Company, Medford, to construct and use a log-scaling station on the right of way of the Crater Lake Highway.

"Agreement" with U.S. Forest Service to transmit electrical energy over the state owned transmission line and to purchase electrical energy generated by the State Highway Department's emergency power plant when necessary.

"Grant of Access" to Jeannie Gail Ashby to a parcel of land on the Union County Line-Rock Creek Section of the Wallowa Lake Highway, Wallowa County.

"Bargain & Sale Deed" to O.W.R. and N.R.R. Company for a parcel of land on the 42nd Avenue-92nd Avenue Section of the Banfield Expressway in Multnomah County.

"Bargain & Sale Deed" to City of Portland covering Lots 12, 13, 14, and 15, Block 2, Laurelton Heights Addition to City of Portland, Multnomah County.

"Agreement" with Deschutes County covering snow removal on the Bend-Deschutes Butte Section of Cascade Lakes Highway.

"Cooperative Construction Agreement" with City of Grants Pass covering Redwood Interchange on the Redwood and Pacific Highways.

"Throughway Agreement" with City of Bend covering the Bullards Bridge-Bandon Section of Oregon Coast Highway. (Authorized November 1, 1957)

"Throughway Agreement" with Coos County covering the Bullards Bridge-Bandon Section of the Oregon Coast Highway. (Authorized November 1, 1957)

"Ground Lease" with Willard Taylor for a parcel of land on the Rainrock-Blachly Section of the Siuslaw Highway in Lane County.

"Ground Lease" with Cyril A. Van Dyke for a parcel of land on the Van Dyke Section of the Nehalem Secondary Highway in Washington County.

"Agreement" with Robert T. and Margaret F. Blake covering the concession building at Fort Stevens State Park. (Authorized May 8, 1958)

"Cooperative Construction Agreement" with City of Springfield covering the 10th Street-19th Street Section of the McKenzie Highway in City of Springfield. (Authorized November 1, 1957)

"Grant of Access" to the Wilbur Ostrander property on the Myers Creek-Brookings Section on the Oregon Coast Highway. (Authorized May 8, 1958)

"Maintenance and Finance Agreement" with Benton County covering the Luckiamute River (Hoskins) Bridge Section DS-380 (1) FAS 864. (Authorized May 8, 1958)

"Maintenance and Finance Agreement" with Jackson County covering the Bybee Bridge-Gregory Road Section DS-102(4), FAS 273.

"Maintenance and Finance Agreement" with Union County covering the North Powder-Davis Ranch Section S-22(4) FAS 488. (Authorized January 22, 1957)

"Maintenance and Finance Agreement" with Linn County covering the Albany Canal-Lebanon Junction Section, S-378(1), FAS 770. (Authorized January 16, 1958)

"Maintenance and Finance Agreement" with Coos County covering the Cooper Bridge, North Fork Coquille River S-374(1), FAS 252. (Authorized September 12, 1957)

"Maintenance and Finance Agreement" with Columbia County covering the Milton Creek (St. Helens) Bridge Section, DS-381(1), FAS 816. (Authorized February 27, 1958)

"Agreement" with City of Oceanlake relative to the treating of waste materials from the overnight camping area at Devils Lake State Park. (Authorized March 27, 1958)

"Permit" for Prineville-Crook County Chamber of Commerce to erect a sign on right of way of The Dalles-California Highway.

June 20, 1958

"Agreement" with City of Chiloquin covering the special city allotment project on Second Avenue and Blocklinger Street in Chiloquin. (Authorized December 5, 1957)

"Agreement" with City of Scappoose covering the proposed installation of a flashing beacon at the intersection of Columbia Avenue and the Columbia River Highway in Scappoose. (Authorized March 27, 1958)

"Cooperative Construction Agreement" with Lane County covering the Knowles Creek Tunnel Section of the Mapleton-Richardson Road, FAS 238, in Lane County. (Authorized March 27, 1958)

"Finance and Maintenance Agreement" with Washington County covering the Fanno Creek Bridge DS-16(12), FAS 581. (Authorized June 19, 1958)

"Throughway and Abandonment Agreement" with Clatsop County covering the Wauna-Westport Section of the Columbia River Highway in Clatsop County.

"Abandonment Agreement" with Hood River County covering the Polallie Creek-Parkdale Road Section of the Mt. Hood Highway in Hood River County.

"Finance and Maintenance Agreement" with Wallowa County covering the Flora Spur Section of FAS 697 in Wallowa County. (Authorized January 22 1957)

"Finance and Maintenance Agreement" with Marion County covering the Browning Avenue-Rosedale Section of FAS 742 and DS. (Authorized November 8, 1956 and June 19, 1958)

"Agreement" with O. W. R. & N. and Malheur County covering encroachments on the railroad company's right of way near Jonesboro in Malheur County.

"Agreement" with O. W. R. & N and Union County covering encroachments on the railroad company's right of way in the Perry-Oro Dell Section, Union County.

"Agreement" with O. W. R. & N Railroad Company relative to temporary overcrossing on the Rooster Rock-Multnomah Falls Section of Columbia River Highway in Multnomah County.

"Waiver of Advertising Restrictions" requesting a relaxation of advertising restrictions on Lots 54, 55, and 56, Sudtell Acres, Linn County, Oregon.

"Agreement" with Bureau of Public Roads re seeding and fertilization of cut and fill slopes on Mt. Hood Highway westerly from Government Camp. Estimated cost $1,800 to be reimbursed by Bureau.

"Bargain & Sale Deed" to Doris Hampton for a parcel of land on the North Jefferson Junction-Albany Section of Pacific Highway East in Marion County.

June 20, 1958

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

June 19 and 20, 1958

EXHIBIT "A"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for the State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE - BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27891	Wiley, John S. and Grace Popejoy		(Scott)
	Right of Way, Sta. 232		
	Option Expires December 4, 1958		
	0.09 acre at $2,500 per acre	$225.00	
	0.08 acre at $620+ per acre	50.00	
	Damage	200.00	
	Amount to be paid owners - chrg to Right of Way		$475.00

Complete restriction of access -

NORTH TIGARD INTERCHANGE - PACIFIC HIGHWAY

27361	Scherrer, Eugene et al		(Smith)
	Right of Way, 11331 S. W. 62nd Ave., Sta. 12		
	Option expires November 7, 1958		
	5,700 sq. ft. at $0.26+ per sq. ft.	$1,500.00	
	Real Estate Bldg.	2,100.00	

EXHIBIT "A" (Cont)

NORTH TIGARD INTERCHANGE - PACIFIC HIGHWAY

27361 Scherrer, Eugene et al (Cont)

Damage	$1,500.00	
Amount to be paid Scherrers - chrg to Right of Way		$4,800.00
Amount to be paid Jerry S. Saylor - chrg to Right of Way		300.00
TOTAL AMOUNT		$5,100.00

Grantors to remove shrubs 15 days after notice, and vacate bldg. 30 days from signing option.

THINGS TO BE DONE BY THE STATE

S. W. 62nd Ave. to be closed to W. Side Pac. Hwy. and to be improved to Pomona, with concrete 32 ft. in width.

Complete restriction of access -

27682 Rutherford, Herbert P. et al (Scott)
Right of Way, 5715 S. W. Pasadena St., Sta. 394
Option expires November 4, 1958

0.12 acre, improved, lump sum	$910.00	
Reest. sewage disposal sprinkling syst. and floodlights	900.00	
Damage	290.00	
Amount to be paid owners - chrg to Right of Way		$2,100.00

Complete restriction of access -

27819 Rutherford, Herbert P. et al (Scott)
Right of Way, 5729 S. W. Pasadena St., Sta. 396
Option expires November 4, 1958

0.26 acre, improved	$1,750.00	
House, 440 sq. ft.	3,750.00	
Reest. 3 flood lights and damage	800.00	
Amount to be paid owners - chrg to Right of Way		$6,300.00

Grantors to vacate 30 days after notice.

Complete restriction of access -

PORTLAND INTERNATIONAL AIRPORT-N. E. ALBERTA STREET SECTION - CASCADE HIGHWAY

26386 Musselwhite, H. E. et al (Grothaus)
Right of Way, 8283 N.E. Killingsworth, Stas. 98-100
Option expires November 14, 1958

10,000 sq. ft.	$ 5,000.00	
Building	22,999.44	
Musselwhite's equip. and power service	36,897.23	
Ardies' equipment	13,029.33	
Amount to be paid owners - chrg to Right of Way		$77,926.00

EXHIBIT "A" (Cont)

PORTLAND INTERNATIONAL AIRPORT-N.E. ALBERTA STREET SECTION - CASCADE HIGHWAY

26386 Musselwhite, H. E. et al (Cont)

Ardies, Lessees, To be assigned $14,978.00 of above amt.
Commission approval subject to second appraisal being satisfactory.
State to have possession July 1, 1958.

Entire taking -

ROOSTER ROCK-MULTNOMAH FALLS SECTION - CROWN POINT HIGHWAY

27781 Multnomah County (Smith)
Material Source
Deed signed May 20, 1958

0.5 acre	$100.00
18.8+ acres donated to State for park purposes only.	Gratis
Amount to be paid owner - chrg to Material Source	$100.00

THINGS TO BE DONE BY THE STATE

Leave windbreak of trees and shrubs between quarry and old hwy. and at both ends of quarry.
Locate entrance road or roads to prevent direct views of quarry, and hold top of quarry back slope low enough so as not to be visible over tree tops. Hold back slope gentle enough to avoid slides after pit abandoned.

HILLSBORO-CAMPBELL BRIDGE SECTION - HILLSBORO-SILVERTON HIGHWAY

27654 Simpson, Rolfe et al (Grant)
Right of Way, Stas. 145-198
Option expires November 13, 1958

1.4 acres	$330.00
Allow. for moving fence, trees, etc.	620.00
Crop damage	50.00
Amount to be paid owners - chrg to Right of Way	$1,000.00

Grantors to remove trees and fence by June 30, 1958 or they become property of State.

THINGS TO BE DONE BY THE STATE

Replace drain tile damaged by construction.
Construct access at Sta. 175+50 on W. side of road.

Access not controlled -

EXHIBIT "A" (Cont)

HILLSBORO-CAMPBELL BRIDGE SECTION - HILLSBORO-SILVERTON HIGHWAY

27655 Withycombe, Sue (Grant)
Right of Way, Stas. 142-198
Option expires November 27, 1958

2.74 acres	$830.00	
Rem. allow. for fencing	600.00	
Trees	220.00	
Crop damage	50.00	
Amount to be paid owner - chrg to Right of Way		$1,700.00

Grantor to remove fencing by June 15, 1958 or to become property of State. It is understood that the Grantor will keep property between old and new road, W. of 142+65 to 145+45.

THINGS TO BE DONE BY THE STATE

Replace or repair tile damaged by construction.
Construct an access point at 145+00, W. side.

Access not controlled -

27657 Burkhalter, Edwin et al (Grant)
Right of Way, Stas. 198-201
Option expires December 2, 1958

0.14 acre at $300- per acre	$40.00	
Amount to be paid owners - chrg to Right of Way		$40.00

Access not controlled -

27663 Giesbers, L. P. et al (Grant)
Right of Way, Stas. 240-243
Option expires November 19, 1958

0.12 acre at $800+ per acre	$100.00	
Allow. for re-vamping drain field	80.00	
Yard improvements, lawn, driveway	90.00	
Encroachment damage	630.00	
Amount to be paid owners - chrg to Right of Way		$900.00

THINGS TO BE DONE BY THE STATE

Construct graveled approach at 241+50, E., 12' driving surface in addition to present driveway.

Access not controlled -

EXHIBIT "A" (Cont)

HILLSBORO-CAMPBELL BRIDGE SECTION - HILLSBORO-SILVERTON HIGHWAY

27659 Alexander, John R. and Manola S. (Grant)
Right of Way, Sta. 232
Option expires November 6, 1958
0.13 acre at $3754 per acre $ 50.00
Trees 150.00
Fencing 100.00
Amount to be paid owners - chrg to Right of Way $300.00
Grantors to remove fence by June 15, 1958, or it becomes property of State.

Access not controlled -

27669 DeFord, Nettie (Grant)
Right of Way, Sta. 256
Option expires November 4, 1958
0.04 acre, improved, lump sum $200.00
Amount to be paid owner - chrg to Right of Way $200.00
Improvements not removed by May 30, 1958 to become property of the State.

Access not controlled -

27675 Pierson, Carl E. and Myrtle (Grant)
Right of Way, Sta. 69-89
Option expires November 11, 1958
1.0 acre $ 170.00

EXHIBIT "B"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Big Creek Section of the Columbia River Highway described as follows:

A parcel of land lying in the Eli C. Crow DLC No. 40, also lying in Section 20, Township 8 North, Range 7 West, W.M., Clatsop County, Oregon, and being a portion of that property described in that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 213, Page 699 of Clatsop County Records of Deeds; the said parcel being described as follows:

Beginning at a point which is opposite and 60 feet northerly of Station 585+80 on the center line of the Columbia River Highway; thence northwesterly in a straight line 50 feet to a point opposite and 90 feet northerly of Station 585+40 on said center line: thence northerly at right angles to said center line 70 feet, more or less, to the southwesterly right of way line of the Old Columbia River Highway (now a county road): thence southeasterly along said right of way line 245 feet, more or less, to a line which is parallel to and 60 feet northerly of said center line; thence westerly along said parallel line 180 feet, more or less, to the point of beginning.

The center line herein referred to being described as follows:

Beginning on the West line of Eli C. Crow DLC No. 40 at Engineer's center line Station 571+95.1, said Station being 3345 feet North of the southwest corner of the Eli C. Crow DLC No. 40; thence N 86° 56' E, 1804.9 feet to Station 590+00.

The parcel of land to which this description applies contains 0.24 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "B" (Cont)

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commision be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Columbia River Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 66 be entered in the minutes and records of the Commission as of the 19th day of June, 1958.

30144

EXHIBIT "C"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Nyssa Section of the Old Oregon Trail Highway described as follows:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29, Twp. 19 South, Range 47 East, W.M., and being all of Block 91 of the vacated portion of the Westfield Addition to Nyssa, Oregon, Twp. 19 South, Range 47 East, W.M., Malheur County, Oregon, and being a portion of that tract of land which was conveyed by that certain deed to Malheur County, and recorded in Volume 35, page 324 of Malheur County Record of Deeds; the said parcel being described as follows:

Beginning at a point which is the southeast corner of said vacated Block 91 of the vacated portion of Westfield Addition to Nyssa, Oregon; said point also being 53.4 feet north and 1342.7 feet west of the south quarter corner of Section 29, Twp. 19 South, Range 47 East, W.M.; thence North 0° 39' 30" East along the west line of 7th Street a distance of 436.0 feet to a point on the center line of what was formerly Maple Avenue in said addition; thence North 89° 20' 30" West along the said former center line of Maple Avenue a distance of 295.0 feet to its intersection with the former center line of 8th Street; thence South 0° 39' 30" West along the said former center line of 8th Street a distance of 436.0 feet to its intersection with the north line of Park Avenue; thence South 89° 20' 30" East a distance of 295.0 feet to the point of beginning.

The parcel of land to which this description applies contains approximately 2.95 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,048.84, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that this Property Sale Resolution No. 67 be entered in the minutes and records of the Commission as of the 19th day of June, 1958.

30145

EXHIBIT "D"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized under the provisions of ORS 366.710 to enter into agreements to carry out the co-operation provided for by the several Federal Aid Highway Acts; and

WHEREAS, prior to the signing of each Bureau of Public Roads Project Agreement, the Commission has considered and approved the project as contained in said agreement; and

WHEREAS, in the interests of efficiency it is desirable that the State Highway Commission be relieved of the duty of signing said Project Agreements;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED that:

1. Where the State Highway Commission has previously considered and approved a road-building project involving financial participation by the United States Government, and where the provisions of the Project Agreement do not differ substantially from the details of the project as approved by the Commission, the State Highway Engineer, or in his absence the Deputy State Highway Engineer or either Assistant State Highway Engineer, is hereby authorized and directed to sign the said Project Agreement for the Commission.

2. That this resolution be entered into the Minutes of the Commission as of the 19th day of June, 1958, as Miscellaneous Resolution No. 216.

30146

EXHIBIT "E"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, it has been found necessary to amend Miscellaneous Resolution No. 94a;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

1. Paragraph 2 of Miscellaneous Resolution No. 94a is amended to read as follows:

> 2. It is hereby directed that whenever information and statistics collected and compiled by the State Highway Engineer relative to the character and condition of state highways reveal that any state highway or section thereof, including any structure, is being subjected to a period of excessive rainfall, flood, or freezing and thawing, or has been or is being adversely affected by fire, wind, landslides, subsidence or any other cause, and by reason thereof is in a weakened condition and may be damaged by the movement thereon of any vehicle or combination of vehicles, the State Highway Engineer or the Acting State Highway Engineer shall determine from such information and statistics the maximum gross weight of any axle or tandem axles of any vehicle or combination of vehicles or the maximum gross weight of any vehicle or combination of vehicles which can move upon such state highway or section thereof without unduly damaging the same. After such determination is made by the State Highway Engineer or the Acting State Highway Engineer the said State Highway Engineer or Acting State Highway Engineer may direct the Deputy State Highway Engineer or either Assistant State Highway Engineer to take all steps necessary to execute such determination, including the signing of documents.

2, That this Resolution be entered in the minutes of the Commission as of the 19th day of June, 1958, as Miscellaneous Resolution No. 94b, and that the original of this Resolution be filed in the office of the Secretary of the Highway Commission and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commissioner, and the Superintendent of State Police.

EXHIBIT "F"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4770 with General Construction Co., for the N.E. 12th Avenue Undercrossing Structure on the T. H. Banfield Expressway in Multnomah County, completed May 24, 1958.

"Contract No. 4822 with Lee Hoffman for Missouri Bottom-Canyonville Structures on the Pacific Highway in Douglas County, completed May 28, 1958.

"Contract No. 4906 with Tom Lillebo Construction Co., for Jumpoff Joe Creek-Louse Creek Structures on the Pacific Highway in Josephine County, completed June 2, 1958.

"Contract No. 4939 with Johnston and Bryant for the Pacific Highway Overcrossing of S.P.R.R. at N. Jefferson Jct. on the N. Jefferson Jct. -S.P.R.R. Overcrossing Section of the Pacific Highway in Linn County, completed June 12, 1958.

"Contract No. 4971 with Tom Lillebo Construction Company for Knowles Creek Bridges on the Mapleton-Richardson County Road in Lane County, completed May 20, 1958.

"Contract No. 4975 with Workman and Wilson for the Stavebolt and Big Creek Bridges on the Lewis and Clark and Hillcrest Roads in Clatsop County, completed June 1, 1958.

"Contract No. 4981 with C. E. Leseberg for furnishing crushed materials in stockpiles on the Burns Section of the Central Oregon and John Day-Burns Highways in Harney and Grant Counties, completed April 5, 1958.

"Contract No. 5002 with Harold E. Ray and L. O. Fusby for Wallowa River and Hurricane Creek Bridges on the Fish Hatchery County Road in Wallowa County, completed May 26, 1958.

"Contract No. 5019 with Benedict Nursery for roadside improvement on the Clay St. -Columbia St. Traffic Interchange Section of the Pacific West Highway in Multnomah County, completed April 25, 1958.

"Contract No. 5030 with Rogers Construction Co. for Deep Creek and Clear Creek Bridges on the Aemisegger Hill and Redland-Logan County Roads in Clackamas County, completed May 26, 1958.

EXHIBIT "F" (Cont)

"Contract No. 5034 with R and M Construction Co. for Yaquina Bay Bridges on the North Bank Road in Lincoln County, completed May 7, 1958.

"Contract No. 5060 with Inland Construction Co. for the Tide Creek Bridge on the Columbia River Highway in Columbia County, completed May 22, 1958.

"Contract No. 5078, with Lorentz Bruun Co. for constructing the Milwaukie Maintenance Building in Clackamas County, completed June 13, 1958.

"Contract No. 5080 with C. C. Meisel for furnishing crushed materials in stockpiles on the Necanicum Section of the Oregon Coast, Necanicum and Sunset Highways in Clatsop County, completed May 8, 1958.

"Contract No. 5084 with Burch Gravel Co. for furnishing crushed material in stockpiles on the Hebo-Dolph-Neskowin Section of the Oregon Coast, Three Rivers and Little Nestucca Highways in Tillamook County, completed May 14, 1958.

"Contract No. 5097 with Rochat Electric Co. for installing traffic signals in Oswego, on the Oswego Highway in Clackamas County, completed June 10, 1958.

"Contract No. 5101 with Electric Corporation for installing Grants Pass traffic signals on the Pacific Highway in Josephine County, completed May 27, 1958.

"Contract No. 5102 with The Central Heating Co., Oreg. Ltd., for furnishing crushed material in stockpiles on the Dairy-Bly Section of the Klamath Falls-Lakeview Highway in Klamath County, completed May 2, 1958.

"Contract No. 5117 with Bechtel Bros. for constructing the Elgin sand shed on the Weston-Elgin Highway in Union County, completed May 17, 1958.

"Contract No. 5125 with H. G. Wirtz for constructing the Long Creek sand shed on the Pendleton-John Day Highway in Grant County, completed May 19, 1958.

"Contract No. 5127 with Lee-Built Homes for addition to the Eugene Office Building in Lane County, completed May 28, 1958.

"Contract No. 5128 with George W. Millett, Jr. for constructing Beachside State Park Latrine in Lincoln County, completed June 12, 1958.

"Contract No. 5147 with Roberts, Adams and Roberts for constructing the Stanton Boulevard Sand Shed on the Old Oregon Trail Highway in Malheur County, completed June 7, 1958.

"Contract No. 5152 with Funderburk Construction Corp. for grading on the Old Faithful Slide Section of the Dillard Highway in Douglas County, completed June 5, 1958.

EXHIBIT "F" (Cont)

"Contract No. 5156 with Parker and Fuhrman for grading and paving on the Hot Lake Overcrossing Section of the LaGrande-North Powder Highway in Union County, completed June 3, 1958.

"Contract No. 5167 with C. E. Leseberg for furnishing crushed material in stockpiles on the Olds Ferry-Ontario Section of the Olds Ferry-Ontario Highway in Malheur County, completed June 6, 1958.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 73 shall be entered in the minutes and records of the Commission as of the 19th day of June, 1958.

EXHIBIT "G-1"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway Siuslaw

Highway number 34 Route number State 36

Location of Termini		Established Speed
M. P.	to M. P.	M. P. H.
2.17 (0.22 mile west of Skunk Hollow Road)	3.27 (point 100 feet east of Patterson Creek)	40

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

EXHIBIT "G-1" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 278 be entered in the minutes and records of the Commission as of the 19th day of June, 1958.

30152

EXHIBIT "G-2"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway Dallas-Rickreall Secondary

Highway number 189 Route number 223

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
2.18 (point 350 feet west of Fir Villa Road)	2.95 (0.42 mile west of the road to Bowersville)	50

except that between a point 0.12 mile east of Fir Villa Road (M.P. 2.37) and a point 0.36 mile east of Fir Villa Road (M.P. 2.61) the indicated speed shall be 20 MPH during the hours of school crossings as per the provisions of Subsection 1.a of ORS 483.104.

EXHIBIT "G-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 214, adopted November 3, 1955.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 214a be entered in the minutes and records of the Commission as of the 19th day of June, 1958.

30154

EXHIBIT "H-1"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the Tualatin Valley Highway is a State Highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the southerly side of said highway in the community of Reedville; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public by reducing the required amount of space required for two lanes of moving traffic; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the southerly side of the Tualatin Valley Highway from S. W. 209th Avenue (Engineer's Station 194+15) to S. W. 214th Avenue (Engineer's Station 207+00) creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the southerly side of the highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 181 be entered in the minutes and records of the State Highway Commission as of the 19th day of June, 1958.

EXHIBIT "H-2"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the Beaverton-Hillsdale Highway is a state highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the southerly shoulder of said highway in the community of Raleigh; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public by restricting eastbound traffic to one moving lane instead of two lanes as desired; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the southerly side of the Beaverton-Hillsdale Highway between M.P. 3.41 (Engineer's Station 128+89) and M.P. 3.56 (Engineer's Station 121+00) creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the southerly side of the highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 183 be entered in the minutes and records of the State Highway Commission as of the 19th day of June, 1958.

June 19, 1958

30156

EXHIBIT "H-3"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, The Dalles-California Highway is a State Highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the easterly shoulder of said highway at a livestock auction market south of Madras; and

WHEREAS, the parking of vehicles in said area interferes with the operation of an automatic traffic recorder device that has been permanently installed at such location; and

WHEREAS, in the opinion of the Commission parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of The Dalles-California Highway between M.P. 96.905 (Engineer's Station 95+53) and M.P. 96.925 (Engineer's Station 96+53) interferes with the operation of the permanently installed traffic recording device.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon without interfering with the operation of said traffic counting device.

3. That the Commission does further find and declare that the parking of vehicles at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 182 be entered in the minutes and records of the State Highway Commission as of the 19th day of June, 1958.

EXHIBIT "I-1"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the following described highway routes and locations:

1. Elkton-Smith Crossing Unit of the Elkton-Kellogg Section of the Elkton-Sutherlin Highway in Douglas County.

2. Canyon City-Sheep Gulch Unit, Canyon City-Seneca Section of the John Day-Burns Highway in Grant County.

3. Polallie Creek-Parkdale Road Section of the Mt. Hood Highway in Hood River County,

and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1-a. That the survey of the Elkton-Smith Crossing Unit, Elkton-Kellogg Section of the Elkton-Sutherlin Highway beginning at Highway Engineer's Station 0+00, a short distance east of the town of Elkton, and extending in a southerly and easterly direction to Highway Engineer's Station 198+50 at the northerly bank of the Umpqua River, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1154 dated May, 1958 (Drawing No. 8B-9-14, dated May, 1950) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

1-b. That the survey of the Canyon City-Sheep Gulch Unit, Canyon City-Seneca Section of the John Day-Burns Highway beginning at Highway Engineer's Station 0+00 a short distance south of the city of Canyon City and extending in a southerly direction to Highway Engineer's Station 236+61 south of Sheep Gulch, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1213, dated June, 1958, (Drawing No.

8B-9-22) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1c. That the survey of the Polallie Creek-Parkdale Road Section of the Mt. Hood Highway beginning at Highway Engineer's Station 870+20 at Polallie Creek and extending in a northerly direction along the East Fork of Hood River to Highway Engineer's Station 1309+79.05 east of the community of Parkdale, together with the map which for identification purposes bears Sketch Map File No. 1R-5-1161 dated June, 1958 (Drawing No. 8B-9-20, 21 dated June, 1958) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over these surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of limited access controlled highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 19th day of June, 1958, as Survey Resolution No. 176.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 176, under the heading "Resolutions Adopting Surveys" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-2"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the routes and locations of the following described state highway sections, to wit:

1. Post-Lost Creek Section of the Paulina Highway in Crook County.

2. Tigard-Durham Road Section of the Beaverton-Tualatin Highway in Washington County.

3. Nehalem River Bridges Section of the Nehalem Highway in Columbia County.

4. McKinley Moorage-Radio Station Section of the Netarts Highway in Tillamook County,

and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Post-Lost Creek Section of the Paulina Secondary Highway, beginning at Highway Engineer's Station 1312+83, near the community of Post, and extending in an easterly direction to Highway Engineer's Station 1873+00, east of Lost Creek, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1194, and the date of March, 1958, (Right-of-way maps Nos. 8B-8-1 and 8B-8-2, dated February, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1b. That the survey of the Tigard-Durham Road Section of the Beaverton-Tualatin Highway, beginning at Highway Engineer's Station 0+32, at the intersection with Pacific Highway West near Tigard, and extending

in a southerly direction of Highway Engineer's Station 15+50, and from Highway Engineer's Station 7+50 near McDonald Avenue southerly to Highway Engineer's Station 20+50, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1135 and the date of April, 1958, (Right of way Map No. 8B-8-22, dated March, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1c. That the survey of the Nehalem River Bridges Section of the Nehalem Secondary Highway, beginning at Highway Engineer's Station 25+00 and ending at Highway Engineer's Station 17+00, near M.P. 62.23, and beginning at Highway Engineer's Station 15+00 and extending northerly to Highway Engineer's Station 5+00, near M.P. 58.16, together with the map, which for identification purposes bears Sketch Map File No. 10-C-32-7, and the date of May, 1958, (Right of way maps Nos. 1R-5-186, dated October, 1951, and 10C-32-5, dated May, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1d. That the survey of the McKinley Moorage-Radio Station Section of the Netarts Secondary Highway, beginning at Highway Engineer's Station 36+35, a short distance east of Tillamook River, and extending in an easterly direction to Highway Engineer's Station 47+71, near Radio Station KTIL, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1185, and the date of June, 1958, (Right of way Map No. 10C-32-8, dated June, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over these surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary rights of way pursuant to the normal and approved method for construction of non-access controlled highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 19th day of June, 1958, as Survey Resolution No. 177.

EXHIBIT "I-2" (Cont)

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 177, under the heading "Resolutions Adopting Surveys" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

30162

EXHIBIT "I-3"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the following described state highway routes and locations:

1. Rough and Ready Creek Section of the Redwood Highway in Josephine County.

2. West Fork, Illinois River Bridge Section of the Redwood Highway in Josephine County.

3. Elk Creek Section of the Redwood Highway in Josephine County.

4. Wauna-Westport Section of the Columbia River Highway in Clatsop County,

and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Rough and Ready Creek Section of the Redwood Highway, beginning at Highway Engineer's Station 375+00, and extending in a northerly and easterly direction across Rough and Ready Creek to Highway Engineer's Station 406+00, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1143, and the date of May, 1958, (Drawing No. 8B-9-7, dated April, 1958), field notes, and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1b. That the survey of the West Fork, Illinois River Bridge Section of the Redwood Highway, beginning at Highway Engineer's Station 255+00 southerly from the West Fork, Illinois River, and extending in a northerly and easterly direction across West Fork, Illinois River to Highway Engineer's

Station 275+50, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1149 and the date of May, 1958,(Drawing No. 8B-9-12, dated April, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

1c. That the survey of the Elk Creek Section of the Redwood Highway, beginning at Highway Engineer's Station 71+50, approximately 1.5 miles north of the California state line and extending in a northerly direction across Elk Creek to Highway Engineer's Station 90+00, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1159, and the date of June, 1958, (Drawing No. 8B-9-18, dated May, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1d. That the survey of the Wauna-Westport Section of the Columbia River Highway, beginning at Highway Engineer's Station 202+00, and extending in an easterly direction to Highway Engineer's Station 337+00, at the westerly edge of the community of Westport, together with the map. which for identification purposes bears Sketch Map File No. 1R-5-1160 and the date of June, 1958, (Drawing Nos. 7B-32-20, dated May, 1955 and 8B-9-8, dated April,1958), field notes, and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over these surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary rights of way pursuant to the normal and approved method for construction of limited access controlled highways.

4. That heretofore by resolution of this Commission dated November 3, 1948, (and as modified by resolution adopted by the Commission June 25, 1953), the said Redwood Highway and the Columbia River Highway were designated as "Throughways" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and for the reasons stated therein, it is hereby directed that the construction of the above-mentioned sections of highways shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 19th day of June, 1958, as Survey Resolution No. 178.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 178, under the heading "Resolutions Adopting Surveys" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-1"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Roosevelt Drive (Seaside) Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-1" (Cont)

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Roosevelt Drive (Seaside) Section of the Oregon Coast Highway will be constructed, relocated or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Roosevelt Drive (Seaside) Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of said widened and relocated Roosevelt Drive (Seaside) Section of the Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to

location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Roosevelt Drive (Seaside) Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 967.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 967, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30168

EXHIBIT "J-2"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-2" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughtway to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, it is the judgment of the Highway Commission that those properties to which Oregon Revised Statutes 374.405 apply should have such rights of access as may be permitted properly defined.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "J-2" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit 'A", no rights of access of any nature between the right of way of the said relocated Three Mile Lane Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That it is necessary that the rights of access that may be permitte purusant to Oregon Revised Statutes 374.410 betwaen the right of way of the said relocated Three Mile Lane Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

4. That the relocation, construction, improvement and maintenance of the said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 968.

EXHIBIT "J-2" (Cont)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 968, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30172

EXHIBIT "J-3"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owner and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-3" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damamge minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immdiately.

EXHIBIT "J-3" (Cont)

5. That upon the trial of any suit or action instituted to acquire the sai real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 969.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 969, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30175

EXHIBIT "J-4"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to locate in part, relocate in part, construct and maintain the Cascade Secondary Highway and locate and construct a public way known as Airport Road; and

WHEREAS, for the purpose of locating in part, relocating in part, constructing and maintaining the said Cascade Secondary Highway and locating and constructing a public way known as Airport Road, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location in part, relocation in part, construction and maintenance of the said Cascade Secondary Highway and the location and construction of a public way known as Airport Road, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part thereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-4" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Cascade Secondary Highway and the public way known as Airport Road and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location in part, relocation in part, construction and maintenance of the said Cascade Secondary Highway and the location and construction of a public way known as Airport Road and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 970.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 970, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30177

EXHIBIT "J-5"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "J-5" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Hillsboro-Silverton Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Hillsboro-Campbell Bridge Section of the said Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damag

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 971.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 971, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-6"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-6" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-6" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 972.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 972, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30182

EXHIBIT "J-7"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-7" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-7" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 973.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 973, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-8"

Minutes of June 19 and 20, 1958

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

30186

EXHIBIT "J-8" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated North Santiam Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-8" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 974.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 974, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30188

EXHIBIT "J-9"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-9" (Cont)

WHEREAS, for the purposes of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation ot be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immdiately.

EXHIBIT "J-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 975.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 975, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-10"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek-Brookings Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper, and

EXHIBIT "J-10" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceedings as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of

EXHIBIT "J-10" (Cont.)

real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 976.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 976, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30194

EXHIBIT "J-11"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Samuel H. Boardman State Park has been established by and under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Samuel H. Boardman State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon, and for such purposes and in connection therewith the interests in real property hereinafter described are necessary; and

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways

EXHIBIT "J-11" (Cont.)

to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek-Brookings Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its descretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development and maintenance of the Samuel H. Boardman State Park; and does further find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made

30196

EXHIBIT "J-11" (Cont.)

thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of the said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 977.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together

with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 977, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30198

EXHIBIT "J-12"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Post-Paulina Section of the Paulina Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Post-Paulina Section of the Paulina Highway will be constructed, relocated or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part,

EXHIBIT "J-12" (Cont.)

relocation in part, construction, improvement or maintenance of the Post-Paulina Section of the Paulina Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said widened and relocated Paulina Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be specifically stated. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired prior to May 12, 1951.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Post-Paulina Section of the Paulina Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6 That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 978.

EXHIBIT "J-13"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-13" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners as specified. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-13" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June 1958, as Condemnation Resolution No. 979.

30204

EXHIBIT "J-14"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of properly draining the Santa Clara-Eugene Section of the Junction City-Eugene Highway in Lane County, Oregon, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that an easement over and upon the following described real property is necessary for the purpose of constructing and maintaining thereon a storm sewer so that the Santa Clara-Eugene Section of the Junction City-Eugene Highway in Lane County, Oregon, can be properly drained.

File No. R-28248
Owner: Rasor Logging Company

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section 24, Township 17 South, Range 4 West, Willamette Meridian, Lane County, Oregon, the said parcel being a strip of land extending from the easterly line of the existing Junction City-Eugene Highway to the westerly bank of the Willamette River, said strip of land being 20 feet in width, 16 feet on the northerly side and 4 feet on the southerly side of the following described center line:

Beginning at Engineer's centerline Station 0+00 equals Station L 31+93.88 on the center line of said highway, said Station being 40.7 feet North and 4.7 feet West of the Northeast corner of County Survey No. 588; thence South 88° 32' 30" East, 615 feet, more or less, to the Willamette River, said center line intersects the easterly right of way line of

EXHIBIT "J-14" (Cont)

said Junction City-Eugene Highway approximately at Station 0+30.

The bearings used herein are based upon the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.28 acre, of which 0.01 acre lies within the existing right of way, and 0.27 acre lies outside of the existing right of way.

2. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the above described interest in real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

3. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

4. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 980.

30206

EXHIBIT "J-15"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Rink Creek-Myrtle Point Section of the Coos Bay-Roseburg Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best serv then though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-15" (Cont)

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Rink Creek-Myrtle Point Section of the Coos Bay-Roseburg Highway will be constructed, relocated or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Rink Creek-Myrtle Point Section of the Coos Bay-Roseburg Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of said relocated Rink Creek-Myrtle Point Section of the Coos Bay-Roseburg Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be

defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the relocation, construction, improvement and maintenance of the said Rink Creek-Myrtle Point Section of the Coos Bay-Roseburg Highway of the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 981.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 981, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-16"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highways shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-16" (Cont)

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highways as throughways, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highways should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways as throughways, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Redwood, Pacific, and Williams Secondary Highways and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction, improvement and maintenance of the said Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-16" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 982.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached in the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 982, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-17" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Sunset Highway, including the Highlands Traffic Interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-17" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 983.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 983, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-18"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-18" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway, as a throughway, certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Redwood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improving and maintaining of the said West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-18" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 984.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 984, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30218

EXHIBIT "J-19"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Bradley Park-Columbia County Line Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-19" (Cont)

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Bradley Park-Columbia County Line Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the said Bradley Park-Columbia County Line Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said

parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 1037.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1037, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-20"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry site, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-20" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no right of access of any nature between the right of way of the said Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-20" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 1038.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1038, under the heading "Real Property Condemnation Resolutions," and said description, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30224

EXHIBIT "J-21"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt` establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-21" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-21" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 1039.

---

* FOOTNOTE:

30227

EXHIBIT "J-22"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-22" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is neccessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-22" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 1040.

---

* FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1040, under the heading "Real Property Condemnation Resolutions," and said description, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-23"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Portland-Bonneville Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-23" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Portland-Bonneville Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part nereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway, including the Dodson Traffic Interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of said Portland-Bonneville Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding posses-

sion of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 1041.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1041, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-24"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-24" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-24" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 20th day of June, 1958, as Condemnation Resolution No. 1042.

EXHIBIT "K-1"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, ORS 366.295 provides that the Highway Commission may make such changes in the location of state highways as in its judgment and discretion will result in a better alignment, more advantageous and economical highway operation and maintenance, or as will contribute to or afford a more serviceable system of state highways than is possible under existing locations; and

WHEREAS, the Highway Commission has found that it is necessary and desirable to redesignate that section of the old route of the Columbia River Highway, State Primary Highway No. 2 from the Willamette River to Parkrose, described as follows:

> Extending from junctions with the Pacific Highway East at the intersection of E. Burnside Street and Grand Avenue, continuing via E. Burnside Street and N.E. Sandy Boulevard to a junction with the N.E. Portland Highway, State Secondary Highway No. 123 near N.E. 99th Avenue at Highway Engineer's Centerline Station 263+73 of Sandy Boulevard,

as the Sandy Boulevard Highway, State Primary Highway No. 59.

NOW, THEREFORE, be it and it hereby is resolved by this Commission as follows:

1. That the Commission hereby finds and determines that it will result in better alignment, more advantageous and economical highway operation and maintenance and will contribute to and afford a more serviceable system of state highways, if that portion of the old route of the Columbia River Highway from the Willamette River to Parkrose, is redesignated as Sandy Boulevard Highway, State Primary Highway No. 59.

2. That the portion of the old route of the Columbia River Highway from the Willamette River to Parkrose as heretofore described, is redesignated as the Sandy Boulevard Highway, State Primary Highway No. 59. Said Sandy Boulevard Highway, State Primary Highway No. 59 is described as follows:

> Extending from junctions with the Pacific Highway East at the intersection of E. Burnside Street and Grand Avenue, continuing via E. Burnside Street and N.E. Sandy Boulevard to a junction with the N.E. Portland Highway, State Secondary Highway No. 123 near N.E. 99th Avenue at Highway Engineer's Centerline Station 263+73 of Sandy Boulevard.
> Total length - 5.51 miles.

EXHIBIT "K-1" (Cont)

That portion of the old route of the Columbia River Highway redesignated as the Sandy Boulevard Highway, State Primary Highway No. 59, is shown colored in green on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. *

3. That this Primary Highway Resolution No. 25 be entered in full in the minutes and records of this Commission as of this 19th day of June, 1958.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 25, under the heading "State Primary Highway Designation Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

30238

EXHIBIT "K-2"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, ORS 366.295 provides that the Highway Commission may make such changes in the location of state highways as in its judgment and discretion will result in a better alignment, more advantageous and economical highway operation and maintenance, or as will contribute to or afford a more serviceable system of state highways than is possible under existing locations; and

WHEREAS, the Highway Commission has found that it is necessary and desirable to redesignate that section of the old route of the Pacific Highway, State Primary Highway No. 1 between Albany and Junction City and described as follows:

> Extending from junctions with the Pacific Highway, State Primary Highway No. 1 north of Albany and Highway Engineer's Centerline Station 1046+44.06 of the Pacific Highway "L3" Line and Highway Engineer's Centerline Station 44+44.06 of the Albany-Junction City Highway "Aa" Line, and continuing through the cities of Albany, Halsey and Harrisburg to Junction City where it junctions with the Pacific Highway West and Highway Engineer's Centerline Station 406+20 of the Pacific Highway West and Highway Engineer's Centerline Station 1579+95 of the former Pacific Highway East,

as the Albany-Junction City Highway, State Primary Highway No. 58.

NOW, THEREFORE, be it and it hereby is resolved by this Commission as follows:

1. That the Commission hereby finds and determines that it will result in better alignment, more advantageous and economical highway operation and maintenance and will contribute to and afford a more serviceable system of state highways, if that portion of the old route of the Pacific Highway, State Primary Highway No. 1 between Albany and Junction City as heretofore described, is redesignated as the Albany-Junction City Highway, State Primary Highway No. 58.

2. That the portion of the old route of the Pacific Highway, State Primary Highway No. 1 between Albany and Junction City as heretofore described, is redesignated as the Albany-Junction City Highway, State Primary Highway No. 58. Said Albany-Junction City Highway, State Primary Highway No. 58 is described as follows:

> Extending from junctions with the Pacific Highway, State Primary Highway No. 1 north of Albany and Highway Engineer's Centerline Station 1046+44.06 of the Pacific Highway "L3" Line and Highway Engineer's Centerline Station 44+44.06 of the Albany-Junction City Highway "Aa" Line, and continuing

EXHIBIT "K-2" (Cont)

through the cities of Albany, Halsey and Harrisburg to Junction City where it junctions with the Pacific Highway West and Highway Engineer's Centerline Station 406+20 of the Pacific Highway West and Highway Engineer's Centerline Station 1579+95 of the former Pacific Highway East.

3. That portion of the old route of the said Pacific Highway, State Primary Highway No. 1 redesignated as the Albany-Junction City Highway, State Primary Highway No. 58, is shown colored in green on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof.*

4. That this Primary Highway Resolution No. 26 be entered in full in the minutes and records of the Commission as of this 19th day of June, 1958.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 26, under the heading "State Primary Highway Designation Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

30240

EXHIBIT "K-3"

Minutes of June 19 and 20, 1958

RESOLUTION

WHEREAS, ORS 366.295 provides that the Highway Commission may make such changes in the location of state highways as in its judgment and discretion will result in a better alignment, more advantageous and economical highway operation and maintenance, or as will contribute to or afford a more serviceable system of state highways than is possible under existing locations; and

WHEREAS, the Highway Commission has found that it is necessary and desirable to reclassify and redesignate that section of the old route of the Columbia River Highway, State Primary Highway No. 2 between Parkrose and the Fairview Junction with the Banfield Freeway, described as follows:

> Extending easterly from the present east terminus of the N.E. Portland Highway, State Secondary Highway No. 123 at its junction with N.E. Sandy Boulevard to a junction with the relocated Columbia River Highway, State Primary Highway No. 2 east of Fairview at Highway Engineer's Centerline Station 445+50 of the said Columbia River Highway,

as a state secondary highway and as an extension of the Northeast Portland Highway, State Secondary Highway No. 123.

NOW, THEREFORE, be it and it hereby is resolved by this Commission as follows:

1. That the Commission hereby finds and determines that it will result in better alignment, more advantageous and economical highway operation and maintenance and will contribute to and afford a more serviceable system of state highways, if that portion of the old route of the Columbia River Highway, State Primary Highway No. 2 between Parkrose and Fairview Junction with the Banfield Freeway as heretofore described, is reclassified as a state secondary highway and redesignated as an extension of the Northeast Portland Highway, State Secondary Highway No. 123.

2. That the portion of the old route of the Columbia River Highway, Sta Primary Highway No. 2 between Parkrose and the Fairview Junction with the Banfield Freeway and as heretofore described, is reclassified as a state secon dary highway and is redesignated as an extension of the Northeast Portland Hig way, State Secondary Highway No. 123. Said extension of the said Northeast Portland Highway, State Secondary Highway No. 123, is described as follows:

> Extending easterly from the present east terminus of the N.E. Portland Highway, State Secondary Highway No. 123 at its junction with N.E. Sandy Boulevard to a junction with the Columbia River Highway, State Primary Highway No. 2 east of Fairview at Highway Engineer's Centerline Station 445+50 of the said

EXHIBIT "K-3" (Cont)

relocated Columbia River Highway.
Total length of said extended highway, 18.74 miles.

That portion of the old route of the said Columbia River Highway redesignated as an extension of the said N.E. Portland Highway, is shown colored in yellow on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. *

3. That the present route and termini, including the said extension of the said N.E. Portland Highway, State Secondary Highway No. 123 is as follows:

> From and including the north and south connections of the west approach to the St. Johns Bridge from the St. Johns Bridge to the (Lower) Columbia River Highway, State Primary Highway No. 2, the St. Johns Bridge, N. Philadelphia Avenue from St. Johns Bridge to North Jersey Street, N. Jersey Street from N. Philadelphia Avenue to N. Columbia Boulevard, N. Columbia Boulevard from N. Jersey Street to N. Lombard Street, N. and N.E. Lombard Street from N. Columbia Boulevard to N.E. Killingsworth Street, N.E. Killingsworth Street from N.E. Lombard Street to N.E. Columbia Boulevard, N.E. Columbia Boulevard from N.E. Killingsworth Street to N.E. Sandy Boulevard, N.E. Sandy Boulevard to a junction with the Columbia River Highway, State Primary Highway No. 2, east of Fairview at Engineer Station 445+50 of the Columbia River Highway, State Primary Highway No. 2.

4. That this Secondary Highway Designation Resolution No. 45 be entered in full in the minutes and records of this Commission as of this 19th day of June, 1958.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 45, under the heading "State Secondary Highway Designation Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

Salem, Oregon
July 31, 1958

The Oregon State Highway Commission met in regular session at 9:00 a.m. in Hearing Room No. 6 in the basement of the State Captiol Building, Salem. Present were:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Commission approved the minutes of the public hearing held in Portland on May 2, 1958, concerning the "Eastbank Freeway" location of the Pacific Highway through the city of Portland, and also approved the minutes for the regular meetings held May 8 and 9 and June 19 and 20, 1958.

The Parks Superintendent reported on the following park matters:

1. Request of the Coos County Court for a cooperative project with the State for the improvement of the road leading to Golden and Silver Falls State Park in Coos County: The Parks Superintendent reported that the matter concerns highway construction and had been referred to the State Highway Engineer for study. No action was taken at this time.

2. Change in the opening and closing hours at Rooster Rock State Park and Hat Rock State Park: The Parks Superintendent recalled that at the previous meeting the Commission authorized opening of the parks at 8:00 a.m. and closure of the parks at 9:00 p.m. However, it now appears that it would be advantageous to the public to close Rooster Rock Park at 10:00 p.m. during the months of July and August only, and at 9:00 p.m. during the remainder of the year. On his favorable recommendation the Commission approved the revised closing hour at this park and thereupon adopted the attached resolutions relative thereto marked EXHIBITS "B-1" and "B-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

3. Request of East Multnomah Pioneer Association that the lights around the Vista House at Crown Point on the Columbia River Highway (old route) be repaired and placed in operation during the tourist season: The Parks Superintendent stated that the lighting system has been out of repair for many years and that it would cost between $500 and $600 to

place it in usable condition. He expressed doubt that there is any real need for the lighting at the Vista House, during the summer months, is closed at 8:00 p.m. and use of the lights for attracting attention from below he felt would not be justifiable. Based on his adverse recommendation, the Commission denied the request.

4. Report on proposed use of Government Island, Multnomah County, as a state park: This area, consisting of approximately 1,850 acres, is owned by the State Game Commission as a water fowl area and is subject to flooding. It is used considerably by the boating public and those interested in water sports, but there is no vehicle access. As the area lacks natural features which would make it of statewide interest, it was the Parks Superintendent's opinion that the use of the area would be mostly local. The cost of constructing an access road and development of the area for park purposes would be very high and he recommended that it not be developed as a state park. Commissioner Fridley observed that the need for recreational areas is increasing rapidly and that the Commission should give careful attention to needed developments. In reply to an inquiry made by Commissioner Chessman as to the cost of improvement, the Parks Superintendent stated that the cost would probably run in the vicinity of $1,500,000. The Commission accepted his recommendation.

5. Request from Pacific Telephone & Telegraph Company for permission to install a telephone booth in Beverly Beach State Park: The Parks Superintendent stated that the telephone would be of benefit to users of the park, particularly overnight campers, and he recommended that permission be granted to the Company to install the telephone with the understanding that the State is to receive 15% of the gross income. He also stated that he expected to receive more requests to install phones in other state parks and he requested authority to approve those that appear to be necessary for the use of the general public. The Commission approved the installation of the phone in Beverly Beach State Park and as a matter of general policy adopted the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

6. Attendance of State Parks Superintendent at National Conference on State Parks at Blackwater Falls State Park in West Virginia, October 5-9, 1958: This meeting, the State Parks Superintendent stated, is an annual meeting of state park officials from all states of the Union as well as from Canada, Hawaii, and Alaska. There will be discussions on many park problems which could be beneficial to Oregon. The Commission approved his attendance and authorized an expenditure of $390 to cover his expenses.

7. Report on construction of a Museum Building at Champoeg State Park: As previously instructed, the Parks Superintendent stated that he had made a study of buildings which could be utilized and had prepared plans outlining the type of building to be used. He presented plans of two types of buildings, one costing approximately $75,000 and the other costing approximately $95,000. It was his opinion that if a building is constructed the larger building should be used. Chairman McIver remarked that he felt that the exterior of the building should be of wood to be in harmony with the idea of a museum harboring early historical articles. It was also his opinion

that action should be deferred until the Parks Advisory Committee has studied the matter. Commissioner Fridley called attention to the possibility of the Federal Government cooperating in development of Champoeg Park as a national park. The Parks Superintendent advised that the matter had been given some consideration by the United States Department of Interior but the Department appeared to be dubious about Federal development. The Commission instructed the Parks Superintendent to refer the matter to the Parks Advisory Committee and report back.

8. Request for restroom facilities at Agate Beach, Lincoln County: The Parks Superintendent stated that there are no park developments at Agate Beach, but there are a number of parks with toilet facilities within a few miles of Agate Beach, particularly at Newport and Beverly Beach. His recommendation that the request be denied was approved by the Commission.

9. Use of concession wagons in Rooster Rock and Fort Stevens State Parks: The Parks Superintendent requested confirmation of telephonic approval previously given him by the Commission to permit P. & A. Enterprises to operate wagons in connection with their concession in Rooster Rock State Park, and for the same privilege for Mr. and Mrs. Robert T. Blake in Fort Stevens State Park. He explained that these people now operate concession privileges in these two parks under contract with the Highway Commission and that the operation of the wagons will be a part of the concession agreement previously entered into. Upon his favorable recommendation, the Commission confirmed the authority to operate the wagons.

10. Construction of overnight camping facilities in Oregon State Parks: It is becoming evident, the Parks Superintendent stated, that overnight camping facilities are not adequate to take care of all the people who wish to camp in state parks. He cited a report from Honeyman State Park indicating that nearly 50 cars and trailers have been turned away every day during a given week and many other state parks report a similar condition. Also the Parks Advisory Committee has urged that additional camping facilities be provided as soon as possible. To do this, he recommended that the Commission approve construction of the following projects as soon as plans can be prepared:

		Estimated Cost
Fort Stevens StatePark	83 unit camp	$ 92,000.00
Cape Lookout State Park	70 unit camp	80,000.00
Beverly Beach State Park	65 unit camp	80,000.00
Honeyman State Park	65 unit camp	75,000.00
Sunset Bay State Park	60 unit camp	83,500.00
		$410,500.00

To finance these projects he also recommended that $100,000 be advanced from the 1959 budget to take care of the necessary payments to contractors and other costs which will be incurred during 1958. He pointed out that it will not be possible to expend all of the $410,500 during 1958, and the balance will be included in the 1959 expenditures. The Commission approved

the projects as presented and authorized the expenditure of $100,000 during 1958 in order to get the projects under way so that they may be used for the 1959 tourist season.

11. Proposed revisions of existing contract with Central Lincoln People's Utility District to furnish electrical energy at Beverly Beach State Park: In the development of additional facilities at Beverly Beach, the Parks Superintendent stated, the Utility District is requesting that the State agree to an increase in minimum payments amounting to $60 per year for a period of five years. He also said that this amount is in line with previous agreements with the District and that the use of electric energy will greatly exceed the amount specified. He therefore recommended that the Commission approve the revised contract. The Commission adopted the recommendation.

12. Letter from Senator Richard L. Neuberger concerning designation of Champoeg State Park as a national park or shrine: The Parks Superintendent stated that the Senator's letter indicates that he does not wish to take action to change the status of the park without approval by the State. Although the matter has not been thoroughly studied, he stated he has some doubts as to whether the park should be designated as a national park. The Commission instructed him to refer the matter to the Oregon Historical Society and to the State Parks Advisory Committee for study, and that their points of view be obtained before any action is taken.

Chairman McIver inquired as to what progress is being made in the production of a short film depicting what the state parks are doing, the money that is being spent for them, and the services that the parks are rendering, etc. Mr. Carl Jordan, Director of the Travel and Information Department, stated that he is working on the film and hopes to have it completed and ready for release in October of this year.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In presenting the options for property to be acquired the Right of Way Engineer called attention to the option secured from Murray Marsh for property situate on Harbor Drive in Portland, in the amount of $170,000. He said that appraisals were secured ranging from $163,250 to $169,000, and he gave as his opinion that if the matter is taken to Court in a condemnation proceeding the cost would be considerably more, possibly in the neighborhood of $200,000. The Commission approved this option along with the others which were presented by the Right of Way Engineer.

The Property Manager's monthly report showing sales of Miscellaneous Property, Rental Terminations and New Rentals was presented by the Right of Way Engineer. He pointed out briefly that miscellaneous sales

for the period amounted to $12,421.05 and that rental receipts for the month of June amounted to $9,492.70. The Commission accepted the report.

The Right of Way Engineer requested authority to sell at public sale several parcels of state highway right of way which are no longer needed for highway purposes as follows:

a. 1,987 sq. ft. of the former Pilz property, File 453, on the Medford-Central Point Section of the Pacific Highway in Jackson County, for a minimum consideration of $500.

b. 2.16 acres of the former Dohs property, File 4600, on the Barbur Boulevard-Marion County Line Section of the Pacific Highway, Washington County, for a minimum consideration of $2,400. See EXHIBIT "D-1".

c. 7,110 sq. ft. of the former Jensen property, File 22873, on the Beaverton-Reedville Section of the Tualatin Valley Highway in Washington County, for a minimum consideration of $1,750. See EXHIBIT "D-2".

d. 4.92 acres of the former Ronne property, File 20807, on the Blackwell Hill-Seven Oak Section of the Pacific Highway in Jackson County, for a minimum consideration of $2,000. See EXHIBIT "D-3".

e. 0.28 acre of the former Crooch property, File 18614, on the Roseburg Section of the Pacific Highway in Douglas County, for a minimum price of $7,000. See EXHIBIT "D-4".

The Commission authorized sale of all of the parcels of property as presented. The attached resolutions relative thereto marked EXHIBITS "D-1" through "D-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission.

A number of indentures of access were presented by the Right of Way Engineer involving changes in location of existing points of access heretofore authorized. He explained that in no case is additional access being granted and the changes have been made for the convenience of the property owners and the safety of the traveling public and have been carefully checked in his office. The Commission approved the following indentures of access:

a. Garcia property, File 19686, on the Tigard-Newberg Section of the Pacific Highway West in Washington County.

b. Bozeman-Moore property, File 18115, on the Sheridan-Deer Creek Section of the Salmon River Highway in Yamhill County.

c. Moore property, File 18108, on the Sheridan-Deer Creek Section of the Salmon River Highway in Yamhill County.

d. Jacobs property, File 12046, on the Pleasant Hill-Lost Creek Section of the Willamette Highway in Lane County.

e. Anderson property, File 25566, on the Sandy-Alder Creek Section of the Mt. Hood Highway in Clackamas County.

The Commission gave attention to a claim for damages submitted by a Mr. Allan E. Propst for loss of a crop in connection with acquisition of right of way for the North Jefferson Junction-Albany Section of the Pacific Highway East in Linn County. The Right of Way Engineer stated that in negotiations for his property Mr. Propst gave the State right of entry on the condition that the State would pay for damages inflicted to his crop. Damages were inflicted and upon his favorable recommendation the Commission approved the payment of $540 to Mr. Propst.

The Right of Way Engineer presented a proposed agreement with Coos-Curry Electric Cooperative, Inc., covering the relocation and acquisition of new right of way for their power line on the Myers Creek-Brookings Section of the Oregon Coast Highway in Curry County. He explained that the original line was located on land acquired by the power company and that the agreement provides that the company is to be paid the sum of $4,000 for its right of way and an additional sum for moving the power line onto a new location. The move, he added, is caused by new highway construction in this section. The Commission approved the agreement.

The direct sale of 0.05 acre of land to Mr. Henry Abderholden on the Port Orford Brush Creek Section of the Oregon Coast Highway in Curry County was recommended by the Right of Way Engineer. He explained that Mr. Abderholden has constructed a new house which encroaches upon the right of way and he wishes to purchase a strip of land 20 feet wide. The property is not needed for state highway purposes and he recommended that it be sold to Mr. Abderholden for not less than $100. The Commission approved the sale at such figure.

Consideration was given to a grant of access covering the Jones property on the Peach-Jonesboro Unit of the Juntura-Vale Section of the Central Oregon Highway in Malheur County. The Right of Way Engineer explained that an existing road had been overlooked in the original deed and it is desired to formally allow a point of access to the highway for this road. The Commission approved such grant of access.

The Commission considered an agreement with the Portland General Electric Company involving acquisition of right of way at their Burlingame Substation on the Lowell Street-21st Avenue Unit of the R. H. Baldock Freeway in Multnomah County. The Right of Way Engineer explained briefly that to acquire the property necessary for highway construction will destroy the value of the power company's holdings at this site and that construction of a retaining wall, access road, moving of cable pole, and other equipment will cost approximately as much as the site is worth. For the sum of $18,910, the power company has agreed to convey to the State the right of way necessary and to remove the substation facilities to another location at its own expense, and in addition thereto will release the State from all further liability arising out of this matter. He requested that the Commission confirm previous telephonic approval for this transaction. The Commission confirmed its action.

The Right of Way Engineer presented an option for the Koger property (File 26714) on the Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County in the amount of $21,000. It was his opinion that the amount of the option is too high and he recommended that it be formally rejected inasmuch as the property is worth only about $15,000. The Commission rejected the option.

Consideration was given to a form of quitclaim deed conveying to Weyerhaeuser Timber Company any interest that the State may have in a lease for a material stockpile site on the Green Springs Highway in Klamath County. The Right of Way Engineer explained that the lease has been renewed from time to time since July 12, 1933, but upon expiration of the latest extension as of July 12, 1958, it was decided that the stockpile site is no longer needed for state highway purposes. To clear the records, he recommended that a quitclaim deed be granted to Weyerhaeuser Timber Company to provide them a recordable release. The Commission approved such disposition of the matter.

The Right of Way Engineer called attention to an easement that was secured on the old right of way of US97 near Terrebonne to obtain borrow material. He said that the borrow area is no longer valuable to the State and that the new owner has requested a quitclaim deed to the property. Upon his favorable recommendation, the Commission approved the quitclaim deed.

The Chief Counsel reported that during the last three years his staff of attorneys have tried 196 condemnation cases in which attorneys' fees were allowed in the amount of $183,437.00.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following described properties that are needed as right of way in connection with the various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23073 - Herbert A. Cochrane and Ruth L. Cochrane
Right of Way (Klamath County)
0.18 acre

R-23134 - The California Oregon Power Company
Klamath County
Parcel No. 1: 7,000 square feet for right of way
Parcel No. 2: 5,740 square feet for right of way

R-23142 - Julian Eccles and Peggy Parker Eccles
Right of Way (Klamath County)
0.15 acre

Klamath Falls, West Side By-Pass Section (Cont.)

R-27947 - Vera C. Powell and Joan A. Thompson
Slope Easement (Klamath County)
0.02 acre

R-27952 - Ralph W. Smith and Alice F. Smith
Right of Way (Klamath County)
0.15 acre

R-27954 - R. W. Smith and Alice Smith
Right of Way (Klamath County)
0.05 acre

R-27956 - Wendell A. Smith, et al.
Right of Way (Klamath County)
2,805 square feet

R-27965 - Sterling Paul Jones and Sue Doris Jones
Right of Way (Klamath County)
10,404 square feet

R-27968 - Pearl Fikes and J. H. Fikes
Right of Way (Klamath County)
5,202 square feet

R-27988 - William R. Wodtke, et al.
Right of Way (Klamath County)
1,000 square feet

R-27992 - W. J. Easter and Jennie Easter
Right of Way (Klamath County)
1,050 square feet

R-27993 - Stephen W. Bunch and Ingerid B. E. Bunch
Right of Way (Klamath County)
0.07 acre

R-28007 - Ray A. Telford and Mary L. Telford
Right of Way (Klamath County)
0.01 acre

R-28008 - Union Oil Company of California
Right of Way (Klamath County)
0.15 acre

R-28523 - Klamath County, et al.
Right of Way (Klamath County)
0.41 acre

Sunset Highway

R-28132 - J. E. Tapp and Bessie Tapp
Right of Way (Washington County)
0.46 acre

R-28133 - Shaun Kelley and Myrtle A. Kelley
Right of Way (Washington County)
490 square feet

R-28134 - Ernest Meyer and Johanna Meyer
Washington County
Parcel No. 1: 2,572 square feet for right of way
Parcel No. 2: 2,620 square feet for right of way

R-28154 - W. O. Galaway and DeEtte Galaway
Right of Way (Washington County)
8,385 square feet

R-28155 - T. M. Kirkpatrick and Maria Kirkpatrick
Washington County
Parcel No. 1: 4,909 square feet for right of way
Parcel No. 2: 10,198 square feet for right of way

R-28156 - General Petroleum Corporation
Right of Way (Washington County)
3,892 square feet

R-28157 - L. M. Loos and Lucille C. Loos
Washington County
Parcel No. 1: 2,190 square feet for right of way
Parcel No. 2: 1,820 square feet for right of way

R-28158 - R. J. Schneringer and Lottie M. Schneringer
Washington County
Parcel No. 1: 600 square feet for right of way
Parcel No. 2: 0.97 acre for right of way
Parcel No. 3: 1,537 square feet for right of way

R-28159 - C. L. Hicks and Eunice F. Hicks
Washington County
Parcel No. 1: 4,110 square feet for right of way
Parcel No. 2: 6,260 square feet for right of way

R-28160 - Henry T. Beach
Right of Way (Washington County)
0.59 acre

R-28381 - H. W. Currin and Laura E. Currin
Right of Way (Washington County)
0.17 acre

Sunset Highway (Cont.)

R-28382 - John Ray Jackson and Irene Jackson
Right of Way (Washington County)
0.39 acre

R-28572 - G. T. Koennecke
Right of Way (Washington County)
0.22 acre

Elkton-Kellogg Section of the Elkton-Sutherlin Highway

R-28176 - Reed A. Moore
Douglas County
Parcel No. 1: 2.95 acres for right of way
Parcel No. 2: 5.29 acres for right of way

R-28177 - Carl O. Moore and Lucille M. Moore
Right of Way (Douglas County)
0.98 acre

R-28178 - William F. Binder and Lorena Binder
Right of Way (Douglas County)
1.6 acres

R-28179 - Frank Madison and Edith Madison
Right of Way (Douglas County)
0.43 acre

R-28180 - Donald L. Mode and Irma Jean Mode
Right of Way (Douglas County)
0.84 acre

R-28182 - Shirley Baimbridge and Robert Faye Baimbridge
Douglas County
Parcel No. 1: 5.35 acres for right of way
Parcel No. 2: 1.06 acres for easement for channel change

R-28183 - Myrtle A. Wells
Right of Way (Douglas County)
17.9 acres

R-28184 - L. S. Compton and Nettie L. Compton
Right of Way (Douglas County)
0.7 acre

R-28185 - Norman L. Compton and Gertrude O. Compton
Right of Way (Douglas County)
3.89 acres

R-28186 - William Cheever
Right of Way (Douglas County)
2.82 acres

July 31 and August 1, 1958

Elkton-Kellogg Section of the Elkton-Sutherlin Highway (Cont.)

R-28187 - Robert F Duncan and Barbara I. Duncan
Right of Way (Douglas County)
4.96 acres

R-28188 - William Henry Baimbridge and Vera May Baimbridge
Douglas County
Parcel No. 1: 11.96 acres for right of way
Parcel No. 2: 1.45 acres for easement for approach road
Parcel No. 3: 0.43 acre for easement for approach road

R-28189 - John W. Gorman
Douglas County
Parcel No. 1: 18.42 acres for right of way
Parcel No. 2: 2.95 acres for right of way

Middleton-Rex Hill Section of the Pacific Highway West

R-25396 - Curt E. Pradelt and Katherine Pradelt
Right of Way (Washington County)
0.34 acre

R-27600 - L. R. Dewey and Irene Dewey
Right of Way (Washington County)
1.0 acre

R-27601 - Silvio Dodi
Right of Way (Washington County)
0.29 acre

R-27605 - Lillie May Board
Right of Way (Washington County)
0.02 acre

R-27606 - Washington County
Right of Way (Washington County)
0.09 acre

R-27607 - J. A. Chausse and Irene Chausse
Right of Way (Washington County)
2.07 acres

R-27608 - Thomas George Gale
Washington County
Parcel No. 1: 1.2 acres for right of way
Parcel No. 2: 0.10 acre for right of way

R-27610 - Edna M. Beitey and Joseph G. Beitey
Washington County
Parcel No. 1: 3.10 acres for right of way
Parcel No. 2: 0.09 acre for right of way

Middleton-Rex Hill Section of the Pacific Highway West (Cont.)

R-27612 - Robert C. Braden and Robert Wayne Braden
Washington County
Parcel No. 1: 3.7 acres for right of way
Parcel No. 2: 0.4 acre for right of way

R-27613 - Glenn L. Whitman and Mildred Whitman
Right of Way (Washington County)
0.06 acre

R-27614 - Ludwig Gimm and Anne Gimm
Right of Way (Washington County)
1.19 acres

R-27618 - Howard S. Watmore and Ruth L. Watmore

Wasco County
Parcel No. 1: 15.5 acres
Parcel No. 2: 0.3 acre
Parcel No. 3: 0.15 acre

Right-of-way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. (On the following day the Commission authorized the condemnations as requested.)

Concerning the large number of condemnations filed, the Chief Counsel explained that past experience had indicated that approximately 50 per cent of them would be settled by negotiations. However, in order to assure entry of the contractor for construction purposes, it is necessary to secure Commission authority to condemn even though the authority may not be exercised. Chairman McIver commented that all negotiations possible should be conducted before condemnations are filed.

Concerning the great number of letters, maps and other material furnished to the Commission prior to granting authority to condemn property, the Chief Counsel stated that his office has given considerable thought to reducing the volume of papers and he requested authority to pursue his studies. He cited the Housley case as an example in which the opposing attorney had denied the need for the property for highway uses thereby forcing the State to show that the Commission had been furnished information concerning the property and had given it proper consideration. That, he stated, is the reason for sending to the Commission the large number of maps and other material concerning properties to be condemned. The Commission deferred action on such matter until later in the session.

A report was presented by the Chief Counsel and accepted by the Co

mission concerning condemnation cases that have been tried in court since the last Commission meeting, details of which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

June 17 to July 11, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
R-20981 Vella, et al.	Jackson	Pacific	Blackwell Hill-Medford	$ 9,714.50	$23,411.40	$11,800.00

R-23404 Robinson, et ux.	Josephine	Redwood	Wilderville-Grants Pass	5,075.00	11,000.00

(For additional details, see the Chief Counsel's letters, dated July 28 and July 30, 1958, entitled "Report of Cases Settled", and "Supplemental Report of Cases Settled", in the General Files).

The Chief Counsel also reported a settlement made this morning with Joe M. Bassett, File R-26713, for property in Ontario on the Old Oregon Trail Highway. The property, he stated, has been appraised at $6,000.00, and he recommended a settlement in the amount of $6,500.00. The Commission approved the settlement as recommended.

July 31 and August 1, 1958

A report was presented by the Chief Counsel and accepted by the Commission showing offers which have been made to the owners of real property prior to the institution of condemnation proceedings as follows:

Bradley Park-Columbia County Line Section of the Columbia River Highway

R-27937 - F. E. Beverly, et al. 0.051 acre for right of way purposes. Offer of $14,400.00 approved by Mr. Chessman July 29, 1958.

R-27938 - Minnie Robinson, et ux. 1,050 square feet for right of way purposes. Offer of $1,250.00 approved by Mr. McIver July 18, 1958.

R-28000 - Walter Freeman, et al. 0.35 acre for right of way purposes. Offer of $400.00 approved by Mr. McIver July 18, 1958.

Portland-Bonneville Section of the Columbia River Highway

R-28129 - Carl Wallner, et ux. 22,500 square feet for right of way purposes. Offer of $12,200.00 approved by Mr. McIver July 28, 1958.

R-28130 - Joseph Dolezal, et ux. 29,708 square feet for right of way purposes. Offer of $1,850.00 approved by Mr. McIver July 25, 1958.

R-28041 - Joseph A. Bucher, et ux. Parcel No. 1: 8.55 acres for right of way purposes; Parcel No. 2: 5.88 acres for right of way purposes. Offer of $7,125.00 approved by Mr. McIver July 25, 1958.

Cascade Secondary Highway

R-26381 - Ethel Pullen Kosher Galloway, et al. Parcel No. 1: 14.53 acres for right of way purposes; Parcel No. 2: 0.42 acre for right of way purposes. Offer of $22,500.00 approved by Mr. McIver June 19, 1958.

R-23682 - Cosmo Spada, et al. Parcel No. 1: 2.92 acres (net) for right of way purposes; Parcel No. 2: 0.3 acre for right of way purposes. Offer of $6,000.00 approved by Mr. McIver June 19, 1958. An offer of $10,850.00 was previously authorized by Mr. McIver May 14, 1958. This amount was reduced by reason of access being allowed to Airport Road.

R-27167 - Hajime Okazaki, et al. 0.13 acre for right of way purposes. Offer of $6,100.00 approved by Mr. McIver June 18, 1958.

Trail Creek Bridge Section of the Crater Lake Highway

R-27024 - Carl L. Dawson, et ux. 1.7 acres (net) for right of way purposes. Offer of $350.00 approved by Mr. McIver June 18, 1958.

R-27025 - Clyde L. Stafford, et al. 0.03 acre for right of way purposes. Offer of $197.00 approved by Mr. McIver June 24, 1958.

Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway

R-27643 - Fay A. Hulit, et al. 2.2 acres for right of way purposes. Offer of $1,035.00 approved by Mr. McIver July 9, 1958.

R-27646 - Mervin W. Brink, et al. 0.06 acre for right of way purposes. Offer of $400.00 approved by Mr. McIver July 3, 1958.

R-27649 - George H. W. Skuse, et ux. 0.14 acre for right of way purposes. Offer of $4,400.00 approved by Mr. McIver July 9, 1958.

R-27651 - Hiram D. K. Skuse, et ux. 0.20 acre for right of way purposes. Offer of $290.00 approved by Mr. McIver July 10, 1958.

R-27652 - Francis Paul Bailey, et al. 2.5 acres for right of way purposes. Offer of $1,230.00 approved by Mr. McIver July 10, 1958.

R-27653 - Earl Newton Grabel, et al. 0.48 acre for right of way purposes. Offer of $255.00 approved by Mr. McIver July 10, 1958.

R-27658 - Charles C. Darr, et al. 3.8 acres for right of way purposes. Offer of $2,200.00 approved by Mr. McIver July 3, 1958.

R-27673 - Oscar Offet, et al. 1.11 acres for right of way purposes. Offer of $860.00 approved by Mr. McIver June 24, 1958.

R-27674 - Edith Weik, et al. 0.46 acre for right of way purposes. Offer of $620.00 approved by Mr. McIver July 10, 1958.

R-27676 - Robert S. Breeze, et ux. 0.06 acre for right of way purposes. Offer of $125.00 approved by Mr. McIver July 3, 1958.

R-27679 - Carl A. Anderson, et ux. Parcel No. 1: 2.03 acres for right of way purposes; Parcel No. 2: 0.32 acre for right of way purposes; and Parcel No. 3: 0.36 acre for an easement for a channel change. Offer of $5,010 approved by Mr. McIver July 10, 1958.

R-27889 - Walter N. Capelle, et al. 0.06 acre for right of way purposes. Offer of $2,435.00 approved by Mr. McIver July 10, 1958.

R-28031 - Betty L. Hellwig, et al. 0.02 acre for right of way purposes. Offer of $100.00 approved by Mr. McIver July 10, 1958.

Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway

R-22226 - Usona Thiessen, et al. 21.7 acres for right of way purposes. Offer of $7,400.00 approved by Mr. McIver July 2, 1958.

R-22227 - Cherry City Milling Company. Parcel No. 1: 7.45 acres for right of way purposes; Parcel No. 2: 1.83 acres for excess taking. Offer of $3,845.00 approved by Mr. McIver July 16, 1958.

Lancaster Drive-Sublimity Gun Club Section (Cont.)

R-22233 - John B. Lebold, et al. Parcel No. 1: 7.10 acres for right of way purposes; Parcel No. 2: 0.98 acre for right of way purposes; Parcel No. 3: 0.67 acre for right of way purposes; and Parcel No. 4: 0.27 acre for right of way purposes. Offer of $5,355.00 approved by Mr. McIver July 3, 1958.

R-22235 - J. A. Bilyeu, et ux. Parcel No. 1: 3.64 acres for right of way; Parcel No. 2: 0.21 acre for right of way purposes; and Parcel No. 3:0.96 acre for excess taking. Offer of $1,935.00 approved by Mr. McIver July 3, 1958.

R-22569 - Edward Oul, et ux. Parcel No. 1: 2.63 acres for right of way purposes; Parcel No. 2: 0.09 acre for excess taking; and Parcel No. 3: 0.40 acre for right of way purposes. Offer of $850.00 approved by Mr. McIver July 9, 1958.

R-22572 - Ernest E. Pyell, et ux. 0.85 acre for right of way purposes. Offer of $520.00 approved by Mr. McIver July 11, 1958.

R-22574 - William G. Barnwell, et al. 0.06 acre for right of way purposes. Offer of $150.00 approved by Mr. McIver July 16, 1968.

R-22578 - Bliss W. Smith, et al. 12.5 acres for right of way purposes. Offer of $4,500.00 approved by Mr. McIver July 21, 1958.

R-22579 - Guy E. Shields, et al. 8.47 acres for right of way purposes. Offer of $3,460.00 approved by Mr. McIver July 18, 1958.

R-22580 - John H. Peterson, et ux. Parcel No. 1: 9.85 acres for right of way purposes; and Parcel No. 2: 0.43 acre for right of way purposes. Offer of $5,045.00 approved by Mr. McIver July 11, 1958.

R-22582 - Adrian Kromwall, et ux. 3.37 acres for right of way purposes. Offer of $9,800.00 approved by Mr. McIver July 3, 1958.

R-22583 - LaVerne O. White, et al. 2.4 acres for right of way purposes. Offer of $950 00 approved by Mr. McIver July 21, 1958.

R-22587 - Theodore E. Boehme, et al. 1.10 acres for right of way purposes. Offer of $245.00 approved by Mr. McIver June 26, 1958.

R-22593 - Anthony G. Levermann, et ux. Parcel No. 1: 26.10 acres for right of way purposes; Parcel No. 2: 0.35 acre for right of way purposes; Parcel No. 3: 0.46 acre for right of way purposes; and Parcel No. 4: 0.23 acre for an easement. Offer of $21,400.00 approved by Mr. McIver July 3, 1958.

R-27588 - Archie Germond, et ux. 0.25 acre for right of way purposes. Offer of $125.00 approved by Mr. McIver July 3, 1958.

Ontario-Snake River Section of the Old Oregon Trail Highway

R-26712 - W. C. Holloway, et al. 2.07 acres for right of way purposes. Offer of $16,200.00 approved by Mr. McIver July 16, 1958.

R-26713 - Joe M. Bassett, et ux. 1.68 acres for right of way purposes. Offer of $6,000.00 approved by Mr. McIver July 11, 1958.

R-26729 - T. L. McKinney, et al. 0.38 acre for right of way purposes. Offer of $4,300.00 approved by Mr. McIver July 16, 1958.

R-26731 - Carl Mc D. Roe, et al. Parcel No. 1: 10.8 acres for right of way purposes; and Parcel No. 2: 0.65 acre for right of way purposes. Offer of $16,745.00 approved by Mr. McIver July 22, 1958.

R-26732 - Julia Westfall Mendazona, et al. Parcel No. 1: 8.59 acres for right of way purposes; and Parcel No. 2: 0.36 acre for right of way purposes. Offer of $6,000.00 approved by Mr. McIver June 27, 1958.

Roosevelt Drive (Seaside) Section of the Oregon Coast Highway

R-23349 - Standard Oil Company of California. Parcel No. 1: 0.12 acre for right of way purposes; and Parcel No. 2: 0.06 acre for right of way purposes. Offer of $540.00 approved by Mr. Chessman July 23, 1958.

R-23372 - Roy E. Heckard, et ux. 0.11 acre for right of way purposes. Offer of $4,200.00 approved by Mr. McIver July 18, 1958.

R-23385 - Fred Otto Like, et al. 0.3 acre for right of way purposes. Offer of $9,200.00 approved by Mr. Chessman July 28, 1958.

R-23386 - W. B. Hollenbeck, et al. 0.45 acre for right of way purposes. Offer of $8,655.00 approved by Mr. McIver July 18, 1958.

R-23387 - Verner D. Sanders, et ux. 0.07 acre for right of way purposes. Offer of $8,150.00 approved by Mr. McIver July 18, 1958.

R-27802 - David F. DeTar, et al. 6,500 square feet for right of way purposes. Offer of $1,800.00 approved by Mr. Chessman July 28, 1958.

R-27804 - William Wells Woodworth, et al. 125 square feet for right of way purposes. Offer of $40.00 approved by Mr. McIver July 18, 1958.

R-27805 - Daisy D. Teevin, et al. 1,500 square feet for right of way purposes. Offer of $325.00 approved by Mr. McIver July 18, 1958.

R-27806 - Jacob Krieger, Jr., et al. 425 square feet for right of way purposes. Offer of $125.00 approved by Mr. McIver July 18, 1958.

Myers Creek-Brookings Section of the Oregon Coast Highway

R-27795 - S. A. Agnew, et al. Parcel No. 1: 12.25 acres for right of way purposes; and Parcel No. 2: 4.1 acres for an easement. Offer of $3,200.00 approved by Mr. Chessman June 20, 1958.

R-27877 - Lou Guinn Davison, et al. Parcel No. 1: 3.5 acres for right of way purposes; and Parcel No. 2: 3.17 acres for an easement. Offer of $650.00 approved by Mr. Chessman June 30, 1958.

Sunset Highway (Murray Road Interchange)

R-28202 - Chris W. Schindler, et al. 2,800 square feet for right of way purposes. Offer of $100.00 approved by Mr. McIver July 28, 1958.

Salem By-Pass Section of the Pacific Highway

R-26695 - Aubrey L. Grayson, et al. Parcel No. 1: 0.18 acre for right of way purposes; and Parcel No. 2: 0.27 acre for an easement. Offer of $150.00 approved by Mr. McIver July 15, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25281 - Raymond L. Briggs, et al. 9.27 acres for right of way purposes. Offer of $3,250.00 approved by Mr. McIver June 18, 1958.

R-25283 - E. G. McKenzie, et al. 19.97 acres for right of way purposes. Offer of $5,000.00 approved by Mr. McIver July 7, 1958. An offer of $4,650.00 was previously authorized by Mr. McIver February 6, 1958. This amount was increased by reason of reappraisal of the property being acquired.

R-25671 - Madeline Jo Lynch, et al. Parcel No. 1: 44.35 acres for right of way purposes; and Parcel No. 2: 0.18 acre for haul road. Offer of $25,000.00 approved by Mr. McIver July 8, 1958.

McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway

R-23410 - Martha J. Fruit, et al. 7.75 acres for right of way purposes. Offer of $6,800.00 approved by Mr. McIver July 16, 1958.

R-23411 - J. J. Ewen, et ux. 6.1 acres for right of way purposes. Offer of $4,800.00 approved by Mr. McIver July 16, 1958.

R-23412 - Ross Cruickshank, et ux. 5.79 acres for right of way purposes. Offer of $5,200.00 approved by Mr. McIver July 16, 1958.

R-23413 - R. Kenneth Nissen, et ux. 6.7 acres for right of way purposes. Offer of $2,300.00 approved by Mr. McIver July 9, 1958.

McMinnville Airport-Dayton Junction Section (Cont.)

R-28005 - Carl H. Wahl, et al. 1.15 acres for right of way purposes. Offer of $3,600.00 approved by Mr. McIver July 11, 1958.

Post-Paulina Section of the Paulina Highway

R-27755 - J. C. Shoun, et al. 1.86 acres for right of way purposes. Offer of $350.00 approved by Mr. McIver July 9, 1958.

R-27757 - Don W. Brummer, et ux. 6.33 acres for right of way purposes. Offer of $1,400.00 approved by Mr. McIver July 8, 1958.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-23662 - Louis Adler, et al. Parcel No. 1: 5,000 square feet for right of way purposes; Parcel No. 2: 4,400 square feet for right of way purposes; and Parcel No. 3: 0.59 acre for right of way purposes. Offer of $13,000.00 approved by Mr. McIver June 30, 1958.

R-23663 - Filomena Scioly, et al. Parcel No. 1: 1.85 acres for right of way purposes; and Parcel No. 2: 0.30 acre for right of way purposes. Offer of $45,050.00 approved by Mr. McIver July 19, 1958.

R-27082 and R-27083 - Mike M. DeCicco, et al. Parcel No. 1: 6,234 square feet for right of way purposes; Parcel No. 2: 5,530 square feet for right of way purposes; and Parcel No. 3: 2,100 square feet for right of way purposes. Offer of $45,000.00 approved by Mr. McIver June 24, 1958. An offer of $41,500.00 was previously authorized by Mr. McIver May 27, 1958. This amount was increased by reason of revaluation of the appraisals of the property being acquired.

R-27090 - Charles C. Grant, et al. 5,000 square feet for right of way purposes. Offer of $1,720.00 approved by Mr. McIver July 3, 1958.

R-27890 - Samuel K. Azar, et ux. 0.08 acre for right of way purposes. Offer of $25.00 approved by Mr. McIver July 9, 1958.

R-28040 - F. S. Wilhelm, et ux. 1,250 square feet for right of way purposes. Offer of $800.00 approved by Mr. Chessman July 28, 1958.

R-28270 - A. F. Winter. 0.54 acre for a maintenance site. Offer of $1,100.00 approved by Mr. McIver July 18, 1958.

The Commission considered and accepted a report submitted by the Chief Counsel concerning orders which have been issued by the Public Utilities Commissioner regarding railroad crossing matters in which the State Highway Commission has been made a party, summarized as follows:

July 31 and August 1, 1958

PUX 243: Application of the City of Grants Pass for relocation, installation, and maintenance of automatic warning signals at the crossing of the tracks of Southern Pacific Company at Sixth and Seventh Streets in the City of Grants Pass. The order provided that the installation of new signals on Seventh Street should be borne one-half by Southern Pacific Company and one-half by the City of Grants Pass and the Highway Commission. The cost of relocating the signal on Sixth Street is to be done without railroad cooperation. Maintenance of the signals on Sixth and Seventh Streets is to be borne by Southern Pacific Company.

PUX 255: Aumsville grade crossing of the tracks of Southern Pacific Company on the North Santiam Secondary Highway near Aumsville. The order authorizes crossing at grade and the installation of automatic electric signals. Southern Pacific Company is to install the signals and be reimbursed for the cost by the State Highway Commission. The State also is to pay the railroad company for its necessary expenditures in connection with the construction of the crossing.

PUX 258: Application of Southern Pacific Company for authority to construct an industrial track under the Coos Bay Bridge at North Bend. This track is to be constructed and maintained by Southern Pacific Company without cost to the State.

PUX 261: Application of Lakeview Logging Company for a private road crossing at grade of the Fremont Highway, north of Lakeview. The Logging Company is to bear the expense of the installation of the crossing and necessary warning signs, and is to provide flagmen and a $1,000 bond.

PUX 263: Application of Lane County for authority to alter a crossing at grade of the tracks of Southern Pacific Company on the Natron Cutoff near Jasper. This crossing is on a county road and no objection was made to the issuance of a proper order.

PUX 264: Application of Lane County for authority to alter a crossing at grade of the tracks of Southern Pacific Company on the Hills Creek Road crossing near Jasper. This crossing is on a county road and no objection was made to the issuance of a proper order.

PUX 265: Application of Lane County for authority to alter a crossing at grade of the tracks of Southern Pacific Company on the southerly Mt. Vernon Cemetery Road near Jasper. No objection was made to the issuance of a proper order.

PUX 266: Application of Lane County to alter a crossing at grade of the tracks of Southern Pacific Company on the northerly Mt. Vernon Cemetery Road near Jasper. This crossing is on a county road and no objection was made to the issuance of a proper order.

PUX 279: Application of Southern Pacific Company for authority to relocate industrial spur tracks across Fir Street in Reedsport. The tracks do not affect any street under the jurisdiction of the Highway Commission and no objection was made to the issuance of a proper order.

The matter of disposition of a check received from Hoffman Construction Company, Portland, in the amount of $36,024.60 was presented by the Chief Counsel. He explained that the check represents the amount of the bid bond that was deposited by Hoffman Construction Company on March 27, 1958, in connection with its proposal to construct the Ontario Bridges over the Snake River in Malheur County. He recalled that Hoffman Construction Company alleged that they made a mistake in their bidding and accordingly refused to accept the award of the contract and tendered their check in forfeiture of the contract as provided by the proposal. The State of Idaho, he said, is cooperating with the State of Oregon on a 50-50 basis in the cost of contructing these bridges and therefor is entitled to one half of the default payment. He requested authority to pay to the State of Idaho one half the sum of $36,024.60, or $18,012.30. The Commission granted the authority.

A written report was presented by the Chief Counsel showing property damage claims collected during the period of April, May, and June, 1958, covering 179 cases, in the amount of $16,569.09. The Commission accepted the report. These claims, the Chief Counsel explained, are principally from insurance companies whose clients have damaged state highway facilities, such as guardrails, bridges, signals, etc.

A quitclaim deed from the State of Oregon to School District No. 25 in Gilliam County, conveying a parcel of land which is to be used for park purposes, was presented by the Chief Counsel. This matter, he stated, was presented by a delegation several months ago and the quitclaim deed has been prepared transferring the state's interest in a vacated lot on which a swimming pool has been constructed in the City of Condon. The Commission approved the deed.

The Chief Counsel brought up for discussion the matter of restricting types of outside employment by right of way agents. He presented a resolution covering the subject and explained that it prohibits right of way agents from accepting outside employment involving appraisals, selling, purchasing, advising, or in any other manner dealing with real property within the State of Oregon. He pointed out that attorneys are now precluded from accepting outside employment and that it would be in the best interests of the State to restrict outside employment by right of way agents as provided in the resolution. Commissioner Fridley inquired if there are other employees in the Highway Department who should be similarly restricted as to employment. The Engineer replied that a ruling has been in effect for many years that precludes engineers from accepting outside engineering work. Chairman McIver observed that he appreciates the need for such a regulation pertaining to right of way employees and engineers but he felt that the application of restricting employment to other work classifications might be an infringement upon the rights of the employees and stifle their earning capacity. The Engineer stated that the matter had been considered at considerable length and it was his opinion that the resolution should not cover all State Highway employees but should pertain only to those employees whose outside activities would interfere or conflict with their state employment. Commissioner Fridley stated that in his opinion a policy should be worked out to control outside employment by all State Highway employees, which employment would conflict with their state employment. The Commission

approved the suggested restrictions as they pertain to right of way agents by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel and the Engineer were instructed to investigate thoroughly the matter of extending the restrictions to other highway employees and to submit a report later.

The resignation of Frank Morgan from the Trial Section of the Legal Division was reported by the Chief Counsel. He explained that Mr. Morgan, who has been with the Highway Department for seven years, is transferring to private employment. He further stated that Mr. W. A. Mansfield, an attorney in the Office Section, is being transferred to take Mr. Morgan's place. He requested authority to employ a new man, Mr. Richard C. Bemis, in Mr. Mansfield's place as a Class II Attorney at a starting salary of $460.00 per month. The Commission approved the hiring of Mr. Bemis. The Chief Counsel also reported that one of his attorneys, Leslie B. Hampton, has completed his first year of employment and, in line with past policy, is entitled to a change of classification from Class III to Class IV Attorney, involving an increase in salary from $625.00 to $655.00 per month, effective August 1, 1958. This change, he stated, has been approved by the Attorney General. The Commission approved the promotion.

The Commission considered adoption of a resolution dealing with a revision of policy in the granting and reserving of access rights to state highways. The Chief Counsel advised that the resolution as prepared determines conditions under which a land owner whose land abuts upon a state highway other than an interstate highway may apply for and receive the conversion of a limited use access to an unlimited access when there is no other public road, street, or highway affording land service to the area which the requested access purports to serve and when the conversion of said limited use to unlimited use will not constitute a hazard to the traveling public. Also, the Chief Counsel continued, the resolution sets out certain provisions in which the property owner will convey to the state, without cost, the necessary right of way needed for acceleration and deceleration lanes and that the property owner shall pay the cost of construction of such acceleration and deceleration lanes, signs, and other facilities as are needed to provide for the safety of the traveling public. Action on this matter was deferred for study. (On the following day the resolution was adopted by the Commission as presented).

Attention was given to a claim in the amount of $1,000.00, presented by Crater Lake Motors of Medford, for damage to cars parked on their lot and for loss of the use of a portion of their lot during the wrecking of a building by a state highway contractor. The Chief Counsel stated that during the wrecking of the building by the state contractor, plaster, nails, and other debris fell on the lot and damaged cars to the amount of approximately $250.00; also, that for a period of from 60 to 80 days cars had to be kept off the portion of the lot near the building which was being wrecked. The claim, he stated, has been carefully investigated and payment of the same appears to be well justified. Upon his favorable recommendation, the Com-

mission approved the payment of $1,000.00 to Crater Lake Motors.

The Chief Counsel inquired as to the Commission's desire concerning the nature and number of reports that are transmitted to the Commission in advance of Commission meetings. This matter, he stated, was brought to his attention by Commissioner Chessman who inquired as to the necessity of sending to the Commissioners lengthy reports concerning routine matters. He suggested that reports should be sent to the Commission in advance of the meeting only if they are unusual or if they cover particularly important matters, and that reports on necessary or routine matters be presented to the Commission at the meeting. Action on the matter was deferred at this time. (On the following day the Commission instructed the Chief Counsel to submit prior to the Commission meeting reports concerning out-of-the ordinary events and to submit to the Commission at its meetings summaries of other reports).

The Engineer reported that under authority previously granted him he has awarded contracts referred to him by the Commission to award when certain conditions have been satisfied. These conditions, he stated, have been met with respect to the following projects and the contracts have been awarded:

(1) Grading the Coleman Creek-Short Creek Section of Cape Meares Loop Road, Tillamook County. Bids received May 8, 1958. Contract awarded June 20, 1958, to Don Greene Construction Company, Salem, low bidder.

(2) Construction of Luckiamute River Bridge on County Road 502, Benton County. Bids received June 17, 1958. Contract awarded June 24, 1958, to Tom Lillebo Construction Company, Reedsport, low bidder.

(3) Paving and stone shoulders on Albany Canal-Lebanon Junction Section of Albany-Brownsville County Road, Linn County. Bids received June 17, 1958. Contract awarded June 24, 1958, to Morse Brothers, Lebanon, low bidder.

(4) Oiling on twelve county roads in vicinity of Terrebonne, Redmond, Bend, Alfalfa, Tumalo, and Sisters, Deschutes County. Bids received June 17, 1958. Contract awarded June 25, 1958, to Babler Brothers, Inc., Portland, low bidder.

(5) Stone base and oiling on North Powder-Davis Ranch Section of North Powder River Road, Union County. Bids received June 17, 1958. Contract awarded June 25, 1958, to C. E. Leseberg, Nyssa, low bidder.

(6) Construction of Cooper Bridge over North Fork of Coquille River near Myrtle Point, Coos County. Bids received June 17, 1958. Contract awarded June 26, 1958, to Sig Anderson, North Bend, low bidder.

(7) Paving on Bybee Bridge-Gregory Road Section of Table Rock County Road, Jackson County. Bids received June 17, 1958. Contract awarded June 26, 1958, to Rogue River Paving Company, Medford, low bidder.

(8) Construction of Fanno Creek Bridge on Oleson Road, Washington County. Bids received June 17, 1958. Contract awarded June 30, 1958, to Central Paving Company, Independence, low bidder.

(9) Grading, paving, and structure on Trail Creek Bridge Section of Crater Lake Highway, Jackson County; also, crushed material in stock piles. Bids received May 29, 1958. Contract awarded July 2, 1958, to Durbin Brothers, Eugene, low bidder.

(10) Grading and paving Airport-Alberta Street Section of 82nd Avenue and Cascade Highway, Multnomah County. Bids received May 29, 1958. Contract awarded July 2, 1958, to Warren Northwest, Inc., Portland, low bidder.

(11) Construction of Milton Creek Bridge on Columbia Boulevard in St. Helens, Columbia County. Bids received June 17, 1958. Contract awarded July 3, 1958 to Erick Enquist, Troutdale, low bidder.

(12) Oiling Flora Spur Section of Flora Spur County Road, Wallowa County. Bids received June 17, 1958. Contract awarded July 7, 1958, to J. F. Konen Construction Co., Inc., Lewiston, Idaho, low bidder.

(13) Grading Hooskanaden Creek-Thomas Creek Section of Oregon Coast Highway, Curry County. Bids received May 29, 1958. Contract awarded July 8, 1958, to Morrison-Knudsen Company, Inc., Seattle, Washington, low bidder.

(14) Stone base and paving West Idaho Avenue in city of Ontario, Malheur County. Bids received May 29, 1958. Contract awarded July 11, 1958, to Russell Olson Construction Co., Inc., Pendleton, low bidder.

(15) Grading and paving Browning Avenue-Rosedale Section of Liberty County Road, Marion County. Bids received June 17, 1958. Contract awarded July 18, 1958, to Central Paving Company, Independence, low bidder.

(16) Grading, paving, and three concrete slab span structures on Jonesboro-Tunnel Section of Central Oregon Highway, Malheur County. Bids received May 29, 1958. Contract awarded July 24, 1958, to Central Paving Company, Independence, low bidder.

(17) Grading and oiling West Unit, Post-Camp Creek Section of Paulina Secondary Highway, Crook County. Bids received June 17, 1958. Contract awarded July 24, 1958, to Keystone Construction Company, Inc., Prineville, low bidder.

(18) Grading on Lancaster Drive-Sublimity Gun Club Section of North Santiam Highway, Marion County. Bids received May 29, 1958. Contract awarded July 25, 1958, to C. R. O'Neil, Creswell, low bidder.

(19) Grading, paving, and structure on Emigrant Reservoir Section of Green Springs Highway, Jackson County. Bids received June 17, 1958. Contract awarded July 29, 1958, to Babler Brothers, Inc., Portland, low bidder.

The Commission confirmed the awards as reported.

The establishment of temporary construction speed zones on four state highway sections where construction is underway was reported by the Engineer. He stated that such reduced speed zones are necessary in order to protect the traveling public. The Commission confirmed the establishment of reduced speed zones placed by the Engineer as follows:

1. 35 miles per hour on the Perry-Oro Dell Section of the Old Oregon Trail Highway between MP 255.54 and MP 258.33, effective 10:00 a.m. June 24, 1958.

2. 35 miles per hour on the Jumpoff Joe-Louse Creek Section of the Pacific Highway from north end Station 715 to LC Station 783, and from south end Station F2-1063+74 to where Louse Creek intersects the existing highway, effective 1:30 p.m., July 8, 1958.

3. 35 miles per hour on the Sunset Highway near the Murray Road Interchange between MP 66.75 and MP 67.75, effective 1:30 p.m., July 8, 1958.

4. 35 miles per hour on the Missouri Bottom-Ford Bridge Unit of the Pacific Highway between MP 215.24 and MP 216.24, effective 11:00 a.m., July 18, 1958.

A report was submitted by the Engineer on a request made by P. N. Shown for state cooperation in repairing the east wall of his service station in Mitchell and the building of a ring dike at the rear of his property. The Engineer recalled that Mr. Shown had been awarded $5,000 in the Circuit Court of Wheeler County for flood damage to his property in view of which, in his opinion, the State has no further obligation to Mr. Shown in this regard. He further stated that subsequent to the submission of Mr. Shown's

claim, Mr. Owen Tanner, Shown's attorney, advised that the claim is being withdrawn and that they would take no further action until further damage occurs. The Commission took no action on this matter other than to accept the Engineer's report.

The Engineer reported the results of receiving bids in Salem on July 10 and on July 29 for 50 highway construction projects. He pointed out that no action has been taken on the bids other than to open them, determine the low bidder, and inform the contractors that the bids would be referred to the Commission at this meeting for awards. He also asked the Commission to confirm its telephonic approval of the award of the contract for remodeling the Howard Cooper Building in Portland on which bids were received July 10. The Commission confirmed the award of the contract for remodeling the Howard Cooper Building to Monson and Sivers Company on July 11, 1958, and announced that award of contracts for the remaining projects would be made at 2:00 p.m. this afternoon.

The Engineer reported that test runs with 60 foot truck and full trailer combinations have been made over a section of the Oregon Caves Highway and over a portion of the Amity-Dayton Highway, and it was found that such truck and trailer combinations can negotiate the route without crossing the center line at any point so he has reclassified them from a group II status to a group I status. He asked the Commission to confirm the action. The Commission confirmed reclassification from group II to group I status the following state highway sections:

1. Oregon Caves Highway between the Holland Loop Road (MP 6.16) to the Sucker Creek Road (MP 11.77), effective July 10, 1958.

2. Amity-Dayton Highway from its junction with the Three Mile Lane Highway to the junction with the Salem-Dayton Highway, effective July 30, 1958.

A report was presented by the Engineer concerning a public hearing that was held in Pendleton on July 15, 1958, concerning the rerouting of Interstate Highway No. 80N (Old Oregon Trail Highway) between Deadman's Pass and Meacham in Umatilla County. He said that no opposition was presented at the meeting. He exhibited a map of the proposed relocation and recommended that the survey be adopted so that acquisition of right of way could start in the near future. He advised that if plans proceed according to schedule, it is expected that the project will be advertised for bids in about two months. The Commission approved the survey as presented by adopting the attached resolution relative thereto marked EXHIBIT "K- ", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported on a public hearing that was held in the city of Baker on July 16, 1958, regarding rerouting of Interstate Highway No. 80N (Old Oregon Trail Highway) between a point about two miles southeasterly of Baker and a point about a mile easterly of Pleasant Valley. Opposition to the proposed relocation, he said, was voiced principally by property owners who objected to the taking of right of way across their

fields. He pointed out that Interstate Highway Routes must be planned and built to the highest feasible standards and it was his opinion that the route selected is the proper one. Some property owners, he stated, will suffer damage, but they will be compensated when their property is acquired. He recommended that the Commission approve the survey for the Baker-Pleasant Valley Section of the Old Oregon Trail Highway in Baker County. The Commission approved the survey by adopting the attached resolution relative thereto marked EXHIBIT "K- ", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection, Commissioner Fridley stated that the Troys, who own property in this section, had talked to him about the highway relocation. He inquired if the amount of land that was left after right of way needs are taken care of will be sufficient to warrant its continued use. The Engineer replied that provision has been made in the plans for the installation of stock passes and machinery passes so that machinery and stock can be moved from one side of the highway to the other. It was his opinion that all damages would be compensated in the acquisition of the right of way. The remaining lands, he stated, can be utilized for the same purposes for which they are used at the present time.

The Commission considered another request from Willard L. Archer for construction of an interchange at the Norwood Road Crossing of the R. H. Baldock Freeway. The volume of traffic at this interchange, the Engineer stated, has been re-studied and it was found that there is no change in the traffic pattern. He pointed out that Norwood Road traffic now has access to the Freeway by two interchanges, one of which is two miles in one direction and the other one mile in the other direction. It was his opinion that the facts disclosed in the study indicate that an interchange is in no wise justified and he recommended that the request be again denied. The Commission deferred action pending the appearance of a delegation on the following day. (The delegation did not appear as scheduled).

The Commission considered a report rendered by the Engineer on the request of a delegation from Milton-Freewater for improvement of the Oregon-Washington Highway. The Engineer recalled that the delegation appeared before the Commission meeting on February 28 and that he had been instructed to take traffic counts during pea harvest. The traffic count was taken and little effect was shown because of the pea harvest at the Washington State line and at Pendleton. Between Adams and Milton-Freewater an increase of about 25% was shown. A particularly dangerous situation was disclosed at the Lamb-Weston plant where normal traffic is about 200 vehicles per day, but during pea harvest increases to 2,500 vehicles daily. The traffic count also disclosed that the highway carries at least 50% more traffic than its rated capacity and justifies reconstruction. Action was deferred by the Commission pending consideration of a construction program later in the day. (See construction program ahead.)

A report was presented by the Engineer concerning a request made by a delegation from the city of Hillsboro for construction of a highway extending easterly from Hillsboro to a connection with the Sunset Highway near Portland. This matter, the Engineer recalled, has been before the

Commission several times in the past. The most recent investigation discloses that the road is six miles long and if constructed should be built to a four-lane standard at a total cost of approximately $2,400,000. The section is not on the state highway system and as no funds are available for construction, he recommended that the group be told that it will be given consideration at some future time. The Commission approved his recommendation and ordered that the Hillsboro people be advised of the facts disclosed in the investigation and of the Commission's action.

The meeting recessed for luncheon at 11:45 a.m. and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

The Engineer presented a report on the request of a delegation from the Madras-Jefferson County Chamber of Commerce for improvement of The Dalles-California Highway between Lyle Gap and Madras in Jefferson County. The Engineer stated that reconstruction is needed on two sections: one north of Madras in Jefferson County and the other near Kent in Sherman County. The projects, he said, are approximately equal in priority except that the project north of Madras carries the heavier volume of traffic. The Engineer called attention to a construction program to replace funds allocated under the "crash" program which will be considered later in the day. In this program the sum $450,000 is included for one of the two sections. The Commission deferred action on the two projects pending consideration of the construction program later in the day. The Commission also instructed that the delegation be advised that their request is being studied and they will be advised by letter when action has been taken. (See additional entry ahead showing approval of the Madras - north project).

The Engineer presented and the Commission accepted a report on the weighmasters operations during the three month period from April through June for the years 1954 to 1958 inclusive. Chairman McIver commented that the number of violations is decreasing.

The Engineer reported a successful test run with a truck and full trailer combination 60 foot over all length over the Three Mile Lane Highway #152 from its junction with the Pacific Highway #1W at McMinnville to its junction with the Amity-Dayton Highway #155; also, a successful test run was made with the same equipment over the Amity-Dayton Highway #155 from its junction with the Pacific Highway #1W near Amity to a junction with the Three Mile Lane Highway #152. As the test equipment was able to negotiate these sections without encroaching on the opposing traffic lane, he recommended that they be reclassified from group III to group I status. The Commission approved such reclassification, effective July 28, 1958.

The Commission considered items of unfinished business as shown on the Secretary's summary dated June 20, 1958, as follows:

1. Request of Representative Fred Meek that a museum building be constructed at Champoeg State Park: A report was presented on this matter earlier in the day by the Parks Superintendent and the Com-

mission instructed that Mr. Meek be advised of the plans that are being considered and that they have been referred to the Oregon Historical Society and to the Parks Advisory Committee for study. This item is to remain on the list of unfinished business.

2. Request of Tillamook County Court and others that the State take over as a state park the Bayocean area between Tillamook Bay and the Pacific Ocean: The Parks Superintendent stated that his report on this subject is not yet ready, but he anticipated that it could be presented at the next Commission meeting. This item is to remain on the list of unfinished business.

3. Resolution adopted by the Legislative Highway Interim Committee recommending establishment of a state park at Unity Reservoir in Baker County and an expenditure of $25,000 for development in 1958: The Parks Superintendent advised that his report on this subject is not complete, but will most probably be presented at the next meeting. The Commission instructed that the item be retained on the list of unfinished business.

4. Nonparticipation of the Bureau of Public Roads in the payment of attorneys' fees in connection with right of way condemnation suits and settlements: The Engineer advised that official information has now been received from the Bureau of Public Roads indicating that they will allow attorneys' fees in these cases.

5. Proposed borrowing of funds from other state agencies to set up a revolving fund for acquisition of right of way: Under the present federal-aid plan for interstate highways, the Engineer stated, the Federal Government will participate up to 90% of the cost of the right of way for property which is acquired for highway construction that is commenced within five years. Right of way acquired and not utilized for construction within five years, he continued, must be paid with state funds. Concerning the "East Bank Freeway" Route of the Pacific Highway in Portland, he pointed out that as soon as the actual construction line is determined, negotiations for right of way can begin, and being a part of the Interstate System the Federal Government will participate in approximately 90% of the cost of the right of way. He also pointed out that federal participation in the acquisition of right of way is also applicable to other types of highways in lesser amounts. The Commission accepted the report and ordered the item deleted from the list of unfinished business.

6. Request by the city of Springfield that Second and Third Streets in that city be designated as a couplet and added to the federal-aid secondary highway system: The Engineer advised that an investigation is being made but the report is not yet complete. The Commission instructed that the Springfield officials be advised of the progress that has been made. This item is to remain on the list of unfinished business.

7. Request of the Hillsboro City Council for a direct highway route extending easterly from Hillsboro to a connection with the Sunset Highway near Portland: The Engineer presented a report on this matter earlier in the day so the Commission ordered the item deleted from the list of

unfinished business. The Secretary was instructed to inform the Hillsboro officials by letter of the Commission's action.

8. Request of Mt. Angel delegation for improvement of the Hillsboro-Silverton Highway near Henjum's Corner south of Mt. Angel: The Engineer reported that in investigating this request, it was found that approximately 65% of the traffic on the highway is between Silverton and Mt. Angel, and that the road should be relocated on a line approximately 1.3 miles shorter than the existing highway. The Commission instructed that the delegation be advised of the Engineer's findings to date. The item is to be removed from the list of unfinished business.

9. Request of Madras and Central Oregon Chambers of Commerce for completion of Highway 97 from the newly constructed section to a connection with Highway 26 south of Madras. A report was presented on this matter by the Engineer earlier in the day and the Commission ordered the item deleted from the list of unfinished business.

Illumination of intersections where left turn slots are provided at Shattuck Road and S. W. 42nd Avenue on the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway was considered. The Engineer reported that grading and paving have been finished and the conditions are such that illumination is advisable. Upon his favorable recommendation, the Commission approved the expenditure of $2,700 to illuminate the intersections, the work to be performed by State forces.

The Commission gave attention to a program for additional 1959 Federal Forest Highway funds. The Engineer explained that this program had been presented tentatively to the Commission at its June, 1958, meeting, at which time it had not yet been approved by the Bureau of Public Roads and the Forest Service. Their approval has now been secured in substantially the same form as it was presented to the Commission. He also pointed out that the proposed program is aimed primarily at completion of projects which are already underway. Based upon his favorable recommendation, the Commission approved the following forest highway program:

June 23, 1958

Federal Highway Administrator
Chief, Forest Service
Washington 25, D. C.

Dear Sirs:

In accordance with the Rules and Regulations for Administering Forest Highways, the following revision of the existing Oregon Forest Highway program, approved January 30, 1958, is recommended by the Regional Forester, Region 6, the Oregon State Highway Commission, and the Regional Engineer of the Bureau of Public Roads.

Letter (Cont.)

Previous unprogrammed balance (lapsing)	$ 332,083.15
1959 F.Y. supplemental apportionment (lapsing)	619,896.00

Very truly yours,

B. M. FRENCH, Regional Engineer

U. S. FOREST SERVICE, REGION 6

The Engineer requested authority to purchase 10,000 cubic yards of quarry-reject material to widen the shoulders of the Siuslaw Highway between Mapleton and Cushman, M.P. 3 to M.P. 14. He stated that the shoulders in this section have been considerably eroded by highway water and traffic to a point where they are dangerous to the traveling public. The material can be acquired at 10 cents per cubic yard from a quarry owned by George Chicha Company, Spokane, Washington. To transport the material it will also be necessary to secure an agreement with Southern Pacific Company covering construction of a crossing of their tracks. He estimated at $520 the cost of reimbursing Southern Pacific Company for the crossing. The Commission approved purchase of materials as recommended by the Engineer and also approved reimbursement of Southern Pacific Company for the cost of the railroad crossing.

The Commission considered a petition from residents and property owners along the Woodburn-Estacada Secondary Highway in Estacada for widening of the pavement on the westerly side of the highway between N. E. Second Avenue and an intersection with a county road. The Engineer in his report pointed out that projects of this nature are of benefit to the adjoining property owners as well as to the traveling public and he suggested that the petitioners be referred to the Estacada city officials to determine if the city would be willing to cooperate in the cost of the project to the extent of 25%. If the city is willing and officially makes such a request, the improvement could be considered along with other requests of this nature. The Commission approved the suggestion.

Consideration was given to the Engineer's recommendation that excess excavation material from the Redwood Interchange project in Grants

Pass be used to rebuild a 1.8 mile section of the Redwood Highway immediately south and west of Grants Pass. The project, he stated, can be financed from reserves in the Division III Primary Funds. The excess material from the Redwood Interchange project which is scheduled for letting in the near future can be wasted or it can be used to construct embankments and shoulders on the Applegate River-Grants Pass Section of the Redwood Highway. Rehandling of the material if wasted, he estimated, would cost approximately $30,000. He recommended that the material be used for embankment purposes on the Redwood Highway and that the necessary drainage and surfacing be incorporated to provide a complete job at an estimated cost of $100,000. The Commission approved his recommendation.

Construction of wayside rest facilities on the Baldock Freeway was discussed. The Engineer commented that standards being formulated for construction of interstate highways favor the installation of rest facilities at intervals of from 10 to 40 miles. In line with these studies it is planned to install a rest area on the Pacific Interstate Highway between Eugene and Albany and between Albany and Salem. A location for a suitable site on the Baldock Freeway between Portland and Salem has been found at approximate M.P. 20, 1.5 miles southerly from the Willamette River. At this point there is a wooded area on both sides of the highway. Construction of the necessary facilities he estimated at $102,000 including right of way, acceleration and deceleration lanes as well as the required rest station facilities. He remarked that projects of this nature are reimbursed by the Federal Government on the 90%-10% basis applicable to other interstate work. The Commission approved his recommendation that right of way be acquired and the facilities constructed near M.P. 20 on the Baldock Freeway if concurrence is received from the Bureau of Public Roads.

The Commission considered a petition from Milwaukie Grange No. 268 requesting immediate consideration for construction of a bridge over the Willamette River between Oswego and Oak Grove as a part of the Laurelhurst Freeway. The Engineer stated that although the project is worthy it cannot be undertaken for several years because of the development of plans for the Interstate System in the Portland area. He pointed out that it will take several years to build the main interstate routing known as the East Bank Freeway, and construction of the Laurelhurst Freeway, of which the requested bridge is a part, would have to be considered at a later date. The Commission approved his statement.

A resolution from the Wasco County Court was considered requesting construction of an interchange on US30 westerly from The Dalles at Hostetler Way. This resolution, the Engineer stated, was investigated and it was found that the area is served by a frontage road on either side of the freeway and there is a partial interchange at the northerly end and in interchange at the southeasterly end. Construction of an interchange at Hostetler Way would not shorten the distance for most traffic movements in the area. He recommended that the request for the interchange be denied and that additional signs be located in the interchange areas indicating that gas, food, and lodging are available on the frontage roads. The Commission approved his recommendation.

Attention was given to a letter from the Lane County Chamber of Commerce requesting improvement of the Richardson-Eugene Highway (Route F) from Austa to Walton, and for improvement of the Siuslaw Highway from Mapleton to Florence. The Engineer pointed out that during the past few years much money has been spent on Route F, and while it would be desirable to complete the route from Mapleton to Florence, necessary funds are not immediately available. He recommended that the Lane County Chamber of Commerce be advised of work which has been done and is now underway between Austa and Walton, and that consideration will be given to completion when funds are available. Concerning improvement of the Siuslaw Highway between Mapleton and Florence, he recommended that the Chamber of Commerce be advised that no funds are available at this time. The Commission accepted his recommendations.

A letter was considered from the Prospect Parent-Teachers Association requesting straightening of the Crater Lake Highway from an intersection with Ulrich Road easterly to a point near Wildwood. The section referred to, the Engineer stated, is 1.5 miles in length and lies approximately five miles westerly from Prospect. The average daily traffic is near 900 vehicles per day, and he estimated that the improvement would cost about $500,000. The Commission accepted his recommendation that the Parent-Teachers Association be advised that it is not possible to undertake the improvement at this time due to lack of funds.

The Commission considered a letter from Mrs. Hugh M. Amsberry, Chairman of the Camp Sherman Road Improvement Committee requesting surfacing of approximately four miles of the road between Camp Sherman and the Suttle Lake area, and also surfacing between Camp Sherman and the head of the Metolius River. The Engineer pointed out that although improvement of the roads is most likely needed they are not state highways and cannot be improved by the State. He suggested that the people concerned be advised to contact the agency that has jurisdiction over these particular roads. The Commission approved the suggestion.

The Commission gave attention to a petition from the Lorane Parent Teachers Club requesting completion of the Territorial Highway between Lorane and Anlauf. This section of highway, the Engineer stated, is now a gravel road and improvement would cost approximately $1,000,000. He pointed out that Lane County officials have indicated a preference for completion of the Route F Highway and much of the money available in Lane County has been allocated for completion of that road. It was his recommendation, approved by the Commission, that the petitioners be advised that although the project has merit it is not possible to finance it at this time.

Attention was also given to a request from the Upper Willamette Soil Conservation District and the Creswell Water Control District for State participation to eliminate a flooding condition on old US99 near the south limits of Creswell. The Engineer in his report pointed out that the creek parallels the highway on the upper side for more than three miles and between 1953 and 1956 flooded the highway nine times. Construction of a double-barrel box culvert to carry the Lynx Hollow Creek water he estimated would cost $10,000 and would be of considerable advantage to the

highway. He recommended that the State participate by constructing the culvert but without joining the District or incurring any responsibility for the drainage work. The Commission approved his recommendation.

Purchase of IBM tabulating and bookkeeping machines was brought up by the Engineer. These machines have been leased from the IBM Company for a number of years, but the Company has now offered to sell them outright and maintain them for specified monthly maintenance charges. The total purchase price plus maintenance costs over the remaining life of the equipment is $175,566. Rental costs for the same period of time on the same equipment would amount to $250,080, showing a net saving by purchase in the amount of $74,514. He pointed out that to take advantage of this offer it had been necessary to telephone the Commission for approval, which he had done, and he requested that the Commission confirm previous telephonic approval. The Commission confirmed its previous action. (For further details see the Engineer's letter dated July 21, 1958, in the General Files).

Attention was given to requests from citizens from La Grande and vicinity for construction of a guardrail on the Wallowa Lake Highway on the 3.85 mile section adjacent to Wallowa Lake. These requests, the Engineer stated, had been investigated and while there is some question as to whether the guardrail is warranted, there is no question that five fatal accidents have occurred due to cars running off the road and into the Lake. He therefore recommended that a guardrail be constructed by contract on those portions of the highway adjacent to the Lake at an estimated cost of $65,000 subject to approval of the Bureau of Public Roads. The project, he continued, can be financed from savings from underruns on other contract jobs in this division. The Commission approved the project.

The Engineer reported that under authority previously granted by the Commission, he had conducted surveys on the Hunters Creek-Myers Creek Section of the Oregon Coast Highway in Curry County and on the Siuslaw River-Wildcat Creek Section of the Richardson-Eugene Highway in Lane County. On both sections, he said, careful engineering attention had been given to provide the best possible facility for the traveling public commensurate with the cost. He recommended that the following surveys be approved:

1. Hunters Creek-Myers Creek Section of the Oregon Coast Highway in Curry County.

2. Siuslaw River-Wildcat Creek Section of the Richardson-Eugene Highway in Lane County.

The Commission approved the surveys by adopting the attached resolutions relative thereto marked EXHIBIT "K- " and EXHIBIT "K- ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Based on the recommendation of the Engineer, the Commission took action as noted in the following request from a contractor for an extension

of time within which to complete a state highway contract. Reimbursement for engineering expenses and other expenses incurred by the state in connection with the work during the period of these extensions was waived by the Commission except as noted:

1. Berry Creek Construction Company, Contract #5071, for overnight camp expansion construction in Jessie M. Honeyman State Park, on the Oregon Coast Highway in Lane County, requested an increase from 30 to 34 work days within which to complete the project without assessment of penalty. The additional time required was not the fault of the contractor, the Engineer stated, and upon his favorable recommendation the Commission approved the extension of time as requested.

FOOTNOTE: The action taken by the Highway Commission upon the extension of time within which to complete the highway contract listed above was based upon the recommendation of the Engineer which considered but did not necessarily adopt either or any of the reasons given by the contractor in his request for such extension of time. For details regarding this extension, see copy of the contractor's request and the Engineer's recommendation on file in the respective contract in the Secretary's office.

The Engineer reported that contract numbers as follows: 4653, 4802, 4915, 4992, 4996, 5032, 5041, 5042, 5048, 5063, 5065, 5066, 5068, 5071, 5073, 5075, 5093, 5099, 5116, 5120, 5126, 5129, 5133, 5134, 5142, 5145, 5146, 5148, 5151, 5154, 5158, 5171, 5174, 5177, 5184, 5192, 5197, 5203, and 5217 for highway construction have been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer a construction program in the amount of $5,980,000 to replace projects which were advanced from the 1960 program when crash funds were made available. This sum, the Engineer stated, is available for assignment to other projects for the 1960 year. He reviewed in detail the proposed projects. He also presented a proposed program for expenditure of an additional $3,000,000 on interstate highways for the year 1959 and $17,300,000 for the year 1960 made available by the 1958 Federal Highway Act. He briefly reviewed each project. The Commission deferred action at this time pending further study. (Upon the following day the Commission approved the programs as presented).

The Commission considered a letter from the Coos County Chamber of Commerce requesting that Highway 42 be improved so that it will form a link in the "Winnemucca to the Sea" route. After some discussion the Commission instructed that the Chamber of Commerce be advised that the

subject is being considered but it may be several years before enough information is available to determine the route.

The Commission also considered a request from Clatsop County that the State install three tide gates on the Wauna-Westport Section of the Columbia River Highway to prevent flooding the old section of this highway. The Engineer reported that the County has agreed to furnish the gates and maintain them and the installation of the flood gates is a fair proposal. Upon his favorable recommendation, the Commission approved installation of the flood gates at a cost of $1,600 to be covered by written agreement.

The Engineer presented a resolution providing for distribution to Oregon cities State Tax Street Funds accrued during the first half of 1958. Allocations to the cities, he continued, is determined by law and he recommended that the allocations as shown in the resolution be approved. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented for consideration three projects in Clatsop, Morrow, and Wallowa Counties covering "D" funds on county secondary systems. He explained that the project in Clatsop County is a transfer only of funds previously approved for the Blind Slough Bridge in Clatsop County. The project in Wallowa County represents savings by reason of the low bid on the Flora Spur Section. Upon his favorable recommendation, the Commission approved the following projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount
Clatsop	755	Bear Creek Bridge, 0.2 mile. G. S. O. and Structure. (NOTE: This is a transfer of $29,000 of DS funds originally approved 5/8/58 for a portion of the cost of the Blind Slough Bridges, FAS 757. The Blind Slough Bridges will be constructed entirely with regular FAS funds).	$ --
Morrow	829	North Unit, Bomber Range Road Section. S. & O., 8 miles (part).	23,000
Wallowa	485	Prairie Creek Bridge. Structure only.	6,000
		Total.....	$ 29,000

The Engineer also presented two projects requested by Benton and Linn Counties using county FAS funds. These projects, he continued, have been investigated and he recommended that they be approved. The Commis-

sion approved the following projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount
Benton	865	Alsea River Bridge. Structure only.	$ 18,000
Linn	214	Willow Creek Bridge. Structure only.	16,000
		Total.....	$ 34,000

Summary:

Available Funds	$ 8,033,000	
Previously approved	7,642,000	
Unprogrammed Balance		391,000
Proposed Projects 7/22/58		34,000
Unprogrammed Balance	$	357,000

Three projects totalling $595,000 were presented by the Engineer to be financed with crash funds made available due to inclusion of right-of-way costs in the original construction estimates. When the projects were first outlined, he explained, it was not clearly understood that purchase of right of way is to be prohibited in these crash projects. Therefor, the additional funds are available. The Commission deferred action on these projects for further study. (See entry ahead, August 1, for approval of these projects.

The Commission considered an easement agreement providing for a drain ditch across the Thomas Michos property at M.P. 42.43 on the Heppner Highway in Morrow County. The Engineer explained that the ditch is needed to dispose of surface waters during the rainy season and provides that the State will install approximately 100 feet of six inch galvanized pipe, the total cost of the project being estimated at $745.00. Following the Engineer's favorable recommendation, the Commission approved the agreement.

The Commission discussed with the Engineer bids received in Salem on July 10 and July 29, 1958, and at 2:00 p.m. Commissioner Chessman and Chairman McIver announced the award of contracts as follows:

BIDS RECEIVED JULY 10, 1958

"Grading and paving "H" Street-Broadway Avenue Section of the Old Oregon

Trail Highway in Baker in Baker County. The Commission rejected the lone bid as being too high.

"Construct Plympton Creek Bridge on Wauna-Westport Section of Columbia River Highway at Westport in Clatsop County. The Commission elects to accept the low bid of R. H. Jones, Hillsboro, in the sum of $24,825.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct Coon Creek and Pebble Creek Bridges on Pebble Creek County Road near Vernonia in Columbia County. The Commission awarded the contract to the low bidder, Richard L. Martin, Oswego, at $53,666.90.

"Paving and furnishing crushed materials in stock pile on the Oak Ranch Creek Section of the Apiary Road in Columbia County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $98,401.00.

"Grading and oiling Bullards Bridge-Bandon Section of the Oregon Coast Highway in Coos County. The Commission rejected all bids and elects to readvertise the project under revised specifications calling for alternate bids.

"Construct Fahy Avenue Undercrossing on the Oregon Coast Highway in the city of Bandon in Coos County. The Commission awarded the contract to the low bidder, Sig Andersson, Coos Bay, at $29,841.00.

"Grading Middle Unit, Paulina-Trout Creek and Trout Creek Sections of the Paulina-Logdell Road in Crook County. The Commission awarded the contract to the low bidder, George E. Blaisdell and Son, Portland, at $23,307.00.

"Construct Lonerock Creek and Eight Mile Canyon Bridges in Gilliam County. The Commission awarded the contract to the low bidder, Marshall Construction Company, Hermiston, at $47,486.00.

"Oiling on three Hood River County Roads near Hood River and Odell in Hood River County. The Commission awarded the contract to the low bidder, Horton Construction Company, Portland, at $18,615.50.

"Stone base and oiling on Juniper Lane-Fir Lane Section of the Adams Drive County Road in Jefferson County. The Commission awarded the contract to the only bidder, Porter W. Yett, Oregon Limited, Portland, at $63,019.00.

"Construct Rogue River Bridge on Pacific Highway at Grants Pass in Josephine County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Company, Vancouver, Washington, at $349,305.00.

"Construct shop addition to Chemult Maintenance Building in Klamath County. The Commission awarded the contract to the low bidder, Enoch I.

Maerz, Salem, at $15,987.00.

"Oiling and furnishing crushed rock in stock pile on Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County. The Commission awarded the contract to the low bidder, Newport Construction Company, Portland, at $161,084.00.

"Grading and paving the Klamath Falls Section of The Dalles-California Highway in Klamath Falls in Klamath County. The Commission elects to accept the low bid of Rogers Construction Company, Portland, in the sum of $683,158.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading Twin Buttes-Belts Road Section of the Pacific Highway in Linn County. The Commission elects to accept the low bid of Earl L. McNutt Company, Eugene, in the sum of $436,491.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct Calapooya River Bridge on Linn West Road near Pacific Highway in Linn County. The Commission awarded the contract to the low bidder, Hamilton and Thoms, Inc., Eugene, at $23,276.00.

"Construct five North Albany Interchange Structures at Knox Butte Road intersection with the Pacific Highway in Linn County. The Commission elects to accept the low bid of S & D Construction Company, Portland, at the sum of $211,221.50, and directs the State Highway Engineer to award the contract to said bidder as soon as concurrence in change of plans is received from said bidder.

"Construct South Santiam Interchange Undercrossing with 70 foot roadway over the Pacific Highway in Linn County. The Commission awarded the contract to the low bidder, S & D Construction Company, Portland, at $176,461.00.

"Grading the Ontario-Idaho Line Section of the Old Oregon Trail Highway at Ontario in Malheur County. The Commission elects to accept the low bid of Roy L. Houck & Sons and Roy L. Houck Sons' Corporation, Salem, in the sum of $652,075.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling "D" Street-Center Street Section on Rose Avenue east of Salem in Marion County. The Commission awarded the contract to the low bidder, M. J. Brassfield Company, Salem, at $12,660.00.

"Grading and paving the Oregon Centennial Grounds access roads near the P-I Building in Portland in Multnomah County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $64,083.50.

"Remodel East Portland Office Building (existing Howard Cooper Building at N.E. 58th Avenue and N.E. Glisan Street, Portland) in Multnomah County. The Commission awarded the contract to the low bidder, Monson & Sivers Company, Portland, at $39,940.00.

"Illumination project on Interstate Bridge on Pacific Highway-Oregon Slough Section in Multnomah County. The Commission awarded the contract to Ace Electric Company, Portland, at $13,826.00.

"Construct median barrier on 42nd Avenue-122nd Avenue and Willamette River Bridge Sections on the Columbia River and Pacific Highways in Multnomah and Clackamas Counties. The Commission awarded the contract to the low bidder, Hannan Brothers Company, Portland, at $130,839.60.

"Paving Valley Junction-Wallace Bridge Unit, Valley Junction-Sheridan Section of the Salmon River Highway in Polk County. The Commission awarded the contract to Warren Northwest, Inc., Portland, at $325,161.00.

"Stone base and paving Cherry Avenue and James Street Section in the city of Willamina in Polk County. The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at $11,030.50.

"Grading and oiling McKinley Moorage-Radio Station Section of the Netarts Highway in Tillamook County. The Commission elects to accept the low bid of Dolan Construction Company, Tillamook, in the sum of $12,130.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading, stone base, and oiling the Glover-Perry Section of the Old Oregon Trail Highway in Union County. The Commission elects to accept the low bid of Morrison-Knudsen Company, Inc., Boise, Idaho, in the sum of $1,416,815.30. and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Oiling the Iowa School-Island City Section of the Hunter Lane Road in Union County. The Commission awarded the contract to the low bidder, Russell Olson Construction Company, Pendleton, at $18,926.00.

"Paving Lombard Street Section in the city of Beaverton in Washington County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $18,707.00.

"Install and revise traffic signals at 10 intersections on Pacific and 19th Avenues in the city of Forest Grove in Washington County. The Commission awarded the contract to the low bidder, Trowbridge Electric, Roseburg, at $28,895.22.

"Stone surfacing the North Unit, Spray-Waterman Section of the Spray-Waterman Road in Wheeler County. The Commission awarded the contract to the low bidder, Silver Falls Construction Company, Silverton, at $76,477.00.

July 31 and August 1, 1958

"Construct Salt Creek (Whiteson) Bridge in Yamhill County. The Commission awarded the contract to the low bidder, Valley Construction Company, Portland, at $74,134.00.

BIDS RECEIVED JULY 29, 1958

"Grading and paving "H" Street-Broadway Avenue Section of the Old Oregon Trail Highway in Baker in Baker County. The Commission awarded the contract to the low bidder, Bechtel Brothers, La Grande, at $139,982.50.

"Construct Blind Slough Bridge at M.P. 3.7 on Brownsmead Loop Road (FAS 757) in Clatsop County. The Commission elects to accept the low bid of Richard L. Martin, Oswego, in the sum of $40,129.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clatsop County is received and the sum of $9,000.00 is deposited by the County.

"Construct Gravelford Bridge over North Fork Coquille River in Coos County. The Commission elects to accept the low bid of Sig Andersson, Coos Bay, in the sum of $128,803.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Coos County is received and the sum of $31,700.00 is deposited by the County.

"Grading, paving, and construction of a bridge on the North Fork, Coquille River-Myrtle Point Section of the Coos Bay-Roseburg Highway in Coos County. The Commission elects to accept the low bid of F. L. Somers, Medford, in the sum of $631,055.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Fairgrounds Interchange Roadside Improvement on the Pacific Highway at Roseburg in Douglas County. The Commission awarded the contract to the low bidder, Rich and Sons Nursery, Hillsboro, at $13,865.00.

"Grading South Fork, John Day River Section of the Paulina-Logdell Road in Grant County. The Commission elects to accept the low bid of Earl L. McNutt Company, Eugene, in the sum of $131,771.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Grant County is received and the sum of $31,700.00 is deposited by the County.

"Grading and oiling Burns Junction-West Fork, Silvies River Section of the Frenchglen Highway in Harney County. The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at $138,372.50.

"Grading and surfacing Catherine Street-Yaquina River Section of the Butler Bridge County Road at Toledo in Lincoln County. The Commission elects to accept the low bid of Ross Motors, Newport, in the sum of $29,782.58, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lincoln County is received and the sum of $34,400.00 is deposited by the County.

"Construct Logsden Bridge over Siletz River at Logsden on the Siletz-Logsden County Road in Lincoln County. The Commission elects to accept the low bid of Workman and Wilson, Canby, in the sum of $128,470.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lincoln County is received and the sum of $28,900.00 is deposited by the County.

"Paving West Scio-Scio Section of the Scio-Greens Bridge Road at Scio in Linn County. The Commission elects to accept the low bid of Morse Brothers, Lebanon, in the sum of $20,910.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $1,175.00 is deposited by the County.

"Grading and oiling Vale Unit, Vale-Grand Avenue Section and West Unit, Foothills Drive Section of Lytle Boulevard and Foothills Drive, respectively, near Vale in Malheur County. The Commission elects to accept the low bid of C. E. Leseberg in the sum of $81,463.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Malheur County is received and the sum of $11,750.00 is deposited by the County.

"Washington Street-Morrison Street Roadside Improvement on the Pacific Highway West (Harbor Drive) in Portland in Multnomah County. The Commission awarded the contract to the low bidder, Aichele Landscaping, Portland, at $8,801.84.

"Grading and stone base on the Bethel-Zena Section of the Byerly Corner-West Salem Road in Polk County. The Commission elects to accept the low bid of D. F. McKenzie, Salem, in the sum of $81,208.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County is received and the sum of $18,380.00 is deposited by the County.

"Construct Greenwood Bridge over Rickreall Creek on the Greenwood County Road in Polk County. The Commission elects to accept the low bid of Orlando C. Bennard, Portland, in the sum of $40,043.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County is received and the sum of $8,000.00 is deposited by the County.

"Grading and paving Tigard-Bonita Road Section of the Beaverton-Tualatin Highway in Washington County. The Commission elects to accept the lone bid of Oregon Asphaltic Paving Company, Portland, in the sum of $67,472.50, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Construct bridge to carry county road (FAS 837) over Gales Creek near Forest Grove in Washington County. The Commission elects to accept the low bid of R. H. Jones, Hillsboro, in the sum of $51,505.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Washington County is received and the sum of $2,950.00 is deposited by the County.

"Stone base and oiling Lafayette-Three Mile Lane Section of the Lafayette-Three Mile Lane Road in Yamhill County. The Commission elects to accept the lone bid of O. C. Yocom Company, McMinnville, in the sum of $31,665.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Yamhill County is received and the sum of $1,800.00 is deposited by the County.

The Engineer stated that in response to requests and as a result of traffic engineering investigations it had been deemed advisable to establish a number of reduced speed zones. In each instance, he stated, a careful investigation had been made and a reduced speed zone is needed to provide safety for the traveling public and for others who use the highways. Upon his favorable recommendation, the Commission approved the following reduced speed zones by adopting the attached resolutions relative thereto marked EXHIBITS "J-1" through "J-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

1. 45 miles per hour speed zone on the Redwood Highway between the Williams Highway Junction at M.P. 0.22 and Willow Lane and Helm Road at M.P. 2.44, except that between a point 50 feet west from Annabelle Lane and a point 500 feet west of Leonard and Dowell Road the indicated speed shall be 20 miles per hour during the hours of school crossings. (This amends speed Zone Resolution No. 100 by inserting the 20 mile per hour provision at the school crossings). See EXHIBIT "J-1".

2. 50 miles per hour speed zone on the Pacific Highway West from the Multnomah-Washington County Line at M.P. 7.61 to a point 250 feet north of S. W. Lacey Avenue at M.P. 8.64. See EXHIBIT "J-2".

3. Rescind Speed Zone Resolution No. 97, dated January 1, 1953, and establish a 45 miles per hour speed zone on the Oregon Coast Highway between a point 450 feet north of Goodspeed Road at M.P. 64.65 and a point 0.10 mile north of the north city limits of Tillamook at M.P. 65.40. See EXHIBIT "J-3".

4. 45 miles per hour speed zone on the Oregon Coast Highway between the west city limits of Warrenton at M.P. 9.73 and a point 0.57 mile south of the railroad grade crossing at Skipanon at M.P. 10.64, except that between a point 0.13 mile north of the railroad grade crossing at Skipanon at M.P. 9.94 and a point 0.11 mile south of the railroad grade crossing at Skipanon at M.P. 10.18 the indicated speed shall be 20 miles per hour during the hours of school crossings. See Exhibit "J-4".

5. 40 miles per hour speed zone on the Old Oregon Trail Highway in the community of Durkee between a point 50 feet east of Durkee Creek at M.P. 361.72 and a point 0.13 mile east of the Durkee Post Office, M.P. 362.09, except that between a point 400 feet west of the school cross-

walk and a point 150 feet east of the post office the indicated speed shall be 20 miles per hour during the hours of school crossings. See EXHIBIT "J-5".

The Engineer recommended and the Commission approved out-of-state travel expenses for the following highway personnel:

Forrest Cooper, Deputy State Highway Engineer, to attend the National Highway Users Conference at Hermosa, South Dakota, September 7 through 13, 1958, at an estimated cost of $300.00.

G. S. Paxson, Assistant State Highway Engineer, to attend a meeting of AASHO Road Test Bridge Panel at LaSalle, Illinois, September 4 and 5, 1958, all expenses to be paid by the AASHO Road Test.

Gene Huntley, Director of Personnel and Public Relations, to attend the National Conference of the Public Personnel Association in Chicago, Illinois, from September 29 through October 2, 1958, and a meeting of the Association of Highway and Public Works Personnel Directors in Chicago, October 3, at an estimated cost of $340.00.

Carl W. Jordan, Director of Travel Information Division, to attend the annual convention of the Pacific Northwest Travel Association at Dickinson, North Dakota, September 11 through 13, 1958, at an estimated cost of $222.25.

The Engineer reported that Lon E. Smith, a State Highway Department employee, was operating a pavement breaker on the Tualatin Valley Highway near M.P. 0.53 on June 19, 1958. In breaking the pavement a piece of concrete struck the windshield of a car driven by L. M. Keen, Portland, who submitted a bill in the amount of $81.50 for repairing the windshield. The Engineer commented that the comprehensive liability insurance covering this type of accident was cancelled on June 6, 1958, by the surety so there is no insurance to cover the damage. It was his feeling that the claim is legitimate and he recommended that it be paid. The Commission accepted his recommendation.

A recommendation was made by the Engineer and approved by the Commission that the commercial fire insurance policy be cancelled October 1, 1958, on construction equipment. He explained that the insurance had been secured for protection at a time when the state restoration fund was at a very low level. The fund has now increased to slightly in excess of $2,000,000 which he felt is adequate to cover possible losses.

The matter of setting a date for a highway inspection trip through Eastern Oregon was brought up but no action was taken at this time.

Consideration was given to a request made by J. C. Winslow, Jr., Commander of Pendleton Commandery No. 7, Knights Templar of Oregon, for permission to erect at their own cost a historical marker on Highway 30 at the site of the first court sessions and the old emigrant trail camp site location. The Engineer commented briefly that the marker will not be

detrimental to the highway and that the Commandery has agreed to erect a marker conforming to State standards. The Commission approved erection of the marker.

Extension to June 30, 1959, of an existing agreement with the Corps of Army Engineers covering certain engineering studies in connection with construction of the John Day Dam was presented by the Engineer. The Army Engineers, he stated, have asked for a one year extension in order to complete their studies as to relocation of US30 in this area. Commissioner Fridley inquired if the study encompasses the location of a proposed bridge across the Columbia River Highway near Biggs Junction, and also if the study covers relocation of the Union Pacific railroad tracks. The Engineer replied that the study being made by the Army Engineers is a complete study and does include relocation of the highway, the railroad, and the possibility of a bridge across the Columbia River in that vicinity. The Commission approved the extension of the agreement to June 30, 1959.

The Engineer requested renewal of the subscription to the Highway Research Correlation Service for a one year period from July 1, 1958, to June 30, 1959, at a cost of $2,747.00. The Research Service, he explained, assembles engineering and legal information from all 48 states and publishes the findings which are of considerable value to the State. The pamphlets published provide research information on legal and right of way problems as well as on engineering problems. Based on his favorable recommendation, the Commission approved the annual subscription and granted the Engineer authority to sign it.

The Commission considered a proposal made by the Engineer that a booth be leased from the Oregon State Fair Commission for a highway display during the period of the State Fair in Salem from August 28 through September 6, 1958. He stated that during the 1957 Fair a booth was operated and was very favorably received. It is planned that the 1958 booth will be a joint venture with the Travel Information Department, the State Parks Department, and the Traffic Engineering Department. Cost of the booth is $150.00 and he recommended that it be leased. The Commission approved his recommendation.

The Commission discussed with the Engineer a letter from James F. Johnson, Director of the Department of Motor Vehicles, concerning arrangements to house Motor Vehicle Department offices and Highway Field offices under one roof. The Engineer remarked that savings which might be effected in rentals would provide additional funds for highway purposes, and the housing of the Department of Motor Vehicles, the State Police, the Highway Department, and the PUC offices under one roof or in the same vicinity would be of considerable value to the public in saving of time. It was his thought that consideration should be given to including approximately $100,000 in the 1959 budget for construction of buildings for consolidation of the offices mentioned in areas where they are most urgently needed. It was his opinion that in four to six years most of the existing offices outside of Salem could thus be established at a central location. The Commission instructed that provision be made in the 1959 budget as suggested by the Engineer.

A request from Weyerhaeuser Timber Company was considered for permission to haul loads of logs having an over all length of 55 feet, over the Coos River Secondary Highway. Sections of this highway, the Engineer stated, are only 14 to 15 feet in width and to allow hauling of loads as requested it will be necessary to add the Coos River Secondary Highway to the list of highways on which the hauling of logs, poles, or piling is prohibited except by permit under Schedule "B". Under such permit, he continued, hauling can be permitted provided that the loads are flagged by a pilot vehicle to protect the traveling public. He recommended that the section of highway between M.P. 14.16 and M.P. 19.15 be added to the list of restricted highways under Schedule "B" log hauling authority issued by the Public Utilities Commissioner. The Commission accepted his recommendation.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period of June 16 through July 25, 1958.

The next regular Commission meeting date was set for September 11 and 12, 1958, in the conference room of the State Highway Building in Salem. A tentative date for the following meeting was set for October 23 and 24, 1958.

Consdieration was given to a modification of an agreement previously entered into with the U.S. Geological Survey for measurement of floods in small drainage structures. Under the existing agreement, the Engineer explained, the Geological Survey matches the contribution of the State, which for the current year ending June 30, 1959, provided for $7500.00 from each of the agencies. Salaries of federal employees have since been increased and to provide the amount of work contemplated in the agreement the Geological Survey has requested that the State contribute an additional sum of $562.50 to be matched by the Geological Survey. It was his opinion that the data provided by the Survey has been well worth while and he recommended that the additional contribution be approved. The Commission accepted his recommendation.

Consideration was also given to a request made by the U.S. Army Engineers to install five signs on the right of way of the Columbia River Highway and the Umatilla-Stanfield Highway calling attention to McNary Dam and pointing out a view point location. The Engineer commented that the signs are attractive and will do no harm on the right of way and he recommended that a permit be granted for their installation. The Commission granted the permit.

The Engineer presented an abandonment resolution transferring to Yamhill County a section of the Three Mile Lane Highway No. 152 replaced by construction of the McMinnville Airport-Dayton Junction Section of this highway. The new highway section has been completed and is now open for public travel, he stated, and adoption of the resolution is a formality in accord with an agreement previously entered into with Yamhill County. On his favorable recommendation, the Commission adopted the attached resolution relative thereto marked EXHIBIT "I",

which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a request from the Columbia County Court that the State turn over to the County the old steel truss over the Nehalem River at M.P. 58.16 which structure is now being replaced. The Engineer commented briefly that the old 123 foot steel truss is only 16 feet wide and cannot be used on state highways. As the structure is of no value to the State, it was his recommendation approved by the Commission that the span be transferred to the County without charge.

Attention was given to a special agreement with Lincoln County covering the Catherine Street-Yaquina River Section of the Butler Bridge County Road. The agreement provides, the Engineer stated, that the State perform engineering services for the County on the construction project and that the County reimburse the State for such services. The agreement was approved by the Commission.

The Commission considered reimbursing California Oregon Power Company in the amount of $2,492.00 to cover the cost of relocating their power line to by pass the Smith Hill slide area on the Pacific Highway south of Wolf Creek in Josephine County. The Engineer explained that when the highway was improved in 1945 the power line was on private right of way. When the Highway Department acquired the power company right of way an agreement was made with the power company permitting it to remain on highway right of way. It is now necessary that the power line be moved to by pass the slide area. The matter, he continued, was referred to the Legal Department and it was their opinion that the cost of the power line realignment is an obligation of the Highway Department. The Commission accepted his recommendation that the power company be reimbursed in the amount of $2,492.00 for the cost of moving their line.

The Commission discussed with the Engineer problems that are to be presented by delegations scheduled to appear on the following day. No action was taken pending the appearance of the delegations.

A request from the Hood River County Court was presented by the Engineer concerning state help in the removal of snow from two abandoned sections of the Mt. Hood Highway. He explained that in reconstructing the Mt. Hood Highway from Polallie Creek to Parkdale Road, the Hood River County Court had agreed to take over and maintain the old sections of highway. Their request now is that the State aid them in plowing snow from these two abandoned sections whenever the county equipment is unable to perform the work. The County has agreed to reimburse the State for the cost of the snow plowing work and he recommended that the Commission approve the request. His recommendation was accepted.

The Engineer reported briefly that he had presented to the Highway Interim Legislative Committee facts pertaining to the need for additional highway revenues in order to match federal funds for highway construction. He presented to the Commission charts showing the future status of high-

way income. He pointed out that the present surplus will be exhausted and that there will be an approximate deficit of $11,000,000 by September of 1960. Under the present schedule of highway revenues the deficit will continue to increase during the following years. By deficit is meant the inability of the State to match available Federal funds for highway construction. Four million dollars a year additional highway revenues, he stated, would enable the State to match the Federal allocations. To emphasize the need for State funds to match Federal monies he pointed out that $1.00 of State funds will provide approximately $4.00 of Federal monies. The Interim Committee, he continued, had discussed the possibility of an additional one-half cent gax tax, an additional one cent gas tax, and an increase in fees for license plates of $5.00.

An agreement with the US Reclamation Service was presented by the Engineer concerning State cooperation in reconstructing the Green Springs Highway around the Emigrant Reservoir in Jackson County. He recalled that this matter had been discussed at previous Commission meetings and it had been finally agreed that the State would cooperate for the extra width of the new roadway amounting to $50,000. The agreement, he stated, incorporates the features previously agreed upon and upon his favorable recommendation the Commission approved it.

The Chief Counsel requested and the Commission granted authority to take necessary action to evict James Hunsucker who has been renting state property at 5220 East Idaho Street in Ontario. Mr. Hunsucker, the Chief Counsel stated, is over 60 days delinquent in his rent and has refused to move.

Purchase of a house and land owned by Lulu Tucker and Lee Malone needed for highway construction on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Portland was presented by the Chief Counsel. In negotiating for the property it was found that the house was moved to its present location by the city of Portland approximately 50 years ago. Inadvertently the house was moved on to a portion of S. W. Wood Street. The owners, who originally demanded $3,000, have now agreed to accept the sum of $2,000. It was his opinion that a condemnation suit would be difficult because of the location of the house and title problems and as the asking price represents reasonable value he recommended that it be accepted. The Commission approved the acquisition for the property.

The Commission signed the following agreements, deeds and other papers:

"Contract" with Central Lincoln Peoples' Utility District to furnish power to Beverly Beach State Park.

"Indentures of Access" on the following properties:

(a) Garcia property on Tigard-Newberg Section of Pacific Highway West, Washington County.

30297

"Indentures of Access" (Cont.)

(b) Bozeman-Moore property on Sheridan-Deer Creek Section of Salmon River Highway, Yamhill County.

(c) Moore property on Sheridan-Deer Creek Section of Salmon River Highway, Yamhill County.

(d) Jacobs property on Pleasant Hill-Lost Creek Section of Willamette Highway, Lane County.

(e) Anderson property on Sandy-Alder Creek Section of Mt. Hood Highway, Clackamas County.

"Agreement" with Coos-Curry Electric Cooperative, Inc., covering relocation and acquisition of new right of way for a power line adjustment on Myers Creek-Brookings Section of Oregon Coast Highway, Curry County.

"Grant of Access" covering the Jones property on Peach-Jonesboro Unit of Juntura-Vale Section of Central Oregon Highway, Malheur County.

"Agreement" with Portland General Electric Company involving the Burlingame Substation.

"Quitclaim Deed" of the State of Oregon to School District No. 25, Gilliam County, quitclaiming a parcel of land for park purposes.

"Private Roadway Agreement" authorizing entering into a crossing agreement with Southern Pacific Company.

"Supplemental Agreement" with the Corps of Engineers covering certain engineering studies in connection with the construction of the John Day Dam on Columbia River Highway.

"Permit" with Corps of Engineers allowing them to erect signs in the vicinity of McNary Dam entrance.

"Bargain & Sale Deed" to city of Nyssa for a parcel of land lying in southwest quarter of the southwest quarter of Section 29, Township 19 South, Range 47 East, W. M., Malheur County.

"Finance & Maintenance Agreement" with Polk County covering the Bethel-Zena Section of FAS 744 in Polk County.

"Finance & Maintenance Agreement" with Lincoln County covering the Siletz River (Logsden) Bridge on FAS 150 in Lincoln County.;

"Finance & Maintenance Agreement" with Coos County covering the Gravelford Bridge-North Fork Coquille River Bridge on FAS 252 in Coos County.

"Finance & Maintenance Agreement" with Columbia County covering the Oak Ranch Creek Section of FAS 567.

"Finance & Maintenance Agreement" with Polk County covering the Rickreall Creek Bridge on FAS 747 in Polk County.

"Finance & Maintenance Agreement" with Hood River County covering Hood River County Roads Project on FAS 871, 872, and 873.

"Finance & Maintenance Agreement" with Clatsop County covering the Blind Slough Bridge on FAS 757 in Clatsop County.

"Finance & Maintenance Agreement" with Washington County covering the Gales Creek Bridge on FAS 837 in Washington County.

"Finance & Maintenance Agreement" with Linn County covering the West Scio-Scio Section of FAS 126 in Linn County.

"Agreement" with U.S. Forest Service re furnishing electrical energy to Hogback Mountain radio facilities in Klamath County.

"Agreement" with city of Forest Grove covering installation of traffic signals on the Tualatin Valley Highway in Forest Grove.

"Finance Agreement" with Yamhill County covering the Lafayette-Three Mile Section of FAS 586 in Yamhill County.

"Agreement" with city of Reedsport covering the installation of overhead "School Crossing" signs with flashing amber beacons on Oregon Coast Highway.

"Agreement" with Grant County covering the South Fork John Day River Section of FAS 453 in Grant County.

"Agreement" with city of Portland covering installation of luminaire units at the Highlands Interchange on S. W. Canyon Road.

"Agreement" with Malheur County covering regular FAS funds project, Vale-Grand Avenue Section of FAS 515 and West Unit, Foothills Drive Section of FAS 825.

"Agreement" with Malheur County covering the DS funds portion of the West Unit, Foothills Drive Section of FAS 825.

"Agreement" with Lincoln County covering the Catherine Street-Yaquina River Section of Butler Bridge County Road.

"Quitclaim Deed" to Weyerhauser Timber Company covering stock pile site in Klamath County.

"Agreement" with Thomas Michos covering an easement for a drain ditch across his property on the Heppner Highway.

July 31 and August 1, 1958

The meeting was adjourned at 3:35 p.m. to be reconvened on the following day at 9:00 a.m.

Salem, Oregon
August 1, 1958

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in Hearing Room No. 6 of the State Capitol Building. The following people were present:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The State Highway Engineer brought to the Commission's attention a study that is being made jointly with the U.S. Bureau of Public Roads and the U.S. Forest Service at the request of the United States Congress covering a long-range program for the forest highway system in Oregon as to the needs and additions which appear necessary over a 20 year period. He advised that the State has had certain instructions from the Bureau of Public Roads which it has carried out and is now ready to submit, but it will be necessary that all three agencies decide on the additions to be made to the forest system. He pointed out that an addition of 500 miles of roads to the forest highway system is involved --- 319 miles in the forest and 181 miles outside of the forest --- which will connect those forest roads to the other highways. He discussed in detail the tentative list of roads to be added to the system; however, the Commission took no action other than to advise the Engineer to study the recommendations submitted by the other two agencies so that the State will be prepared to adopt the necessary routes when requested to do so.

The Chief Counsel presented to the Commission for their information an annual report of the cases tried by the Commission's legal staff. He pointed out that the report covered 98 condemnation actions in which the State's offer of settlement totaled $733,758.99. The defendants' lowest demands, excluding attorney fees and interest, were $2,342,086. The total verdicts were $814,183 plus $19,267.60 for interest and $76,962.50 for attorneys' fees. The total verdicts were 10.96% in excess of the total offers made by the state; however, they were 65.24% less than the total demands. The

Commission accepted the report.

The Commission again considered the proposed condemnations submitted by the Chief Counsel on the previous day at which time he requested authority to acquire by condemnation certain properties that are needed for right of way in connection with various highway improvements or other highway purposes. After careful consideration of the proposed condemnations and in light of the information and advice submitted together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission authorized the Chief Counsel to condemn the properties by adopting the attached resolutions relative thereto marked EXHIBITS "L-1" through "L-22", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was again given to the adoption of a resolution covering a revision of policy in the granting and reserving of access rights to state highways. This matter had been presented on the previous day, but action was deferred until today. The Commission after study and careful consideration adopted a resolution setting forth a policy of access rights marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel brought up for Commission action the matter of reports to be made to the Commission between its meetings which matter had been deferred on the previous day. After some discussion the Commission instructed the Chief Counsel to submit prior to the Commission meetings reports on which there may be protracted discussion at the meeting and reports that are not of a routine nature. On all routine reports he was instructed to submit summaries of these reports to the Commission at its meetings.

The Chief Counsel advised that since the advent of the new Interstate Highway Act the trial schedule for the department has increased almost one hundred percent and to keep up with the work load it will be necessary to employ an additional trial attorney. The Commission authorized the employment of the attorney as requested by the Chief Counsel.

A delegation from Morrow and Gilliam Counties appeared before the Commission regarding construction of a highway between Ione and Arlington. Present were: Oscar Peterson, County Judge of Morrow County, Heppner; Garland Swanson, Chairman of the Planning Committee on Roads, Ione; Earl Hoag, Port Commission and County Planning Committee, Don Laird, Chamber of Commerce, John Krebs, Gilliam County Planning Committee, and Foster Odom, representing city of Arlington, all from Arlington. Judge Peterson introduced the group. He pointed out that Highway 74 (Heppner Highway) was built some 40 years ago and was an excellent road in its day; however, it is somewhat inadequate now. He stated that Morrow County has no bus service and the outlet for the transportation of products is not good; also, that they would like to have a state highway tapping the center of their county. He asked that the Heppner Highway be improved down Willow Creek, a distance of 28 miles north of Ione, or that a more direct route be constructed across Four Mile Canyon from Horseshoe

Bend near Morgan so as to intersect the John Day Highway about four miles south of Arlington. He advised that the six mile section from the John Day Highway to Eightmile Canyon is paved and that the twelve mile section from there to Willow Creek is a gravel road. He requested that the twelve mile section be improved now and the additional six miles be taken care of at a later date. Mr. Swanson advised the Commission that this road is Morrow County's main project and is endorsed by agricultural and stock growers interests. He added that he believed this section would be cheaper to rebuild than the lower part of Globe Creek Road which is a rather narrow and crooked road. It was his opinion that Arlington would be a main terminal for water shipments which will make this road very important for the shipment of grain. Mr. Laird added that this road is a natural tributary from Morrow County into Arlington and would be used to transport at least one and one-half million bushels of grain. Chairman McIver advised the delegation that when the next construction program is made up the Commission would give their project very careful consideration.

Mr. Carl M. Felker, City Attorney for Winston, and William Snell, President of the Winston Chamber of Commerce, appeared before the Commission concerning a drainage problem in Winston. Mr. Felker pointed out that the City of Winston was incorporated some five years ago and has a population of some 2,500 people. The town is divided north and south by Highway 99 and east and west by Highway 42. He exhibited a map of the city and called upon Mr. Shell to explain the problem. Mr. Shell stated that the main problem confronting the City at this time is surface water along Highway 99 and Highway 42. He presented pictures showing surface water in the city and advised that the area has been built up within the past fifteen years so that the existing catch basins are not sufficient to handle the water. The citizens of Winston, he said, have hired an engineer to study the problem and have authorized a tax levy to combat the water problem within the city but need state cooperation to take care of water along the two state highways. Because of business establishments an open ditch would not suffice. The City, he added, cannot undertake the job without permission of the Highway Department. Mr. Felker requested Commission aid in a plan for elimination of surface water within the city, particularly along Highways 99 and 42. He advised that the City will assume the cost of taking care of surface water along city streets. The City, he stated is willing to cooperate financially and in any other way possible.

Mr. Felker told the Commission that recently the speed zone on Highway 42 in the westerly part of the city had been raised from 25 miles per hour to 40 miles per hour. Because a large number of grade and high school students walk along the narrow shoulders on this highway section it is the belief of the city council that a hazard will be created as a result of the increased speed. He requested that the speed zone be reduced to 30 miles per hour.

Another matter which Mr. Felker brought to the Commission's attention was the city of Winston's application for a portion of the $250,000 special State Tax Street Fund allocated to the cities each year. The city application, he continued, was not given consideration because it did not

qualify. He requested that their application be given additional consideration. Chairman McIver advised the city officials that the problems presented will be investigated and that they will be advised by letter when the Commission has reached a decision in the matter.

A delegation headed by Judge D. R. Cook, Umatilla County, appeared before the Commission regarding establishment of a sanitary landfill near Athena along the Athena-Holdman Highway and particularly the granting of a lease to the town of Athena for such use of state highway property. Others in the group were Don Parker, County Sanitarian, Pendleton; LaVerne S. Miller, Supervisory Sanitarian, and Douglas Pike, Sanitarian, both from the Oregon State Board of Health, Portland. Judge Cook stated that Umatilla County has been selected as the only county in the United States where such a program is being carried out and it is to be used as a demonstration county for the entire northwest. He pointed out that Umatilla County Court might be able to trade with the Commission for a rock site to be used for the proposed state highway between Adams and Milton. He assured the Commission that if the landfill is established the County will be responsible for keeping it cleaned up. Chairman McIver told the group that the Commission appreciates their problem and it appears that an exchange of land may be arranged. He suggested that the County contact the State Highway Engineer to arrange details.

The Chief Counsel presented to the Commission a proposed settlement with Helen Clark, File No. L-2724, for purchase of 0.063 acre of land to be used as right of way for the Klamath Falls Bypass Section of The Dalles-California Highway, Klamath County. He advised that Mrs. Clark was previously offered $260, the State's high appraisal, but refused such amount; however, she is willing to settle for $425. He recommended approval of this settlement. The Commission adopted his recommendation.

The Commission considered adoption of the following programs which had been deferred on the previous day for study: (1) construction program in the amount of $5,980,000 to replace projects that were financed from the 1960 program when crash funds were made available; and (2) program for expenditure on interstate highways of an additional $3,000,000 for the year 1959 and $17,300,000 for the year 1960 made available by the 1958 Federal Highway Act. After some discussion of the individual projects involved, the Commission adopted the programs as follows: (See program on following pages)

July 31 and August 1, 1958

PROGRAM IV
JULY 23, 1958

FUNDS FOR REPLACEMENT PROGRAM
FOR PROGRAM III (D FUNDS)

DIVISION I

HIGHWAY	SECTION	TYPE OF WORK	ESTIMATED COST R/W	ESTIMATED COST CONSTRUCTION	ESTIMATED COST TOTAL	DIVISION COST

30310

Consideration was also given by the Commission to three projects totaling $595,000 which are to be financed with crash funds made available due to inclusion of right-of-way costs in the original construction estimates. These projects are:

(1) Ukiah-Hilgard Secondary Highway - surface and oil from M.P. 0.0 to M.P. 3.6 - $50,000

(2) Ukiah-Hilgard Secondary Highway - surface and oil from the forest boundary to Hilgard, M.P. 30.0 to M.P. 46.7- $170,000.

(3) Elkton-Sutherlin Secondary Highway - grading from Elkton to Smith Crossing, a distance of 4.2 miles - $375,000.

The Engineer recommended approval of these projects. The Commission approved the projects as recommended.

The Engineer brought to the Commission's attention the matter of the overload of the electrical capacity in the State Highway Building, Salem. He explained that due to the installation of electronic and mechanical computers, IBM equipment, certain air conditioning and additional lighting the electrical use has far exceeded the safe capacity of the electrical system. A study has been made and it has been determined that to install the new electrical system plus the additional watts to take care of future needs will cost approximately $20,000. In addition to this sum it will be necessary for the state highway electricians to perform certain work estimated to cost $5,000. The Commission authorized the expenditures as presented.

Mr. Willard L. Archer who was scheduled to appear before the Commission at 9:00 a.m. today concerning access to the Baldock Freeway at Norwood Road did not appear. The Commission deferred any further action in this matter until the next meeting at which time Mr. Archer may be present.

There being no further business to come before the Commission at this time, the meeting adjourned at 10:20 a.m.

State Highway Engineer

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

July 31 and August 1, 1958

EXHIBIT "A"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27271 Chandler Building Company CORRECTION REPORT (Scott)
Right of Way, Sta. 226
Option expires December 18, 1958
0.16 acre at $465+ per acre $75.00
Waiver of access to S. W. 6th Ave. 50.00
Amount to be paid owner - chrg to Right of Way $125.00
Supersedes and cancels previous approval of $50 waiver of access of December 5, 1957.

Complete restriction of access -

Right of Way, Sta. 68
Option expires January 14, 1959

2,178 sq.ft. at $0.45+ per sq.ft.	$1,000.00	
Amount to be paid owner - chrg to Right of Way		$1,000.00
State to assume 1958-59 taxes. Estimate		20.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$1,020.00

State to have possession on or before September 1, 1958.

Entire taking -

PORTLAND INTERNATIONAL AIRPORT-N.E. ALBERTA STREET SECTION - CASCADE HIGHWAY

27165 Parkrose School District #3 (Grothaus)
Right of Way, Sta. 100+50
Option expires January 10, 1959

6,009 sq.ft. at $0.08 per sq.ft.	$480.72	
Allow. to move backstop and fence	569.28	
Amount to be paid owner - chrg to Right of Way		$1,050.00

Fence and gate to be removed within 30 days after notice or become property of State.

THINGS TO BE DONE BY THE STATE

Provide 15' approach, N., at existing access on N.E. Killingsworth.

Complete restriction of access -

MIDDLETON-REX HILL SECTION - PACIFIC HIGHWAY WEST

27609 Silkworth, Jesse L. and Bertha T. (Grothaus)
Right of Way, Sta. 523+25
Option expires December 24, 1958

0.26 acre at $1,000 per acre	$260.00	
Apple tree	25.00	
Amount to be paid owners - chrg to Right of Way		$285.00
State to assume 1958-59 taxes. Estimate		3.00
GRAND TOTAL (Estimate) chrg to Right of Way		$288.00

Rights of access to Brookman Rd. and to Pacific Hwy. W. unchanged.

THINGS TO BE DONE BY THE STATE

Provide surfaced approach to r/w line 15' in width, at no expense to Grantors.

Access not controlled -

EXHIBIT "A" (Cont)

MIDDLETON-REX HILL SECTION - PACIFIC HIGHWAY WEST

27611 Rupprecht, George, Jr. (Grothaus)
Right of Way, Sta. 523+80
Option expires December 19, 1958

0.26 acre at $1,000 per acre	$260.00	
Amount to be paid owner - chrg to Right of Way		$260.00
State to assume 1958-59 taxes. Estimate		3.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$263.00

Rights of access to Brookman Rd. and to Pacific Hwy. W. unchanged.

THINGS TO BE DONE BY THE STATE

Provide surfaced approach to r/w line 15' in width, at no expense to Grantor.

Access not controlled -

27604 Kelley, William F. and Elaine (Grothaus)
Right of Way, Stas. 506-510
Option expires January 6, 1959

0.78 acre at $1,000 per acre	$ 780.00	
House	6,700.00	
Garage, shop, well hse., pump, fence, lawn, trees, etc.	1,750.00	
Damages	270.00	
Amount to be paid owners - chrg to Right of Way		$9,500.00
State to assume 1958-59 taxes. Estimate		95.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$9,595.00

Grantors to give possession 30 days after notice.

THINGS TO BE DONE BY THE STATE

Provide 15' approach to r/w line at access location: 507+10, W., residential and agricultural.

Access controlled -

HILLSBORO-CAMPBELL BRIDGE SECTION - HILLSBORO-SILVERTON HIGHWAY

27646 Brink, Mervin W. and Ruth S. (Grant)
Right of Way, Stas. 94-97
Option expires January 8, 1958

0.06 acre at $1,500 per acre	$ 90.00	
14 trees, 370 sq. ft. blacktop paving and damage	310.00	
Amount to be paid owners - chrg to Right of Way		$400.00
State to assume 1958-59 taxes. Estimate		4.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$404.00

THINGS TO BE DONE BY THE STATE

Relocate the N. property corner stake.

Access not controlled -

EXHIBIT "A" (Cont)

WAUNA-WESTPORT SECTION - COLUMBIA RIVER HIGHWAY

27939 Robinson, Robert L. and Geraldine M. (Friess)
Right of Way, Stas. 326-328
Option expires December 24, 1958

800 sq. ft. at $0.15 per sq. ft.	$120.00	
Lawn and landscaping	25.00	
Moving fencing	35.00	
Encroachment damage	320.00	
Amount to be paid owners - chrg to Right of Way		$500.00

Grantors to move fencing from r/w by August 25 or prior to construction, whichever date is sooner.

THINGS TO BE DONE BY THE STATE

Construct 20' wide approach, N., at 327+30.

Access not controlled -

27940 Reeves, Lester and Addie (Friess)
Right of Way, Stas. 327-328
Option expires December 25, 1958

430 sq. ft. at $0.15+ per sq. ft.	$ 65.00	
Lawn	50.00	
Damage	885.00	
Amount to be paid owners - chrg to Right of Way		$1,000.00

Grantors have right to remove trees, shrubs and fencing prior to construction.

THINGS TO BE DONE BY THE STATE

Construct 20' approach, N., at 327+80.

Access not controlled -

27941 Barhan, Nellie E. (Friess)
Right of Way, Stas. 327-329
Option expires December 19, 1958

350 sq. ft. at $0.15 per sq. ft.	$ 52.50	
Lawn, landscaping, concrete block fence	197.50	
Encroachment damage	500.00	
Amount to be paid owner - chrg to Right of Way		$750.00

RESOLUTION

WHEREAS, Hat Rock State Park is a state park under the jurisdiction and control of the State Highway Commission; and

WHEREAS, pursuant to ORS 366.350, the State Highway Commission is authorized to make regulations and provisions for the use and administration of state parks; and

WHEREAS, the aforementioned Hat Rock State Park is not provided with overnight camping facilities; and

WHEREAS, on numerous occasions persons have used said state park for overnight camping contrary to the purpose for which said park was planned and established and that the use of said state park for overnight camping purposes creates conditions which are undesirable and not in the best interests of the public.

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, it is hereby resolved and ordered by this Commission that all persons and individuals occupying Hat Rock State Park shall do so between the hours of 8:00 A.M. and 9:00 P.M. and no person or individual shall occupy, stay or camp within the limits of Hat Rock State Park after the hour of 9:00 P.M. or before the hour of 8:00 A.M.

IT IS FURTHER ORDERED that appropriate signs prohibiting the violation of the above order be posted within the main entrances of Hat Rock State Park and that said order shall become and remain effective upon the posting of such signs.

IT IS FURTHER ORDERED that the prohibitions contained in this resolution shall be and are regulations adopted under authority of ORS 366.350 and violations of the same shall be punishable as provided in ORS 366.990.

IT IS FURTHER ORDERED that a duly certified copy of this resolution be filed with the Secretary of State.

IT IS FURTHER ORDERED that this resolution be entered as State Parks Resolution No. 14, in the minutes and records of the Oregon State Highway Commission this 31st day of July, 1958.

RESOLUTION

WHEREAS, Rooster Rock State Park is a state park under the jurisdiction and control of the State Highway Commission; and

WHEREAS, pursuant to ORS 366.350, the State Highway Commission is authorized to make regulations and provisions for the use and administration of state parks; and

WHEREAS, the aforementioned Rooster Rock State Park is not provided with overnight camping facilities; and

WHEREAS, on numerous occasions persons have used said state park for overnight camping contrary to the purpose for which said park was planned and established and that the use of said state park for overnight camping purposes creates conditions which are undesirable and not in the best interests of the public.

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, it is hereby resolved and ordered by this Commission that all persons and individuals occupying Rooster Rock State Park shall do so between the hours of 8:00 A.M. and 10:00 P.M. during the months of July and August of each year and between the hours of 8.00 A.M. and 9:00 P.M. for the balance of the months each year and that no person or individual shall occupy, stay or camp within the limits of said Rooster Rock State Park except during the hours hereinabove specified.

IT IS FURTHER ORDERED that appropriate signs prohibiting the violation of the above order be posted within the main entrances of Rooster Rock State Park and that said order shall become and remain effective upon the posting of such signs.

IT IS FURTHER ORDERED that the prohibitions contained in this resolution shall be and are regulations adopted under authority of ORS 366.350 and violations of the same shall be punishable as provided in ORS 366.990.

IT IS FURTHER ORDERED that a duly certified copy of this resolution be filed with the Secretary of State.

IT IS FURTHER ORDERED that this resolution be entered as State Parks Resolution No. 15, in the minutes and records of the Oregon State Highway Commission this 31st day of July, 1958.

EXHIBIT "C-1"

Minutes of May 8 and 9, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized to acquire real property or any interest therein, for the development and maintenance of state parks by purchase, agreement, donation or by the exercise of the power of eminent domain; and

WHEREAS, the State Highway Commission has acquired certain real property hereinafter more fully described, from Lorraine Randall at Beaver Creek which is located between Waldport and Newport, Oregon, on the Oregon Coast Highway; and

WHEREAS, the aforementioned property is ideally situated for a state park because of its scenic beauty and geographical location and the establishing of a state park thereon will contribute to the general welfare of the people of the state and the members of the motoring public; and

WHEREAS, the Highway Commission in the past has officially listed all state parks by a prior resolution.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That the real property located in Lincoln County, Oregon, and acquired by this Commission from Lorraine Randall, described as follows, to wit:

Parcel No. 1:

Beginning at a point on the southerly line of Beaver Creek that is north 325.85 feet and west 1670.80 feet from the quarter corner between Sections 18 and 19, T. 12S., R. 11W., W.M., said point being the point of beginning of the tract deeded to G. K. Litchfield and Frances Litchfield and recorded, as described in Book 180, Page 363 of Deed Records for Lincoln County, Oregon, thence along the notherly boundary line of said Litchfield tract N. 14° W 65 feet; thence N. 25° 31' W 69.7 feet; thence N. 58° 46' W 494.3 feet; more or less, to the northwest corner of said Litchfield tract; thence continuing N. 58° 46" W 160 feet, more or less, to the meander of the Pacific Ocean; thence N. 18° E. along said meander line 1094.4 feet thence continuing along said meander line in a northerly direction one-half mile, more or less, to the north boundary line of Government Lot 2, Section 18, T. 12 S., R. 11., W.M., thence east along said north boundary line 150 feet, more or less,

to the westerly right of way line of the Pacific Spruce Corporation Railway, deeded to the State of Oregon and recorded, as described in Book 38, Page 193 of Deed Records for Lincoln County, Oregon, ; thence southerly and easterly along said Pacific Spruce Corporation Railway right of way line to an intersection with the westerly right of way line of the Oregon Coast Highway; thence continuing in a southeasterly and southwesterly direction along said highway right of way line to the southeast corner of the Litchfield tract and as above referred to; thence along the easterly boundary line of said tract N.49° W 125 feet; thence continuing along said boundary line N. 41° E 176.3 feet; thence N. 64° 06' W 139.4 feet; thence N. 49° W 195.45 feet to the point of beginning. Containing 47 acres, more or less.

Parcel No. 2:

Beginning at a point on the north bank of Beaver Creek, said point being North 424.10 feet and West 794.03 feet from the quarter section corner between Sections 18 and 19, T. 12 S., R. 11 W., W.M.; thence S. 5° 21' W. 620 feet to the north side of the pump house tract and the true point of beginning; thence N. 84° 39' W. 50 feet; thence S. 5. 21' W. 200 feet; thence S. 84° 39' E. 100 feet; thence N. 5° 21' E. 200 feet; thence N. 84° 39' W. 50 feet to the true point of beginning, containing 0.46 acres, more or less.

Together with an easement for a pipeline over and across the following described property to wit:

Beginning at a point on the north bank of Beaver Creek, said point being North 424.10 feet and 794.03 feet from the quarter section corner between Sections 18 and 19, T. 12 S., R. 11 W., W.M.; thence on the center line of a right of way 20 feet wide bearing S. 5° 21' W. 620 feet to the north side of the pump house site; together with the right to go upon said property for the purpose of constructing, reconstructing, repairing and maintaining a pipeline thereon. It is understood that Parcel 1 above conveys full fee title to a portion of this pipeline easement as described hereinabove.

is hereby designated as "Ona Beach State Park".

EXHIBIT "C-1"

2. Miscellaneous Resolution No. 125 recorded in the minutes and records of this Commission as of the 19th day of January, 1955, is hereby amended by adding to the list of state parks therein, the "Ona Beach State Park".

3. This resolution be entered in the minutes and records of this Commission as of this 31st day of July, 1958.

30351

EXHIBIT "C-2"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized to acquire real property or any interest therein for the development and maintenance of state parks by purchase, agreement, description or the exercise of the power of eminent domain; and

WHEREAS, the legislature of the State of Oregon enacted as law Chapter 75, Oregon Laws of 1955, authorizing the State Board of Forestry to transfer certain described property to any other state agency which has authority to establish, use and maintain such lands for public park purposes and specifically granted the State Board of Forestry such power and authority in respect to the area of land known as "Loeb Park" located in Curry County, Oregon, in the Southwest one-quarter (SW1/4) of the Northeast one-quarter (NE1/4), the North one-half (N$\frac{1}{2}$) of the Southeast one-quarter (SE1/4), and the Southwest one-quarter (SW1/4) of the Southeast one-quarter (SE1/4) of Section 13, Township 40 South, Range 13 West, W.M., containing approximately 160 acres; and

WHEREAS, the State Board of Forestry has requested that the State Highway Commission accept the above described real property known as "Loeb Park" and establish said area as a state park; and

WHEREAS, said Loeb Park area, located on the Chetco River in Curry County approximately nine miles east of the town of Brookings, Oregon, is ideally situated for a state park because of its scenic beauty and geographical location and establishing a state park therein will contribute to the general welfare of the people of the state and members of the motoring public; and

WHEREAS, the Highway Commission in the past, has officially listed all state parks by a prior resolution.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That the real property, located in Curry County, Oregon, and donated to this Commission by the State Board of Forestry and described as follows, to wit:

> The Southwest one-quarter (SW1/4) of the Northeast one-quarter (NE1/4), the North one-half (N$\frac{1}{2}$) of the Southeast one-quarter (SE1/4), and the Southwest one-quarter (SW1/4) of the Southeast one-quarter (SE1/4) of Section 13, Township 40 South, Range 13 West. W.M., containing approximately 160 acres.

is hereby accepted by this Commission and designated as "Loeb State Park".

EXHIBIT "C-2"

Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a map of one page showing the above described land colored in yellow.*

2. Miscellaneous Resolution No. 125 recorded in the minutes and records of this Commission as of the 19th day of January, 1955, is hereby amended by adding to the list of state parks therein, the "Loeb State Park".

3. This resolution be entered in the minutes and records of this Commission as of this 31st day of July, 1958.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 125, under the heading "Miscellaneous Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

30353

EXHIBIT "D-I"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Barbur Boulevard-Marion County Line Section of the Pacific Highway described as follows:

A parcel of land lying in the East half ($E\frac{1}{2}$) of Lot "C" Rosewood Acre Tracts, also lying in the Northeast quarter of Section 13, Township 2 South, Range 1 West, W. M., Washington County, Oregon. The said parcel being that portion of said East half of Lot "C" lying Westerly of a line which is parallel to and 100 feet Westerly of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station L5143+15.1, said Station being 1499.3 feet North and 10.5 feet West of the Northeast corner of said Section 13; thence on an 11,459.16 foot radius curve right (the long chord of which bears South 7° 44' 15" West) 2983.34 feet to Station 172+98.44.

The parcel of land to which this description applies contains 2.16 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,400.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of the property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all right of ingress and egress to, from and between the said real property and the right of way of the Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 68 be entered in the minutes and records of the Commission as of the 31st day of July, 1958.

EXHIBIT "D-2"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Beaverton-Forest Grove Section of the Tualatin Valley Highway described as follows:

A parcel of land lying in Lots 5 and 6, Block 2, Reedville, also in Section 11, Township 1 South, Range 2 West, W.M., Washington County, Oregon. The said parcel being that portion of said Lots 5 & 6 lying northerly of a line which is parallel to and 45 feet northerly of the center line of the Tualatin Valley Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 195+71.05, said Station being South 17° 35' West 18 feet from Station 195+71.05 on the center line of the West bound traffic lane of said highway, said Station also being 1506.2 feet South and 222.5 feet West of the Northeast corner of the Nathan Robertson D. L. C. No. 45, Township 1 South, Range 2 West, W.M., thence North 72° 25' West, 174.22 feet; thence on a 1432.39 foot radius curve left (the long chord of which bears North 77° 01' West) 230 feet to Engineer's center line Station 199+75.27 Back, equals 199+75.57 Ahead; thence North 81° 37' West 1298.19 feet to Station 212+73.76, which Station is South 8° 23' West 18 feet from Station 212+73.76 on the center line of said West bound traffic lane. The southerly line of said parcel crossing the East line of said Lot 6 and the West line of said Lot 5 approximately opposite Stations 208+82 and 209+82, respectively.

The parcel of land to which this description applies contains 7,110 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND, WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,750.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there

EXHIBIT "D-2" (Cont)

is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Tualatin Valley Highway, except one point of access unrestricted as to use will be allowed.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 69 be entered in the minutes and records of the Commission as of the 31st day of July, 1958.

EXHIBIT "D-3"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Blackwell Hill-Seven Oaks Section of the Pacific Highway described as follows:

A parcel of land lying in the Northeast quarter of the Northeast quarter of the Southeast Quarter (NE¼ NE¼ SE¼) of Section 29, Township 36 South, Range 2 West, W.M., Jackson County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 387, page 323 of Jackson County Records of Deeds, the said parcel being described as follows:

Beginning at the Southeast corner of said Northeast quarter of the Northeast quarter of the Southeast quarter (NE¼ NE¼ SE¼); thence North along the East line of said Northeast quarter of the Northeast quarter of the Southeast quarter (NE¼ NE¼ SE¼) 155 feet, more or less, to a line which is parallel to and 150 feet southerly of the center line of the relocated Pacific Highway as said center line is described in said State of Oregon deed; thence northwesterly, parallel to and 150 feet southerly of said center line, 750 feet, more or less, to the West line of said Northeast quarter of the Northeast quarter of the Southeast quarter (NE¼ NE¼ SE¼); thence South along said West line 490 feet, more or less, to the Southwest corner of said Northeast quarter of the Northeast quarter of the Southeast quarter (NE¼ NE¼ SE¼); thence East along the South line of said Northeast quarter of the Northeast quarter of the Southeast quarter (NE¼ NE¼ SE¼) 660 feet, more or less, to the place of beginning.

Subject to that certain easement over the south 20 feet of said Northeast quarter of the Northeast quarter of the Southeast quarter (NE¼ NE¼ SE¼) which was granted to Arthur Daley by that certain easement dated October 30, 1953.

The parcel of land to which this description applies contains 4.92 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

EXHIBIT "D-3" (Cont)

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of the property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 70 be entered in the minutes and records of the Commission as of the 31st day of July, 1958.

30358

EXHIBIT "D-4"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Deady-Shady Section of the Pacific Highway described as follows:

A parcel of land lying in the Jeremiah Huntley DLC No. 56, also lying in Section 24, Township 27 South, Range 6 West., W. M., Douglas County, Oregon, and being a portion of that property described in those certain deeds to the State of Oregon, by and through its State Highway Commission, recorded in Book 216, Page 323, and in Book 213, Page 105 of Douglas County Records of Deeds; the said parcel being that portion of said property lying westerly of the following described line:

Beginning at the intersection of the North line of said property and a line which is parallel to and 250 feet westerly of the center line of the relocated Pacific Highway, said intersection being 402.78 feet North and 751.6 feet East of the southwesterly corner of said DLC No. 56; thence S 88° 50' 15" W along the South line of Harvard Avenue 14.28 feet to the true point of beginning; thence on a 20 foot radius curve right (the long chord of which bears S 55° 29' 52" E) 24.81 feet to a line which is parallel to and 250 feet westerly of said center line; thence S 20° 06' E parallel to said center line 180 feet more or less to the South line of said property.

The parcel of land to which this description applies contains 12,197 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND, WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be sum of $7,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Harvard Avenue and the off-leg of the Pacific Highway.

EXHIBIT "D-4" (Cont)

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 71 be entered in the minutes and records of the Commission as of the 31st day of July, 1958.

EXHIBIT "E"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 per cent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway systems within cities which are receiving excessive wear through sudden increases in population in the area of heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each

EXHIBIT "E" (Cont.)

year by the commission, which shall certify the apportionment to the Secretary of State. Upon receipt of such certificates the Secretary of State shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period January 1 to June 30, inclusive, of the year 1958, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 6,021,224.37
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	$ 14,504,867.57
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	$ 5,495,561.66
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	$ 232,497.71
	$ 26,254,151.31

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,625,415.13, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period January 1, to June 30, 1958, the sum of $2,500,415.13, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

RESOLUTION

WHEREAS, ORS 366.205 provides that the Highway Commission shall determine and adopt the general policy and decide all questions relating to the administration of the Highway Department; and

WHEREAS, ORS 366.205 further provides that the Commission has full power to make such rules and regulations as it deems necessary for the accomplishment of the purposes of ORS Chapter 366; and

WHEREAS, in the judgment of the Commission, no full time right of way agent should accept, in addition to his position with the State, any other employment or work, part time or otherwise, involving the appraising, selling, purchasing, advising, or in any other manner dealing with real property within the State, since such employment or work would not be in the best interests of the public as it would bring about a division of loyalties and be in direct conflict with his full time employment by the State as a public servant.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that no full time right of way agent shall accept, in addition to his position with the State, any other employment or work, either part time or otherwise, invoving the appraising, selling, purchasing, advising or in any other manner dealing with real property within the State of Oregon.

2. The Commission does hereby adopt the following rule and regulation with respect to the acceptance of outside employment by full time right of way agents, to wit:

> "No full time right of way agent shall accept, in addition to his position with the State Highway Department, any other employment or work, part time or otherwise, involving the appraising, selling, purchasing, advising, or in any other manner dealing with real property within the State of Oregon."

3. That this resolution be entered in full in the books and records of the Commission this 31st day of July, 1958, as Miscellaneous Resolution No. 217.

EXHIBIT "G"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the Oregon highways which are a part of the National System of Interstate and Defense Highways, have as a primary purpose the safe movement of high speed traffic; and

WHEREAS, the roads in the various county road systems have as a general purpose the service of land near said roads; and

WHEREAS, the State Highway Commission has control and jurisdiction over many highways which occupy functional positions between the two above-described extremes; and

WHEREAS, it is the judgment of the State Highway Commission, after careful consideration, that the land service function of state highways not on the interstate highway system of highways, should, under certain circumstances, be increased in order to advance the economic interests of certain adjacent localities, but that said increase of land service functions should occur only where it will not unreasonably endanger the traveling public; and

WHEREAS, there now exists upon various state highways other than the interstate system of highways, use restrictions governing access to and from said state highways and abutting property; and

WHEREAS, said increase in land service can be effected by the establishment of policy whereby the State Highway Commission will, under circumstances described below, eliminate said existing access restrictions as to use.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

I.

That, subject to the limitations and requirements below, any landowner whose land abuts upon a state highway, other than the interstate system of highways, which abutting land has appurtenant thereto an easement or easements of direct access, limited as to use, may apply to the State Highway Commission for, and receive the privilege of converting said easement of limited use access to easements of unlimited access, when, in the opinion of said Commission:

a. There is no other public road, street or highway affording land service to the area which the requested unlimited access purports to serve.

b. The conversion of said easement of limited use to an easement of unlimited use will not constitute a hazard to the traveling public.

EXHIBIT "G" (Cont)

II.

That, prior to the conveyance to the applicant of any easement or easements of unlimited access the applicant shall convey, or cause to be conveyed to the Commission, by warranty deed, free and clear of all encumbrances, fee simple title to such real property as is determined by the Commission to be necessary for the construction of acceleration and deceleration lanes, needed to provide for the safety of the traveling public.

III.

Said applicant shall also pay the said Commission, in advance, the amount estimated by the Commission to be the cost of constructing such acceleration and deceleration lanes, signs and other facilities as are necessary to provide for the safety of the traveling public.

IV.

The instrument of conveyance of said easement or easements of unlimited access to said applicant shall be delivered after the conveyance by the applicant to the Commission of such property as may be necessary for right of way purposes and the deposit with said Commission of the full amount estimated by the Commission to be the cost for the construction of said project.

V.

The State Highway Commission may exercise the right to construct, or otherwise provide at any future time, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; whereupon, all rights of unlimited access conveyed to said applicant shall cease, but said applicant shall then have a right of unlimited access to the frontage road or roads thereafter constructed. Said frontage road or roads shall be connected to the main highway, or to other public ways, only at such places as the said Commission may select.

VI.

That this Resolution be entered in full in the Minutes and Records of the Commission the 31st day of July, 1958, as Throughways and Rights of Access Resolution No. 4a.

EXHIBIT "H"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance.

"Contract No. 4653, with Guy F. Atkinson Company for constructing the Interstate and Oregon Slough Bridges on the Pacific Highway in Multnomah County and Clark County, Washington, in cooperation with the State of Washington and the Washington Toll Bridge Authority, completed July 9, 1958.

"Contract No. 4802, with Arthur Simonsen & Co. for stone base and oiling on the Iowa School-La Grande Section of the Mt. Glen Road in Union County, completed June 20, 1958.

"Contract No. 4915, with Rogers Construction Co. for grading and oiling on the Willowdale-Lyle Gap Section of The Dalles-California Highway in Jefferson County, completed May 26, 1958.

"Contract No. 4992, with Tom Lillebo Construction Co. for constructing bridges on the N. Jefferson Junction-Santiam Junction Section of the Pacific Highway in Marion and Linn Counties, completed June 19, 1958.

"Contract No. 4996, with Cartwright Construction Co. for grading and oiling on the John Day (S. W. 2nd Avenue-South City Limits) Section of the John Day-Burns Highway in Grant County, completed June 28, 1958.

"Contract No. 5032, with Rex C. Ayers Construction Co. and Silver Falls Trucking & Construction Co. for oiling Hood River County Roads, completed June 25, 1958.

"Contract No. 5041, with Hamilton and Thoms for widening the Silverton Road, Garden Road, Sunnyview and State Street Overcrossings on the Pacific Highway in Marion County, completed June 17, 1958.

"Contract No. 5042, with H. G. Carl Construction Co. for widening the Turner Road, Market Road #56 and Boone Road Overcrossings on the Pacific Highway in Marion County, completed June 16, 1958.

"Contract No. 5048, with K. C. Dack Construction Co. for grading and topping on the Ukiah-Forest Boundary Section of the Ukiah-Hilgard Highway in Umatilla County, completed July 6, 1958.

"Contract No. 5063, with Trowbridge Electric Co. for illumination on the Tillamook-Donaldson Creek Section of the Wilson River Highway, in Tillamook County, completed June 17, 1958.

EXHIBIT "H" (Cont)

"Contract No. 5065, with Lorentz Bruun Co. for constructing the State Police Building at Milwaukie in Clackamas County, completed June 16, 1958.

"Contract No. 5066, with Sig Andersson for overnight camp expansion in Sunset Bay State Park in Coos County, completed July 1, 1958.

"Contract No. 5068, with Silver Falls Trucking & Construction Co. for slide correction on the Anlauf Slide Section of the Pacific Highway in Douglas County, completed July 15, 1958.

"Contract No. 5071, with Berry Creek Construction Co. for overnight camp expansion in Jessie M. Honeyman State Park in Lane County, completed July 1, 1958.

"Contract No. 5073, with Tom Lillebo Construction Co. for widening of the Silverton Branch and Main Line S.P.R.R. structures on the Pacific Highway in Marion County, completed June 16, 1958.

"Contract No. 5075, with Inter City Sand & Gravel Co. for constructing the Thomas Creek Bridge and Channel Change on the Klamath Falls-Lakeview Highway in Klamath County, completed May 9, 1958.

"Contract No. 5093, with Steeck Electric Co. for traffic signals in the City of Ashland on the Pacific Highway in Jackson County, completed June 19, 1958.

"Contract No. 5099, with Woodward & Son and Barklow for furnishing crushed material in stockpiles on the Coquille Section of the Oregon Coast Highway, in Coos County, completed July 7, 1958.

"Contract No. 5116, with L. J. Plank for constructing park facilities in Detroit Lake State Park in Marion County, completed June 16, 1958.

"Contract No. 5120, with Russell Olson Construction Co., Inc. for oiling of the Lonerock Junction-Eightmile Section of the Wasco-Heppner Highway in Gilliam and Morrow Counties, completed June 4, 1958.

"Contract No. 5126, with Moyer Gravel Co. for furnishing crushed material in stockpile on the Murphy-Ruch Section of the Medford-Provolt and Williams Highways in Jackson and Josephine Counties, completed June 24, 1958.

"Contract No. 5129, with George W. Millett, Jr., for constructing park facilities in Devils Lake State Park in Lincoln County, completed June 16, 1958.

"Contract No. 5133, with Zuber Bros. for constructing park facilities in Rooster Rock State Park in Multnomah County, completed June 19, 1958.

"Contract No. 5134, with Cartwright Construction Co. for furnishing crushed material in stockpile on the Umatilla Section of Columbia River Highway in Umatilla County, completed July 15, 1958.

EXHIBIT "H" (Cont)

"Contract No. 5142, with E. H. Itschner Co. for crushed material in stockpile on the Spray-Fields Creek Section of the John Day Highway in Grant and Wheeler Counties, completed June 25, 1958.

"Contract No. 5145, with Lee Mortensen, Inc. for slide correction of the Winchester Slide Section of the Pacific Highway in Douglas County, completed July 11, 1958.

"Contract No. 5146, with Russell Olson Construction Co., Inc. for grading and oiling Lincoln Street in the City of Condon, in Gilliam County, completed June 4, 1958.

"Contract No. 5148, with Russell Olson Construction Co., Inc. for grading and paving Court Street in the City of Heppner in Morrow County, completed July 2, 1958.

"Contract No. 5151, with Enoch L Maerz for constructing park buildings in the Fort Stevens State Park in Clatsop County, completed July 11, 1958.

"Contract No. 5154, with Knight Pearcy for landscaping on the Stayton-Sublimity Interchange of the North Santiam Highway in Marion County, completed June 12, 1958.

"Contract No. 5158, with Warren Northwest, Inc. for grading and paving N. Kutch and E. Monroe Streets in the City of Carlton, in Yamhill County, completed July 8, 1958.

"Contract No. 5171, with Babler Bros., Inc. for oiling on the Alsea Junction-Beaver Creek School Section of the Alsea-Greenberry Road in Benton County, completed June 19, 1958.

"Contract No. 5174, with O & S Painters, Inc., for painting bridges on the Umpqua and Tiller-Trail Highways in Douglas County, completed June 23, 1958.

"Contract No. 5177, with The Central Heating Co., Oreg. Ltd. for paving of the Eugene Airport Junction on the Pacific West Highway in Lane County, completed June 16, 1958.

"Contract No. 5184, with K. C. Dack Construction Co. for stone base and paving of 2nd Street in the City of Athena in Umatilla County, completed June 25, 1958.

"Contract No. 5192, with Central Paving Co. for grading and paving of Bridge Street in the City of Sheridan, in Yamhill County, completed June 19, 1958.

"Contract No. 5197, with J. E. Brown Co. for painting the Hendricks Bridge on the McKenzie Highway, in Lane County, completed July 17, 1958.

EXHIBIT "H" (Cont)

"Contract No. 5203, with Russell Olson Construction Co., Inc. for stone base and paving of Orchard Avenue and Maple Avenue in the City of Hermiston, in Umatilla County, completed July 2, 1958.

"Contract No. 5217, with Fred J. Stubbert for constructing concrete curbs on the Knowles Creek Tunnel Section of the Mapleton-Richardson Road in Lane County, completed July 9, 1958.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 74 shall be entered in the minutes and records of the Commission as of the 31st day of July, 1958.

EXHIBIT "I"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway, or any section thereof, and by reason of said relocation or realignment there is eliminated from the original route of the highway, any section thereof, the eliminated section shall:

(a) If needed for service of persons living thereon or for communities served thereby, be maintained by the Commission at state expense, or by the county or by state and county under terms and conditions agreed upon;

(b) If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, they shall revert to the abutting property owners unless, in the judgment of the Commission, some of such sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated the East Unit of the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway, State Secondary Highway No. 152 in Yamhill County, the westerly terminus of which is at relocated Highway Engineer's Center Line Survey Station 243+00, and the easterly terminus of which is at relocated Highway Engineer's Center Line Survey Station 378+00 on the relocated highway, and said relocated unit of said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway, State Secondary Highway No. 152, has now been completed and is opened for public travel; and

WHEREAS, due to the relocation of the aforesaid unit of said section of said Three Mile Lane Highway, a portion of the former right of way of the Amity-Dayton Highway, State Secondary Highway No. 155, is no longer needed for right of way purposes and may be eliminated as part of the said original Amity-Dayton Highway, State Secondary Highway No. 155, which said unit is hereafter designated as Unit "B", as shown colored in red on Exhibit "A" which is attached hereto and by this reference made a part hereof; and

WHEREAS, Yamhill County and the State Highway Commission entered into an agreement on the 4th day of November, 1955, relating to the disposition to be made of certain sections of the right of way of said original Amity-Dayton Highway, State Secondary Highway No. 155, and which are subject to elimination; and

WHEREAS, said agreement provided the State, by resolution, would formally eliminate said Unit "B" as part of the Amity-Dayton Highway, State Secondary Highway No. 155 and from the state highway system, and that all

EXHIBIT "I" (Cont)

right, title and interest which State had in said Unit "B" should pass to and vest in County and the County should accept all right, title and interest which the State had in said Unit "B" and should maintain said Unit "B" as a county road so long as needed for the service of persons living thereon or communities served thereby; and

WHEREAS, in the judgment of the Commission, certain other portions of the right of way of the former and of the relocated East Unit, McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway, State Secondary Highway 152, together with real property acquired by State for roadway and other public purposes, are needed and are valuable for public use and the title should be retained by the State, which said portions are shown colored in green on the map attached hereto and marked Exhibit "A".

NOW, THEREFORE, be it and it hereby is resolved by this Commission as follows:

1. That by reason of the relocation of the East Unit of the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway, State Secondary Highway No. 152 in Yamhill County, a section of the right of way of the Amity-Dayton Highway, State Secondary Highway No. 155 is no longer needed by the State of Oregon, and is no longer required for part of the said right of way of the Amity-Dayton Highway, State Secondary Highway No. 155 which section is identified as Unit "B" as shown colored in red on the attached Exhibit "A" and is described as follows:

> Unit "B"
> All the land situated within the right of way boundaries of the existing Amity-Dayton Highway beginning at the easterly city limits of the city of Dayton; thence easterly via the existing Amity-Dayton Highway to the Southerly right of way line opposite Highway Engineer's Center Line Survey Station 367+20 of the relocated Three Mile Lane Highway in the southeast quarter of the southwest quarter ($SE\frac{1}{4}SW\frac{1}{4}$), Section 9, Township 4 South, Range 3 West, W.M.

2. That pursuant to the agreement entered into with Yamhill County on the 4th day of November, 1955, Unit "B" as heretofore described and as shown colored in red on said attached map marked Exhibit "A" is hereby duly eliminated as part of the Amity-Dayton Highway, State Secondary Highway No. 155, and the state highway system, and that all the right, title and interest which State has in said Unit "B", does hereby pass to and vest in said Yamhill County.

3. That title shall remain in State to the right of way of the former and of the said relocated East Unit of the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway, State Secondary Highway No. 152, in Yamhill County, together with the real property acquired by State for roadway

EXHIBIT "I" (Cont)

right of way and other public uses, as shown colored in green on said Exhibit "A" attached hereto.

4. That this resolution be entered in full in the Minutes and Records of this Commission as Resolution No. 308, this 31st day of July, 1958, and the Secretary is hereby ordered to mail a duly certified copy hereof to the County Court of Yamhill County.

EXHIBIT "J-1"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Redwood

Highway number: 25 Route number: US199

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
0.22 (Williams Highway)	2.44 (Willow Lane and Helm Road)	45

except that between a point 50 feet west from Annabelle Lane (M.P. 1.92) and a point 500 feet west of Leonard and Dowell Road (M.P. 2.12) the indicated speed shall be 20 miles per hour during the hours of school crossings.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

July 31, 1958

EXHIBIT "J-1" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 100, adopted February 17, 1953.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 100a be entered in the minutes and records of the Commission as of the 31st day of July, 1958.

30383

EXHIBIT "J-2"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway West

Highway number: 1W Route number: 99W

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
7.61 (Multnomah-Washington County Line)	8.64 (250 feet north of of S.W. Lacey Avenue)	50

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 281 be entered in the minutes and records of the Commission as of the 31st day of July 31, 1958.

30391

EXHIBIT "K-1"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of each of the following described state highway sections:

1. Deadmans Pass-Meacham Section of the Old Oregon Trail Highway in Umatilla County.

2. Baker-Pleasant Valley Section of the Old Oregon Trail Highway in Baker County.

and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 401+00, southerly from Deadmans Pass and extending in a southeasterly direction to Highway Engineer's Station 902+00, southeasterly from Meacham together with the map, which for identification purposes bears Sketch Map file No. 1R-5-1134, and the date of April, 1958, (Right of Way Map No. 8B-8-6&7 dated February, 1958) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1b. That the survey of the Baker-Pleasant Valley Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 189+00 east from the City of Baker and extending in an easterly direction to Highway Engineer's Station 725+00 east from the community of Pleasant Valley, together with the map, which for identification purposes bears Sketch Map file No. 1R-3-1207, and the date of April, 1958, (Right of Way Map No. 8B-9, 4, 5, 6 dated April, 1958) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

EXHIBIT "K-1" (Cont)

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the said highways along and over such surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of complete access controlled highways.

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Old Oregon Trail was designated a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law" and, for the reasons stated therein, it is hereby directed that construction of each of the above mentioned highway sections shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 31st day of July, 1958, as Survey Resolution No. 179.

---

* FOOTNOTE:

The maps mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 179, under the heading "Resolutions Adopting Surveys" and said maps by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30393

EXHIBIT "K-2"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Hunter Creek-Myers Creek Section of the Oregon Coast Highway in Curry County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Hunter Creek-Myers Creek Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 79+00 south of the town of Gold Beach and extending in a southerly direction to Highway Engineer's Station 473+00 near Myers Creek, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1209, and the date of June, 1958, (Right of Way Map No. _____ dated _____), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That heretofore by resolution of this Commission dated November 3, 1948, and modified by resolution adopted by the Commission November

7, 1949, the said Oregon Coast Highway was designated as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished and pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 31st day of July, 1958, as Survey Resolution No. 180.

---

* FOOTNOTE:

EXHIBIT "K-3"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Siuslaw River-Wildcat Creek Section of the Richardson-Eugene Highway in Lane County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports, and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Siuslaw River-Wildcat Creek Section of the Highway, beginning at Highway Engineer's Station 640+50, near the railroad station of Austa, and extending in an easterly direction to Highway Engineer's Station 740+00, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1181, and the date of July, 1958, (Right of Way Map No. 5B-21-15 dated March, 1939), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 31st day of July, 1958, as Survey Resolution No. 181.

30397

EXHIBIT "L-1"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-1" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-1" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 985.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 985, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-2"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or other wise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-2" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Sunset Highway, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-2" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 986.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 986, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30403

EXHIBIT "L-3"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Elkton-Kellogg Section of the Elkton-Sutherlin Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated, or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes, 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Elkton-Kellogg Section of the Elkton-Sutherlin Highway will be constructed, relocated or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Elkton-Kellogg

EXHIBIT "L-3" (Cont)

Section of the Elkton-Sutherlin Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said widened and relocated Elkton-Sutherlin Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be specifically stated. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired prior to May 12, 1951.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Elkton-Kellogg Section of the Elkton-Sutherlin Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 987.

EXHIBIT "L-3" (Cont)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 987, under the heading "Real Property Condemnation Resolutions," and said descriptions, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-4"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Middleton-Rex Hill Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-4" (Cont)

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Middleton-Rex Hill Section of the Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Middleton-Rex Hill Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 988.

30409

EXHIBIT "L-5"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tigard-Durham Road Section of the Beaverton-Tualatin Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Tigard-Durham Road Section of the Beaverton-Tualatin Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Beaverton-Tualatin Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where

EXHIBIT "L-5" (Cont)

specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Tigard-Durham Road Section of the said Beaverton-Tualatin Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 989.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 989, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30411

EXHIBIT "L-6"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hillsdale-Barbur Boulevard Section of the Beaverton-Hillsdale Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Hillsdale-Barbur Boulevard Section of the Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file numbers and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Beaverton-Hillsdale Highway and all of the contiguous real property of the respective

EXHIBIT "L-6" (Cont)

owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Hillsdale-Barbur Boulevard Section of the said Beaverton-Hillsdale Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 990.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 990, under the heading "Real Property Condemnation Resolutions" and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30413

EXHIBIT "L-7"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hamilton Street-Slavin Road Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-7" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Hamilton Street-Slavin Road Section of the Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaing land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Hamilton Street-Slavin Road Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein,; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-7" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 991.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 991, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-8"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-8" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-8" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 992.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 992, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30419

EXHIBIT "L-9"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Neskowin-Salmon River Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-9" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Neskowin-Salmon River Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Neskowin-Salmon River Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 993.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 993, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-10"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

EXHIBIT "L-11"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Judkins Point-Goshen Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-11" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is dir :cted to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-12"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Buena Vista Ocean Wayside has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Buena Vista Ocean Wayside for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent

EXHIBIT "L-12" (Cont)

domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development and maintenance of the Buena Vista Ocean Wayside; and does further find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit

EXHIBIT "L-12" (Cont)

"A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 996.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 996, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-13" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway, as a throughway, certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Redwood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improving and maintaining of the said West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-13" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 997.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 997, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-14"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Canyonville-Days Creek Section of the Tiller-Trail Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Canyonville-Days Creek Section of the Tiller-Trail Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "L-14" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A" no rights of access of any nature between the right of way of the said widened and improved Tiller-Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Canyonville-Days Creek Section of the said Tiller-Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 998.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 998, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-15"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes, including maintenance sites; and

WHEREAS, under the provisions of ORS 366.340, the State Highway Commission is specifically authorized to acquire real property for the purpose of establishing maintenance sites;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction and establishment of a maintenance site, the real property described in Exhibit "A", which Exhibit is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the establishment and construction of the maintenance site for which the said real property is deemed to be necessary, is required and is being taken in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 999.

EXHIBIT "L-15" (Cont)

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 999, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-16"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes, including maintenance sites; and

WHEREAS, under the provisions of ORS 366.340, the State Highway Commission is specifically authorized to acquire real property for the purpose of establishing maintenance sites;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction and establishment of a maintenance site, the real property described in Exhibit "A", which Exhibit is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the establishment and construction of the maintenance site for which the said real property is deemed to be necessary, is required and is being taken in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1000.

EXHIBIT "L-17"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-17" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-17" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1001.

---

*FOOTNOTE:

EXHIBIT "L-18"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-18" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-18" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1063.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission. Salem, being Resolution No. 1063, under the heading "Real Property Condemnation Resolutions", and said description, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-19"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt. establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-19" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-19" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1064.

EXHIBIT "L-20"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper, and

EXHIBIT "L-20" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners as specified. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-20" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1065.

---

EXHIBIT "L-21"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Bradley Park-Columbia County Line Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

30453

EXHIBIT "L-21" (Cont)

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Bradley Park-Columbia County Line Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the said Bradley Park-Columbia County Line Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "L-21" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1066.

30455

EXHIBIT "L-22"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquistion or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the McKinley Moorage-Radio Station Section of the Netarts Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgement of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said McKinley Moorage-Radio Station Section of the Netarts Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference, hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Netarts Highway and all of the contiguous real property of the respective owners remaining

EXHIBIT "L-22" (Cont)

after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said McKinley Moorage-Radio Station Section of the Netarts Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of August, 1958, as Condemnation Resolution No. 1067.

30457

EXHIBIT "M"

Minutes of July 31 and August 1, 1958

RESOLUTION

WHEREAS, by authority of ORS 366.345, the Commission may acquire real property for development and maintenance of parks, campsites, recreational grounds and resorts, forests or other areas of attraction and scenic value which in the judgment of the Commission will contribute to the general welfare and pleasure of the public; and

WHEREAS, by authority of ORS 366.345, the Commission may develop, construct, improve, operate and maintain such places to such extent and in such manner as will best afford to the public necessary conveniences and accommodations that will contribute to the general welfare of the public; and

WHEREAS, it is the judgment and the opinion of the Commission that the convenience of the public will be served by the installation of public coin operated telephones in state parks, campsites, recreational grounds and resorts, forests or other areas acquired or maintained under the authority of ORS 366.345; and

WHEREAS, it is the judgment and opinion of the Commission that the establishment of said public telephones in said locations will contribute to the general welfare of the public; and

WHEREAS, it is the judgment and opinion of this Commission that it is desirable and in the best interests of the State and the telephone companies who wish to install telephones in the parks, campsites, recreational grounds and resorts and other areas that a procedure be established whereby prompt and efficient action may be taken upon their applications in order to eliminate the necessity of delaying such matters to succeeding meetings of the Commission; and

WHEREAS, a form of agreement for the installation and maintenance of public coin operated telephones in state parks has been prepared and approved by the Commission and is attached hereto, marked Exhibit "A" and by this reference made a part hereof.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That agreements for the installation and maintenance of public coin operated telephones in any state park, campsite, recreational grounds and resorts, forests or other areas of attraction or scenic value which are part of the Oregon State parks system, may be entered into and executed for and on behalf of the Oregon State Highway Commission by the State Parks Superintendent upon the form of telephone installation and maintenance agreement attached hereto, marked Exhibit "A", subject to the following:

(a) That the telephone company shall install and maintain, at its sole cost, the necessary public

EXHIBIT "M" (Cont)

coin operated telephone facilities in a neat and sightly manner and at such locations as are determined by the State Parks Super n-tendent.

(b) That the telephone company pay to the State 15% of the gross receipts of said telephones.

(c) That the agreement may be terminated by either party upon thirty days written notice.

(d) That upon termination of the agreement, tele-phone company will forthwith remove from said park and recreational area all the telephone com-pany's property and restore the used premises to a neat condition.

2. That this resolution should be entered in the minutes of the Commission this 31st day of July, 1958, as State Parks Resolution No. 16.

30459

AGREEMENT

THIS AGREEMENT, made and entered into this _____ day of _____, _____, by and between the STATE OF OREGON, by and through its State Highway Commission, hereinafter referred to as "State"; and _____, a _____ corporation, hereinafter referred to as "Company";

WITNESSETH:

WHEREAS, Company wishes to install and maintain one public coin operated telephone and telephone booth in _____ in _____.

NOW, THEREFORE, it is agreed that:

THINGS TO BE DONE BY THE STATE:

1. State shall permit Company to install and maintain one public coin operated telephone and telephone booth in _____ at the location in said park indicated on the map attached hereto as Exhibit "A", or at such other places as from time to time may be hereafter designated by State, and to construct and maintain the necessary wires and facilities in connection therewith.

2. State shall permit Company, from time to time, to substitute other equipment in lieu of that installed or constructed hereunder and shall permit Company to remove all of its property from said park upon the termination of this agreement.

3. State shall pay for all electrical energy consumed by the operation of said telephone booth.

THINGS TO BE DONE BY THE COMPANY:

1. Company will install and maintain, at its own cost, one public coin operated telephone and telephone booth or, at its option, one coin operated telephone without a booth, in a neat and sightly manner in said park at the location indicated on said Exhibit "A" or at such other places as may be hereafter indicated from time to time by the State.

2. Company will pay to State, 15% of the gross receipts from the use of said telephone.

3. Upon the termination of this agreement, Company will forthwith remove from said park all of Company's equipment and property without any injury to the property of the State and to restore the used premises to a neat condition.

THE PARTIES MUTUALLY AGREE:

This agreement may be terminated by either party hereto upon thirty

EXHIBIT "M" (Cont)

days written notice. Such notice, if to Company, shall be sufficient if sent by registered mail, postage prepaid, to the Company at its office in _____, Oregon, and if to the State, by registered mail, postage prepaid, addressed to the State Highway Commission, State Highway Building, Salem, Oregon.

IN WITNESS WHEREOF, the parties hereto have subscribed their names and affixed their seals as of the day and year first above written.

30664	Oct. 23	COMMISSION MEETING CONVENED at 10:00 a.m.
		COMMISSION MEETING MINUTES approved for September 11-12, 1958.
		ASS'T. PARKS SUPT. reported on following matters. Parks Supt. ill.
		Multnomah County. Government Island not to be considered for park development.
		Silver Falls State Park Lodge. Marion County. Concession lease extension for 1959 to the Campbells approved.
		Budget - 1959. Discussion. Adoption deferred.
30665		Travel Information Division Budget - 1959. Budget approved.
		State Parks Advisory Committee. Progress report accepted.
30666		Yaquina Head Lighthouse. Lincoln County. Government land. Application for acquisition of 8 acres authorized.
		Tillamook Rock. Tillamook County. Park development discussed. Action deferred.
		Fort Stevens State Park. Clatsop County. Peter Iredale wreck. Installation of informational sign approved.
		Douglas County. Oregon Coast Hwy. Winchester Bay-Reedsport. Acquisition of 30 acres for overnight camping area authorized.
		Loeb State Park area. Chetco River. Curry County. Application to BLM for 440 acres for park purposes approved.
30667		Collier State Park. Klamath County. Biehn-Foster-Lucas properties. Purchase of land for park expansion approved.
		Columbia Gorge Commission. Multnomah County. Request for additional $58,000 referred to Parks Advisory Committee.
		Clackamas County. Study of park possibilities approved.
		Nehalem Bay State Park. Tillamook County. Request of Board of Aeronautics for delay of fence construction approved.
30668		Oswald West State Park. Tillamook County. Request for former name of "Short Sand Beach State Park" denied.
		Honeyman State Park bathhouse. Lane County. Report accepted.
		REAL PROPERTY. Acquisition approved. EX. "A".
		MISCELLANEOUS SALES AND RENTAL REPORT accepted.
		SALE OF EXCESS PROPERTY authorized. EXS. "B-1" - "B-4".
30669		KLAMATH COUNTY. Willamette Hwy. Crescent Lake Jct.-The Dalles-California Hwy. Jct. Payment to Forest Service for timber approved.
		HOOD RIVER COUNTY. Columbia River Hwy. Cascade Locks-Viento Section. Transfer of 1.76 acres to Fish Commission approved.
		LINCOLN COUNTY. Beverly Beach State Park. Water line easement from Oregon Pulp & Paper Co. for reservoir-pipeline approved.
		POLK COUNTY. Salmon River Hwy. Valley Jct.-Wallace Bridge Section. Grant of r/w from BPA accepted.
		WASCO COUNTY. The Dalles-California Hwy. The Dalles-Wightmile Creek Section. Revocable permit granted Mr. Kuck for livestock passage.
		TILLAMOOK COUNTY. Netarts Secdy. Hwy. McKinley Moorage-Radio Station Section. Dike easement granted Stillwell Drainage District.

Page	Date 1958	Subject
30670	Oct. 23	MALHEUR COUNTY. Central Oregon Hwy. Vale. Request from City for use of hwy. property approved. EX. "O".
		MULTNOMAH COUNTY. Banfield Expressway. Elspes property. Sale of 0.36 acre excess property to Halsey Development, Inc. approved.
		ACCESS CHANGES on two properties approved.
		UNION COUNTY. Old Oregon Trail. Hilgard-La Grande Section. Easement granted California PUC for power line crossing.
		CONDEMNATION OF REAL PROPERTY approved. EXS. "J-1" - "J-20".
30678		CONDEMNATION CASES tried. Counsel's report approved.
30681		CONDEMNATION CASES settled. Counsel's report approved.
30684		COURT CASES PENDING. Counsel's status report accepted.
		CONDEMNATION CASES. Offers for property approved.
30688		PUC MATTERS re Hwy. Commission. Counsel reports.
		PUX 185: Jefferson County. Madras. Earl Street. UPRR tracks and spur track.
		PUX 234: Jackson County. Medford. SPRR train speeds.
		PUX 278: Jackson County. Phoenix. RR grade crossing.
		PUX 280: Lincoln County. County Road #608. Inman-Poulsen Timber Corporation private road crossing.
		PUX 282: Polk County. County Road #654. Ballston area. Grade crossing change.
		PUX 287: Klamath County. Klamath Falls By-pass RR Overcrossing.
30689		LEGAL DEPARTMENT. Robert A. Holland. Salary increase approved.
		MULTNOMAH COUNTY. Sunset Hwy. Highlands Interchange Section. Rosenfeld-Preble properties. Damage claims discussed.
		LINN COUNTY. Albany Airport Secdy. Hwy. Ropp property. Conveyance of land to owners. EX. "N".
		SHERMAN COUNTY. Biggs. Columbia River Ferry Approach Road. Counsel's status report accepted.
30690		KLAMATH COUNTY. The Dalles-California Hwy. Klamath Falls By-pass Section. Utility adjustment agreements with 3 companies approved.
		TILLAMOOK COUNTY. Little Nestucca Secdy. Hwy. Dunn property. Settlement of slide damage claim approved.
		POLK COUNTY. Monmouth-Independence Hwy. Independence. Extension of city limits approved. EX. "P".
		COMMISSION MEETING RECESSED at 12:00 noon to reconvene at 1:30 p.m.
		BIDS received September 30 and October 21, 1958, discussed.
		AWARD OF CONTRACTS. Engineer reports awards.
30692		CONSTRUCTION SPEED ZONES established as follows:
		Union County. Old Oregon Trail. Glover Overcrossing-Upper Perry.
		Douglas County. Pacific Hwy. North Oakland-Sutherlin Section.
		Union County. Old Oregon Trail. Perry-Oro Dell Section.
		RECLASSIFICATION OF HWY. SECTIONS to Group I approved as follows:
30693		Baker County. Halfway Hwy. Baker-Homestead Hwy. Jct.-Halfway Section.
		Baker County. Halfway-Cornucopia Secdy. Hwy. Halfway-Holbrook Creek Section.
		Baker County. Pine Creek Secdy. Hwy. Halfway-Baker-Homestead Hwy. Jct.
		Lane County. Richardson-Eugene Secdy. Hwy. Elmira-Noti Section.

30872		EXHIBIT "P". Polk County. Monmouth-Independence Hwy. Independence. Extension of city limits.

Salem, Oregon
September 11, 1958

The Oregon State Highway Commission met in regular session at 10:00 a.m. in Room 418 (Conference Room) in the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
Tom Edwards, Construction Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Commission discussed with the Engineer bids received on August 26, August 29, and September 9, 1958. The award of contracts was deferred until 11:00 a.m.

The Commission approved the minutes for the meeting held July 31 and August 1, 1958.

The Engineer reported that as previously authorized by the Commission he has conducted surveys for the relocation or reconstruction of several state highway sections. He exhibited maps showing the proposed relocations and recommended their adoption as providing the most feasible routes commensurate with the cost involved to build them. The Commission, as a result of discussion, approved the following surveys by adopting the attached resolutions relative thereto marked EXHIBITS "K-1 " through "K-4 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

1. North Yamhill River Section of Pacific Highway West, Yamhill County. (Map) See EXHIBIT "K-2".

2. Tualatin River Bridge Section of Scholls Highway, Washington County. (Map). See EXHIBIT "K-1".

3. Coburg Road-Pacific Freeway Junction Section of Eugene-Springfield Highway, Lane County. (Map). (Hearing held in Eugene on July 25, 1958). See EXHIBIT "K-3".

4. Cascade Locks-Viento Section of Columbia River Highway, Hood River County. (Map). (Hearing held in Hood River on August 14, 1958). See EXHIBIT "K-3".

5. Hillsdale-Barbur Boulevard Section of Beaverton-Hillsdale Highway and Hamilton Street-Slavin Road Section of Pacific Highway West, Multnomah County. (Map). (Hearing held in Portland on August 26, 1958). See EXHIBIT "K-4".

6. McMinnville Junction-Three Mile Lane Section of Salmon River Highway, Yamhill County. (Map). See EXHIBIT "K-4".

Commissioner Chessman was excused at 10:50 a.m. from further participation at this meeting, having received an urgent call to return to Astoria at once because of the illness of Mrs. Chessman.

The Parks Superintendent reported on the following park matters:

1. Installation of park facilities at Unity Reservoir, southwest from Baker on the Baker-Unity Highway near its junction with US 26: The Parks Superintendent stated that, as previously instructed by the Commission, he conducted a study of the area which showed quite heavy use during the early part of the fishing season; also, that during the later summer months considerable use is made of the area for boating and water skiing as well as fishing. A sample count taken during the study, he said, indicated that approximately 60,000 people would use the area in a season. He recommended a small development of the area as a state park by providing water, tables, latrines, stoves, garbage cans and waste disposal, ground levelling, planting of trees and construction of parking area, at an estimated cost of $7,750.00. He pointed out that maintenance of the area would be quite expensive as there are no other park facilities nearby. Cost of maintenance for a six months period each year he estimated at $5,000.00. The Commission approved development of a park facility at this location as recommended on the condition that the U.S. Bureau of Reclamation will make available to the State the necessary land within the boundary of the Reservoir.

2. Proposed construction of a museum building at Champoeg State Park: The Parks Superintendent stated that this matter, considered at a previous Commission meeting, had been discussed with the Executive Committee of the Sons and Daughters of Oregon Pioneers and the Oregon Historical Society, and that the information obtained had been relayed to the Advisory Committee on State Parks. No definite answer has been received from the Sons and Daughters of Oregon Pioneers but the Oregon Historical Society indicated a desire to delay construction because of the possibility of making the area a national historical site. However, their Board of Directors is to take action early in October and the State Parks Advisory Committee has this item on their agenda for a meeting later in September. It was his belief that he could present a report at the October Commission Meeting reflecting the attitudes of these groups. The Commission accepted his report.

3. Proposal to designate Champoeg State Park as a national historical site: The Parks Superintendent stated that this matter had been discussed with the Secretary of the Oregon Historical Society, with some members of the Executive Board of the Sons and Daughters of Oregon

Pioneers, and briefly with the Parks Advisory Committee. He commented that in 1954 a proposal had been made to establish Champoeg as a national historical site, and the proposal had been denied by federal authorities. It was his suggestion that the thinking of the three groups be more definitely determined so that he could present a report and a recommendation to the Highway Commission at its meeting in October. The Commission accepted his report.

4. Proposed park development at Bayocean in Tillamook County: As previously instructed, the Parks Superintendent stated that quite thorough studies have been made. He advised that the Army Engineers have constructed a dike across the opening of the neck of land which was washed out in 1952, and have performed considerable work to the north in leveling and planting of sand areas; also, that the County has constructed a road across the dike to the Bayocean area. It was his opinion that use of the area would not be large as there are several other attractive park areas in the vicinity. It was his recommendation that any commitment for development be delayed until after the Corps of Engineers have made additional studies of the movement of the shoreline, which will probably be done during the coming year. The Commission accepted his recommendation.

5. Request of Mr. Jack Flaucher to sell "hot dog" sandwiches at the Vista House at Crown Point on the Old Columbia River Highway where he holds the concession: The Parks Superintendent recalled that a suit had been filed by a Mr. & Mrs. Moore against Mr. Flaucher and the State to restrain the sale of certain articles at the Vista House as not in keeping with the stipulations made by the donor of the land. The case, he pointed out, was decided against the Moores. The Chief Counsel commented that the court, in writing its opinion on the case, had expressed the feeling that Mr. Flaucher has gone as far as he could go in selling commodities at the Vista House, and that the sale of any additional commodities could be made the basis of another lawsuit. In view thereof it was his recommendation, concurred in by the Parks Superintendent, that Mr. Flaucher's request to sell "hot dogs" be denied. The Commission approved the recommendation. In approving the recommendation, Chairman McIver commented that the Commission's action applies only to this particular instance and does not indicate that the Commission is neither establishing a precedent nor adopting any sort of a policy to deny the sale of hot dogs or similar commodities in state parks generally.

6. Request of Nehalem Bay Expansion Association that the name "Short Sand Beach State Park" be restored to the area now known as "Oswald West State Park": This matter, the Parks Superintendent stated, has been referred to the State Parks Advisory Committee but has not been officially considered by them. There are several aspects in this matter, he continued, which may require some time to resolve and it was his feeling that a recommendation would have to be presented at a later date. The Commission accepted his report.

7. Request of Yachats Chamber of Commerce for construction of modern toilet facilities in Yachats State Park: The Parks Superintendent pointed out that this Park is located within the community of Yachats and

that considerable use is made of the area mostly for sightseeing and fishing. The cost to construct modern type toilet facilities he estimated at $7,000 and he pointed out that maintenance would be difficult as no park caretaker is located in this vicinity. As it has been the policy of the Commission not to develop such facilities within the boundaries of a developed community, he recommended that the request be denied. The Commission accepted his recommendation.

The Park Superintendent reported that the State Natural Resources Committee has been asked to provide an exhibit at the Oregon Centennial in Portland which will probably cost around $40,000. It is their intention, he said, to ask the 1959 Legislature to appropriate the necessary funds. However, in the meantime they will require $2,496 for preliminary operations. Twelve state agencies are interested in this exhibit and it has been suggested that each agency contribute a portion of the expense which, for the State Highway Department, amounts to $208. Upon his favorable recommendation, the Commission approved a payment of $208 to the Natural Resources Committee for this purpose.

The Parks Superintendent also reported that a letter had been received from the Coos County Court requesting improvement of the road around Golden and Silver Falls in Coos County, and suggesting that timber be cut from the park area to finance the road construction. It was his opinion that to cut timber from the park area would spoil the appearance of the park, and he recommended against the cutting of the timber and that funds to improve the road be secured from some other source. The Commission accepted his recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. In discussing these options, the Parks Superintendent called attention to an item on page 20 involving Crown-Zellerbach Company in which a parcel of property had been acquired as an addition to Collier State Park in Klamath County. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Parks Superintendent also pointed out that arrangements have been made to purchase 70 acres of land near Beaver Creek at what is or will be known as "Ona State Park". The property, he stated, is owned by Lorraine Randall and lies between the highway and the beach and can be purchased for $18,680 including two residences, one of which can be used for parks purposes. It was his opinion that this is a fair price and he recommended that the purchase be approved. The Commission approved the purchase.

The property manager's monthly report was presented by the Right of Way Engineer covering sales of miscellaneous properties and changes in rental status since the last Commission meeting. Total rental receipts, he

stated, for the month of July were $8,321.78. Miscellaneous property sales since the last Commission meeting amounted to $28,432. The Commission accepted the report.

"Indentures of Access" forms were presented by the Right of Way Engineer who explained that they involve changes in existing access points on four different properties and that no additional access is being granted. He said that the changes are being recommended to provide better access for the property owners and greater safety for the traveling public. Following his favorable recommendation, the Commission approved "Indentures of Access" as follows:

1. Barstad property - File 19692 - on the Onion Flat-Middleton Section of the Pacific Highway West in Washington County.

2. Northwest District of the Lutheran Church, Missouri Synod property - File 24862 - on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

3. Gardner property - File 26919 - on the Myers Creek-Brookings Section of the Oregon Coast Highway in Curry County.

4. Richardson property - File 27520 - on the Richardson-Siuslaw River Unit, Richardson-Walton Section of the Richardson-Eugene Highway in Lane County.

Consideration was given to a right of way easement agreement with the Bureau of Reclamation covering right of way needed for the Tunnel-Namorf Unit of the Central Oregon Highway in Malheur County. The Right of Way Engineer explained that in constructing this highway section it is necessary to use land under the control of the Bureau of Reclamation and the agreement is a routine requirement for use of the land. Upon his favorable recommendation, the Commission approved the agreement.

The matter of changing the type of access from the Charles A. Beyer property on the Tigard-Newberg Section of the Pacific Highway West was discussed. The Right of Way Engineer pointed out that when this property was acquired, only private residential access was allowed and that no payment was made for the restricted type of access. He also pointed out that adjoining properties are allowed unrestricted access and he recommended that an unrestricted access be allowed from the Beyer property. The Commission accepted his recommendation.

The Right of Way Engineer requested authority to sell to the Port of Brookings by direct sale, a gravel bar located near the mouth of the Chetco River. This property, he stated, is no longer required for highway purposes and has been appraised at $1,500. Upon his favorable recommendation, the Commission approved the sale for that amount.

The Right of Way Engineer also requested authority, which was granted by the Commission, to sell to Josephine County 0.3 of an acre of

excess property on the Jumpoff Joe Creek-Grants Pass Section of the Pacific-Highway in Josephine County for the sum of $225.

At the Right of Way Engineer's request the Commission excused him for the following day so that he could attend a right of way meeting in Olympia, Washington, where he is to deliver a paper.

Commissioner Chessman left the Commission meeting at this time to return to his home in Astoria because of the illness of Mrs. Chessman.

The Commission discussed with the Engineer bids received for highway construction on August 26 and on September 9, 1958, and for the furnishing of employee liability insurance on August 29, 1958. At 11:00 a.m., Chairman McIver announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON AUGUST 26, 1958

"Dooley Mountain Rock Production Project on the Baker-Unity Highway in Baker County. The Commission awarded the contract to the low bidder, Cartwright Construction Company, Durkee, at $20,700.00.

"Construction of Shipley Bridge over Tualatin River on Market Road 12 in Clackamas County. The Commission awarded the contract to the low bidder, Inland Construction Company, Milwaukie, at $59,058.00.

"Grading and paving Hunter Creek-Buena Vista Wayside Section of the Oregon Coast Highway in Curry County. The Commission elects to accept the low bid of Peter Kiewit Sons' Company, Vancouver, Washington, in the sum of $406,586.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Hunter Creek Bridge on Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Company, Reedsport, at $171,368.00.

"Grading, stone base, and paving the Elkton-Smith Bridge Section of the Elkton-Sutherlin Highway in Douglas County. The Commission elects to accept the low bid of M.J. Brassfield Company and J.M. Purcell Construction Company, Salem, in the sum of $535,819.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading, paving, bridge construction, and furnishing material in stock pile on the O'Shea Creek Section of the Tiller-Trail Highway in Douglas County. The Commission awarded the contract to the low bidder, Thornton-Bell, Roseburg, at $125,859.00.

"Construction of McKenzie River Overflow Bridges, near Coburg, on Harrisburg-Eugene Road in Lane County. The Commission awarded the contract to the low bidder, Inland Construction Company, Milwaukie, at $96,558.50.

"Beverly Beach Park Fencing Project on the Oregon Coast Highway in Lincoln County. The Commission awarded the contract to the low bidder, Bennett and Hickey, Burns, at $6,195.00.

"Grading and construction of two bridges on the Belts Road-Lane County Line Section of the Pacific Highway in Linn County. The Commission elects to accept the low bid of Roy L. Houck & Sons and Roy L. Houck Sons' Corporation, Salem, in the sum of $739,796.70 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Willow Creek, McDowell Creek, and Oak Creek Bridges in Linn County. The Commission awarded the contract to the low bidder, James F. Turner, Corvallis, at $40,334.00.

"Construction of Bates Park Bridge over South Santiam River on McDowell Creek Road, near Lebanon, in Linn County. The Commission awarded the contract to the low bidder, James F. Turner, Corvallis, at $51,267.00.

"Highlands Interchange illumination installation on Sunset Highway in City of Portland in Multnomah County. The Commission awarded the contract to the low bidder, W. R. Grasle Company, Portland, at $13,200.00.

"Interstate Bridge-Oregon Slough Roadside Improvement Project on the Pacific Highway, north of Portland, in Multnomah County. The Commission awarded the contract to the low bidder, E.P. Baltz and Son, Portland, at $14,330.59.

"Paving the Sundial-Multnomah Falls Section of the Columbia River Highway in Multnomah County. The Commission elects to accept the low bid of Rogers Construction Company, Portland, in the sum of $1,699,492.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Stone base and oiling the West Unit, Ukiah-Forest Boundary Section of the Ukiah-Hilgard Highway in Umatilla County. The Commission awarded the contract to the low bidder, E. H. Itschner, Molalla, at $41,234.00.

"Construction of Thornhollow Bridge over Umatilla River on Adams-Cayuse Road in Umatilla County. The Commission awarded the contract to the low bidder, Babler Brothers, Inc., Portland, at $45,019.00.

"Stone base and oiling on the Forest Boundary-Hilgard Section of the Ukiah-Hilgard Highway in Union County. The Commission awarded the contract to the low bidder, E. H. Itschner, Mollala, at $172,328.50.

"Grading and paving the North Plains Interchange Section of the Sunset Highway in Washington County. The Commission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $290,489.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving the Middleton-Yamhill County Line Section of the Pacific Highway West in Washington County. The Commission elects to accept the low bid of Fred H. Slate Company and E. C. Hall Company, Portland, in the sum of $497,258.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

(For details on all bids received, see tabulation of bids dated August 26, 1958, in the General Files in the Commission's office in Salem).

BIDS RECEIVED IN SALEM ON SEPTEMBER 9, 1958

"Fort Stevens State Park Extension in Clatsop County. The Commission awarded the contract to the low bidder, Eugene Gardens, Eugene, at $65,982.40.

"Construction of Saspal Slough Bridge on Brownsmead Loop Road in Clatsop County. The Commission elects to accept the low bid of Workman & Wilson, Canby, in the sum of $47,689.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clatsop County is received and the sum of $10,700.00 is deposited by the County.

"Construction of Nehalem River Bridge in Columbia County. The Commission awarded the contract to the low bidder, Babler Brothers, Inc., Portland at $75,805.00.

"Grade widening and oiling the North Bend Airforce Station Access Road on the Lungren County Road in Coos County. The Commission elects to accept the low bid of Robert Angell, North Bend, in the sum of $63,284.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of Crook Creek and Edson Creek Bridges in Curry County. The Commission elects to accept the low bid of Sig Andersson, Coos Bay, in the sum of $23,814.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Curry County is received and the sum of $10,600.00 is deposited by the County.

"Grading and paving Comstock-Anlauf Section of the Pacific Highway, in Douglas County. The Commission elects to accept the low bid of White Brothers Construction Company, Inc., Walla Wallas, Washington, in the sum of $270,577.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and

approval of the Bureau of Public Roads is received.

"Grading, paving, and shoulder oiling on the North Oakland Junction-Sutherlin Junction Section of the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, White Brothers Construction Company, Inc., Walla Walla, Washington, at $351,967.00.

"Santiam Junction-Suttle Lake Rock Production Project on the Santiam Highway near Hogg Butte in Jefferson and Linn Counties. The Commission rejected all bids as being too high.

"Grading and paving North Grants Pass Interchange Section of the Pacific Highway in Josephine County. The Commission awarded the contract to the low bidder, Hughes & Dodd Company and Tru-Mix Equipment Company, Medford, at $114,340.00.

"Construction and remodeling of bridges on Rough and Ready Creek-Dwight Creek Section of Redwood Highway in Josephine County, including grading, surfacing, and paving of detours and approaches. The Commission elects to accept the low bid of Peter Kiewit Sons' Company, Vancouver, Washington, in the sum of $329,936.50, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Grave Creek Bridge on Josephine County Road No. 5 at Leland in Josephine County. The Commission elects to accept the low bid of Ausland Construction Company, Grants Pass, in the sum of $22,191.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Josephine County is received and the sum of $1,250.00 is deposited by the County.

"Grading the Linn County Line-McKenzie River Section of the Pacific Highway, north of Eugene, in Lane County. The Commission elects to accept the low bid of Natt McDougall Company, Portland, in the sum of $1,126,788.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Tallman Branch and Bond Butte Overcrossings in Linn County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Company, Vancouver, Washington, at $311,314.00.

"Addition to distribution system of Highway Building electrical system in Salem, in Marion County. The Commission awarded the contract to the low bidder, Electric Corporation, Salem, at $20,940.00.

"Grading and paving 122nd Avenue-136th Avenue Section of N.E. Glisan Street, in Portland, in Multnomah County. The Commission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $113,490.60 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $14,800.00 is deposited by the County.

"Construction of Sheridan Street Overcrossing in Multnomah County. The Commission awarded the contract to the low bidder, Birkemeier Construction Company, Milwaukie, at $88,610.00.

"Construction of Porter Street Undercrossing in Multnomah County. The Commission withdrew the project prior to opening and ordered all bids returned to the bidders.

"Cape Lookout State Park Extension in Tillamook County. The Commission awarded the contract to the second low bidder, Lloyd G. Sperling, Tillamook, in the amount of $72,711.00, as the low bidder, Eugene Gardens, Eugene, qualified their bid not to accept award of contracts amounting to more than $80,000 at this letting. (The Commission awarded Eugene Gardens the Fort Stevens State Park Extension Project in Clatsop County in the amount of $65,982.40).

"Construction of two concrete box culverts on the Prairie Creek Section of the Zumwalt County Road near Enterprise in Wallowa County. The Commission elects to accept the low bid of Bechtel Brothers, La Grande, in the sum of $24,720.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $3,325.00 is deposited by the County.

(For details on all bids received see tabulation of bids, dated September 9, 1958, in the General Files in the Commission's office in Salem).

BIDS RECEIVED IN SALEM ON AUGUST 29, 1958, FOR LIABILITY INSURANCE FOR STATE HIGHWAY DEPARTMENT OFFICERS, AGENTS, AND EMPLOYEES

The Commission accepted the low bid of Ken Potts-Grabenhorst Insurance Agency, Inc., Salem, in Marion County on Alternate "A" in the sum of $10,412.00 for a three-year period. Six higher bids were received. All bids were referred to the Department of Finance and Administration to approve the award of this business to the low bidder.

(For details on all bids see tabulation of bids dated August 29, 1958, in the General Files in the Commission's Office in Salem).

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Redwood Interchange Section of the Redwood, Pacific and Williams Secondary Highways

R-27823 - Harry C. Macfarlane and Rene G. Macfarlane
Right of Way (Josephine County)
0.04 acre

September 11, 1958

Redwood Interchange Section (Cont.)

R-27824 - Ella Price Macfarlane
Right of Way (Josephine County)
1.20 acres

R-27825 - R. L. Macfarlane
Right of Way (Josephine County)
0.27 acre

R-27837 - H. A. Guertler and Meta Guertler
Right of Way (Josephine County)
0.17 acre

R-27838 - Louise Avalon Geasland
Right of Way (Josephine County)
0.05 acre

R-27840 - The Texas Company
Right of Way (Josephine County)
0.35 acre

R-27841 - A. A. Creswell and Lorena M. Creswell
Right of Way (Josephine County)
0.35 acre

R-27843 - Dale Prow and Edna I. Prow
Josephine County
Parcel No. 1: 0.81 acre for right of way
Parcel No. 2: 0.36 acre for right of way
Parcel No. 3: 1.62 acres for right of way
Parcel No. 4: 0.26 acre for right of way
Parcel No. 5: 0.02 acre for right of way

R-27844 - Rheinhold Lommatzsch and Rose Lommatzsch
Right of Way (Josephine County)
0.2 acre

R-27847 - Union Oil Company
Right of Way (Josephine County)
0.66 acre

R-27848 - Mutual Lumber Company
Right of Way (Josephine County)
0.62 acre

Albany-Judkins Point Section of the Pacific Highway

R-28784 - Richard W. Beeson and Linnie E. Beeson
Temporary easement for detour road (Lane County)
0.87 acre

R-25186 - Clara Coleman
Lane County
Parcel No. 1: 26.73 acres for right of way
Parcel No. 2: 2.7 acres for excess taking
Parcel No. 3: 3.58 acres for permit of entry
Parcel No. 4: 0.17 acre for permit of entry

R-25286 - Archie M. Reed and Naomi E. Reed
Lane County
Parcel No. 1: 17.39 acres for right of way
Parcel No. 2: 2.72 acres for right of way
Parcel No. 3: 1.0 acre for right of way
Parcel No. 4: 11.44 acres for roadbuilding materials

R-28037 - Alfred W. Jones and Winifred Jones
Right of Way (Lane County)
0.32 acre

R-25184 - Hubert F. Willoughby and Naomi Willoughby
Lane County
Parcel No. 1: 4.43 acres for right of way
Parcel No. 2: 1.81 acres for right of way
Parcel No. 3: 37.90 acres (net) for right of way
Parcel No. 4: 0.48 acre for permit of entry
Amended resolution

Old Oregon Trail Highway

R-28054 - D. E. Wolf
Roadbuilding materials (Baker County)
21.30 acres

Right-of-way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed as required in order to carry out plans for highway improvements and other purposes heretofore authorized by the Commission. After careful consideration of the proposed condemnations and in light of the information and advice sub-

mitted, together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission authorized the Chief Counsel to condemn the properties by adopting the attached resolutions relative thereto marked EXHIBITS "G-1" through "G-20", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A report was presented by the Chief Counsel on condemnation cases which have been tried in court from July 28 to September 5, 1958. The Commission accepted the report summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
July 28, 1958 to September 5, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Hauser, et al. R-25697	Clackamas	Mt. Hood	Sandy-Forest Boundary	$ 160.00	$ 160.00	$ 160.00
Hampton, et al. R-26115	Marion	Pacific East	N. Jefferson Junction	50.00	None	Judgment 50.00
Severeide, et ux. R-25576	Clackamas	Mt. Hood	Sandy-Forest Boundary	6,867.00	17,500.00	8,500.00
DeCicco, et al. R-27082-3	Multnomah	Pacific	Harbor Dr. -Barbur Blvd.	45,000.00	50,000.00	55,000.00

(For additional details, see Chief Counsel's letter, dated September 10, 1958, on report of cases tried in the General Files in the Commission office in Salem, Oregon).

The Chief Counsel also presented a report on condemnation cases which have been settled out of court since the last Commission meeting, summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

The Commission accepted the report. (For additional details, see the Chief Counsel's letter dated September 10, 1958, on Report of Cases Settled in the General Files in the Commission office in Salem, Oregon).

In compliance with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented offers which have been made to the owners of real property prior to the institution of condemnation proceedings as follows: (List of offers on following page)

September 11, 1958

Klamath Falls-West side By-pass Section of The Dalles-California Highway

R-23073 - Herbert A. Cochrane, et ux. 0.18 acre for right of way purposes. Offer of $600.00 approved by Mr. McIver August 7, 1958.

R-23134 - The California Oregon Power Company, et al. Parcel No. 1: 7,000 square feet for right of way purposes; and Parcel No. 2: 5,740 square feet for right of way purposes. Offer of $2,050.00 approved by Mr. McIver August 19, 1958.

R-23142 - Julian Eccles, et al. 0.15 acre for right of way purposes. Offer of $17,500 approved by Mr. McIver August 13, 1958.

R-27952 - Ralph W. Smith, et al. 0.15 acre for right of way purposes. Offer of $1,350.00 approved by Mr. McIver August 7, 1958.

R-27954 - R. W. Smith, et al. 0.05 acre for right of way purposes. Offer of $300.00 approved by Mr. McIver August 7, 1958.

R-27947 - Vera C. Powell, et al. 0.02 acre for slope easement. Offer of $25.00 approved by Mr. McIver August 11, 1958.

R-27956 - Wendall A. Smith, et al. 2,805 square feet for right of way purposes. Offer of $450.00 approved by Mr. McIver August 7, 1958.

R-27957 - Robert T. Nichols, et ux. 7,800 square feet for right of way purposes. Offer of $5,750.00 approved by Mr. McIver August 15, 1958.

R-27965 - Sterling Paul Jones, et al. 10,404 square feet for right of way purposes. Offer of $13,920.00 approved by Mr. McIver September 7, 1958.

R-27968 - Pearl Fikes, et vir. 5,202 square feet for right of way purposes. Offer of $6,500.00 approved by Mr. McIver August 11, 1958.

R-27988 - Metropolitan Development, Inc., et al. 1,000 square feet for right of way purposes. Offer of $150.00 approved by Mr. McIver August 11, 1958.

R-27992 - W. J. Easter, et al. 1,050 square feet for right of way purposes. Offer of $500.00 approved by Mr. McIver August 7, 1958.

Tigard-Durham Road Section of the Beaverton-Tualatin Highway

R-27853 - Millard Rosenblatt, et ux. 4,400 square feet for right of way purposes. Offer of $1,200.00 approved by Mr. McIver August 29, 1958.

R-27854 - Albert Hoffarber, et ux. 1,600 square feet for right of way purposes. Offer of $3,900.00 approved by Mr. McIver September 2, 1958.

Tigard-Durham Road Section (Cont.)

R-27859 - Thomas L. Hing, et ux. Parcel No. 1: 2,000 square feet for right of way; and Parcel No. 2: 2,200 square feet for slope easement. Offer of $3,220.00 approved by Mr. McIver, August 29, 1958.

R-27861 - R. A. Bissett, et ux. Parcel No. 1: 2,100 square feet for right of way purposes; and Parcel No. 2: 200 square feet for slope easement. Offer of $2,300.00 approved by Mr. McIver August 29, 1958.

R-27865 - Susannah Mae Harris. Parcel No. 1: 2,550 square feet for right of way purposes; and Parcel No. 2: 60 square feet for slope easement. Offer of $260.00 approved by Mr. McIver August 29, 1958.

R-27872 - Ivan E. Puller, et ux. Parcel No. 1: 16,350 square feet for right of way; and Parcel No. 2: 23,700 square feet for slope easement. Offer of $895.00 approved by Mr. McIver August 29, 1958.

R-27875 - Harry Hambach, et ux. 0.21 acre for right of way purposes. Offer of $200.00 approved by Mr. McIver August 27, 1958.

R-28097 - Harry H. Hambach, et al. 0.05 acre for right of way purposes. Offer of $400.00 approved by Mr. McIver August 21, 1958.

R-28532 - Anton Schulz, et ux. 2,450 square feet for right of way purposes. Offer of $3,240.00 approved by Mr. McIver August 29, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25307 - Fred Knox, et ux. Parcel No. 1: 14.98 acres for right of way purposes; and Parcel No. 2: 0.07 acre for right of way purposes. Offer of $22,500.00 approved by Mr. McIver August 26, 1958. An offer of $17,500.00 was originally authorized by Mr. McIver May 2, 1958. This increase in offer is due to revised appraisals.

R-25385 - Omar E. Falk, et ux. Parcel No. 1: 24.9 acres for right of way purposes; Parcel No. 2: 1.25 acres for right of way purposes; and Parcel No. 3: 1.05 acres for right of way purposes. Offer of $10,500.00 approved by Mr. McIver July 31, 1958.

R-25727 - Mabel J. Reagan, et ux. 0.89 acre for right of way purposes. Offer of $175.00 approved by Mr. McIver August 19, 1958.

R-25730 - Arch C. Wassom, et al. 18.3 acres for right of way purposes. Offer of $26,500.00 approved by Mr. McIver August 8, 1958.

R-25735 - C. Dudley Miller, Jr., et ux. 26.08 acres for right of way purposes. Offer of $20,000.00 approved by Mr. McIver August 15, 1958.

R-28063 - Mabel J. Reagan, et al. 0.8 acre for right of way purposes. Offer of $185.00 approved by Mr. McIver August 19, 1958.

Rink Creek-Myrtle Point Section of the Coos Bay-Roseburg Highway

R-24741 - Ida E. Cusix, et vir. 12.3 acres for right of way purposes. Offer of $4,400.00 approved by Mr. Chessman August 5, 1958.

R-24744 - L. W. Clinton, et al. 3.96 acres for right of way purposes. Offer of $4,400.00 approved by Mr. Chessman August 5, 1958.

R-24745 - W. L. Bell, et al. 14.08 acres for right of way purposes. Offer of $10,850.00 approved by Mr. Chessman August 19, 1958.

R-24747 - C. P. Moore, et ux. 0.14 acre for right of way purposes. Offer of $520.00 approved by Mr. Chessman August 5, 1958.

Judkins Point-Goshen Section of the Pacific Highway

R-26700 - Varian G. Mounts, et ux. 4.5 acres for right of way purposes. Offer of $2,775.00 approved by Mr. McIver August 7, 1958.

R-26701 - Minnie D. Mounts, et vir. 0.6 acre for right of way purposes. Offer of $1,775.00 approved by Mr. McIver August 7, 1958.

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23963 - James Dejmal, et al. Parcel No. 1: 1.26 acres for right of way purposes; and Parcel No. 2: 1.1 acres for right of way purposes. Offer of $800.00 approved by Mr. McIver August 18, 1958.

R-23965 - Walter Fritts, et al. 1.74 acres for right of way purposes Offer of $565.00 approved by Mr. McIver August 15, 1958.

R-26714 - Lavon Koger, et ux. 2.07 acres for right of way purposes. Offer of $16,825.00 approved by Mr. McIver August 15, 1958.

R-26721 - Elliott T. Mutch, et al. 0.01 acre for right of way purposes. Offer of $3,865.00 approved by Mr. McIver August 20, 1958.

West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway

R-24436 - Zelda Scholz, et al. 0.08 acre for right of way purposes. Offer of $100.00 approved by Mr. McIver August 22, 1958.

R-28029 - Eugene R. Brown, et al. 1,200 square feet for right of way purposes. Offer of $100.00 approved by Mr. McIver August 21, 1958.

Roosevelt Drive (Seaside) Section of the Oregon Coast Highway

R-27797 - William Buxton, et al. 0.26 acre for right of way purposes. Offer of $4,990.00 approved by Mr. Chessman August 7, 1958.

Roosevelt Drive (Seaside) Section (Cont.)

R-28123 - Esther C. Case, et al. 1,050 square feet for right of way purposes. Offer of $1,500.00 approved by Mr. Chessman August 7, 1958.

Middleton-Rex Hill Section of the Pacific Highway West

R-27601 - Silvio Dodi, et ux. 0.29 acre for right of way purposes. Offer of $395.00 approved by Mr. McIver August 21, 1958.

Bradley Park-Columbia County Line Section of the Columbia River Highway

R-28088 - Russell C. Neitzel, et al. 0.07 acre for easement for channel change. Offer of $50.00 approved by Mr. Chessman August 11, 1958.

Canyonville-Days Creek Section of the Tiller-Trail Highway

R-28015 - Parris G. Bouche, et ux. 0.43 acre for right of way purposes. Offer of $1,000.00 approved by Mr. McIver August 21, 1958.

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26099 - Dora A. Lewis, et al. Parcel No. 1: 2.4 acres for right of way purposes; and Parcel No. 2: 0.57 acre for excess taking. Offer of $150.00 approved by Mr. Chessman August 5, 1958.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-25529 - Charles H. Skinner, et ux. Parcel No. 1: 3.05 acres for right of way purposes; and Parcel No. 2: 4.03 acres for park purposes. Offer of $3,100.00 approved by Mr. Chessman August 28, 1958.

Myers Creek-Brookings Section of the Oregon Coast Highway

R-27529 - Donnia N. Eggers, et al. 7.96 acres for right of way purposes. Offer of $688.00 approved by Mr. Chessman August 19, 1958.

McKinley Moorage-Radio Station Section of the Netarts Highway

R-27559 - M. Robosky, et al. 0.08 acre for right of way purposes. Offer of $100.00 approved by Mr. Chessman August 19, 1958.

Klamath Falls-West Side By-Pass Section of The Dalles-California Highway

R-23144 - Elizabeth Jean Peterson, et al. 9,360 square feet for right of way purposes. Offer of $21,500.00 approved by Mr. McIver August 29, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25289 - Eugene Sand and Gravel Co. (co-partnership). 14.3 acres for right of way purposes. Offer of $23,000.00 approved by Mr. McIver September 9, 1958.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-28086 - Golden Rogue Plywood,Co., Inc. Parcel No. 1: 0.86 acre for right of way purposes; and Parcel No. 2: 0.62 acre for temporary easement for detour and approach road. Offer of $600.00 approved by Mr. Chessman September 10, 1958.

Elkton-Kellogg Section of the Elkton-Sutherlin Highway

R-28187 - Robert F. Duncan, et ux. 4.96 acres for right of way purposes. Offer of $1,000.00 approved by Mr. McIver September 10, 1958.

Middleton-Rex Hill Section of the Pacific Highway West

R-27628 - Frank I. Zell, et al. 0.62 acre for right of way purposes. Offer of $630.00 approved by Mr. McIver September 10, 1958.

(North Plains Interchange) Sunset Highway

R-28381 - H. W. Currin, et ux. 0.17 acre for right of way purposes. Offer of $150.00 approved by Mr. McIver September 10, 1958.

The Commission confirmed telephonic approval previously given relative to the offers.

The Chief Counsel presented and the Commission accepted a report on the following orders issued by the Public Utilities Commissioner in which the Commission had been made a party:

PUX 267: Application of the city of St. Helens for authority to construct a crossing at grade with the tracks and right of way of Spokane, Portland & Seattle Railway Company on an extension of St. Helens Street. No objection was made.

PUX 268: Application of Umatilla County Road Department, by and through its County Court, for authority to construct a crossing at grade of the tracks and right of way of Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee, near Barrett Station, in Umatilla County. No objection was made.

PUX 269: Application of the Umatilla County Road Department, by and through its County Court, for authority to construct a crossing at grade of the tracks and right of way of Oregon-Washington Railroad & Navigation

Company, Union Pacific Railroad Company, Lessee, near Bade Station in Umatilla County. No objection was made.

PUX 270: Application of Weyerhaeuser Timber Company for authority to construct a private road crossing with a Klamath County Road near Klamath Falls in Klamath County. No objection was made.

PUX 271: Application of Weyerhaeuser Timber Company for authority to construct and maintain a private road crossing with the Green Springs Highway approximately nine miles east of Pinehurst in Klamath County. The order provides that the crossing shall be constructed at the expense of the applicant and the Highway Commission shall be reimbursed for laying bituminous pavement and for installing signs along the highway. A bond of $500.00 has been deposited to guarantee payment.

PUX 272: Application of Weyerhaeuser Timber Company for authority to construct and maintain a private road crossing with the Green Springs Highway approximately 13 miles east of Pinehurst in Klamath County. The order provides that the crossing shall be constructed at the expense of the applicant and the Highway Commission shall be reimbursed for laying bituminous pavement and for installing signs along the highway. A bond of $500.00 has been deposited to guarantee payment.

PUX 273: Application of Weyerhaeuser Timber Company for authority to construct and maintain a private road crossing of the Green Springs Highway approximately 12 miles west of Keno in Klamath County. The order provides that the crossing shall be constructed at the expense of the applicant and the Highway Commission shall be reimbursed for laying bituminous pavement and for installing signs along the highway. A bond of $500.00 has been deposited to guarantee payment.

PUX 274: Application of Weyerhaeuser Timber Company for authority to construct and maintain a private road crossing with a Klamath County Road approximately two miles west of Keno in Klamath County. No objection was made.

PUX 275. Application of Weyerhaeuser Timber Company for authority to construct and maintain a private road overcrossing over the Green Springs Highway approximately 1.3 miles east of Keno. The order provides that Weyerhaeuser bear the cost of constructing the overcrossing and its maintenance, and further provides that Weyerhaeuser may be required to dismantle or reconstruct the structure to the satisfaction of the Highway Commission with provision for horizontal clearance of not less than 32 feet.

PUX 276: Application of Weyerhaeuser Timber Company for authority to construct and maintain a private road crossing with the Green Springs Highway at mile post 37.71 near Pinehurst in Klamath County. The order provides that the crossing shall be constructed at the expense of the applicant and the Highway Commission shall be reimbursed for laying bituminous pavement and for installing signs along the highway. A bond of $500.00 has been deposited to guarantee payment.

PUX 281: Application of Columbia County for authority to construct a crossing at grade with the tracks and right of way of Spokane, Portland & Seattle Railway Company approximately two miles north of Scappoose in Columbia County. No objection was made.

PUX 283: Application of Lane County for authority to make the existing private grade crossing of the Oregon Pacific and Eastern Railroad Company approximately 7 miles southeast of Cottage Grove in Lane County a public crossing to be improved and used as a connection with the Blue Mountain County Park and Lane County Road No. 238. No objection was made.

PUX 284: Application of the city of Warrenton for authority to construct a crossing at grade with the tracks of Spokane, Portland & Seattle Railway Company at its E. Ensign Avenue formerly on maps of the city as Water Street in East Warrenton in Clatsop County. No objection was made.

PUX 292: Application of Southern Pacific Company for authority to construct an industrial spur track at grade at the intersection of Cedar Street and Front Street in Coos Bay, Coos County. No objection was made.

A form of resolution was presented by the Chief Counsel for adoption by the Commission terminating a permit heretofore given to Paul and Verla Martin allowing them to remove obnoxious weeds and brush, place top soil and plant grass along the south side of the right of way of the Columbia River Highway between Highway Engineer's Stations 534+00 and 651+60,, effective December 31, 1958. He explained that the permit was granted in 1950 and that a portion of the permit was terminated by resolution in March, 1956. The permit provides that when the State decides to improve the Columbia River Highway it may terminate the permit after ninety days written notice and such improvement is now planned. The Commission approved the termination by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Extension of an agreement with the Highway Research Board by the Commission concerning a cooperative project in the study of highway laws. The Chief Counsel pointed out that the American Association of State Highway Officials has approved the study for another two years with an increase from $500.00 to $1,000 00 annually as each state's contribution. The project, he continued, has furnished much valuable information concerning highway laws, and he recommended that the agreement be continued for another two years. The Commission accepted his recommendation.

Attention was given to a proposed compromise settlement with Gibbons & Reed Company for additional compensation in connection with Contract No. 4587 for work on the Knowles Creek-Tunnel Section of the Mapleton-Richardson Road in Lane County. The Chief Counsel pointed out that the contractor originally demanded the sum of $28,599.00 and, after considerable negotiation, finally agreed to accept the sum of $15,500.00 which Lane County will pay as a county project in which the contract is being

handled by the State. The Engineer explained that the claim arose because of additional tunnel lining which was not anticipated when the contract was originally awarded. The Commission approved the compromise settlement as presented on the condition that the contractor will sign a complete release of its claim.

The Commission discussed the granting of a quitclaim deed to Umatilla County for 1.03 acres of land on the Athena-Holdman Highway near the city of Athena in Umatilla County. The Chief Counsel explained that the deed provides that the land be transferred to the County for the sum of $1.00, with the right to repurchase the property after three years for the same consideration. He also pointed out that this is the parcel of property on which a delegation at the previous meeting had requested permission to construct a sanitary fill.

As a result of the discussion the Commission unanimously approved conveying the property to Umatilla County by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

On the favorable recommendation of the Chief Counsel, the Commission accepted a quitclaim deed from the United States of America covering a portion of the relocated Willamette Highway through the Lookout Point Reservoir Project in Lane County. The Chief Counsel advised that there had been objection to some of the language regarding encumbrances in the deed but the Corps of Army Engineers has submitted a letter stating that delivery of the deed is not intended to relieve the United States from its obligation under Contract No. DA-35-026-eng-19.

The Chief Counsel commented briefly that the attorney representing the Vanport Flood cases against the State died recently and there may be some delay before the cases come to trial. He also commented that Mr. Mitchell Crew has been employed as an attorney in the Legal and Right-of-Way Division as previously authorized by the Commission.

Institution of a damage suit against four maintenance employees in the Baker area because of an accident was reported by the Chief Counsel. The accident, he stated, involved a State Highway truck and a Greyhound bus. However, it occurred while the Commission's liability insurance protecting its employees was in force and the case is being defended by the Insurance Company.

The meeting recessed at 11:50 a.m. and reconvened at 2:30 p.m. with the same persons present and participating with the exception of Commissioner Chessman who was excused.

The Engineer reported award of contracts which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he stated, have been fulfilled and he asked the Commission to confirm award of the following contracts:

(1) Construction of the Blind Slough Bridge at M. P. 3.7 on Brownsmead Loop Road, Clatsop County. Bids received July 29, 1958. Contract awarded August 1, 1958 to Richard L. Martin Company, Oswego, low bidder.

(2) Grading the Multnomah Falls-Dodson Section of Columbia River Highway, Multnomah County. Bids received June 17, 1958. Contract awarded August 1, 1958 to Fred H. Slate & E. C. Hall Company, Portland, low bidder.

(3) Grading, paving and structure on Hillsboro-Campbell Bridge Section of Hillsboro-Silverton Highway, Washington County. Bids received June 17, 1958. Contract awarded August 1, 1958 to Warren Northwest, Inc., Portland, low bidder.

(4) Grading and oiling the West Unit, McMinnville Airport-Dayton Junction Section of Three Mile Lane Highway, Yamhill County. Bids received June 17, 1958. Contract awarded August 1, 1958 to O. C. Yocom Company, McMinnville, low bidder.

(5) Paving the West Scio-Scio Section of Scio-Greens Bridge Road, Linn County. Bids received July 29, 1958. Contract awarded August 1, 1958 to Morse Brothers, Lebanon, low bidder.

(6) Stone base and oiling the Lafayette-Three Mile Lane Section of Lafayette-Three Mile Lane Road, Yamhill County. Bids received July 29, 1958. Contract awarded August 1, 1958 to O. C. Yocom Company, McMinnville, low bidder.

(7) Grading the South Fork, John Day River Section of Paulina-Logdell Road, Grant County. Bids received July 29, 1958. Contract awarded August 1, 1958 to Earl L. McNutt Company, Eugene, low bidder.

(8) Construction of Greenwood Bridge over Rickreall Creek on Greenwood County Road, Polk County. Bids received July 29, 1958. Contract awarded August 4, 1958 to Orlando C. Bennard, Portland, low bidder.

(9) Grading and surfacing Butler Bridge County Road, Lincoln County. Bids received July 29, 1958. Contract awarded August 4, 1958 to Ross Motors, Newport, low bidder.

(10) Grading and oiling Lytle Boulevard and Foothills Drive, Malheur County. Bids received July 29, 1958. Contract awarded August 4, 1958 to C. E. Leseberg, Nyssa, low bidder.

(11) Grading and stone base on Byerly Corner-West Salem Road, Polk County. Bids received July 29, 1958. Contract awarded August 4, 1958 to D. F. McKenzie, Salem, low bidder.

(12) Construction of North Albany Interchange structures on Pacific Highway, Linn County. Bids received July 10, 1958. Contract awarded August 4, 1958 to S & D Construction Company, Portland, low bidder.

(13) Construction of Gravelford Bridge over North Fork of Coquille River, Coos County. Bids received July 29, 1958. Contract awarded August 6, 1958 to Sig Andersson, North Bend, low bidder.

(14) Construction of Logsden Bridge over Siletz River on Siletz-Logsden County Road, Lincoln County. Bids received July 29, 1958. Contract awarded August 6, 1958 to Workman and Wilson, Canby, low bidder.

(15) Construction of concrete deck girder bridge over Gales Creek, Washington County. Bids received July 29, 1958. Contract awarded August 6, 1958 to R. H. Jones, Hillsboro, low bidder.

(16) Grading the Twin Buttes-Belts Road Section of Pacific Highway, Linn County. Bids received July 10, 1958. Contract awarded August 12, 1958 to Earl L. McNutt Company, Eugene, low bidder.

(17) Grading and paving Wauna-Westport Section of Columbia River Highway, Clatsop County. Bids received June 17, 1958. Contract awarded August 15, 1958 to Fred H. Slate Co. and E. C. Hall Company, Portland, low bidder.

(18) Grading and paving Seaside Section of Oregon Coast Highway, Clatsop County. Bids received June 17, 1958. Contract awarded August 15, 1958 to The United Contracting Company, Portland, low bidder.

(19) Grading and paving Harbor Drive-Lowell Street Unit, Harbor Drive-Washington County Line Section of Pacific Highway (R. H. Baldock Freeway), Multnomah County. Bids received June 17, 1958. Contract awarded August 15, 1958 to Roy L. Houck & Sons and Roy L. Houck Sons Corporation, Salem, low bidder.

(20) Construction of the Plympton Creek Bridge on Wauna-Westport Section of Columbia River Highway, Clatsop County. Bids received July 10, 1958. Contract awarded August 18, 1958 to R. H. Jones, Hillsboro, low bidder.

(21) Grading the Ontario-Idaho Line Section of Old Oregon Trail Highway, Malheur County. Bids received July 10, 1958. Contract awarded August 22, 1958 to Roy L. Houck & Sons and Roy L. Houck Sons' Corporation, Salem, low bidder.

(22) Grading and oiling the McKinley Moorage-Radio Station Section of Netarts Highway, Tillamook County. Bids received July 10, 1958. Contract awarded August 22, 1958 to Dolan Construction Company, Tillamook, low bidder.

(23) Grading, stone base and oiling the Glover-Perry Section of Old Oregon Trail Highway, Union County. Bids received July 10, 1958. Contract awarded August 22, 1958 to Morrison-Knudsen Company, Inc., Boise, Idaho, low bidder.

(24) Grading and paving the Klamath Falls Section of The Dalles-California Highway, Klamath County. Bids received July 10, 1958. Contract awarded August 29, 1958 to Rogers Construction Company, Portland, low bidder.

(25) Grading, paving and bridge construction on North Fork, Coquille River-Myrtle Point Section of the Coos Bay-Roseburg Highway, Coos County. Bids received July 29, 1958. Contract awarded August 29, 1958 to F. L. Somers, Medford, low bidder.

The Commission confirmed the contract awards as reported.

A report was submitted by the Engineer concerning requests made by a delegation from the City of Winston at the Commission meeting on August 1. The delegation, he recalled, had complained of three items. (1) Drainage on the easterly side of Old US 99. (2) Drainage on ORE42, just westerly from the junction with Old US 99. (3) Speed zone on ORE42 at the westerly limits of Winston. Concerning Item No. 1 he stated that an investigation disclosed that the runoff from roofs, driveways, sidewalks, etc. has increased and the existing culverts on Old US99 are inadequate. He recommended that more adequate pipes be installed at a cost of $4,000. Concerning the second request, the principal cause of the trouble, he stated, is the fact that the drainage westerly from the ORE42 and US99 junction has been restricted by construction of buildings and placing of inadequate drainage structures. This condition is in an area not controlled by the Highway Commission and he recommended that corrective measures be undertaken by the City of Winston. In connection with the matter of a speed zone, he pointed out that a reduced speed of 40 miles per hour outside the city was posted on June 30. The City now requests that the 40 mile per hour speed limit be reduced. Speed zoning within the City, he pointed out, comes under the jurisdiction of the State Speed Control Board and it was his understanding that they had taken action recently establishing a 35 mile per hour speed zone within the City. He also recalled that the delegation had requested a city project under the $250,000 special gas tax street fund. This request, he stated, will be handled along with other requests in a report to the Commission at a later date. The Commission approved his recommendations.

The Commission considered a report submitted by the Engineer on a request from the Coos County Court that the State improve the Golden and Silver Falls Road within the Golden and Silver Falls State Park area. The Engineer commented that according to the County's estimate, the cost to improve the road and replace a bridge below the Falls would be between $50,000 and $75,000. The road, he continued, is a county road not on the Federal-aid System and several other secondary roads in the county carry a higher priority for improvement. He mentioned particularly the Powers Highway and the Cape Arago Highway. It was his recommendation in view of these facts that the County Court be advised that the State does not have funds to participate in the project. The Commission approved the recommendation.

Because of construction activities, and to protect the traveling public, the Engineer reported that construction speed zones had been established as follows:

(1) 35 mile per hour speed zone on the East Unit, Shogren-Rowena Section of the Columbia River Highway between M.P. 72.27 and M.P. 74.74, effective August 18, 1958, at 11:30 a.m.

(2) 25 mile per hour speed zone on the 42nd Avenue-122nd Avenue Section of the Banfield Freeway in Portland, M.P. 3.10 to M.P. 8.19, effective 11:00 a.m. August 26, 1958.

The Commission confirmed the reduced speed zones.

The Commission considered items of unfinished business appearing on the Secretary's Summary, dated August 1, 1958, as follows:

(1) Request of Representative Fred Meek for construction of a museum building at Champoeg State Park: The Parks Superintendent submitted a report on this matter earlier in the day and the Commission ordered the item removed from the list of unfinished business.

(2) Letter from Senator Richard L. Neuberger regarding designation of Champoeg State Park as a national park or shrine: The Parks Superintendent submitted a report on this subject earlier in the day so the item was ordered removed from the list of unfinished business.

(3) Request of Tillamook County Court and others that the State take over as a State Park the Bayocean area between Tillamook Bay and the Pacific Ocean: A report had been submitted by the State Parks Superintendent on this matter earlier in the day so the Commission ordered the item removed from the list of unfinished business.

(4) Resolution adopted by the Legislative Highway Interim Committee recommending establishment of a State park at Unity Reservoir in Baker County and an expenditure of $25,000 for development in 1958:

As the Parks Superintendent had presented a report on this matter earlier in the day, the Commission ordered the item deleted from the list of unfinished business.

(5) Request by City of Springfield that Second and Third Streets in Springfield be designated as a couplet and added to the Federal-aid Secondary Highway System: The Engineer stated that his report on this matter is not ready due to the fact that the City apparently has plans for construction of this couplet as an urban project, and he asked that the matter be retained on the list of unfinished business until plans can be coordinated with the City. The Commission ordered the item retained on the list.

(6) Request from Coos County Court for improvement of the road at Golden and Silver Falls: A report had been submitted earlier in the day by the Engineer and the Commission ordered this item removed from the list of unfinished business.

(7) Proposed restriction of outside employment by highway employees: The Engineer recalled that at the previous Commission meeting a resolution had been approved restricting outside employment by Right-of-Way employees. He recommended that a similar resolution be adopted restricting outside engineering work by engineering employees. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The item is to be removed from the list of unfinished business.

(8) Request of Winston delegation for improved drainage facilities in the City of Winston: A report had been submitted earlier in the day by the Engineer, and the Commission ordered the item removed from the list of unfinished business.

Installation of a traffic signal at the intersection of Greenwood Avenue, US20, and East Third Street in the city of Bend was discussed. The Engineer stated that an investigation was made which indicated the need for a traffic signal. The City, he said, has agreed to pay 50 per cent of the total cost involved, which is estimated at $10,000, and to maintain and operate the signal at City expense. Upon his favorable recommendation, the Commission approved the installation.

The Commission also considered an agreement with the Southern Pacific Company covering the installation of illumination facilities at a grade crossing of its tracks with the Salmon River Highway between Sheridan and Willamina. The Engineer explained that under the terms of the agreement the cost of the installation will be shared equally by the Railroad Company and the State but the operation and maintenance of the lights will be a responsibility of the State. He recommended that the installation be made for the safety of the traveling public, at a total estimated cost of $700. The Commission approved the project on such basis.

The Commission approved increases in project authorizations on the following state highway contracts, as recommended by the Engineer:

1. Contract No. 5075 - Construction of Thomas Creek Bridge on the Klamath Falls-Lakeview Highway in Lake County, increased in the amount of $2,967.09 due to an increase in general excavation.

2. Contract No. 5068 - Anlauf Slide Correction Project on the Pacific Highway in Douglas County. An increase of $1,950 was approved because of signing, illumination, and barricades to carry the job through the winter season.

In constructing the North Plains Interchange Project on the Sunset Highway, the Engineer explained that it was necessary to construct a service road connecting with the Hillsboro-North Plains County Road. Washington County, he said, has now agreed to take over the service road as a part of its county road system. The right of way, he continued, was acquired by the State and it is now proposed to deed it to Washington County, and he so recommended. The Commission approved the transfer of the road to the County as recommended.

The Engineer requested an increase in authorization for reballasting a section of the Union Pacific Railroad tracks adjoining the Columbia River Highway between Mosier and Rowena. He explained that in the original agreement entered into with the Railroad Company the State agreed to indemnify the Railroad Company for unusual maintenance for a five-year period from the time of reconstruction. The original estimate approved by the Commission at its June meeting contemplated the cost of reballasting in the amount of $4,500. However, the Railroad Company has now stated that this cost is entirely too low and has re-estimated the cost at $35,100 for widening and raising portions of the railroad grade. A joint study was made with the Railroad Company engineers and a compromise plan was worked out involving lowering of the railroad grade, reducing the estimated cost to $20,000. He recommended approval of the revised estimate. The Commission accepted his recommendation.

The Engineer reported that the following cities and towns have submitted plans for expenditure of State Tax Street Funds accrued to them during the second half of 1957:

Dayton	$2,315.31
Dufur	1,784.15
Granite	10.22
Hines	3,980.29
Monument	783.12
North Powder	1,402.80
Yamhill	1,702.43

The cities, he continued, have complied with provisions of the law and he recommended that the plans be approved. The Commission

approved plans by adopting the attached resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered a proposed expenditure of $30,000 for construction of a maintenance headquarters building on the North Santiam Highway near the town of Detroit. The Engineer explained that in 1954 the U. S. Forest Service had granted the State a permit to use their land and buildings a short distance west of Detroit for maintenance headquarters. They now require the property for their own purposes and have asked that it be vacated by January 1, 1959. A site suitable for construction of a new headquarters has been located approximately one mile east of Detroit and adjoining the North Santiam Highway on a tract consisting of 3.3 acres acquired from Marion County. He recommended development of the site for maintenance purposes and construction of a standard masonry block building, 36' x 111' in dimension, at a total estimated cost of $30,000. The Commission approved the project as recommended.

Authority was requested by the Engineer to expend approximately $125,000 to construct a sign shop and storeroom building to be located just west of the new Sign Department Office Building in the Highway Shops area east of Salem. He pointed out that the Sign Shop working areas are no larger than they were ten years ago while the volume of work has increased by 60 per cent. The building presently used was constructed ten years ago to provide two-year temporary quarters and has deteriorated to such an extent that it should be torn down and removed. The new building would provide adequate storage space and permit the moving of supplies by fork lift trucks rather than by hand. Chairman McIver inquired as to whether the new building would be of fireproof construction. After some further discussion, the Commission approved construction of the building but instructed the Engineer to check into the feasibility of installing adequate fireproof facilities.

An additional expenditure of $9,612.50 was requested by the Engineer in connection with the purchase of an IBM Model 407 Accounting Machine. He explained that at the last Commission meeting the Commission approved purchase of certain units from the IBM Corporation, the price of the units being based on their age. The cost of the accounting machine was computed at an age of three years but it has since been determined that the machine is only one year old, the price therefore being $9,612.50 higher than originally figured. The Commission approved the additional expenditure.

The Engineer presented for the Commission's consideration a budget covering the 1959-61 biennium. He explained the budget briefly, pointing out that revenues in the amount of $195,767,429 are anticipated. Expenditures for the same period are estimated at $192,884,000. He also pointed out that the budget anticipated an unexpended balance on June 30, 1961 in the amount of $2,883,429, considerably below the safe balance of $6,000,000 deemed necessary. The budget, he continued, is based on taking advantage of only 75 per cent of available federal funds,

because of the fact that only known sources of revenues can be used in its preparation. He also pointed out that an additional $4,000,000 annually in revenues would mean that an additional $20,000,000 could be added each year to the program, or, in other words, each $4,000,000 in state funds would provide $16,000,000 in federal funds. Chairman McIver commented that maintenance costs have increased very little. The Engineer replied that maintenance costs would have decreased except for the fact that as new highway sections are constructed it is necessary to retain many of the old sections, thereby increasing the mileage to be maintained. He also commented that the Maintenance Department operates on a very efficient basis. This matter was discussed at considerable length but action was deferred until later in the session to allow further study. (On the following day the Commission approved the budget as presented.)

A tabulation showing the proposed distribution of fiscal year 1960 Federal-Aid Secondary Funds to each county was presented by the Engineer, who explained that the allocations have been made in accordance with the formula proposed by the Association of Oregon Counties and approved by the Highway Commission. Upon his favorable recommendation, the Commission approved allocations to the counties as follows:

FISCAL YEAR 1960 FAS ALLOCATION TO COUNTIES

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Baker	$ 38,047	$ 63,000
Benton	46,611	78,000
Clackamas	152,017	253,000
Clatsop	48,630	81,000
Columbia	59,318	99,000
Coos	71,690	119,000
Crook	37,485	62,000
Curry	28,272	47,000
Deschutes	49,244	82,000
Douglas	102,649	171,000
Gilliam	26,587	44,000
Grant	35,783	60,000
Harney	42,031	70,000
Hood River	39,188	65,000
Jackson	81,378	136,000
Jefferson	34,484	57,000
Josephine	50,455	84,000
Klamath	68,725	115,000
Lake	45,874	76,000
Lane	159,247	265,000
Lincoln	55,106	92,000
Linn	91,557	153,000
Malheur	78,517	131,000
Marion	128,921	215,000
Morrow	36,204	61,000

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Multnomah	$ 182,870	$ 305,000
Polk	64,846	108,000
Sherman	25,674	43,000
Tillamook	49,683	83,000
Umatilla	82,747	138,000
Union	38,416	64,000
Wallowa	35,906	60,000
Wasco	37,714	63,000
Washington	119,321	199,000
Wheeler	26,552	44,000
Yamhill	68,251	114,000
	$2,340,000	$3,900,000

Summary, Entire State - Fiscal Year 1960 Funds

Total Federal Funds	$4,751,847
Less Planning Survey (Approximately 1-1/2%)	71,847
Total for Construction	$4,680,000
County Share (50% of Total for Construction)	$2,340,000
Plus Estimated Required Match Money: State Funds	780,000
County Funds	780,000
Total County Road FAS Fund ..	$3,900,000

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on basis of rural population, and 15% on basis of total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent 60% of Total County Road FAS Fund with State and County Funds estimated to be 20% each.

A list of projects in six counties to be financed with 1960 Federal-Aid Secondary Funds was presented by the Engineer. These projects, he stated, have all been approved by the counties and he recommended that they be approved by the Commission. The Commission approved the following projects:

County	FAS Hwy. No.	Section & Description	Programmed Amount
Benton	865	Alsea River Bridge. Structure only. (Additional funds for project approved 7/31/58).	$ 37,000
Clatsop	757	Blind Slough Bridge.	$ 13,000
	757	Saspal Slough Bridge. (Additional funds for projects approved 5/8/58).	55,000

September 11, 1958

County	FAS Hwy. No.	Section & Description	Programmed Amount
Coos	252	Gravelford (North Fork Coquille River) Bridge. (Additional funds for project approved 9/12/57).	$ 69,000
Lincoln	150	Logsden (Siletz River) Bridge. (Additional funds for project approved 10/31/57).	$ 43,000
Morrow	829	North Unit, Bomber Range Road Section. (Additional funds for project approved 7/31/58).	$ 61,000
Umatilla	758	Birch Creek Section. (Additional funds for project approved 6/19/58).	$ 138,000
		TOTAL	$ 417,000

SUMMARY: FISCAL YEAR 1960 FUNDS

Available August, 1958	$3,900,000
Proposed Projects, 8/25/58	417,000
Unprogrammed Balance	$3,483,000

The Engineer exhibited a map on which he pointed out a proposal submitted by Mr. Bryce Bennett, State Highway Engineer of Idaho, for a change in the Baker-Homestead Highway downstream from Oxbow Dam. This proposal, he explained, involves the State of Idaho, Adams County, Idaho, and the Idaho Power Company, for which Mr. Bennett is acting as coordinator. The proposal provides that the Idaho Power Company shall construct a new bridge across the Snake River, about one-half mile downstream from Pine Creek, and shall construct a suitable roadway to clay pits located about three miles northeast from the proposed bridge. About two miles of road to be built by Adams County would provide for a connecting road from the clay pits to the existing Windy Ridge County Road, thus providing a more suitable roadway between the Copperfield area and Idaho points. The existing Ballards Bridge and (with the consent of the Legislature) the roadway on the left bank of the Snake River extending from the new bridge near Pine Creek to Ballards Bridge could be abandoned. The proposal as submitted does not state definitely who is to maintain the new road from Pine Creek to Ballards Bridge. On the assumption that the Highway Commission would be relieved of maintenance of the existing road from Pine Creek to Ballards Bridge, and that other details could be adjusted, the Engineer recommended that the proposal be accepted, its terms to be covered by an appropriate agreement. He also recommended that the Legal Department prepare necessary legislation to remove from the primary highway system the existing road from

Pine Creek to Ballards Bridge. The Commission accepted his recommendations and authorized negotiations on such basis. The Chief Counsel was instructed to prepare legislation as may be required.

The Commission considered and, based upon the recommendation of the Engineer, granted the request of contractor, Tom Lillebo, for an extension of time within which to complete Contract No. 4652, from July 15 to and including August 7, 1958. This contract involves construction of the Yaquina River Bridge on the Toledo-Elk City County Road in Lincoln County. Reimbursement for engineering expense and other expenses incurred by the State in connection with the work involved during the period of the extension was waived by the Commission. The action taken by the Highway Commission was based upon the recommendation of the Engineer and his report which considered but did not necessarily adopt either or any of the reasons given by the contractor in his request for such extension of time. (For details, see copy of the contractor's request and the Engineer's recommendation on file in Contract No. 4652, in the Secretary's Office in Salem).

The Engineer reported that contract Nos. 4652, 4654, 4911, 5000, 5031, 5058, 5062, 5105, 5106, 5113, 5114, 5118, 5121, 5130, 5135, 5149, 5150, 5172, 5180, 5186, 5188, 5193, 5195, 5196, 5215, 5223, 5225, 5233, 5235, 5242, and 5267 for highway construction have been completed according to the requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Out-of-State Travel Authorization was requested by the Engineer and authorized by the Commission for the following Highway personnel: Roy C. Edgerton, Research Engineer, to attend meeting of Highway Research Board Committee on Surface Drainage September 15-16, 1958, at Fort Collins, Colorado. Estimated cost at $200.

Attendance at the Annual Conference of the American Association of State Highway Officials in San Francisco, December 1 through 5, 1958, was approved for the following people: M. K. McIver, Chairman; Robert B. Chessman, Commissioner; Kenneth N. Fridley, Commissioner; W. C. Williams, State Highway Engineer; Forrest Cooper, Deputy State Highway Engineer; G. S. Paxson, Assistant State Highway Engineer; Leonard I. Lindas, Chief Counsel; C. H. Maison, Auditor, and Tom Edwards, Construction Engineer.

Gene Huntley, Director of Personnel and Public Relations, to attend the annual convention of Okanogan Cariboo Trail Association in Kelowna, B. C., September 5-6, 1958, at an estimated cost of $150. Confirmation of authority previously granted.

G. S. Paxson, Assistant State Highway Engineer, and Ivan D. Merchant, Bridge Engineer, to Spokane, Washington, August 7-8, 1958, concerning equipment to be used on the Portland-Vancouver Interstate Bridge. This is a confirmation previously authorized by telephone.

G. S. Paxson, Assistant State Highway Engineer to go to Seattle, Washington, August 26-27, 1958, to confer with the Chief Engineer of the Washington Toll Bridge Authority regarding the proposed Columbia River Bridge at Astoria, at an estimated cost of $31.70. This is also confirmation of authority previously given by telephone.

Tom Yates, Supervisor of the Data Processing Section, to attend a meeting to be conducted by IBM Corporation in San Jose, California, during September 22-26, 1958, at an estimated cost of $135.

W. C. Williams, State Highway Engineer, to attend the National Conference on Highways and Urban Development at Syracuse University in New York, October 5-9, 1958, and a session of the Test Road Advisory Committee and AASHO Transport Committee at the test road site in La Salle, Illinois, October 14-16, 1958, at an estimated cost of $580.

The Commission discussed a letter received from Robert Y. Thornton, Attorney General, regarding the attendance of assistant attorneys general at the annual meeting of the Oregon State Bar Association in Gearhart during September 24-27, 1958. The Commission approved the attendance of attorneys employed by the Highway Commission as the Chief Counsel sees fit to send.

The Engineer reported that on June 30, 1958, a survey party was making a survey in Junction City and a neon sign belonging to the Maple Leaf Motel was accidentally struck and broken by a level rod. He recommended that the owners of the motel, Mr. M. L. Christensen and Mrs. H. Christensen, be reimbursed for the cost to repair the sign which amounted to $24. The Commission approved the payment, but instructed the Engineer to present the claim to the Highway Department's insurance carrier for reimbursement.

The Commission also considered a claim submitted by the American Insurance Group for alleged damage on July 23 to a car belonging to Ingvald Nygaard. The Engineer reported that the car was apparently sprayed with green paint while crossing the Youngs Bay Bridge near Astoria on July 23, 1958. An investigation disclosed that a state maintenance crew was painting the Youngs Bay Bridge with green paint at that time and it was the Engineer's opinion that the possibility is remote that the damage could have occurred in any way other than as claimed. He recommended that the Insurance Group be reimbursed in the amount of $40, which they had paid to a commercial garage for removal of the paint and repolishing of the car. The Commission approved the payment.

A request was considered from the U. S. Air Force for permission to erect a recruiting sign on the southerly side of the right of way

of the Willamina-Salem Highway near M. P. 23.71. The Engineer stated that the type of sign complies with Oregon Laws and the proposed location and sign message have been approved. Upon his favorable recommendation, the Commission approved issuance of a permit for the sign installation.

The Commission also gave attention to a request from B. S. A. Logging Company of Brightwood, Oregon, for a permit to haul approximately 100,000 F. B. M. of down and salvage timber on solo trucks from Forest Service property over the Mt. Hood Highway from M. P. 61.30, near Barlow Creek, to the junction with the Warm Springs Highway. The Engineer pointed out that a similar request had been made in 1954 and had been granted under certain stipulated conditions. Because of the short hauling season that remains this year, the Logging Company, he stated, had requested that the permit be expedited and telephonic approval had been received from Chairman McIver and Commissioner Chessman. He requested that the action be confirmed. The Commission confirmed the granting of the permit.

The Engineer stated that he has made extensive studies of the engineering organization concerning possible changes to handle the vastly increased work load occasioned by construction of the Interstate System. It was his opinion that to properly handle the large amount of engineering caused by the construction of the Interstate System within the Portland area a new engineering office should be established at the Division Engineer level, to be located in the City of Portland, to handle all planning, location, preliminary design and construction in the Portland metropolitan area. He pointed out that no change would be made in the existing Division I as to area or in the formula of allocation of funds, and the existing Division I Office would continue to handle all matters outside of the Portland urban area, and all maintenance work in and outside of Portland as it now does. He recommended that Mr. Lloyd P. Shaw be appointed in charge of this work as Civil Engineer V, with a title of "Metropolitan Engineer". The Commission approved the Engineer's recommendation.

The Commission approved the Secretary's report on papers signed by him in behalf of the Commission during the period of July 28 through September 5, 1958.

The Commission confirmed the next regular meeting date for October 23-24 in the Conference Room of the State Highway Building in Salem. This meeting is to start at 10:00 a. m. on both days. A tentative date for the following meeting was set for December 11-12, 1958.

The Engineer reported that Mr. A. F. Parson, Division Engineer at La Grande, has called attention to the need for a "no parking" restriction on the right of way of the La Grande-North Powder Secondary Highway between M. P. 1.60 and M. P. 1.74 because a small race track established at that location has created a tendency for cars to be parked on the shoulders. He recommended that parking of vehicles be prohibited on both shoulders of the highway between the milepoints mentioned. The

Commission approved his recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and, upon the favorable recommendation of the Engineer, adopted a resolution allowing certain types of vehicles to haul loads up to 76,000 pounds and up to 60 feet in length over certain sections of state highways which have been determined as able to accommodate loads in excess of the statutory limitations without the necessity of securing special permits. The Commission adopted the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer pointed out that the Commission on April 27, 1943 and September 21, 1949, adopted a resolution designating certain highways as through-stop highways, among which were the Amity-Dayton Highway No. 155, and the Salem-Dayton Highway No. 150. Changes in the alignment of these highways, he said, necessitate changes in the resolutions designating them as through-stop highways, and he so recommended. He also recommended that a four-way stop be established at the junction of these two highways in the City of Dayton. The Commission approved the changes as recommended by adopting the attached resolutions relative thereto marked EXHIBITS "J-1" and "J-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer presented a form of bargain and sale deed conveying to Bernard I. Parent excess right of way on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County. Sale of this property, he commented, was previously authorized by the Commission for a consideration of $2,000. He asked the Commission to approve and sign the deed. The Commission approved the deeding of the property to Mr. Parent.

The Commission discussed with the Engineer problems to be presented by delegations scheduled to appear on the following day but deferred action pending appearance of the delegations.

Commissioner Fridley inquired as to when a hearing could be held concerning the proposed rerouting of US30 through the City of The Dalles. It was his opinion that a hearing should be held as soon as possible in order to resolve the final location of the highway. Chairman McIver inquired of the Engineer if the location of the route had been determined from an engineering standpoint. The Engineer replied in the affirmative. The Commission authorized the holding of a hearing in The Dalles as soon as the necessary legal requirements can be taken care of. (This hearing was conducted by Commissioner Fridley at 10:00 a.m. on October 3, 1958).

The Engineer brought to the Commission's attention that the present Secretary to the Commission, Mr. H. B. Glaisyer, is scheduled to

retire on October 31 as he will be 70 years old November 2. As the retirement of the Secretary will require the appointment of a new Secretary, it was his suggestion that the Commission take action at this time to appoint Mr. Glaisyer's successor so that the necessary personnel actions and other details can be taken care of. He recommended appointment of Mr. Floyd A. Query, who has been acting as Assistant Secretary for the past eleven years, for a three-year term, beginning November 1, 1958, at a monthly salary of $810.00. The Commission approved the appointment of Mr. Query by adopting the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Chief Counsel reported a proposed settlement of a condemnation action against A. F. Winters in the amount of $1,350.00 for property located on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County. The settlement, he continued, is not much in excess of the appraised value of the property. The Commission approved the settlement.

Commissioner Fridley inquired as to what agency is responsible for the roadway approach from the Columbia River ferry landing at Biggs to its connection with US30. He gave as his understanding that the road is not a county road and he inquired, inasmuch as it is used as the route of US97, if it should be maintained by the State. The Chief Counsel was instructed to determine the status of the road as to ownership and responsibility for maintenance.

Commissioner Fridley also inquired as to the policy of the Commission concerning construction of approaches to bridges that cross the Columbia River. The Engineer and Chairman McIver stated that the Commission in the past has made no contribution for construction of such approaches.

The Commission signed agreements and other papers as follows:

"Indentures of Access" on the following properties:

(a) Barstad property on Onion Flat-Middleton Section of Pacific Highway West, Washington County.

(b) Northwest District of the Lutheran Church, Missouri Synod, property on Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County.

(c) Gardner property on Myers Creek-Brookings Section of Oregon Coast Highway, Curry County.

(d) Richardson property on Richardson-Siuslaw River Unit of Richardson-Walton Section of Richardson-Eugene Highway, Lane County.

"Right of Way Easement" with Bureau of Reclamation covering a right of way easement on the Tunnel-Namorf Unit of the Central Oregon Highway, Malheur County.

"Release and Waiver of Restrictions of Access Use" form with Charles A. Beyer changing the access on his property from private residential to unrestricted.

"Deed" to Umatilla County 1.03 acres near city of Athena with privilege on part of State to repurchase in three years for same purchase price.

"Permit" U. S. Air Force to erect a recruiting sign along southerly side of Willamina-Salem Highway.

"Agreement" with Southern Pacific Company covering installation and illumination at a grade crossing of its tracks between Sheridan and Willamina.

"Lease Renewal" with Farmer C. Hale, et al of Noti, near the Richland-Eugene Highway in Lane County.

"Bargain and Sale Deed" for excess right of way from the former Crooch property on the Deady-Shady Section of the Pacific Highway in Douglas County in the amount of $7,000.

"Bargain and Sale Deed" for excess right of way from the Ronne property on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County in the amount of $2,000.

"Agreement" with City of Empire to install traffic signals at the intersection of Newmark Avenue and Ocean Boulevard. (Approved June 19, 1958).

"Supplemental Agreement" with Josephine County re changes to be made in the drainage plans of the Redwood Interchange on Redwood & Pacific Highways. (Approved October 31, 1957).

"Maintenance Agreement" with Clatsop County re bridge over Saspal Slough. (Approved May 8, 1958).

"Finance Agreement" with Clatsop County covering Saspal Slough Bridge on FAS Highway 757. (Approved May 8, 1958).

" Maintenance Agreement" with Josephine County covering Grave Creek (Leland) Bridge on FAS Highway 850. (Approved May 8, 1958).

"Finance Agreement" with Josephine County covering Grave Creek (Leland) Bridge on FAS Highway 850. (Approved May 8, 1958).

"Maintenance Agreement" with Curry County covering Crook Creek Bridge on FAS 876. (Approved June 19, 1958).

"Finance Agreement" with Curry County covering Crook & Edison Creek Bridges on FAS 876 and 878. (Approved June 19, 1958).

"Maintenance Agreement" with Multnomah County covering 122nd Avenue-136th Avenue Section of FAS 638. (Approved May 8, 1958).

"Finance Agreement" with Multnomah County covering 122nd Avenue-136th Avenue Section of FAS 638. (Approved May 8, 1958).

"Maintenance Agreement" with Wallowa County covering Prairie Creek Section of FAS 480. (Approved July 31, 1958).

"Finance Agreement" with Wallowa County covering Prairie Creek Section of FAS 480. (Approved July 31, 1958).

"Bargain & Sale Deed" to the Port of Brookings for a parcel of land on the Brookings-California Line Section of Oregon Coast Highway in Curry County.

"Supplemental Agreement" with the National Academy of Sciences covering the continuation of their Highway Laws Study.

The meeting adjourned at 4:10 p. m.. to reconvene on the following day at 10:00 a. m.

Salem, Oregon
September 12, 1958

The meeting of the Oregon State Highway Commission reconvened at 10:00 a. m. in Room 418, State Highway Building. The following people were present:

M. K. McIver, Chairman
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
Tom Edwards, Construction Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Assistant Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner R. B. Chessman was excused from attending.

The Commission considered the adoption of the budget for the State Highway Department for the 1959-1961 biennium, totalling $192,884,000, which had been submitted to the Commission by the Engineer on the previous day. After careful consideration the Commission adopted the budget as presented and authorized the Engineer to forward it to the Budget Division of the Department of Finance and

Administration. (For details of the budget as approved, see copy of budget filed in the Secretary's Office under the heading "Highway Department's Budgets 1958").

The Engineer requested permission to construct concrete pavement on the seven-mile section of the Pacific Highway from Albany south to Lebanon Road. He explained that he would like to let one more contract using concrete pavement to determine whether or not the contract cost of this pavement will be reduced. If the prices do not show some material decrease, it was his thought that concrete pavement should not be used in rural areas. After considerable discussion of the benefits and maintenance cost of asphalt pavement compared with concrete pavement, the Commission authorized the use of concrete pavement on this section of highway.

A delegation representing the Portland Chapter of the Associated General Contractors appeared before the Highway Commission regarding rejection of the low bid submitted by Contractor George E. Blaisdell & Son on July 10, 1958 for construction of the Bullards Bridge-Bandon Section of US101 in Coos County. The following people were present: A. H. ("Bill") Harding, Manager of AGC; Fred Slate; and J. R. Wininger; all from Portland; George Blaisdell, Jr., and Shirley Stone, Oswego; and Leo Levenson, Lawyer, Portland. Mr. Wininger acted as spokesman for the group. He stated that he represents the Associated General Contractors, which is protesting the action taken by the State Highway Commission on the rejection of bids for the grading and oiling of the Bullards Bridge-Bandon Section of the Oregon Coast Highway, Coos County, on which bids were received July 10, 1958 and on which George E. Blaisdell and Son, Portland, was the low bidder in the amount of $267,357.50. The Board of Directors of the Contractors Association, he advised, have gone on record protesting this action of the Commission. Their reasons for doing so were that since all bids were submitted in good faith and the low bid was below the Engineer's estimate, they could see no reason why the job should not be awarded to the low bidder. It was their feeling that an objection submitted by a local materialman was not sufficient reason or good policy on the part of the Commission to reject the bids. Chairman McIver advised the group that the Commission has spent considerable time on this particular project and that the specification called for in the bid is a new one which resulted in some misunderstanding between the local supplier and the Highway Department. He pointed out that a local supplier claimed that he could furnish material at a much lower price which would naturally be a great advantage to the State. The Commission, he continued, after carefully weighing all of the facts, came to the conclusion that this job should be readvertised because the reduction in price would apply not only to this contract but to future contracts and would eventually result in savings to the State. Mr. Levenson stated that he is appearing for the contractor, George E. Blaisdell and Son, who was the low bidder on this job. He pointed out that his clients take the position that they made a legitimate bid and the contract should be awarded to them, and that it is unfair to reject their bid. It was his feeling that even though the Commission has a legal right to reject the bid, a dangerous precedent would be set on future lettings as a result of this action by

the Commission. Mr. Slate spoke in behalf of the AGC. He stated that he did not believe it good policy for the Commission to open up the field to outside individuals' judgment concerning engineering practices. Changes, he said, should be made before bids are called -- at least before bids are opened. He expressed the opinion that if bids are in order, placed in good faith, and based upon the specifications as furnished, the contract should be awarded and not opened up for community or individual protest. Chairman McIver explained to the group that as a general rule the action taken in this case is not standard policy of the Commission but is very much the exception. He stated that it is the Commission's opinion that to award the contract would be wrong since there was a misunderstanding between the supplier and the engineering department. He pointed out that the Commission as custodian of public funds has the obligation of seeing that all roads are built as cheaply as possible. Mr. Stone, who is associated with George Blaisdell and Son, stated that he believed Blaisdell and Son had been hurt by the Commission's rejection of this bid. He suggested that if the Commission wanted to change its specifications then the contract should be awarded to George E. Blaisdell and Son and negotiations carried on with them if it will save the State money. Mr. Williams explained that the information which was received and which the Engineering Department did not have at the time the bids were opened indicated that the State of Oregon would be materially benefited, not only in this job but many times over in future jobs. He stated that the Commission did not act without full consultation with the engineers and that a situation such as this will not be apt to happen again. Mr. Harding concluded by thanking the Commission for the opportunity of presenting this matter.

County Judge O. E. Effenberger, Tillamook County, headed a group which appeared before the Commission regarding construction of the Garibaldi-Bay City Section of US101. Others in the group were: W. Schulmerich, County Commissioner; A. H. Tilden, County Commissioner; Charles Ross, Chairman of Roads Committee of the Chamber of Commerce; and Buford Wilkerson, Manager of Tillamook Chamber of Commerce; all from Tillamook. Judge Effenberger introduced the group and explained the need for construction of this highway section. He expressed the hope that the Commission could find some money to do this job. Mr. Ross told the Commission that it is hard to make the people of Tillamook County understand that federal monies which are being spent in large sums cannot be transferred from interstate highways to other state highways, and as a result their group is under pressure to get this construction done. Mr. Tilden asked for new construction of the road between Tillamook and Garibaldi because he feels he is jeopardizing his life and property every time he travels this section. Mr. Schulmerich stated that this road would be a great asset to Tillamook County and in its present condition development of their county is being hindered. He expressed appreciation for the work that has been done in Tillamook County and expressed hope that an early start could be made on this project. In looking over the Commission's construction program he had noticed many projects scheduled in neighboring counties and he inquired if some of these projects could not be divided up a little so they could get some relief in their area. In response to Judge Effenberger's request for a definite

answer as to when this job could be done, Chairman McIver asked the Engineer to explain the Commission's position. Mr. Williams exhibited a map of the section in question. He explained that it will cost about $3,700,000 to construct it, such amount being the entire two years' allocation for Division No. 2 in which Tillamook County is included. He pointed out that there are many other demands in that division for improvements which would cost almost twice as much money as is available, so that the Commission is very hard pressed for funds. Chairman McIver pointed out that the Commission is putting the available money where it feels it will do the most good for the greatest number of people; however, he added, the Commission will take another look at their project next December when allocation of funds will be made. In conclusion, Judge Effenberger commented that Tillamook County has a number of projects for consideration by the Commission, among which is the bridge on the Netarts Highway west of Tillamook. He said that traffic is getting quite heavy on this highway and that the bridge is very narrow and has deteriorated to the point where it may collapse within the next two or three years. Chairman McIver assured the group that the Commission will keep this project in mind.

Mr. Joe Richards, Attorney for Olsen-Johnson Equipment Company, Eugene, and Mr. Wayne Johnson, owner of Olsen-Johnson Equipment Company, appeared before the Commission regarding modification of access restrictions involving the Pauline Walton property at the northeast corner of US99 and East Broadway Avenue in Eugene. Mr. Richards pointed out on a map the property in question and explained that Olsen-Johnson Equipment Company has an option to purchase the property from Mrs. Walton, on which property it proposes to construct an office building, but the existing 12-foot access cannot be used for commercial purposes. At the present time, he stated, this access is used for ingress only as there is an access on the other side of the property that is used for egress, and it is their plan to continue to use the property in the same manner; however, it will be necessary to widen the ingress access on US99 from 12 feet to 32 feet. He pointed out that presently the Walton property is zoned for commercial use and is no longer valuable for residential purposes. He stated that the owner of the property adjoining on the east has the right to commercial access not five feet from the Walton property line. At the request of Chairman McIver, the Engineer explained that the access is restricted because of traffic hazards -- traffic volume on this highway section being in excess of 20,000 vehicles per day. The Walton property, he continued, is on a rather sharp curve and any ingress or egress movements within that curve set up a definite traffic hazard. He also recalled that the Commission paid heavy damages to acquire access rights, and he could not recommend changing it to a commercial access; however, he would be glad to investigate the access mentioned to the east of the Walton property to see if something could be worked out. Mr. Richards explained that the property owner to the east of Mrs. Walton is attempting to acquire her property since he already has commercial access. He mentioned that if the safety feature could be overcome some reasonable price could be agreed upon. Chairman McIver advised that the Engineer will take another look at the property in question and he will advise them of his findings, but that the Commission's primary concern is the safety of the traveling public.

A delegation representing the "Housewives for 42" appeared before the Commission regarding further improvement of Highway 42 (Coos Bay-Roseburg Highway). The group was composed of the following: Mrs. Paul Hammer, Co-Chairman of the "Housewives for 42"; Alice Hammer; Mrs. George Lynn, Mrs. Elden Prodie; Mrs. Gordon MacKerrow; Mrs. Harold Stemmler; and Mrs. Robert Powrie; all from Myrtle Point; B. L. Higgins, Manager, Coos County Chamber of Commerce; Bob Harrington, Manager of Port of Coos Bay; and Hon. James W. Harrison, Judge of Coos County; all from Coos Bay; and George Burr, Mayor of Coquille. Mrs. Hammer introduced Judge Harrison who is chairman of a newly formed committee in Coos County. Judge Harrison stated that the primary purpose of their appearance is to help promote Highway 42 and get it reconstructed to modern standards. He introduced the delegation and the members of the committee and advised that this new committee represents unity in the entire Coos County area and should prove that the improvement of Highway 42 is a necessity. He offered whatever assistance the County can give in regard to road problems, and stated that it is their desire to support the Commission and the State Legislature in the quest for the necessary funds to build this road. He expressed appreciation for the money that has been allocated to Highway 42 between Coquille and Myrtle Point; however, he said, they would like to see definite plans and commitments made for the continuation of the improvement of Highway 42 to Highway 99. They are aware of the movement for a route from "Winnemucca to the Sea" but would like to have Highway 42 completed into the Port of Coos Bay as the western termination of that route. He inquired as to what plans the Commission has for road improvements in their area, especially on Highway 42. Chairman McIver advised that the Commission can give them no additional information until its budget meeting in December. The Engineer pointed out that several years ago the people of Coos County gave top priority to other highway sections in their county and monies were allocated to those sections for a period of five years. That period, he continued, has two years to run so that all the money is tied up for at least two more years. Judge Harrison inquired regarding monies from bond issues which were used for construction of Highway 101. He stated it might have some effect on how much effort they would put forth in raising bonds. The Engineer gave him the information he requested. Mayor Burr said that he believed more forest products are hauled over Highway 42 than any other highway in Oregon, and he thought it unfair to the Commission that no forest funds are used. The Engineer explained that Forest Road funds can be used only on highways within the limits of a national forest, and Highway 42 cannot qualify for such funds. Judge Harrison concluded the discussion by thanking the Commission for their time.

The State Parks Superintendent brought to the Commission's attention a report on state park usage during the current year compared with the same period in 1957. He advised that there were 6,133,078 visitors to the parks in 1958 through the end of July, while for the same period last year there were 5,136,815 visitors, and that if the increase continues the State probably will entertain in excess of 10,000,000 visitors to the parks for the year 1958. He also mentioned particularly the large increase in attendance this year at Fort Stevens State Park and at

Rooster Rock State Park. This trend, he said, is also noticed in the overnight camping areas where through June 30, 1958 there were 70,356 campers whereas during the same period last year there were only 50,839, an increase of 38 per cent. The Parks Superintendent was requested to furnish the Commission a written report on the subject.

Chairman McIver inquired about the progress of the motion picture on state parks that is being made by the Travel Information Department. He was informed that the picture is in the final stages and should be finished by November.

As there was no further business to come before the Commission at this time, Chairman McIver declared the meeting adjourned at 11:50 a. m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

EXHIBITS "A" through "L"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

September 11 and 12, 1958

EXHIBIT "A"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27434 Southern Pacific Company; Alaska Junk Company (Smith)
Right of Way, S. W. Sheridan & Moody, Stas. 78-85
Option expires January 14, 1959
Deed signed from S. P. Co. July 18, 1958

2.171 acres at $15,000 per acre	$ 32,565.00	
Improvements and equipment	255,100.00	
Amount to be paid Southern Pacific Co. -chrg to R/W		$ 32,565.00
Amount to be paid Alaska Junk Company -chrg to R/W		255,100.00
TOTAL		$287,665.00
Taxes to be prorated. State's share, estimated		3,000.00
GRAND TOTAL (Estimated) - chrg to Right of Way		$290,665.00

Alaska Junk Company to furnish Quitclaim Deed.
Alaska Junk Company to have 90 day period of free rent after notice of acceptance, and may rent at $600 per mo. thereafter, with 30 day written termination notice by State or Grantor.
Southern Pacific Company reserves mineral rights.

Takes all of Alaska Junk holdings-

30515

EXHIBIT "A" (Cont)

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27090 Grant, Charles C. and Eleanor E. (Grant)
Right of Way, S. W. corner of Hood and Grover, Stas. 96-97
Option expires February 13, 1959
5,000 sq.ft. at $0.45 per sq.ft. $2,250.00
Amount to be paid owners - chrg to Right of Way $2,250.00

Entire taking -

HAMILTON STREET-SLAVIN ROAD SECTION - PACIFIC HIGHWAY WEST

27927 City of Portland (Smith)
Right of Way
Letter signed August 20, 1958
0.16 acre, permit to fill Gratis

MIDDLETON-REX HILL SECTION - PACIFIC HIGHWAY WEST

27619 Lemmer, Lizzie D. (Grothaus)
Right of Way, Stas. 588-591
Option expires January 29, 1959
0.2 acre at $500 per acre $100.00
Improvements 100.00
Damages 660.00
Amount to be paid owner - chrg to Right of Way $860.00

THINGS TO BE DONE BY THE STATE

Provide surfaced approach to r/w line 15' wide at access: 589+95, W., unrestricted.

Access controlled -

25396 Pradelt, Curt E. and Katherine (Grothaus)
Right of Way, Stas. 634-637
Option expires September 12, 1958
0.34 acre, improved $ 1,500.00
Garage, house and service station 10,000.00
Damage 3,700.00
Amount to be paid owners - chrg to Right of Way $15,200.00
1958-59 taxes to be prorated as of date of possession. Est. State's 100.00
GRAND TOTAL (Estimate) - chrg to Right of Way $15,300.00
Grantors to give possession 60 days after notice.

THINGS TO BE DONE BY THE STATE

Provide surfaced approaches to r/w line at access locations. Access: 634+35, S.; 635+60 and 636+20, 40' in width, S., unrestricted.

Access controlled -

EXHIBIT "A" (Cont)

HERMISTON SECTION - UMATILLA-STANFIELD HIGHWAY

27880 Mann, Irvin, Jr. and Peggy Lee (Chatwood)
Material Source
Option expires January 15, 1959
40 acres at $250 per acre $10,000.00
Amount to be paid owners - chrg to Material Source $10,000.00
State to assume 1958-59 taxes. Estimate 100.00
Grantors to give warranty deed subject to utility easements and Rights of Way of record.

THINGS TO BE DONE BY THE STATE

Fence and maintain S. and W. sides of property with Type 1 fence and install gate at S.E. corner, estimated cost 640.00
GRAND TOTAL (Estimate) - chrg to Material Source $10,740.00

JEROME PRAIRIE ROAD-GRANTS PASS SECTION - REDWOOD HIGHWAY

28647 Bassett, Minnie (Boehmer)
Ditch Easement, Sta. 777
Option expires February 27, 1959
0.01 acre, easement $15.00
Amount to be paid owner - chrg to Right of Way $15.00

Complete restriction of access -

28645 Trimble, Claude D. and Edith F. (Boehmer)
Right of Way, Stas. 789-791
Option expires February 26, 1959
0.20 acre at $1,000 per acre $200.00
Amount to be paid owners - chrg to Right of Way $200.00

Complete restriction of access -

28509 Brownson, Ernest L. and Carrie E. (Boehmer)
Right of Way, 1010 Hwy. 199, Sta. 791
Option expires February 26, 1959
0.004 acre $50.00
Amount to be paid owners - chrg to Right of Way $50.00

THINGS TO BE DONE BY THE STATE

Reconstruct approach at 790+48, N., if affected by construction and provide approach ramp to hwy. as needed.

Access not controlled -

EXHIBIT "A" (Cont)

JEROME PRAIRIE ROAD-GRANTS PASS SECTION - REDWOOD HIGHWAY

28511 Trimble, Claude D. and Edith F. (Boehmer)
Right of Way, Stas. 791-792
Option expires February 26, 1959
0.02 acre $100.00
Amount to be paid owners - chrg to Right of Way $100.00

THINGS TO BE DONE BY THE STATE

Reconstruct approach if affected by construction.

Access not controlled -

28609 Neathamer, Frank and Elva (Rawlins)
Right of Way, 1801 Dowell Rd., Stas. 743-748
Option expires February 27, 1959
0.20 acre at $750 per acre $150.00
Amount to be paid owners - chrg to Right of Way $150.00

Complete restriction of access -

28633 Kurkler, Everett J. and Vaye (Rawlins)
Right of Way, 1335 Hwy. 199, Stas. 753-756
Option expires February 27, 1959
0.25 acre at $800 per acre $200.00
0.05 acre, temp. ditch ease., at $400 per acre 20.00
Amount to be paid owners - chrg to Right of Way $220.00

Complete restriction of access -

REDWOOD INTERCHANGE SECTION - REDWOOD HIGHWAY

27830 Ferrell, Lloyd A. and Edna M. (Curfman)
Right of Way, Stas. LP 1357-1355
Option expires February 24, 1959
0.44 acre, 19166 sq.ft. at $0.10- per sq.ft. $1,900.00
Severance damage 600.00
Amount to be paid owners - chrg to Right of Way $2,500.00
State to assume 1958-59 taxes. Estimate 25.00
GRAND TOTAL (Estimate) - chrg to Right of Way $2,525.00

THINGS TO BE DONE BY THE STATE

Install 3" or larger pipe to S. parcel of remaining property for irrigation water.

Complete restriction of access -

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in ORS 366.395 and ORS 271.330 the State Highway Commission is authorized and empowered to convey real property owned by the State of Oregon, by and through the State Highway Commission, to other governmental bodies or political subdivisions within the State, for public purposes, when, in the opinion of the Commission, the real property is not presently needed, required or useful for highway purposes or other public uses by the State; and

WHEREAS, Umatilla County, a political subdivision of the State of Oregon, acting by and through its County Court, has requested the State Highway Commission to deed to them, for public purposes, for a period of at least three years certain real property, hereinafter more fully described, which said real property is now owned by the State Highway Commission; and

WHEREAS, the State Highway Commission is of the opinion that said real property is not needed, required or useful for highway or other state public purposes during the said three year period.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the following described real property, in the opinion of this Commission, will not be needed for highway purposes or for other state public use for a period of at least three years from the date of this resolution and may be deeded to Umatilla County, a political subdivision, for public purposes for at least three years. The said real property to be conveyed is described as follows, to wit:

> A parcel of land lying in the Southwest quarter of the Northeast quarter ($SW\frac{1}{4}$ $NE\frac{1}{4}$) of Section 22, Township 4 North, Range 34 East, W.M., Umatilla County, Oregon, the said parcel being described as follows:
>
> Beginning at a point on the Southwesterly right of way line of the Athena-Holdman Highway, said point being 30 feet distant from (when measured at right angles to) the relocated center line at Station 90+47.2; said point also being 1618.5 feet South and 2859.7 feet East of the Northwest corner of said Section 22; thence South 43° 42' West a distance of 299.5 feet to a point on the Easterly right of way line of the County Road, said road running North and South through said Section 22; thence North 1° 21' West along the said East right of way line a distance of 423.9 feet to a point on the Southerly right of way line of the Athena-Holdman Highway; thence South 46° 18' East a distance of 300.0 feet to the point of beginning, containing 1.03 acre.

EXHIBIT "B" (Cont)

2. That the Secretary of this Commission forward a duly certified copy of this resolution to the Umatilla County Court.

3. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Miscellaneous Resolution No. 218.

EXHIBIT "C"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, a stipulation dated the 20th day of November, 1950, was entered into between the parties in that certain condemnation case wherein the State of Oregon, by and through its State Highway Commission, was plaintiff and Paul Martin and Verla Martin, husband and wife, et al., were defendants, said case being Case No. 165-758 in the Circuit Court of the State of Oregon for the County of Multnomah; and

WHEREAS, pursuant to said stipulation, Paul Martin and Verla Martin (hereinafter referred to as "the permittees") were subsequently given a permit or license to go upon certain parts of the Columbia River Highway right of way for the purpose of removing noxious weeds and brush, placing top soil, and planting seed grass, which permit or license provides that when and if the State decides to improve the relocated Columbia River Highway it may, after 90 days written notice to permittees of its intention to do so, terminate said permit or license; and

WHEREAS, the State Highway Commission, by resolution dated the 2nd day of March, 1956, Miscellaneous Resolution No. 187 has heretofore terminated said permit between State Highway Engineer's Centerline Stations 519+20 and 577+00 on the north side of the said Columbia River Highway and between State Highway Engineer's Centerline Stations 519+20 and 534+00 on the south side of said highway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to landscape and otherwise improve and maintain the Columbia River Highway in the area affected by said stipulation and permits; and

WHEREAS, said permit or license requires that any notice of the termination of the same be prececed by a resolution of the Oregon State Highway Commission calling for the termination of the said permit or license;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That for the purpose of landscaping and otherwise improving and maintaining the Columbia River Highway, it is necessary that the above-referred to permit or license, granted to Paul Martin and Verla Martin, et al., to go upon the right of way of the said Columbia River Highway to remove noxious weeds, place top soil and plant seed grass be, and the same hereby is, terminated between State Highway Engineer's Centerline Stations 534+00 and 561+60 on the south side of said Columbia River Highway, effective December 31, 1958.

2. That the Chief Counsel is hereby directed to notify the permittees of this resolution by registered mail.

EXHIBIT "C" (Cont)

3. That this resolution be entered in full in the minutes and records of this Commission this 11th day of September, 1958, as Miscellaneous Resolution No. 187a.

EXHIBIT "D"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance.

"Contract No. 4652, with Tom Lillebo, for work on the Yaquina River Bridge on the Toledo-Elk City Highway in Lincoln County, completed August 7, 1958.

"Contract No. 4654, with Hamilton & Thoms, for work on the Willamette River (Springfield) Bridge on the McKenzie Highway in Lane County, completed July 31, 1958.

"Contract No. 4911, with George E. Berry, for work on the 3rd & 4th Crossings of the Wilson River Highway in Tillamook County, completed August 7, 1958.

"Contract No. 5000, with F. H. McEwen, for work on the North Jefferson Junction-North Albany Junction Bridges on the Pacific Highway in Marion and Linn Counties, completed August 2, 1958.

"Contract No. 5031, with Babler Bros., for work on the North and South Fork Scappoose Creek Bridges on the Scappoose-Pittsburg Highway in Columbia County, completed August 14, 1958.

"Contract No. 5058, with Pacific Concrete Company and Parker & Fuhrman Co., for grading and oiling on the Eckman Slough Section of the Alsea Highway in Lincoln County, completed September 4, 1958.

"Contract No. 5062, with F. L. Somers, for grading on the Windy Gap Section of the Galice County Road in Josephine County, completed August 7, 1958.

"Contract No. 5105, with Roseburg Sand & Gravel Co., for furnishing crushed material in stockpiles on the Rainrock-Blachly Section of the Siuslaw Highway in Lane County, completed August 9, 1958.

"Contract No. 5106, with Zuber Bros., for work on the Beverly Beach State Park Expansion on the Oregon Coast Highway in Lincoln County, completed August 15, 1958.

"Contract No. 5113, with James F. Turner, for work on the Corvallis Draw Span over the Willamette River on the Corvallis-Lebanon Highway in Benton and Linn Counties, completed August 12, 1958.

"Contract No. 5114, with Knight Pearcy, for roadside improvement on the Willamette River (Springfield) Bridge Section of the McKenzie Highway in Lane County, completed June 16, 1958.

EXHIBIT "D" (Cont)

"Contract No. 5118, with Richard Beshey, for furnishing crushed material in stockpiles on the Baker-Maiden Gulch Section of the Baker-Homestead Highway in Baker County, completed July 14, 1958.

"Contract No. 5121, with Barney Helser, for furnishing crushed material in stockpiles on the Long Creek-Beech Creek Summit Section of the Pendleton-John Day Highway in Grant County, completed July 25, 1958

"Contract No. 5130, with Electric Corporation, for work on the Salem Traffic Signal Installation on the Pacific Highway in Marion County, completed July 28, 1958.

"Contract No. 5135, with Henry G. Stach, for work on the Little Luckiamute River Bridge on the Polk County Road in Polk County, completed August 18, 1958.

"Contract No. 5149, with Rochat Electric, for illumination installation of the Wallace Bridge-Sheridan Section on the Salmon River Highway in Yamhill County, completed August 12, 1958.

"Contract No. 5150, with Arthur Simonsen and Co., for grading and paving on the Haines (Fourth St.) City Street Section in Baker County, completed July 31, 1958.

"Contract No. 5172, with Collins & Foss, for work on the John Day, Lewis & Clark & Nehalem River Bridge Painting on the Columbia River and Oregon Coast Highways in Clatsop and Tillamook Counties, completed July 25, 1958.

"Contract No. 5180, with Collins & Foss, for work on the Siletz and Yachats River Bridges Painting on the Oregon Coast Highway in Lincoln County, completed September 1, 1958.

"Contract No. 5186, with H. G. Wirtz, for work on the Dooley Mountain Summit Sand Shed on the Baker-Unity Highway in Baker County, completed August 5, 1958.

"Contract No. 5188, with J. C. Compton, for oiling on six highways, Division No. 3 (North) Oiling Project in Lane and Douglas Counties, completed August 23, 1958.

"Contract No. 5193, with Dayton Auto Wreckers for work on the removal of the Old Dayton Bridge over the South Yamhill River on the Three Mile Lane Highway in Yamhill County, completed August 28, 1958.

"Contract No. 5195, with Woodward & Son & Barklow, for stone base and paving on the Powers (Poplar St. and 4th Avenue) City Street Section in Coos County, completed August 12, 1958.

"Contract No. 5196, with Endicott Logging Company, for work on the Burns Maintenance Building in Harney County, completed August 28, 1958.

EXHIBIT "D" (Cont)

"Contract No. 5215, with Asphaltic Paving Company, for paving on the Chiloquin (Second Avenue) City Street Section in Klamath County, completed August 25, 1958.

"Contract No. 5223, with Woodward & Son & Barklow, for paving on the Coquille (E. 10th and N. Collier Sts.) City Street Section in Coos County, completed September 4, 1958.

"Contract No. 5225, with Buchanan Excavating Co., for slide correction on the Smith Hill Slide Section of the Pacific Highway in Josephine County, completed September 8, 1958.

"Contract No. 5233, with Morse Bros., for paving on the Albany Canal-Lebanon Junction Section of the Albany-Brownsville County Road, completed August 29, 1958.

"Contract No. 5235, with C. E. Leseberg, for stone base and oiling on the North Powder-Davis Ranch Section of the North Powder River County Road in Union County, completed August 19, 1958.

"Contract No. 5242, with J. F. Konen Construction Co., Inc., for oiling on the Flora Spur Section of the Flora Spur Road in Wallowa County, completed September 1, 1958.

"Contract No. 5267, with Central Paving Co., for stone base and paving on the Willamina (Cherry Avenue and James St.) City Street Section in Polk County, completed August 18, 1958.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 75 shall be entered in the minutes and records of the Commission as of the 11th day of September, 1958.

30565

EXHIBIT "E"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From Funds Accruing During the Second Half of 1957

Dayton.....	$ 2,315.31
Dufur.....	1,784.15
Granite.....	10.22
Hines.....	3,980.29
Monument.....	783.12
North Powder.....	1,402.80
Yamhill.....	1,702.43

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer of each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution

EXHIBIT "E" (Cont.)

approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 11th day of September, 1958.

30567

EXHIBIT "F"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, Chapter 483 of Oregon Revised Statutes, sets forth maximum limits with respect to the size and weight of vehicles or combinations of vehicles, and the number of vehicles that may be coupled together in a combination of vehicles; and

WHEREAS, under the provisions of said law the State Highway Commission is authorized to issue permits for the operation, upon state highways, of vehicles and combinations of vehicles having a size, weight and number in combination in excess of said maximum limits; and

WHEREAS, under the provisions of ORS Section 483.525, when in the judgment of the State Highway Commission any state highway, or section thereof, is capable of carrying any combination of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an overall length in excess of that authorized in subsection (4) of ORS 483.504, the Commission is authorized to so declare by resolution and to fix the maximum gross weight and length and types and classes of combinations of vehicles which may be operated thereon. Said law further provides that after such resolution is filed with the Secretary of State no permit shall be required for the operation upon such highway, or section thereof, of any combination of vehicles not exceeding the maximum gross weight and length fixed for combinations of vehicles of that type and class; and

WHEREAS, the State Highway Engineer has made investigations and studies and has compiled information and statistics relative to the strength, stability, design and alignment of all state highways;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That based upon the studies, investigations, information and statistics made and compiled by the State Highway Engineer, it is the judgment of this Commission that certain highways, or sections thereof, as set forth hereinafter, are capable of carrying combinations of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an overall length in excess of that authorized in paragraph I subsection (4) of ORS 483.504, or a number of vehicles in the combination in excess of that authorized in subsection (1) of ORS 483.508.

2. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles having an overall length not in excess of 50 feet and a combination of vehicles gross weight not in excess of 68,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group II Highways", which for

EXHIBIT "F" (Cont.)

identification is marked "Attachment A", the attached list of "Group I Highways", which for identification is marked "Attachment B", and the attached list of "Special Group I Highways", which for identification is marked "Attachment C"; provided, however, that the above maximum length provision shall not be applicable as to the types of vehicle combinations and the highways named in subsection (4) (c) of ORS 483.504.

3. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck and full trailer, or of a truck-tractor and semitrailer drawing one trailer, or of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, having an overall length not in excess of 60 feet and a combination of vehicles gross weight not in excess of 76,000 pounds, may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group I Highways", which for identification is marked "Attachment B."

4. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck-tractor and semitrailer having an overall length not in excess of 55 feet and a combination of vehicles gross weight not in excess of 74,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Special Group I Highways", which for identification is marked "Attachment C"; provided, however, that the above maximum length provision shall not be applicable as to the highways named in subsection (4) (d) of ORS 483.504.

5. That nothing contained in this resolution shall be deemed to authorize the operation of vehicles having any gross weight in excess of the applicable gross weights set forth in the tables of weights in subsection (3) and (4) of ORS 483.524, nor any gross wheel, axle or tandem axle weight in excess of that set forth in subsection (3) of ORS 583.506. Nothing contained in this resolution shall be deemed to authorize the operation of any combination of vehicles which is not properly licensed, or does not carry proper Oregon P.U.C. plates and certificates or, except as otherwise expressly provided herein, which does not comply in all respects with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

6. That the State Highway Engineer shall prepare, or have prepared, prints of a map to be issued to any person requesting the same, showing in contrasting colors the Group II Highways, the Group I Highways, and the Special Group I Highways referred to in paragraphs 2, 3, and 4 of this resolution. Upon completion, prints thereof shall be attached to the original and all copies of this resolution.

7. That the provisions of this resolution are subject to any order heretofore or hereafter made by this Commission pursuant to ORS 483.532, and the posting of any highway, section of highway, or highway structure to reduce limits of weights or dimensions shall be to that extent a modification of the weights of dimensions authorized by this resolution. This

EXHIBIT "F" (Cont.)

resolution may be changed, amended or rescinded at any time by resolution adopted by this Commission.

8. That this resolution revokes and supersedes a previous resolution of August, 1957, dealing with this subject.

9. That this resolution be entered in the minutes of this Commission as of the 11th day of September 1958, that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utility Commissioner, and the Superintendent of State Police.

OREGON STATE HIGHWAY DEPARTMENT
PERMIT DIVISION MAP

Issued pursuant to resolution adopted by State Highway Commission on September 11-12, 1958 under authority of ORS 483.525.

Subject to compliance with the Oregon Motor Transportation Code and Oregon Laws governing the operation of vehicles in all other respects, the following maximum lengths and gross weights(s) are allowed for combinations of vehicles, including load thereon, operating on the highways as indicated hereon, EXCEPT WHEN ENGAGED IN THE TRANSPORTATION OF LOGS, POLES, OR PILING

Group III — Any combination of not more than 2 vehicles — 80,000 lbs
Group I — Truck and Full Trailer or Truck Tractor and double semitrailer — 76,000 lbs
Restricted Group I — Truck Tractor and semitrailer (Semi limited to 36 ft.) — 74,000 lbs
Group II — Any combination of not more than 2 vehicles — 68,000 lbs

(a) Subject to reduced load limits posted pursuant to ORS 483.532
(b) See ORS 483.904(1)(c),(d),(e) as amended by Ch 651, Laws 1957 (Printed on reverse side)

NOTE
Each driver, chauffeur or owner of any combination of vehicles shall be responsible for determining the exact termini of any of the different colored sections of highways shown hereon by making inquiry of the Permit Division of the State Highway Department.

ATTACHMENT "D"

THE FOLLOWING EXCERPTS FROM THE STATUTES ARE APPLICABLE TO COMBINATIONS OF VEHICLES OPERATING OVER STATE HIGHWAY ROUTE NO. 86 FROM BAKER TO HOMESTEAD, OREGON AND OVER STATE HIGHWAY NO. 242 (POWERS SECONDARY HIGHWAY, COOS COUNTY) AND TO THE OPERATION OF 60-FOOT TRACTOR-SEMITRAILER COMBINATIONS OVER THE SPECIFIC HIGHWAYS NAMED.

O.R.S. 483.504. RESTRICTION ON WIDTH, HEIGHT AND LENGTH OF VEHICLES. (As amended by Chapter 621, Laws 1957, H.B. 294)

• • •

(4) No vehicle operated singly or as a unit in a combination of vehicles shall exceed a length of 35 feet, inclusive of front and rear bumpers, and no combination of vehicles, including any load thereon, shall exceed a total length of 50 feet, except that:

• • •

(c) When operating on State Highway Route Number 86 and State Highway Number 242, a combination of vehicles consisting of a truck tractor and semitrailer drawing one trailer, or a truck tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel or a motor truck and a trailer other than a house trailer may exceed a total length of 50 feet but shall not exceed a total length of 60 feet. [Notwithstanding the provisions of the resolution adopted by the Highway Commission pursuant to O.R.S. 483.525, a maximum gross weight of 76,000 pounds for such combinations is permitted on the Group III section (uncolored) of Oregon 86 and on the Group II section of State Highway Number 242 shown in green.]

(d) When operating over the Pacific Highway [Route No. U.S. 99]. The Sherman Highway. The Dalles-California Highway from its junction with the Sherman Highway to the Oregon-California State Line [U.S. 97]. The Willamette Highway [Ore. 58]. The Columbia River Highway from its junction with the Pacific Highway at Portland to the Oregon-Washington State Line [U.S. 30-730]. The Old Oregon Trail from its junction with the Columbia River Highway near Boardman to the Oregon-Idaho State Line near Nyssa, including the Ontario Spur [U.S. 30 and Ore. 201, part]. The Mt. Hood Highway from its junction with the Pacific Highway at Portland to the junction of the Warm Springs Highway near Government Camp, the Warm Springs Highway, the Madras-Prineville Highway, the Ochoco Highway from Prineville to the junction with the John Day Highway near Dayville, the John Day Highway from its junction with the Ochoco Highway to Vale, or the Central Oregon Highway from Vale to its junction with Old Oregon Trail at Cairo [U.S. 26], a combination of vehicles consisting of a truck tractor and semitrailer other than a house trailer may exceed 50 feet but shall not exceed a total length of 5[illegible] feet. [Under a resolution of the Highway Commission, adopted pursuant to authority of O.R.S. 483.525, such combinations of vehicles are limited to a maximum combined gross weight of 74,000 pounds.]

(e) Any semitrailer operated over the highways named or described in paragraph (d) of this subsection, may exceed a length of 35 feet but shall not exceed a length of 40 feet: But semitrailers over 35 feet in length shall not exceed 32 feet from the center or turning axis (kingpin) to the center of the rearmost axle, and no portion of such semitrailer or its body or load forward of the turning axis shall project to a greater distance than a 60-inch radius from the center of said turning axis.

NOTE: Material in brackets [ ] is added for the information of the industry and to clarify route descriptions.

30591

SUGGESTED TRUCK WEIGHING PROCEDURE AT OREGON STATE HIGHWAY SCALES

For the convenience of the industry as well as the scale operator it is suggested that weights be obtained in the following sequence:

(1) Weight of steering axle
(2) Entire weight of truck or tractor
(3) Entire weight of trailer (last vehicle or unit)
(4) Last axle(s) if a full trailer

Double Header combinations (trains) are to be weighed in the following sequence:

(1) Steering axle
(2) Tractor unit
(3) Drive axle(s) and last axle(s) of semitrailer
(4) Full trailer (last unit)
(5) Last axle(s) of full trailer

To aid the truck operators in spotting the axles on a scale platform the green signal light present at most scale installations will be used as follows:

(1) After weighing the steering axle the driver should proceed upon appearance of a continuous green light and should again stop when the light is turned off. This procedure would continue at each position of weighing.

(2) When the weighing is completed two flashes of the light would signify to the driver that he could proceed if desired.

If the above procedures are followed, the time element in weighing would be reduced and the driver's concentration on the proper placement of the equipment on the scale platform would be greatly relieved.

EXHIBIT "G-1"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highways shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-1" (Cont)

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highways as throughways, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highways should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways as throughways, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Redwood, Pacific, and Williams Secondary Highways and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction, improvement and maintenance of the said Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-1" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1002.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1002, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Baker-Pleasant Valley Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishement of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-2" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Baker-Pleasant Valley Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no right of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Baker-Pleasant Valley Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-2" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958 as Condemnation Resolution No. 1003.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1003, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-3"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location, of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-3" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promotes, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Deadmans Pass-Meacham Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-3" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1004.

---

*FOOTNOTE:

30601

EXHIBIT "G-4"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the savety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Middleton-Rex Hill Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-4" (Cont)

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Middleton-Rex Hill Section of the Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Middleton-Rex Hill Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, location, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1005.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1005, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-5"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tigard-Durham Road Section of the Beaverton-Tualatin Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Tigard-Durham Road Section of the Beaverton-Tualatin Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Beaverton-Tualatin Highway and all of the contiguous real property of the respective

owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Tigard-Durham Road Section of the said Beaverton-Tualatin Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1006.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1006, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-6"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-6" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Sunset Highway, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his

EXHIBIT "G-6" (Cont)

absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1007.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1007, under the heading "Real Properth Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30609

EXHIBIT "G-7"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Roosevelt Drive (Seaside) Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutues, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connecting with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-7" (Cont)

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway, and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connecting with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Roosevelt Drive (Seaside) Section of the Oregon Coast Highway will be constructed, relocated or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Roosevelt Drive (Seaside) Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of said widened and relocated Roosevelt Drive (Seaside) Section of the Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted

unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Roosevelt Drive (Seaside) Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1008.

---

*FOOTNOTE:

The names of the property owners and the detailed dsecriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1008, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-8"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Salem By-Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-8" (Cont)

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement and betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Salem By-Pass Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the said Salem By-Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "G-8" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1009.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1009, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30615

EXHIBIT "G-9"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to locate in part, relocate in part, construct and maintain the Cascade Secondary Highway and locate and construct a public way known as Airport Road; and

WHEREAS, for the purpose of locating in part, relocating in part, constructing and maintaining the said Cascade Secondary Highway and locating and constructing a public way known as Airport Road, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location in part, relocation in part, construction and maintenance of the said Cascade Secondary Highway and the location and construction of a public way known as Airport Road, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "G-9" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Cascade Secondary Highway and the public way known as Airport Road and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the location in part, relocation in part, construction and maintenance of the said Cascade Secondary Highway and the location and construction of a public way known as Airport Road and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1010.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1010, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30617

EXHIBIT "G-10"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes, including maintenance sites; and

WHEREAS, under the provisions of ORS 366.340, the State Highway Commission is specifically authorized to acquire real property for the purpose of establishing maintenance sites;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction and establishment of a maintenance site, the real property described in Exhibit "A", which Exhibit is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the establishment and construction of the maintenance site for which the said real property is deemed to be necessary, is required and is being taken in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1011.

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-11" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway, including the Curtin Traffic Interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintanance of the said Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-11" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1012.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1012, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-12"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture or roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Dwight Creek Section of the Redwood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-12" (Cont.)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Dwight Creek Section of the Redwood Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Redwood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, improvement and maintenance of the said Dwight Creek Section of the Redwood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his

EXHIBIT "G-13"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain The Dalles-Eight Mile Creek Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-13" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportion by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said The Dalles-Eight Mile Creek Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations are are noted. *

3. That the relocation, construction, improvement and maintenance of the said The Dalles-Eight Mile Creek Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-13" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1014.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1014, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-14"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Elkton-Kellogg Section of the Elkton-Sutherlin Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way of any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Elkton-Kellogg Section of the Elkton-Sutherlin Highway will be constructed, relocated or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and

maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Elkton-Kellogg Section of the Elkton-Sutherlin Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said widened and relocated Elkton-Sutherlin Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be specifically stated. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired prior to May 12, 1951.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Elkton-Kellogg Section of the Elkton-Sutherlin Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1015.

EXHIBIT "G-14" (Cont.)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1015, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30631

EXHIBIT "G-15"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated North Santiam Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the

event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation No. 1016.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1016, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-16"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, and maintain the Cascade Locks-Vierto Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the widening, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-16" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Cascade Locks-Viento Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of the said Cascade Locks-Viento Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-16" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1017.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1017, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-17"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-17" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel is general safeguarded, and the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-17" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1018.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1018, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-18"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location, of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-18" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "G-18" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1019.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1019, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30643

EXHIBIT "G-19"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of road building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of road building materials for use in connection with the construction and maintenance of highways of the state highway system; and

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "G-19" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958, as Condemnation Resolution No. 1020.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1020, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30645

EXHIBIT "G-20"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Rowena-Chenoweth Creek Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained un-

der the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Rowena-Chenoweth Creek Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's

respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Rowena-Chenoweth Creek Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein, that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "G-20" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of September, 1958 as Condemnation Resolution No. 1062.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1062, under the heading "Real Property Condemnation Resolutions", and said description, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

30649

EXHIBIT "H"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, ORS 366.205 provides that the Highway Commission shall determine and adopt the general policy and decide all questions relating to the administration of the Highway Department; and

WHEREAS, ORS 366.205 further provides that the Commission has full power to make such rules and regulations as it deems necessary for the accomplishment of the purposes of ORS Chapter 366; and

WHEREAS, in the judgment of the Commission, no full time engineering employee should accept, in addition to his position with the State, any other employment or work, part time or otherwise, involving surveying or any type of engineering within the State of Oregon since such employment or work would not be in the best interests of the public as it would bring about a division of loyalties and be in direct conflict with his full time employment by the State as a public servant.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that no full time engineering employee shall accept, in addition to his position with the State, any other employment or work, either part time or otherwise, involving surveying or engineering within the State of Oregon.

2. The Commission does hereby adopt the following rule and regulation with respect to the acceptance of outside employment by full time engineering employees, to wit:

> "No full time engineering employee shall accept, in addition to his position with the State Highway Department, any other employment or work, part time or otherwise, involving surveying or engineering within the State of Oregon."

3. That this resolution be entered in full in the books and records of the Commission this 11th day of September, 1958, as Miscellaneous Resolution No. 219.

EXHIBIT "I"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the La Grande-North Powder Secondary Highway No. 343 is a state highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on both shoulders of said highway between M.P. 1.60 and M.P. 1.74 where a race track has been established near said highway; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either shoulder of the La Grande-North Powder Secondary Highway between M.P. 1.60 and M.P. 1.74 creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of said highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 186 be entered in the minutes and records of the State Highway Commission as of the 11th day of September, 1958.

EXHIBIT "J-1"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or "through" highways or sections thereof by placing at the entrances thereto from intersecting highway signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highway or highways and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as "through-stop" highways and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, said resolution concerning the Amity-Dayton Highway No. 155, ORE 233, provided as follows:

Road No. 155 - Amity-Dayton Highway - ORE 233

Between M.P. 0.00 at Road No. 1W, Pacific Highway West, US 99W near Amity, and M.P. 7.03 at Road No. 152, Three Mile Lane Highway, ORE 233.

Exception: Traffic on Road No. 155, Amity-Dayton Highway, ORE 233, shall not stop as it intersects Road No. 152, Three Mile Lane Highway, ORE 233; and

WHEREAS, a recent change in the alignment of this highway necessitates a change in "Through Highways" Resolution No. 13 designating said highway as a "through-stop" highway and establishing a four-way stop at the junction of Amity-Dayton Highway No. 155 and the Salem-Dayton Highway No. 150 in the city of Dayton; and

WHEREAS, that portion of said "Through Highways" Resolution No. 13 should be rescinded to indicate such change,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, based upon engineering investigation and the recommendation of the State Highway Engineer, that this Commission does hereby find, declare, resolve and order as follows:

1. That that portion of "Through Highways" Resolution No. 13 pertaining to the Amity-Dayton Highway No. 155 be rescinded and that the following section of that highway be designated as a "through-stop" highway:

Between M.P. 0.00 (the Pacific Highway West, No. 1W) and M.P. 9.20 (the Salem-Dayton Highway, No. 150).

EXHIBIT "J-1" (Cont.)

Exception: All traffic southbound on the Amity-Dayton Highway shall stop before entering the intersection of the Lafayette Highway No. 154.

That in all other respects the provisions of said resolution of September 21, 1949, shall remain in full force and effect.

2. That this resolution shall be entered in the minutes and records of the Commission as of the 11th day of September, 1958, as "Through Highways" Resolution No. 13h and a duly certified copy thereof delivered to the U.S. Bureau of Public Roads, and a like copy to the county clerk of Yamhill County and to the Superintendent of the Department of State Police for their information.

30653

EXHIBIT "J-2"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or "through" highways or sections thereof by placing at the entrances thereto from intersecting highway signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highway or highways and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 27th day of April, 1943, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or "through" highways and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, said resolution concerning the Salem-Dayton Highway No. 150 provided as follows: That said highway be designated as a "through" highway from Dayton to West Salem; and

WHEREAS, a recent change in the alignment of this highway necessitates a change in said resolution adopted April 27, 1943, ("Through Highways" Resolution No. 4) designating said highway as a "through-stop" highway and the establishment of a four-way stop at the junction of Amity-Dayton Highway and the Salem-Dayton Highway in the city of Dayton; and

WHEREAS, said resolution should be revised to indicate such change,

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED, based upon engineering investigation and the recommendation of the State Highway Engineer, that this Commission does hereby find, declare, resolve, and order as follows:

1. That that portion of "Through Highways" Resolution No. 4 pertaining to the Salem-Dayton Highway No. 150 be rescinded and that this highway be redesignated as a "through-stop" highway as follows:

Between M.P. 0.63 (the Three Mile Lane Highway No. 152) and M.P. 20.45 (the Willamina-Salem Highway No. 30).

Exception: All traffic on the Salem-Dayton Highway shall stop before entering the Amity-Dayton Highway No. 155.

That in all other respects the provisions of said resolution of April 27, 1943, shall remain in full force and effect.

2. That this resolution shall be entered in the minutes and records of the Commission as of the 11th day of September, 1958, as "Through

EXHIBIT "J-2" (Cont.)

Highways" Resolution 4b and a duly certified copy thereof delivered to the U.S. Bureau of Public Roads and a like copy to the county clerks of Polk and Yamhill Counties, and to the Superintendent of the Department of State Police for their information.

EXHIBIT "K-1"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Tualatin River Bridge Section of the Scholls Highway in Washington County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Tualatin River Bridge Section of the Scholls Highway, beginning at Highway Engineer's Station 28+50, north of the Tualatin River and extending in a southerly direction to Highway Engineer's Station 47+00, south of said river, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1188), and the date of July, 1958, (Right of Way Map No. 8B-10-7 dated July, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of non access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 11th day of September, 1958, as Survey Resolution No. 182.

EXHIBIT "K-2"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the North Yamhill River Section of the Pacific Highway West in Yamhill County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the North Yamhill River Section of the Pacific Highway West, beginning at Highway Engineer's Station 62+792 west of the North Yamhill River and extending in an easterly direction to Highway Engineer's Station 94+00, east of said river, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1192, and the date of August, 1958, (Right of Way Map No. 5B-8-15 dated July, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over said survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Pacific Highway West was designated as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly

known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned highway section shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 11th day of September, 1958, as Survey Resolution No. 183.

---

* FOOTNOTE:

The maps mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 183, under the heading "Resolutions Adopting Surveys" and said maps by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-3"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the routes and locations of:

1. Cascade Locks-Viento Section of the Columbia River Highway in Hood River County.

2. Coburg Road-Pacific Freeway Junction Section of the Eugene-Springfield Highway in Lane County.

and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Cascade Locks-Viento Section of the Columbia River Highway, beginning at Highway Engineer's Station 197+22, a short distance east of the town of Cascade Locks, and extending in an easterly direction to Highway Engineer's Station 786+00 near Viento Park, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1197 and the date of September, 1958, (Right of Way Map No. 6B-35-5,6,7 dated August, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1b. That the survey of the Coburg Road-Pacific Freeway Junction Section of the Eugene-Springfield Highway, beginning at Highway Engineer's Station 36+00 at an intersection with Country Club Road and extending in an easterly direction to Highway Engineer's Station 150+00 approximately one mile east of Garden Way Road, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1220, and the date of September, 1958, (Right of Way Map No. 7B-31-20 dated May, 1955, and Right of Way Map No. 1A-13-22, dated September, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the engineer hereby is directed to file and preserve the same in the

EXHIBIT "K-3" (Cont.)

records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over said surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary rights of way pursuant to the normal and approved method for construction of complete access controlled highways.

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Columbia River Highway was designated as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 11th day of September, 1958, as Survey Resolution No. 184.

---

*FOOTNOTE:

The maps mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 184, under the heading "Resolutions Adopting Surveys" and said maps by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-4"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the routes and locations of:

1. Hillsdale-Barbur Boulevard Section of the Beaverton-Hillsdale Highway in Multnomah County.

2. Hamilton Street-Slavin Road Section of the Pacific Highway West in Multnomah County.

3. McMinnville Junction-Three Mile Lane Section of the Salmon River Highway in Yamhill County.

and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Hillsdale-Barbur Boulevard Section of the Beaverton-Hillsdale Highway, beginning at Highway Engineer's Station 9+85, and extending in an easterly direction to the intersection of Pacific Highway West (S. W. Barbur Boulevard) together with the map, which for identification purposes bears Sketch Map File 1R-3-1204, and the date of May, 1958 (Right of Way Maps Nos. 6B-10-12 and 7B-32-11 dated December, 1943 and May, 1955) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1b. That the survey of the Hamilton Street-Slavin Road Section of the Pacific Highway West, beginning at the intersection of the Beaverton-Hillsdale Highway and extending in a northerly direction to Highway Engineer's Station 58+02.1 at the intersection of S. W. Barbur Boulevard and S. W. Condor Street in the city of Portland, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1204 and the date of May, 1958

EXHIBIT "K-4" (Cont.)

(Right of Way Maps Nos. 6B-10-12 and 7B-32-11 dated December, 1943 and May, 1955) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

1c. That the survey of the McMinnville Junction-Three Mile Lane Section of the Salmon River Highway, beginning at Highway Engineer's Station 579+73.44 a short distance west of the intersection of the Salmon River Highway and Pacific Highway West, and extending in an easterly direction to Highway Engineer's Station 694+81.74 at an intersection with the Three Mile Lane Highway, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1206, and the date of September, 1958, (Right of Way Map No. 8B-10-6 dated July, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of limited access controlled highways.

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Pacific Highway West and the said Salmon River Highway were designated as "Throughways" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned state highway sections shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 11th day of September, 1958, as Survey Resolution No. 185.

EXHIBIT "L"

Minutes of September 11 and 12, 1958

RESOLUTION

WHEREAS, ORS 366.135 authorizes and requires the State Highway Commission to appoint a Secretary; and

WHEREAS, H. B. Glaisyer, presently Secretary, has submitted his resignation effective October 31, 1958; and

WHEREAS, it is necessary to appoint his successor at the present time in order to insure uninterrupted conduct of the business of the Highway Commission; and

WHEREAS, Mr. Floyd A. Query is at present Assistant Secretary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. That Floyd A. Query is hereby appointed as Secretary for the Highway Commission to serve in such capacity for a term of three years, said appointment to become effective and said term of three years to commence on November 1, 1958.

2. That the salary to be paid to Mr. Floyd A. Query is hereby fixed by the Commission in the sum of $810.00 per month, subject to confirmation by the Department of Finance and Administration.

3. That, in addition to the salary which shall be paid to Mr. Floyd A. Query, he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

4. That this resolution be entered in the minutes and records of the Commission as Miscellaneous Resolution No. 222 this 11th day of September, 1958.

Salem, Oregon
October 23, 1958

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Conference Room of the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Mr. C. H. Armstrong, Parks Superintendent, was excused because of illness.

The Commission approved the minutes for the meeting held September 11 and 12, 1958.

The Assistant State Parks Superintendent stated that Mr. Armstrong had undergone an operation in a local hospital and is recovering rapidly. He also reported on the following park matters:

1. Request of Multnomah County that Government Island be designated as a state park: Development of Government Island as a recreational area, the Assistant Parks Superintendent stated, has been carefully investigated and although the use of the area would be considerable it would be mostly for the benefit of local people; also, the area would be costly to develop. In view of these facts it was his recommendation approved by the Commission that no consideration be given at this time to development of Government Island.

2. Renewal of concession lease with Mr. and Mrs. J. L. Campbell for operation of the Silver Falls State Park Lodge: The operation of the concession, the Assistant Superintendent stated, has been performed in a satisfactory manner and he recommended that the Commission approve extension of the agreement for operation for the year 1959. The Commission accepted his recommendation.

3. Adoption of budget for the State Parks Division for the year 1959: The Assistant Parks Superintendent called attention to some increases in administration, supervision, and maintenance, but he also pointed out that attendance had increased in much greater proportion. He called attention to proposed increases in overnight camping facilities and other major developments in several state parks including Rooster Rock Park, Unity Reservoir, Farewell Bend, and Owyhee Reservoir. A question was raised

as to whether $100,000 which had been authorized for expenditure by the Commission in 1958 had been included or excluded from the proposed total of $1,820,000. Action was deferred until the following day to clear up this matter. (On the following day the Assistant Superintendent reported that the item of $100,000 had been removed from the 1959 budget and added to the 1958 expenditures. The Commission thereupon approved the budget as presented). In discussing the parks budget Chairman McIver commented that it appears wise to spend more money on the development of existing park areas with a reduced expenditure for the acquisition of new sites.

Mr. George Henderson, member of the Travel Advisory Committee, appeared before the Commission concerning adoption of a budget for the Travel Information Division for the year 1959: The Committee, he stated, has worked the proposed budget over in considerable detail. He pointed out that advertising emphasis has been placed in the areas which have proven to provide the greatest number of tourists for the State of Oregon. Increasing use of television is also being made. Because of the general rise in cost for advertising media it now requires approximately 14 per cent additional funds to provide the same advertising impact as was secured in 1956. Of the total increase in budget above the 1958 figure, he pointed out that $44,000 is caused by an increase in costs and $50,000 has been added because of the Oregon Centennial Year. It was his opinion that increased advertising will increase highway gas tax revenues by encouraging people to travel in Oregon. He also commented that advertising competition for tourist traffic is increasing from other areas within and outside of the United States. He presented to the Commission details of the proposed budget and answered questions concerning it. After careful consideration the Commission approved the budget in the amount of $400,000 as presented. Chairman McIver expressed the Commission's appreciation to Mr. Henderson and the other members of the Committee for their conscientious work in the travel department and in parks matters.

4. Progress report on matters considered by the State Parks Advisory Committee: The Assistant Parks Superintendent commented briefly on matters which had been considered. He mentioned particularly the meeting to be held with them on November 14 at which time the D.A.R. and other societies will most likely submit their ideas on the establishment of Champoeg State Park as a national shrine or park. At this meeting it is also planned to discuss the construction of a fireproof museum building in Champoeg Park. Concerning the change of name from "Oswald West State Park" to the original name of "Short Sand Beach State Park", he stated that the Advisory Committee had indicated that they did not favor the change. A proposal by Mr. Hubert O. Jenkins to make a study of the interpretive and educational program possibilities in Oregon state parks was also discussed but the Committee decided to postpone the proposal for the present. Progress of acquiring lands in the Columbia Gorge was also discussed with the members of the Columbia Gorge Commission but no action was taken on acquisition or continuance of the funds provided for acquisition of areas in the Gorge. Action was deferred until the November 14 meeting. Concerning the state parks budget for 1959, the Assistant Parks Superintendent reported that the Parks Advisory Committee had unanimously approved it and had also approved the Parks Superintendent's proposed procedure of acquiring land

for Loeb State Park The Commission accepted the report as presented by the Assistant Superintendent.

5. Application to the federal government for approximately eight acres of land on the peninsula between the highway and Yaquina Head Lighthouse three miles north of Newport in Lincoln County: Confirmation of the application was requested by the Assistant Parks Superintendent who pointed out that the matter had been discussed on October 1 with Commissioners Chessman and Fridley. The site proposed provides a fine view of the shore and the ocean. An abandoned building, formerly used by the federal government as a radio station, is located on the land and is in good condition. To provide a serviceable road into the area it will be necessary to widen it and make other improvements which he estimated would cost $7,000. Under the recreation act property may be obtained from the federal government for approximately 50 per cent of the appraised value if approved by federal authorities. The appraised value is not definitely known at this time. The Commission confirmed authority to make application for acquisition of the area.

6. Request of Tillamook Rock Lighthouse Association that Tillamook Rock be designated as a state park: The Rock, he explained, is approximately $1\frac{1}{2}$ miles from the shore at a point approximately 3 miles north of the Cannon Beach area or about 4 miles south and west of Seaside. The lighthouse was installed in 1881 and was recently abandoned by the Coast Guard as being too expensive to maintain for the value furnished to shipping. Tillamook Rock is practically inaccessible for tourists with any degree of safety and he estimated that providing a light on the Rock would cost not less than $10,000 per year. No action was taken pending appearance of a delegation interested in the lighthouse. (The delegation did not appear at this meeting).

7. Installation of an information sign in Fort Stevens State Park regarding the Peter Iredale wreck: It is planned to install a sign where the park road enters the beach area near the Peter Iredale wreck. Wording for the sign, the Assistant Parks Superintendent continued, has been approved by the Oregon Historical Society. Commissioner Chessman commented that a portion of the old Peter Iredale wreck may be dangerous and he inquired as to the responsibility of the State Highway Commission in the matter. The Assistant Parks Superintendent was instructed to follow up on this matter. The Commission also approved the sign.

8. Proposed acquisition of 30 acres of land for overnight camping area between Winchester Bay and Reedsport: The proposed land, the Assistant Parks Superintendent stated, is satisfactory for overnight camping purposes and is badly needed in the area. Construction of camping facilities, he continued, is not feasible in the Umpqua Lighthouse State Park because of the steep hillside. It was his opinion that the property could be acquired for $8,000 or less and he requested authority to secure options. The Commission authorized the securing of options to purchase the property.

9. Proposed acquisition of 440 acres of timber land from the Bureau of Land Management under the recreational act: This property, the Assistant Parks Superintendent stated, is timber land upstream from Loeb State Park on the Chetco River in Curry County and contains an extensive grove of Redwood trees. It was his opinion that the area may be obtained for park purposes

for approximately 30 per cent of the appraised value of the land. The value of the timber, he stated, is approximately $111,600, but he felt that a 100 per cent discount would be justified as the property is to be acquired for park purposes and the application for the area will be made on that basis. The Commission approved the application.

10. Expansion of Collier State Park in Klamath County: The Assistant Parks Superintendent recalled that the Commission had approved purchase of land north of the original area, west of Spring Creek, and on the east side of the highway adjoining the park. In examining the area it has been found that an additional twenty acres on either side of Spring Creek and north of the land recently purchased can be acquired at a price of $5,000. This land is very desirable for park purposes and will be needed in the not too distant future; also, it is land which is valuable for home sites and, as such, the estimated value is approximately $13,000. Upon his favorable recommendation the Commission approved purchase of the land from Anna Biehn, Pearl Foster, Freida Biehn, and Marvin Lucas at the price of $5,000.

11. Request from Columbia Gorge Commission for an additional $50,000 for purchase of land in the Columbia Gorge, and $8,000 for salary and expenses of the executive Secretary for the biennium beginning July 1, 1959: The Assistant Parks Superintendent pointed out that of the original $50,000 allocated for acquiring property in the gorge, the Gorge Commission as of September 30, 1958, had expended $26,687. Negotiations which are in progress may result in the expenditure of approximately $11,000 additional funds in the next few months. It was his understanding that if additional funds are allocated it will be necessary to secure affirmative action by the State Legislature. The Gorge Commission, he continued, has been most cooperative, and have been economical in their recommendations for purchase of lands. Also, their executive secretary has been very useful in exploring problems relative to proposed purchases. Chairman McIver inquired if the State Parks Advisory Committee has made a recommendation on this matter. The Assistant Parks Superintendent stated that although the matter had been presented to them they had not yet made any definite recommendation. The Commission instructed that the request be referred to the Parks Advisory Committee with the request that they study the over-all parks picture in the Gorge area and submit their recommendation to the Commission.

12. Request of Representative R. E. Groener of Milwaukie for a study of state park possibilities in Clackamas County: The Assistant Parks Superintendent stated that the study could be conducted with the present forces available to the Parks Department and he so recommended. The Commission approved the study.

13. Request of the Oregon State Board of Aeronautics to defer construction of a fence between the used portion of Nehalem Bay State Park and the plane landing strip: The Assistant Parks Superintendent explained that construction of the fence is required of the Board of Aeronautics under terms of an agreement recently entered into. Park use is not considerable at the present time, but it was his opinion that usage would increase to such an extent that construction of the fence should be undertaken not later than March 1, 1960, and he recommended that this delay be allowed. The Commission approved his recommendation.

14. Request of Nehalem Bay Expansion Association that the name of "Short Sand Beach State Park" be restored to the area now known as "Oswald West State Park": This matter, the Assistant Parks Superintendent stated, was discussed with the Advisory Committee and it was their opinion that no change should be made and he so recommended. The Commission accepted the recommendation.

15. Report on operation of Honeyman State Park bathhouse: The Assistant Parks Superintendent called attention to the fact that prior to 1957 the bathhouse had been operated at a loss. 1957 showed a small profit, whereas the 1958 season showed a loss of $6.95. 10,016 swimmers used the facility in 1958. The Commission accepted the report.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Property Manager's monthly report showing rental receipts for the month of August in the amount of $7,021.35 and for September in the amount of $9,408.31 was presented by the Right of Way Engineer. He also submitted a report showing miscellaneous sales in the amount of $36,308.50 made since the last Commission meeting. The Commission accepted the reports.

Authority was requested by the Right of Way Engineer to offer for public sale the following parcels of right of way which are no longer needed for highway purposes:

a. 0.35 acre of the former Kelly property, File 21406, on the Goshen Divide Section of the Pacific Highway in Lane County for a minimum consideration of $1,000. See EXHIBIT "B-1".

b. 1.0 acre of the former George property, File 9084, on the Tampico-Lewisville Section of the Pacific Highway West in Benton County for a minimum consideration of $400.

c. 5,775 square feet of the former Prince property, File 25497, located in Gold Beach on the Oregon Coast Highway in Curry County for a minimum consideration of $5,000. See EXHIBIT "B-2".

d. Lots 21 to 28 inclusive, Block 11, Files 7824 and 7825, of the Bunker Hill Addition to Marshfield along the Oregon Coast Highway in Coos County for a minimum consideration of $1,000. See EXHIBIT "B-3".

e. 0.78 acre of the former Fennimore property, File 8515, on the Silverton-Pine Tree Corner Section of the Cascade Highway near Silverton in Marion County for a minimum consideration of $250.

f. 2.84 acres of the former Dower property, File 23419, on the McMinnville-Dayton Junction Section of the Three Mile Lane Highway in Yamhill County for a minimum consideration of $1,000. See EXHIBIT "B-4".

The Right of Way Engineer commented that the minimum values represent fair market values for the properties. The Commission authorized sale of the properties and thereupon adopted the attached resolutions relative thereto marked EXHIBITS "B-1" through "B-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Confirmation of previous telephonic approval to pay the U. S. Forest Service the sum of $2,096 for timber removed from Forest Service property on the Crescent Lake Junction-The Dalles-California Highway Junction Section of the Willamette Highway in Klamath County was requested by the Right of Way Engineer. He explained that in highway construction through forest lands it is a normal requirement of the Forest Service that the State pay for the value of timber removed from right of way. The timber was sold by the State and he recommended that the Forest Service be reimbursed in the sum of $2,096. The Commission approved the payment.

Conveyance to the Oregon State Fish Commission of 1.76 acres of excess property on the Cascade Locks-Viento Section of the Columbia River Highway in Hood River County was presented by the Right of Way Engineer. The property is no longer needed for highway purposes and is fulfillment of a right of way obligation under File 51934. Following his favorable recommendation, the Commission approved transfer of the property for consideration of $1.00.

Consideration was given to a water line easement from Oregon Pulp & Paper Company allowing the placement of a reservoir and pipeline to be used in servicing Beverly Beach State Park. The reservoir and the pipe line are located on property owned by Oregon Pulp & Paper Company and the easement covers a period of ten years beginning September 11, 1958. The Commission approved the easement.

The Commission considered and upon the favorable recommendation of the Right of Way Engineer accepted a grant of right of way from the Bonneville Power Administration conveying the right to cross a Bonneville power line easement on the Valley Junction-Wallace Bridge Section of the Salmon River Highway in Polk County. The easement, the Right of Way Engineer stated, does not involve any consideration.

The Right of Way Engineer recommended and the Commission approved granting of a revocable permit to Mr. Kuck for livestock passage on right of way acquired under File 20409 on The Dalles-Eight Mile Creek Section of the The Dalles-California Highway in Wasco County.

The Commission also considered and following the favorable recommendation of the Right of Way Engineer approved granting of a dike easement to the Stillwell Drainage District on highway right of way on the McKinley

Moorage-Radio Station Section of the Netarts Highway in Tillamook County. The Right of Way Engineer stated that the easement will not damage the highway.

A request from the City of Vale to use a parcel of highway property in the city was presented by the Right of Way Engineer. The property involved lies at the westerly junction of the one-way street grid on the Central Oregon Highway within the city limits of Vale and is approximately 40 feet wide and 100 feet long. The city wishes to develop a small roadside rest area. As the property has no value to the State he recommended that it be deeded to the City of Vale with the stipulation that it be used for public purposes only and if the city decides to discontinue such use the title would revert to the State. The Commission approved the transaction by adopting the attached resolution relative thereto Marked EXHIBIT "O", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Sale of 0.36 acre of excess property formerly owned by Elspes on the T.H. Banfield Expressway, Portland, was presented by the Right of Way Engineer. Halsey Development, Inc., who own adjoining property, wish to acquire the state parcel and he recommended that it be sold to them for the sum of $360 which is fair market value for the land. The Commission approved the sale.

Changes in location of existing points of access were presented by the Right of Way Engineer. He explained that in each instance no additional access is being granted, simply a change in location for convenience of the property owner and safety of the traveling public. Upon his favorable recommendation, the Commission approved the following Indentures of Access:

a. Woollett property, File 18873, on the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County.

b. Brandt property, File 26320, on the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway in Yamhill County.

Attention was given to a proposed easement to the California-Pacific Utilities Company to allow a power line crossing on the Hilgard-La Grande Section of the Old Oregon Trail Highway in Union County. The Right of Way Engineer explained that the proposed easement does not allow any access to the highway and he recommended that it be granted. The Commission accepted his recommendation.

The Chief Counsel requested authority to acquire by condemnation if necessary the following properties that are needed as right of way in connection with various highway improvements or for other purposes and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Grants Pass-Rock Point Section of the Pacific Highway

R-26888 - Walter E. Lewis, Jr., and Mary B. Lewis
Right of Way (Josephine County)
0.02 acre

Grants Pass-Rock Point Section (Cont.)

R-27111 - Carmen J. Rumbaugh and Joy V. Rumbaugh
Josephine County
Parcel No. 1: 0.02 acre for right of way
Parcel No. 2: 0.02 acre for right of way

R-27116 - Ernest F. Calhoun, Jennie Calhoun and Bertha Calhoun
Right of Way (Josephine County)
5.95 acres

R-27119 - Walter B. Holm and Rigmor L. Holm
Right of Way (Josephine County)
1.88 acres

R-27120 - Walter S. Yordan and Harriet E. Yordan
Right of Way (Josephine County)
2.08 acres

R-27122 - C. F. Bernet and Frances Bernet
Right of Way (Josephine County)
0.8 acre

R-27125 - Charles N. Farber and Charles Q. Farber, et al.
Right of Way (Josephine County)
0.84 acre (net)

R-27128 - Marjorie R. Child
Right of Way (Josephine County)
5.36 acres

R-27130 - Donald B. Kempf and Erma L. Kempf
Right of Way (Josephine County)
1.90 acres

R-27131 - Harley L. Reynolds and Della M. Reynolds
Josephine County
Parcel No. 1: 3.72 acres for right of way
Parcel No. 2: 0.05 acre for excess taking
Parcel No. 3: 0.05 acre for slope easement

R-27144 - Cecil A. Elliott and Hazel F. Elliott
Right of Way (Josephine County)
0.74 acre

R-27147 - George S. Kincaid and Alta F. Kincaid
Right of Way (Josephine County)
1.0 acre

R-27208 - William Chester Jackson
Josephine County
Parcel No. 1: 7.72 acres for right of way
Parcel No. 2: 0.44 acre for excess taking

Grants Pass-Rock Point Section (Cont.)

R-27213 - Glenn L. Simpson and Metta Z. Simpson
Right of Way (Josephine County)
1.04 acres

R-27220 - Robert J. Mundell and Phoebe A. Mundell
Jackson County
Parcel No. 1: 8.6 acres for right of way
Parcel No. 2: 0.12 acre for permanent easement for access road

R-27222 - Victor I. Richey and Mattie Richey
Right of Way (Jackson County)
2.56 acres

R-27226 - Ada Belle Hill Estate
Jackson County
Parcel No. 1: 1.26 acres for right of way
Parcel No. 2: 1.57 acres (net) for right of way

R-27227 - William C. Rice and Ruth M. Rice
Right of Way (Jackson County)
0.58 acre

R-27233 - Ada Belle Hill Estate
Right of Way (Jackson County)
3.68 acres

R-27236 - Nellie Mouw and Neil Mouw
Right of Way (Jackson County)
0.70 acre

R-27239 - Oscar N. Nelson
Right of Way (Jackson County)
1.60 acres (net)

R-27245 - Claude E. Palmer
Jackson County
Parcel No. 1: 11.7 acres for right of way
Parcel No. 2: 6.8 acres for right of way

R-27246 - Freeman F. Higginbotham and June Higginbotham
Right of Way (Jackson County)
4.5 acres

R-27247 - Russell P. Grimes and Mary E. Grimes
Right of Way (Jackson County)
2.33 acres

R-27248 - Charles C. Richmond and Emma B. Richmond
Right of Way (Jackson County)
11.7 acres

Grants Pass-Rock Point Section (Cont.)

R-27252 - Joe Allison and Opal Ruth Allison
Right of Way (Jackson County)
1.4 acres

R-27255 - Henry G. Corbin and Florence A. Corbin
Jackson County
Parcel No. 1: 16.1 acres for right of way
Parcel No. 2: 1.7 acres for right of way

R-27259 - Richard H. Long and Genora Long
Right of Way (Jackson County)
3.8 acres

R-27439 - Henry Karl Ladewig
Right of Way (Jackson County)
1.8 acres

R-28823 - Phil B. Buck and Lois Buck
Right of Way (Jackson County)
0.54 acre

Ontario-Snake River Section of the Old Oregon Trail Highway

R-26716 - Ruth Elva Anders and John H. Anders
Malheur County
Parcel No. 1: 0.92 acre for right of way
Parcel No. 2: 1.82 acres for excess taking

Deadmans Pass-Meacham Section of the Old Oregon Trail Highway

R-28712 - Alfred F. Cunha and Alta Cunha
Right of Way (Umatilla County)
0.01 acre

R-28818 - Martha Lavadour Kirk
Right of Way (Umatilla County)
6.02 acres

R-28819 - Eric C. Schroeder
Right of Way (Umatilla County)
1.5 acres

R-28871 - Art Lindberg
Right of Way (Umatilla County)
0.7 acre

R-28873 - Carl Engdahl and Sadie Engdahl
Right of Way (Umatilla County)
1.9 acres

The Dalles-Eight Mile Creek Section of The Dalles-California Highway

R-20405 - Mildred Bettingen
Right of Way (Wasco County)
6.58 acres (net)

R-20408 - John L. McClaskey and Elsie McClaskey
Wasco County
Parcel No. 1: 15.5 acres for right of way
Parcel No. 2: 0.20 acre for permit of entry
Amended resolution to eliminate taking of 0.4 acre previously authorized, and to include frontage road clause and construction item.

R-26058 - William E. Davis and Grace Davis
Wasco County
Parcel No. 1: 11.0 acres (net) for right of way
Parcel No. 2: 0.4 acre for right of way

R-26059 - Raymond B. Pearcy and W. E. Davis, et al.
Right of Way (Wasco County)
9.47 acres

R-28822 - Ernest A. Kuck
Wasco County
Parcel No. 1: 0.34 acre for temporary easement for detour road.
Parcel No. 2: 0.27 acre for temporary easement for detour road.
Parcel No. 3: 0.4 acre for temporary easement for detour road.

R-28825 - William E. Davis and Grace Davis
Right of Way (Wasco County)
0.14 acre (net)

R-28844 - Dielschneider Equipment Company
Right of Way (Wasco County)
0.57 acre

North Yamhill River Section of the Pacific Highway West

R-28593 - Marvin N. Reese and Alta S. Reese
Right of Way (Yamhill County)
1.6 acres

Mosier-The Dalles Section of the Columbia River Highway

R-28219 - Sam A. Tindall and Boyd Tindall
Right of Way (Wasco County)
3.30 acres

October 23, 1958

Mosier-The Dalles Section (Cont.)

R-28221 - Harvey Machine Company, Inc.
Permanent Easement for Channel Change
(Wasco County)
1.38 acres

Wilderville-Grants Pass Section of the Redwood Highway

R-28516 - S. H. & W. Lumber Company
Right of Way (Josephine County)
0.32 acre

R-28634 - Louis F. Fickbohm and Beatrice M. Fickbohm
Josephine County
Parcel No. 1: 0.26 acre for right of way
Parcel No. 2: 0.05 acre for permanent easement for construction of a ditch

R-28832 - Charles K. Arrants and Alma Cleo Arrants
Scale Site (Josephine County)
0.14 acre

R-28833 - Charles E. Whittier and Jane F. Whittier
Scale Site (Josephine County)
0.13 acre

Middleton-Rex Hill Section of the Pacific Highway West

R-28568 - G. L. Wesling and Alice Wesling
Right of Way (Washington County)
0.55 acre

Albany-Judkins Point Section of the Pacific Highway

R-28562 - Melvin Francis Taylor and Dorothy Rose Taylor
Right of Way (Lane County)
0.02 acre

L-3045 (R-27330) - F. T. Glaser
Linn County
Parcel No. 1: 14.22 acres for right of way
Parcel No. 2: 70.63 acres (net) for right of way
Parcel No. 3: 2.55 acres (net) for right of way
Parcel No. 4: 1.68 acres (net) for right of way
Parcel No. 5: 0.8 acre (net) for right of way
Parcel No. 6: 3.81 acres (net) for channel change easement
Parcel No. 7: 1.55 acres (net) for channel change easement
Amended resolution to include permit of entry

Baker-Pleasant Valley Section of the Old Oregon Trail Highway

R-28055 - Anna Hempe, et al.
Baker County
Parcel No. 1: 23.27 acres (net) for right of way
Parcel No. 2: 1.47 acres (net) for right of way
Parcel No. 3: 0.21 acre (net) for excess taking
Parcel No. 4: 0.32 acre for easement for irrigation ditch
Parcel No. 5: 0.51 acre for easement for channel change
Parcel No. 6: 0.17 acre for permit of entry
Amended resolution to revise descriptions and eliminate Parcel No. 7 previously authorized

R-28056 - Frances M. Troy, et ux.
Baker County
Parcel No. 1: 22.68 acres for right of way
Parcel No. 2: 16.1 acres for right of way
Parcel No. 3: 0.32 acre for easement for channel change
Parcel No. 4: 0.6 acre for permit of entry
Amended resolution to revise descriptions

R-28059 - C. A. Brown
Baker County
Parcel No. 1: 8.87 acres for right of way
Parcel No. 2: 0.09 acre for right of way
Amended resolution to revise descriptions

Redwood Interchange Section of the Redwood, Pacific and Williams Secondary Highways

R-27843 - Dale Prow and Edna I. Prow
Josephine County
Parcel No. 1: 0.81 acre for right of way
Parcel No. 2: 0.36 acre for right of way
Parcel No. 3: 1.62 acres for right of way
Parcel No. 4: 0.26 acre for right of way
Parcel No. 5: 0.02 acre for right of way
Amended resolution to change access provisions

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway

R-23313 - Hampton C. Platt and Pollyanna Platt
Right of Way (Josephine County)
2,120 square feet

Sunset Highway (Highlands Interchange)

R-28943 - Wilbur F. Preble and Fay Boyer Preble
Right of Way (Multnomah County)
127,220 square feet

Sunset Highway (Cont.)

R-28948 - A. Victor Rosenfeld and Betty C. Rosenfeld
Right of Way (Multnomah County)
1.75 acres

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23112 - Ray Bruce and Vera Bruce
Right of Way (Klamath County)
200 square feet

R-28939 - William E. Henderson and Maxine J. Henderson
Right of Way (Klamath County)
750 square feet

R-28940 - Robert A. Moore and Andrella M. Moore
Right of Way (Klamath County)
1,000 square feet

R-28941 - John D. Adams
Right of Way (Klamath County)
1,000 square feet

R-28942 - LeRoy Brown and Bessie L. Brown
Right of Way (Klamath County)
1,060 square feet

McMinnville-Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway

L-3084 (R-23413) - R. Kenneth Nissen
Right of Way (Yamhill County)
6.7 acres
Amended resolution to change location of farm crossing

L-3103 (R-23411) - J. J. Ewan, et al.
Right of Way (Yamhill County)
6.1 acres for right of way
Amended resolution to change access provisions

Valley Junction-Sheridan Section of the Salmon River Highway

L-3041 (R-26207) - D. D. Willis, et al.
Polk County
Parcel No. 1: 7.5 acres for right of way
Parcel No. 2: 1.13 acres for excess taking
Amended resolution to change access provisions

Butte Creek-Service Creek Section of the John Day Highway

R-28953 - Kinzua Lumber Company
Permanent Easement (Wheeler County)
0.05 acre

Valley Junction-Sheridan Section of the Salmon River Highway

R-28859 - Wesley E. Shenk and Evelyn M. Shenk
Right of Way (Polk County)
0.34 acre

Wilderville-Grants Pass Section of the Redwood Highway

R-28646 - Orville Stevenson and Anna P. Stevenson
Josephine County
Parcel No. 1: 0.12 acre for right of way purposes
Parcel No. 2: 0.33 acre for right of way purposes

Hayesville Junction-Wilsonville Junction of the Pacific Highway

R-28839 - Phillip E. Yergen
Wayside Rest Area (Clackamas County)
3.48 acres

Right of way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the property listed is required in order to carry out plans for highway improvements and other purposes heretofore authorized by the Commission. After careful consideration of the proposed condemnations and in light of the information and advice submitted together with the general knowledge of the members of the Commission concerning the projects involved and the properties involved, the Commission authorized the Chief Counsel to condemn the properties by adopting the attached resolutions relative thereto marked EXHIBITS "J-1" through "J-20" which resolutions by this reference are made a part hereto with like effect as though extended in full herein

---

A report on condemnation cases and other cases which have been tried in court from September 12 to October 21, 1958, was also presented by the Chief Counsel. The Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
September 12 to October 21, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-2869 R-25403 Church Extension Plan, et al.	Clackamas	Mt. Hood	Sandy-Forest Boundary	$ 3,730	$ 10,000	$10,000
L-3032 R-27549 Harvey S. Crook, et al.	Curry	Oregon Coast	Myers Creek-Brookings	4,430	27,200	19,300

October 23, 1958

Case	County	Highway	Section	State's Offer	Amount of Settlement
Peterson, et al. R-23144	Klamath	The Dalles-California	Klamath Falls-West Side By Pass	$21,500	$22,350

(For additional details see the Chief Counsel's letter dated October 21 on report of cases settled in the General Files in the Commission office in Salem, Oregon).

A brief oral report was presented by the Chief Counsel concerning the status of court cases which are pending. He mentioned the Stumbo case on the Pacific Highway in Douglas County, the Vanport case in Portland, and commented briefly that the attorney prosecuting the case had recently died. Concerning the case of Logue and Miller in Rufus, along the Columbia River Highway in Sherman County, it was his opinion that the case could be settled out of court. He also reported that Mr. Franklin Ford had instituted legal proceedings against the Highway Department due to alleged negligence by the operator of a state power grader that Mr. Ford ran into. The Commission accepted the report.

The Commission considered and accepted a list of offers which have been offered, or will be offered, to the owners of real property needed for highway purposes prior to the institution of condemnation proceedings. Offers were approved as follows:

Middleton-Rex Hill Section of the Pacific Highway West

R-27605 - Lillie May Board, et vir. 0.02 acre for right of way purposes. Offer of $340.00 approved by Mr. McIver September 19, 1958.

R-27607 - J. A. Chausse, et al. 2.07 acres for right of way purposes. Offer of $2,120.00 approved by Mr. McIver September 18, 1958.

R-27610 - Edna M. Beitey, et ux. Parcel No. 1: 3.10 acres for right of way purposes and Parcel No. 2: 0.09 acre for right of way purposes. Offer of $3,740.00 approved by Mr. McIver September 24, 1958.

R-27614 - Ludwig Gimm, et al. 1.19 acres for right of way purposes. Offer of $1,900.00 approved by Mr. McIver September 24, 1958.

R-27618 - Howard S. Watmore, et al. 0.46 acre for right of way purposes. Offer of $2,450.00 approved by Mr. McIver September 30, 1958.

R-27625 - Fred H. Graue, et ux. 1.85 acres for right of way purposes. Offer of $6,150.00 approved by Mr. McIver September 19, 1958.

Middleton-Rex Hill Section (Cont.)

R-27626 - Marie E. Hoefs, et al. 0.81 acre for right of way purposes. Offer of $6,950.00 approved by Mr. McIver September 30, 1958.

R-27627 - Calvin G. Henry, et ux. 0.31 acre for right of way purposes. Offer of $310.00 approved by Mr. McIver September 18, 1958.

R-27628 - Frank I. Zell, et al. 0.62 acre for right of way purposes. Offer of $630.00 approved by Mr. McIver September 10, 1958.

R-27630 - Warren C. Liebig, et al. 0.41 acre for right of way purposes. Offer of $650.00 approved by Mr. McIver October 1, 1958.

R-27631 - Mildred S. Parduhn, et al. 0.55 acre for right of way purposes. Offer of $4,900.00 approved by Mr. McIver October 2, 1958.

R-27636 - Williams C. Hoover, et al. Parcel No. 1: 0.62 acre for right of way purposes and Parcel No. 2: 0.05 acre for right of way purposes. Offer of $3,840.00 approved by Mr. McIver September 24, 1958.

R-27697 - Ray Collings, et al. 1.43 acres for right of way purposes. Offer of $2,050.00 approved by Mr. McIver October 1, 1958.

R-27914 - Frank C. Davis, et ux. 0.13 acre for right of way purposes. Offer of $250.00 approved by Mr. McIver October 1, 1958.

Elkton-Kellogg Section of the Elkton-Sutherlin Highway

R-28176 & R-28177 - Carl O. Moore, et al. Parcel No. 1: 0.98 acre for right of way purposes and Parcel No. 2: 2.95 acres for right of way purposes. Offer of $1,830.00 approved by Mr. McIver October 2, 1958.

R-28182 - Shirley Baimbridge, et al. Parcel No. 1: 5.35 acres for right of way purposes and Parcel No. 2: 1.06 acres for easement for channel change. Offer of $1,000.00 approved by Mr. McIver September 18, 1958.

R-28186 - William Cheever, et al. 2.82 acres for right of way purposes. Offer of $750.00 approved by Mr. McIver October 1, 1958.

R-28187 - Robert F. Duncan, et ux. 4.96 acres for right of way purposes Offer of $1,000.00 approved by Mr. McIver September 10, 1958.

R-28188 - William Henry Baimbridge, et ux. Parcel No. 1: 11.96 acres for right of way purposes; Parcel No. 2: 1.45 acres for easement for approach road; and Parcel No. 3: 0.43 acre for easement for approach road. Offer of $3,575.00 approved by Mr. McIver September 18, 1958.

R-28189 - John W. Gorman, et al. Parcel No. 1: 18.42 acres for right of way purposes and Parcel No. 2: 2.95 acres for right of way purposes. Offer of $5,515.00 approved by Mr. McIver September 26, 1958.

R-28805 - Carl O. Moore, et al. 5.29 acres for right of way purposes. Offer of $3,000.00 approved by Mr. McIver September 29, 1958.

Redwood Interchange Section of the Redwood, Pacific and Williams Secondary Highways

R-27823 - Harry C. Macfarlane, et ux. 0.04 acre for right of way purposes. Offer of $1,250.00 approved by Mr. McIver September 16, 1958.

R-27824 - Ella Price Macfarlane, et al. 1.20 acres for right of way purposes. Offer of $17,500.00 approved by Mr. McIver October 6, 1958.

R-27825 - R. L. Macfarlane, et al. 0.27 acre for right of way purposes. Offer of $3,500.00 approved by Mr. McIver September 26, 1958.

R-27841 - A. A. Creswell, et al. 0.35 acre for right of way purposes. Offer of $33,780.00 approved by Mr. McIver September 22, 1958.

R-27843 - Dale Prow, et al. Parcel No. 1: 0.81 acre for right of way purposes; Parcel No. 2: 0.36 acre for right of way purposes; Parcel No. 3: 1.62 acres for right of way purposes; Parcel No. 4: 0.26 acre for right of way purposes; and Parcel No. 5: 0.02 acre for right of way purposes. Offer of $98,480.00 approved by Mr. McIver October 9, 1958.

R-27847 - Union Oil Company of California. 0.66 acre for right of way purposes. Offer of $13,200.00 approved by Mr. McIver October 8, 1958.

R-27848 - Chapman Lumber Company, et al. 0.62 acre for right of way purposes. Offer of $2,480.00 approved by Mr. McIver October 2, 1958.

R-28003 - Manfred F. Metzger, et al. 0.45 acre for right of way purposes. Offer of $9,800.00 approved by Mr. McIver September 16, 1958.

Sunset Highway (North Plains Interchange)

R-28132 - J. E. Tapp, et ux. 0.46 acre for right of way purposes. Offer of $170.00 approved by Mr. McIver September 23, 1958.

R-28156 - General Petroleum Corporation, et al. 3,892 square feet for right of way purposes. Offer of $14,700.00 approved by Mr. McIver September 19, 1958.

R-28157 - L. M. Loos, et ux. Parcel No. 1: 2,190 square feet for right of way purposes and Parcel No. 2: 1,820 square feet for right of way purposes. Offer of $1,000.00 approved by Mr. McIver September 23, 1958.

R-28158 - Lottie M. Schneringer, et al. Parcel No. 1: 600 square feet for right of way purposes; Parcel No. 2: 0.97 acre for right of way purposes; and Parcel No. 3: 1,537 square feet for right of way purposes. Offer of $1,350.00 approved by Mr. McIver September 23, 1958.

R-28159 - Eunice F. Hicks, et al. Parcel No. 1: 4,110 square feet for right of way purposes; and Parcel No. 2: 6,260 square feet for right of way purposes. Offer of $2,460.00 approved by Mr. McIver September 23, 1958.

Sunset Highway (Cont.)

R-28381 - H. W. Currin, et ux. 0.17 acre for right of way purposes. Offer of $150.00 approved by Mr. McIver September 10, 1958.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-25530 - Alma F. Russell, et vir. Parcel No. 1: 3.95 acres for right of way purposes and Parcel No. 2: 5.90 acres for park purposes. Offer of $13,350.00 approved by Mr. Chessman September 16, 1958.

R-28086 - Golden Rogue Plywood Co., Inc. Parcel No. 1: 0.86 acre for right of way purposes and Parcel No. 2: 0.62 acre for temporary construction easement. Offer of $600.00 approved by Mr. Chessman September 10, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25186 - Clara Coleman, et al. Parcel No. 1: 26.73 acres for right of way purposes; Parcel No. 2: 2.7 acres for excess taking; Parcel No. 3: 3.58 acres for permit of entry; and Parcel No. 4: 0.17 acre for permit of entry. Offer of $8,275.00 approved by Mr. McIver October 9, 1958.

R-25286 - Archie M. Reed, et ux. Parcel No. 1: 17.39 acres for right of way purposes; Parcel No. 2: 2.72 acres for right of way purposes; Parcel No. 3: 1.00 acre for right of way purposes; and Parcel No. 4: 11.44 acres for right of way purposes. Offer of $22,000.00 approved by Mr. McIver October 15, 1958.

R-25289 - Eugene Sand and Gravel Company. 14.3 acres for right of way purposes. Offer of $23,000.00 approved by Mr. McIver September 9, 1958.

Goble-St. Helens Section of the Columbia River Highway

R-10835 - Rosa F. Howard, et al. 0.21 acre for right of way purposes. Offer of $10,100.00 approved by Mr. Chessman October 2, 1958.

R-26398 - Michael Dean Neer, et al. 0.47 acre for right of way purposes. Offer of $8,620.00 approved by Mr. Chessman October 2, 1958.

R-26402 - John Rupprath, et ux. 0.14 acre for right of way purposes. Offer of $11,500.00 approved by Mr. Chessman October 14, 1958.

Pacific Highway (Curtin Interchange)

R-28506 - O. D. McAllister, et al. 1.83 acres for right of way purposes. Offer of $3,500.00 approved by Mr. McIver September 24, 1958.

Medford Section of the Pacific Highway

R-28272 - Earl Zundell, et al. 0.52 acre for maintenance site. Offer of $1,500.00 approved by Mr. McIver October 17, 1958.

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26625 - Ernest J. Wehner, et al. Parcel No. 1: 0.96 acre for right of way purposes; Parcel No. 2: 0.17 acre for right of way purposes; Parcel No. 3: 0.35 acre for right of way purposes; and Parcel No. 4: 3,375 square feet for right of way purposes. Offer of $6,150.00 approved by Mr. Chessman October 3, 1958.

Dwight Creek Section of the Redwood Highway

R-28522 - Theodore R. Webb, et al. 0.73 acre for right of way purposes. Offer of $730.00 approved by Mr. McIver September 26, 1958.

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23144 - Elizabeth Jean Peterson, et al. 9,360 square feet for right of way purposes. Offer of $21,500.00 approved by Mr. McIver August 29, 1958.

The Commission's action confirmed telephonic approval previously given relative to the offers.

A written report was presented by the Chief Counsel concerning orders issued by the Public Utilities Commissioner regarding railroad crossing matters in which the Highway Commission has been made a party. These orders have been summarized as follows:

PUX 185: Application of Union Pacific Railroad Company for authority to maintain existing tracks and to construct an additional spur track across Earl Street in the City of Madras. This crossing is not under the jurisdiction of the Highway Commission and no objection was made to the issuance of a proper order.

PUX 234: Southern Pacific train speeds within the city limits of the City of Medford. Original order, October 23, 1957, and supplemental order issued September 25, 1958. Neither of these orders affects speeds at crossings in which the Highway Commission has an interest in Medford.

PUX 278: Application of the City of Phoenix for authority to construct a crossing at grade with the tracks and right of way of Southern Pacific Company in Phoenix. This crossing is not on a city street under jurisdiction of the Highway Commission and no objection was made.

PUX 280: Application of Inman-Poulsen Timber Corporation for authority to construct a private road crossing across Lincoln County Road No. 608. This crossing is on a county road not under jurisdiction of the Highway Commission and no objection was made.

PUX 282: Application of Polk County for authority to alter and change the location of crossing at grade of the tracks and right of way of Southern Pacific Railroad on Polk County Road No. 654 at or near Ballston. This crossing is on a county road not under jurisdiction of the Highway Commission and no objection was made.

PUX 287: Klamath Falls By-Pass Overcrossing project. This matter arose upon the application of the State Highway Commission to construct

an overcrossing structure over and above the tracks and right of way of Southern Pacific Company on a revised location of The Dalles-California Highway. (Order No. 36254 issued September 18, 1958.) This overcrossing is located near the northerly end of the Klamath Falls By-Pass Section. The order was issued in accordance with the application filed by the Highway Commission.

The Chief Counsel recommended and the Commission approved a one-step increase from $550 per month to $575 per month for Mr. Robert A. Holland, an attorney, effective November 1, 1958. He commented that Mr. Holland had been promoted to the job of overseeing the preparation and filing of all complaints in condemnation cases and has been doing a very creditable job.

The Commission discussed with the Engineer and the Chief Counsel damages to the properties owned by A. V. Rosenfeld and Wilbur F. Preble on the Highlands Interchange Section of the Sunset Highway in Multnomah County. The Engineer stated that highway construction in the narrow canyon section appeared to be responsible for a slide situation. The area has moved approximately 18 inches and the property owners have been advised to vacate their properties. He pointed out that a delegation is scheduled to appear before the Commission concerning this matter on the following day. The Chief Counsel stated that it appears that condemnation proceedings may have to be instituted as the damaged parties are basing their claims for settlement on cost, which provides a considerably higher figure than the basis of market value used by the State. He also commented that the two property owners have insurance which may cover them in this instance and negotiations may be necessary with the insurance carriers. Action was deferred pending the appearance of the delegation. (When the delegation appeared the Commission made no commitment but advised them that their problem would be carefully considered.)

Consideration was given to a form of resolution conveying to Sam, Verda, Aaron, and Verna Ropp a parcel of land near the westerly right of way line of the Albany Airport Secondary Highway in Linn County. The Chief Counsel explained that the land had been acquired from the Ropps for road building materials and the deed had provided, among other things, that the property revert to the Ropps when the road building materials have been exhausted and the property is no longer needed for highway purposes. These conditions now exist, he stated, and he recommended that the property be conveyed to them. The Commission approved his recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "N", which resolution by this reference is made a part hereof with like effect as though extended in full herein. In connection with this transaction the Chief Counsel asked authority, which the Commission granted, to hold up transmittal of the deed to the Ropps until they have lowered a culvert in a satisfactory manner.

An oral report was presented by the Chief Counsel concerning the status of the approach road to the Columbia River Ferry at Biggs on U. S. 97. Investigation of this matter disclosed that the 800 foot section of the

road adjoining the state highway is owned by the U.S. Army Engineers who have granted an easement to Sherman County. The County is to maintain the 800 foot section and the balance of the approach road to the ferry slip is to be maintained by the operator of the ferry. The Commission accepted the report and took no further action.

The Commission considered utility adjustment agreements with the California-Oregon Power Company, the Oregon Water Corporation and the California-Pacific Utilities Company on the Klamath Falls Section of The Dalles-California Highway in Klamath County. The Chief Counsel explained that these agreements are necessary in construction of the Klamath Falls By-Pass Section and he recommended that they be approved. The Commission approved the agreements.

Consideration was given to a claim made by Roy A. Dunn for damage to his property on the Little Nestucca Secondary Highway in Tillamook County because of a land slide. The Chief Counsel stated that the contractor had taken material from an area beyond the area outlined by the survey stakes. Subsequently, a slide occurred due to heavy rainfall. After negotiation, Mr. Dunn agreed to accept the sum of $3,000 in lieu of removing the slide material from his property and has also agreed to give a complete release for further damage claims. Upon the Chief Counsel's favorable recommendation the Commission approved the settlement of the claim as outlined.

A request was considered from Fred W. Calef, City Attorney for the City of Independence, that the Commission consent to extending the city limits of the City of Independence to include a portion of the Monmouth-Independence Highway. The Chief Counsel commented that the city made the request so that the area can be patrolled by the city police. The Commission approved the request by adopting the attached resolution marked Exhibit "P".

The meeting was recessed at 12:00 noon and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

The Commission discussed with the Engineer bids received on September 30 and on October 21, 1958. Action was deferred until 4:00 p.m. when the award of contracts was announced.

The Engineer reported award of contracts which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he stated, have been satisfied, and he asked the Commission to confirm the award of the following contracts:

(1) Grading and paving the Tigard-Bonita Road Section of the Beaverton-Tualatin Highway, Washington County. Bids received July 29, 1958. Contract awarded September 11, 1958 to Oregon Asphaltic Paving Company, Portland, low bidder.

(2) Construction of Crook Creek and Edson Creek Bridges, Curry County. Bids received September 9, 1958. Contract awarded September 12, 1958 to Sig Andersson, North Bend, low bidder.

(3) Construction of Grave Creek Bridge on Josephine County Road No. 5 in Leland, Josephine County. Bids received September 9, 1958. Contract awarded September 12, 1958 to Ausland Construction Company, Grants Pass, low bidder.

(4) Construction of Saspal Slough Bridge at M. P. 4.1 on Brownsmead Loop Road, Clatsop County. Bids received September 9, 1958. Contract awarded September 15, 1958 to Workman and Wilson, Canby, low bidder.

(5) Construction of culverts on Prairie Creek Section of Zumwalt County Road, Wallowa County. Bids received September 9, 1958. Contract awarded September 18, 1958 to Bechtel Brothers, LaGrande, low bidder.

(6) Grading and bridge construction on Belts Road-Lane County Line Section of Pacific Highway, Linn County. Bids received August 26, 1958. Contract awarded September 23, 1958 to Roy L. Houck & Sons and Roy L. Houck Sons' Corporation, Salem, low bidder.

(7) Grading and paving on 122nd Avenue-136th Avenue Section of N.E. Glisan Street in Portland, Multnomah County. Bids received September 9, 1958. Contract awarded September 25, 1958 to Warren Northwest, Inc., Portland, low bidder.

(8) Grading and paving Hunter Creek-Buene Vista Wayside Section of Oregon Coast Highway, Curry County. Bids received August 26, 1958. Contract awarded September 29, 1958 to Peter Kiewit Sons' Company, Vancouver, low bidder.

(9) Grading and paving the Comstock-Anlauf Section of Pacific Highway, Douglas County. Bids received September 9, 1958. Contract awarded October 6, 1958 to White Bros. Construction Co., Inc.. Walla Walla, Washington, low bidder.

(10) Construction of Rough and Ready Creek-Dwight Creek Bridges on Redwood Highway, Josephine County. Bids received September 9, 1958. Contract awarded October 6, 1958 to Peter Kiewit Sons' Company, Omaha, Nebraska, low bidder.

(11) Paving on Sundial-Multnomah Falls Section of Columbia River Highway, Multnomah County. Bids received August 26, 1958. Contract awarded October 7, 1958 to Rogers Construction Co., Portland, low bidder.

(12) Paving North Plains Interchange Section of Sunset Highway, Washington County. Bids received August 26, 1958. Contract awarded October 9, 1958 to Warren Northwest, Inc., Portland, low bidder

(13) Grading and stone base on Elkton-Smith Bridge Section of Elkton-Sutherlin Highway, Douglas County. Bids received August 26,

1958. Contract awarded October 10, 1958 to M. J. Brassfield Company and J. M. Purcell Construction Company, low bidder.

(14) Grading and oiling the North Bend Airforce Station Access Road on Lungren County Road, Coos County. Bids received September 9, 1958. Contract awarded October 20, 1958 to Robert Angell, Eastside, low bidder.

(15) Grading and paving Middleton-Yamhill County Line Section of Pacific Highway West, Washington County. Bids received August 26, 1958. Contract awarded October 20, 1958 to Fred H. Slate Co. and E. C. Hall Co., Portland, low bidder.

(16) Grading Linn County Line-McKenzie River Section of Pacific Highway, Lane County. Bids received September 9, 1958. Contract awarded October 21, 1958 to Natt McDougall Company, Portland, low bidder.

The Commission confirmed the awards as reported.

Under authority previously granted him the Engineer reported that temporary construction speed zones had been established on certain highway contracts to provide safety for the traveling public. The Commission confirmed the Engineer's action in establishing the following reduced speed zones:

(1) 35 mile per hour speed zone on the Glover Overcrossing-Upper Perry Section of the Old Oregon Trail between M. P. 247. 7 and M. P. 255. 5, effective 10:00 a. m. September 17, 1958.

(2) 35 mile per hour speed zone on North Oakland-Sutherlin Section of the Pacific Highway from M. P. 178. 39 to M. P. 182. 24, effective 8:00 a. m. October 7, 1958.

(3) 30 mile per hour speed zone on the Perry-Oro Dell Section of the Old Oregon Trail between M. P. 255. 30 and M. P. 255. 70, effective 11:00 a. m. October 16, 1958. This action is to amend a previous speed zone regulation adopted August 31, 1958 providing for a 35 mile per hour speed zone between M. P. 255. 54 and M. P. 258. 33

The Engineer reported that successful test runs had been made with a 60-foot truck and full trailer combination over several sections of state highways, and it had been determined that the equipment could negotiate these sections without encroaching upon the opposing traffic lane. The Commission confirmed his action in reclassifying the following highway sections:

(1) Halfway Highway No. 55 from junction with the new alignment of the Baker-Homestead Highway to Halfway reclassified from Group II to Group I.

(2) Halfway-Cornucopia Highway No. 413 from Halfway to M. P. 5.82 near the Holbrook Creek Road reclassified from Group III to Group I.

(3) Pine Creek Highway No. 414 from Halfway to a junction with new alignment of the Baker-Homestead Highway reclassified from Group III to Group I.

(4) Richardson-Eugene Highway No. 220 from Elmira to Noti reclassified from Group III to Group I.

The Engineer reported that as instructed by the Commission at the September 11 meeting he had made an investigation concerning the use of fireproof construction for a sign shop and storage building at the Salem shops. This type of construction, using concrete girders and a concrete roof, added approximately $30,000 to the original estimate of $125,000. He recommended a fire resistant type of construction using concrete floors, tiltup concrete walls, bowstring roof trusses with built-up roofing, and four concrete fire walls at intervals in the building at an estimated cost of $125,000. The Commission approved the type of construction as recommended and authorized start of construction as soon as possible.

The Commission also discussed with the Engineer construction of a storeroom building at the Salem shops. The Engineer stated that plans have not been completed for this building, and it was his recommendation that the design and plans be completed so that bids could be called early in the Spring of 1959. Preliminary estimates indicate that the building will cost approximately $360,000. He called attention to an unassigned amount of $365,937 in the 1958 budget for improvements to miscellaneous properties, and recommended that $360,000 of this amount be carried forward to the 1959 budget and earmarked for construction of the storeroom building. The Commission approved his recommendations.

Items of unfinished business as they appeared on the Secretary's Summary, dated September 12, 1958, were considered as follows:

1. Request by the City of Springfield that Second and Third Streets in Springfield be designated as a couplet and added to the Federal-aid Secondary Highway System: The Engineer stated that a

meeting has been arranged with city officials in the near future, and it is expected that the matter can be resolved at that time. The Commission ordered this item to remain on the list of unfinished business.

2. Request of Nehalem Bay Expansion Association to restore the name of "Short Sand Beach State Park" to the area recently named "Oswald West State Park": The Parks Superintendent earlier in the day submitted a report on this and the Commission ordered that it be removed from the list of unfinished business and that the Parks Superintendent advise the Association of the Commission's action.

3. Construction of sign shop and storeroom in the highway shops area in Salem: A report was submitted by the Engineer earlier in the day and the Commission ordered this item deleted from the list of unfinished business.

4. Status of approach road to Columbia River ferry at Biggs on US 97: As the Chief Counsel had submitted a report on this matter earlier in the day, the Commission ordered the item deleted from the list of unfinished business.

5. Request of Olson-Johnson Equipment Company for commercial access at the northeast corner of the intersection of US99 and East Broadway Avenue, Eugene. The Engineer stated that as instructed by the Commission at its September meeting the matter had been reinvestigated, and it was found that the adjoining property owner does have an access to the highway. Although the investigation is not complete, it appears that it may be possible to give Walton a similar type of access. The Commission ordered this item to remain on the list of unfinished business.

The Commission gave attention to a program of work in cities under 5,000 population for the year 1959 under the $250,000 Special State Tax Street Fund. The Engineer explained that approximately 60 requests for improvement had been received, whereas it was possible to approve approximately one-fourth of that amount because of lack of funds. He explained further that projects are selected from cities whose streets are receiving excessive wear through sudden increases in population or because of heavy and unusual industrial traffic. Also considered is the number of projects that a city has previously received. Upon his favorable recommendation the Commission approved fourteen projects, as follows:

City	Division	Estimated Cost		
		State	City	Total
Florence	III	$20,000	$ 9,200	$ 29,200
Brookings	III	20,000	5,300	25,300
Cottage Grove	III	16,600	--	16,600
Central Point	III	16,200		16,200

State Tax Street fund projects (Cont.)

City	Division	Estimated Cost State	City	Total
Clatskanie	II	$ 20,000	$ 400	$ 20,400
Vale	V	20,000	2,500	22,500
Madras	IV	20,000	3,800	23,800
Eagle Point	III	6,700	--	6,700
Glendale	III	20,000	2,650	22,650
Junction City	III	17,400	--	17,400
Elgin	V	20,000	6,300	26,300
Burns	V	19,200	--	19,200
Bandon	III	19,900	--	19,900
Prairie City	V	16,950	--	16,950
Recommended for Approval		$252,950	$ 30,150	$283,100
Estimated Transfer from 1958 Fund		17,000		
Estimated Total 1959 Fund		$269,950		

The Engineer at this time introduced Mr. M. B. Wood of the U. S. Forest Service and the Honorable Charles O. Porter, United States Congressman from the Fourth District. Mr. Wood outlined briefly the procedure used in preparing the forest road program for 1959. The Engineer explained some changes made since the program was discussed at the September meeting. Considerable time, he stated, has been spent in determining the program to be presented today in the total amount of $5,022,625.00 and he recommended that it be approved. The Commission deferred action pending further study.

Representative Porter appeared before the Commission to request placement on the forest road system of a section along the Rogue River from Collier Bar to Oak Flat. He also requested that he be furnished an estimate of cost for construction of this section and stated that the Forest Service had given their approval on this section of road. He also pointed out that other sections might be constructed with forest access funds and funds available from contraverted lands. Opening up of this road, he stated, is essential to the economy of the county and urged that early priority be given in construction of the road to Selma along the Rogue and Illinois Rivers. The city officials of Gold Beach and Brookings, he continued, have written letters to him urging construction of this highway. He again urged placing of the section from Collier Bar to Oak Flat on the forest road system as it is a key section in the development of this highway. The Engineer explained that in conjunction with the officials of the U. S. Forest Service and the Bureau of Public Roads 1300 miles of additional forest roads are being considered, however, these have not yet been approved. Chairman McIver thanked Representative Porter and stated that his request would be given careful consideration.

The Engineer presented for the Commission's consideration a proposed list of additions to the forest highway system. He also presented a map in which the proposed additions were shown in red. These routes, he continued, are being considered by the U. S. Forest Service, Bureau of Public Roads, and the State Highway Department and at this time can be considered as tentative only. Individual maps will be prepared and forwarded to the Commission within the next few weeks. No action was taken at this time.

Consideration was given to a request made by the Bureau of Public Roads that the State repair a damaged fish ladder and correct erosion damage in Fall Creek on the Neskowin-Otis Section of the Oregon Coast Highway in Lincoln County. The Engineer reported that it is necessary to repair the damage immediately for the benefit of migrating fish and the Bureau has agreed to reimburse the State for all costs not to exceed $2,500. He recommended that the work be done to be covered by an appropriate agreement. The Commission accepted his recommendation.

Attention was given to a letter written by James W. Harrison, County Judge of Coos County, requesting improvement of the Golden and Silver Falls Park road in Coos County. The Engineer recalled that at a previous meeting he had been asked to submit a report on cost and feasibility of improving the road within the park. Such investigation was made and it was found that the project is too costly to warrant consideration at this time. The Commission accepted the Engineer's findings and requested that Mr. Harrison be so advised.

The Commission considered acceptance of a check in the amount of $315.00 submitted by Bennett and Hickey in forfeiture of their Contract No. 5308 for fencing in Beverly Beach State Park awarded to them September 11, 1958. With his proposal the contractor had submitted a five percent bid bond to assure execution of the contract. The contractor claimed that he had left out some material in figuring his bid and consequently had submitted too low a bid. The amount of Mr. Hickey's bid, the Engineer stated, was $6,195, five percent of which would amount to $309.75. He recommended that the contractor's check be accepted and that he be refunded any balance due him. The Commission accepted the forfeiture and ordered the project readvertised.

An agreement with the U. S. Forest Service and Bureau of Public Roads was considered having to do with an extension of Oregon Forest Highway Route 49 (Mt. Hood Highway) northerly approximately three miles to a new terminus at the Mt. Hood Post Office. The Engineer explained that the extension is necessary otherwise the new construction on the forest highway project would stub end about three miles from the present route. The change has been approved by the Bureau of Public Roads and the U. S. Forest Service and he recommended that it be approved by the Highway Commission. The Commission accepted his recommendation.

The Engineer presented an agreement with the U. S. Bureau of Reclamation, Crook County, and the State Highway Department pertaining to reconstruction of the Crooked River Highway necessitated by proposed construction of the Crooked River Dam in Crook County. He recalled that

the matter had been discussed at some length previously with the parties involved and an oral basis of agreement had been agreed upon. The agreement has now been reduced to written form and upon his favorable recommendation the Commission approved the agreement.

Under authority previously granted to him the Engineer reported that a survey had been conducted for relocation of the Rowena-Chenoweth Section of the Columbia River Highway in Wasco County. In compliance with state and federal laws a hearing had been held in The Dalles on August 14, 1958. There was no opposition to the route and he recommended that the survey be approved. The Commission approved the survey by adopting the attached resolution relative thereto marked EXHIBIT "M", which resolution by this record is made a part hereof with like effect as though extended in full herein.

Replacement of a timber grade separation structure on the McKenzie Highway at Judkins Point between Eugene and Springfield was recommended by the Engineer. He pointed out that the structure was built during the war years of untreated timber, and has now deteriorated to the point where replacement is necessary. The new structure will be on new alignment requiring one-half mile of new highway as well as a 700 foot four-lane concrete viaduct. He estimated the cost of the project at $650,000, and to finance it he recommended deferment of the Seventh Street project in Grants Pass in the amount of $375,000 and the Diamond Lake Boulevard-Mosher Street project in Roseburg in the amount of $50,000, the utilization of $120,000 of Division II reserve, balancing this by transferring from Division III to Division II the Division III reserve in the 1959 Primary Federal-Aid Program, the application of the savings on the Tenth Street-Nineteenth Street project in Springfield in the amount of $25,000, and additional savings accrued on the Third Street-Green Springs Highway Project in Ashland in the amount of $80,000. All of the projects mentioned are included in the 1960 Urban Federal-Aid Program. The Commission approved the project.

(For additional details concerning financing of this project, see the Engineer's letter dated October 21, 1958, in the General Files in the Office of the Commission, Salem, Oregon.)

The Engineer submitted for the Commission's consideration a proposed budget for the calendar year 1959. He pointed out briefly that the budget anticipates expenditures in the amount of $126,905,000. He also called attention to the fact that the proposed budget does not use all of the federal matching funds which will be available during 1959. If all federal funds were used the budget could be increased about $16,000,000 for construction on the ratio of $4.00 provided by the federal government for $1.00 provided by the State. Chairman McIver commented that the providing of additional State funds will be a matter for the Legislature to consider and the Highway Department should furnish them the facts. The Commission approved the budget as presented. (For additional details concerning this project see the Engineer's letter dated October 10, 1958, and the copy of the budget in the Office of the Secretary in Salem.)

The Engineer brought up for discussion the disposition of a section of the Three Rivers Highway which will be replaced by the Dolph-Boyer Cutoff when it is constructed. He pointed out that the Dolph-Boyer Cutoff has been approved as a part of the Forest Highway System, and when the approximate six mile section is constructed there would be eliminated approximately 14.4 miles of the existing Three Rivers Highway between Valley Junction and Dolph. Tillamook County Court has agreed to maintain approximately one mile of the old highway in Tillamook County and Polk County Court has agreed to maintain a section of approximately one and one-half miles in Polk County. Yamhill County Court, however, has refused to assume maintenance of the approximate 13 mile section in Yamhill County stating that the new road does not benefit Yamhill County. Considerable thought and analysis, the Engineer stated, has been given to the matter, and it appears that Yamhill County has been requested to assume an unwarranted burden. He recommended that the State retain the old section of the Three Rivers Highway in Yamhill County when the Dolph-Boyer Cutoff is constructed, and at that time change its status from a primary to a secondary highway. He cited several instances in which similar practice has been followed, including the Olds Ferry-Ontario Section, the section between La Grande and North Powder, and several sections of the Pacific Highway between Portland and the California line. The Commission approved his recommendation.

Consideration was given to a petition submitted by residents of Hubbard and Woodburn requesting the installation of a flashing beacon at the intersection of the Woodburn-Estacada Highway and Meridan Road east of Woodburn. The Engineer stated that an investigation had been made and although traffic volumes at the intersection are relatively low the accident record is severe. He recommended that a flashing beacon be installed at an estimated cost of $600. The Commission accepted the recommendation.

The Commission also considered the matter of cooperating with the City of Klamath Falls in the installation of a traffic signal at the intersection of South Sixth Street (Klamath Falls-Lakeview Highway) and Washburn Way (Midland Secondary Highway). The Engineer explained that an investigation revealed the need for a signal. Considerable additional traffic will be generated through the intersection because of personnel travelling to the nearby air base housing project. The intersection is located at the city limits and half of the intersection is outside of the city. He recommended that the signal be installed at a total estimated cost of $11,000, the State to pay $8,250 and the City $2,750. The Commission approved the recommendation.

The Engineer reported that negotiations have been underway with the City of Baker to install a semi-actuated traffic signal at the intersection of Fourth Street and Broadway (US30) in Baker. An investigation has determined that the installation is warranted and as the City has agreed to cooperate in the project, he recommended that the signal be installed at a total estimated cost of $5,000 with the understanding that the City is to pay one-half of the cost of installation and to furnish all of the maintenance and electrical energy needed in the operation of the signal. The Commission approved the installation.

In adjusting the "D" or "Crash" Fund projects on county roads to meet the December 1, 1958 deadline for contracting the Engineer reported

that it has been necessary to make transfers from one county to another in order to commit all of these "D" Funds. Signed agreements have been received from each of the counties affected and he recommended that the following transfers be approved:

1. Transfer from Columbia County to Wallowa County DS Funds totaling $5,000.

2. Transfer from Wallowa County to Columbia County regular FAS funds totaling $5,000.

3. Transfer from Hood River County to Wallowa County DS Funds totaling $3,000.

4. Transfer from Wallowa County to Hood River County regular FAS Funds totaling $3,000.

5. Transfer from Umatilla County to Clackamas County DS funds totaling $8,000.

6. Transfer from Clackamas County to Umatilla County regular FAS funds totaling $8,000.

7. Transfer from Josephine County to Clackamas County DS funds totaling $6,000.

8. Transfer from Clackamas County to Josephine County regular FAS funds totaling $6,000.

The Commission approved the transfer of funds as presented.

The Commission gave attention to a letter submitted by Francis S. Landrum, Klamath Falls, urging incorporation into the Oregon Highway System of a highway from Adel easterly to the northwestern terminus of the projected Nevada highway at the Nevada-Oregon border. The Engineer stated that the project is probably too large for Lake County to finance; however, there are no other funds to apply to the project. It was his thought that the State might be able to furnish some engineering services and at some later date consider placement of the highway on the Oregon highway system. The matter was discussed briefly and the Commission instructed that Mr. Landrum be advised that the State does not have funds for the project at this time.

The Engineer reported that the County Courts of Lake and Klamath Counties have agreed that the sum of $75,000 in Federal-Aid Secondary (County Road) Funds which would normally be allocated to Klamath County in the 1960 apportionment is to be transferred to Lake County for expenditure on the "Winnemucca-to-the-Sea" road. The money is to be transferred back to Klamath County in the 1962 Federal-Aid (County Road) Secondary allocations. He did not see any reason to object to the transfer but suggested that the counties be advised that the State cannot guarantee any continuation of the county road secondary funds as this matter is determined by Congress, and if the funds are not available, adjustment of county expenditures must be handled entirely by the two county courts. Upon his favorable recommendation the Commission approved the transfer.

Consideration was given to a request made by the City of Corvallis that the State design and call for bids on a traffic signal at Ninth and Harrison Streets in Corvallis. The Engineer explained that this is a city street and the City proposes to pay for the signal and reimburse the State for the cost of preparing plans which he estimated at $225. Following his favorable recommendation the Commission approved the request.

Projects selected by Jackson, Lake, Lane, and Polk Counties for the 1960-61 County FAS Program were presented by the Engineer. All of these projects, he stated, have been approved by the Highway Department and he recommended that the following allocations be approved:

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fund
Jackson	287	Butte Falls Section, 2.4 miles. Paving	$ 65,000	1960
Lake	699	Adel-East. Grade and drainage.	$ 255,000	1960
Lane	860	Willamette River Bridge, Structure only.	$ 515,000	1961
Polk	744	West Unit, Bethel-Zena, 2 miles. Grade and surface	$ 85,000	1960
		TOTAL	$ 920,000	

SUMMARY: FISCAL YEARS 1960 and 1961 FUNDS

	1960	1961	Total
Available Funds	$3,900,000	$3,900,000*	$7,800,000
Previously Approved	416,000	--	416,000
Unprogrammed Balance	$3,484,000	$3,900,000	$7,384,000
Proposed Projects 10/10/58	405,000	515,000	920,000
Unprogrammed Balance	$3,079,000	$3,385,000	$6,464,000

*Fiscal year 1961 funds estimated to be same as fiscal year 1960.

The Commission approved the projects.

Consideration was given to a major program change with the U. S. Forest Service authorizing the use of $10,000 of Forest Highway funds programmed for survey work to finance a forest highway needs study. The Engineer explained that the money required does not reduce the Forest Highway program. Following his favorable recommendation the Commission approved the agreement.

The Commission gave attention to a letter written by Violet C. Rinehart, President of the Oregon Coast Ad Club, requesting construction of rest room facilities at an information center on the Oregon Coast Highway at the junction of Roads End road in Wecoma, Lincoln

County. The Engineer pointed out that construction of these facilities would be expensive and might be the basis of setting a precedent for similar construction at many other locations. The Commission accepted his recommendation that the request be denied.

The Commission also considered letters from the City Council of Gold Beach and the Curry County Court requesting the addition to the Forest Highway System of a section of road extending from the Oregon Coast Highway at Gold Beach easterly and southerly to a connection with the Redwood Highway at Selma. The Engineer stated that he had received no word from officials of the U.S. Forest Service recommending this road as a forest highway. He suggested that the writers of the letters be advised that this is one of the roads being considered in the 1,300 miles of additional forest highways now being studied. The Commission approved his suggestion.

The Engineer reported that contract numbers 4825, 4862, 4944, 4969, 4979, 5006, 5044, 5049, 5054, 5056, 5076, 5081, 5085, 5089, 5091, 5095, 5122, 5124, 5136, 5139, 5159, 5160, 5162, 5163, 5166, 5175, 5178, 5185, 5187, 5189, 5191, 5202, 5210, 5220, 5221, 5226, 5234, 5237, 5244, 5254, 5256, 5263, 5268, 5269, 5282, 5283, 5286, and 5313 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Authority was requested by the Engineer, and granted by the Commission, to increase the project authorization on Contract No. 4996 for construction of the S. W. 2nd Avenue-South City Limits (John Day) Section on the John Day-Burns Highway in the amount of $4,300. The Engineer explained that the overrun was caused by an increase in surfacing and binder quantities and by an overrun in time which increased the engineering costs.

The Commission considered the matter of assuming costs to revise the Parkrose Water District's water main because of construction of the Airport-Alberta Street Section of the Cascade Highway in Multnomah County. The Engineer explained that in making a cut across Killingsworth Avenue it was necessary to move and lower the water main and to revise connections to 11 residences and to move one fire hydrant. The Water District alleges that it has no funds to do the work which he estimated would cost $2,735.45. Chairman McIver inquired if there is any chance of collecting the money from the Water District. The Chief Counsel suggested that a demand be made on the Water District to move the facility at their own expense and if they fail to do so to take legal action to collect. The Engineer pointed out that it has been necessary to move many water systems during highway construction and in a great many cases the State has been required to pay for the cost of moving. However, some of the more solvent water districts have paid for the moving of their facilities. Chairman McIver pointed out that it appeared unfair to require those water districts in a solvent

condition to pay for moving their facilities and the State be required to pay for the moving of facilities owned by other districts. It was his thought that in all cases in which the water district has an obligation to move their facilities at their own expense that they should be requested to do so, and that legal action be taken to collect for the cost of moving if the State has to perform the work. The Commission approved the Chairman's statement of policy.

Mr. T. A. Kommers, representing W. R. Grasle Company, electrical contractors, appeared before the Commission concerning Contract No. 5311 for illumination of the Highlands Interchange in Multnomah County. He pointed out that the contract was awarded September 11, 1958, but work cannot be started until April, 1959, when the roadway contract will be nearly completed. Quotations, he continued, were secured from subcontractors for painting, concrete bases, and trenching, and these contractors are not willing to hold their prices firm until early summer of next year. He requested that additional compensation be allowed because of the delay or, if this is not agreeable, that the contract be voided by mutual consent. Following Mr. Kommers' departure, the Engineer pointed out that the contractor knew when he made the bid that the contract could not be completed during 1958. The Commission instructed the Engineer to consult further with the contractor and submit a report at the next Commission meeting.

Authority was requested by the Engineer to reimburse Pacific Telephone and Telegraph Company in the amount of $19,899.87. He explained that prior to September, 1956, it had been planned that the west end of the Banfield Freeway would connect to the Burnside Bridge, involving removal of 700 feet of the northerly sidewalk, to which sidewalk was attached the telephone company's main east-west cable connections. The plans were discussed with them and at the Engineer's request they undertook rearrangement of their facilities. In September of 1956, with the advent of the Interstate program, it was determined that Interstate standards could not be met by the proposed connection with Burnside Bridge and the plan was abandoned. The telephone company was notified of the change of plans on September 10, 1956, and were requested to discontinue work. Up to that time the telephone company had expended the sum of $19,899.87. He recommended that the company be reimbursed for their expenditure up to the time that the change in plans was made. The Commission approved the payment subject to auditing.

Amendment of Speed Zone Resolution No. 84 was recommended by the Engineer who reported that a request had been received from Charles D. Schmidt, Superintendent of the Salem schools, requesting school crossing signs at a newly established crossing of US 99E in the vicinity of the 12th Street junction. Following his favorable recommendation the Commission approved the following amendment to Speed Zone Resolution No. 84: 30 miles per hour between the south city limits of Salem at Mile Point 52.34 and Ratcliff Drive at Mile Point 52.56 on the Pacific Highway East south of Salem; 45 miles per hour on the Pacific Highway East between Ratcliff Drive at Mile Point 52.56 and Boone Road at Mile Point 54.46, except that between a point 350

feet north of Lansford Drive at Mile Point 53.69, and a point 250 feet north of Hilflicker Lane at Mile Point 53.89 the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission thereupon adopted the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request made by Mr. Al Morrison of the Union Oil Company at Coos Bay concerning alleviation of traffic hazards caused by parking along the westerly side of the Oregon Coast Highway in the vicinity of the Union Oil bulk storage plant between North Bend and Coos Bay. The Engineer reported that an investigation had disclosed that parked vehicles are the cause of the hazard by restricting sight distance and the maneuvering area for vehicles turning off the highway into the oil plant driveway. He recommended that parking be prohibited on the westerly side of the North Bend-Coos Bay Section of the Oregon Coast Highway between the Standard Oil Company driveway at Mile Point 236.92 and the Union Oil Company driveway at Mile Point 236.96. The Commission approved his recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "L-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also stated that his attention had been called to hazards caused by shoulder parking on the westerly side of the Oregon Coast Highway north of Tillamook. An investigation revealed that vehicles parking on the westerly shoulder in the vicinity of a drive-in restaurant block access to motels and restrict sight distance for vehicles attempting to enter the highway from the motel driveways or from Goodspeed Road. In view of these facts and for the safety of the traveling public, he recommended that shoulder parking be prohibited on the westerly side of the Oregon Coast Highway between a point 50 feet north of Goodspeed Road, at Mile Point 64.74 and a point 0.09 mile south of Goodspeed Road at Mile Point 64.84. The Commission accepted his recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "L-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested authority for out-of-state travel for the following employees:

L. B. Farnam to Detroit, Michigan, to drive out new Commission car. Cost of travel estimated at $365.

J. Al Head, Assistant Traffic Engineer, to attend national meeting of Institute of Traffic Engineers in Miami, Florida, November 9-14, 1958, at an estimated cost of $485.

L. H. Young, Assistant Construction Engineer, and J. D. Walker, Division Engineer, to Everett, Washington, to inspect concrete paving methods at an estimated cost of $64.20 for both men.

Confirmation was requested for this trip which was taken September 18 and 19, 1958.

Carl W. Jordan, Director of Travel Information Division, to attend American Convention and Travel Institute Convention at Reno, Nevada, December 12-14, 1958, at an estimated cost of $185.

R. B. Sipprell, Director of Permits, to attend Western Regional Conference of the Council of State Governments at Los Angeles, California, November 12 and 13, 1958, at an estimated cost of $160.

W. C. Williams, Highway Engineer; G. S. Paxson, Assistant Highway Engineer; Leonard I. Lindas, Chief Counsel; Mark Astrup, Landscape Engineer, to attend annual meeting of the Highway Research Board in Washington D. C., from January 5 through January 9, 1959, at an estimated cost of $390 for each of the four persons, or a total of $1,560.

The Commission authorized the out-of-state travel as presented.

The Engineer stated that an offer has been made by the Econolite Corporation of Los Angeles to give some highway employees a five-day course of instruction in the maintenance of traffic signal controllers. Some trouble has been had with a new type of controller due to unfamiliarity with the equipment. It was his opinion that the instruction would be worth while and he recommended that Mr. Robert Judson and Mr. William Zirbes be authorized to take the course of schooling from November 10 to November 14 at Los Angeles at an estimated cost of $215 each. The Commission accepted his recommendation.

The Commission considered an invitation from the Redwood Empire Association that the Commission, the State Highway Engineer, and the Secretary participate in the Inter-County Highways and Legislative Conference at the annual convention November 1, 1958, in Santa Rosa, California. The Commission instructed the Secretary to convey to the Association their regrets that they would be unable to attend because of business commitments.

The Commission discussed with the Engineer the installation of telephonic equipment in the State Highway Building in Salem to transmit bid openings directly from Salem to the Portland office of the Associated General Contractors. The Engineer recalled that this matter had been discussed with members of the Commission previously and is presented at this time for confirmation. Under the oral agreement with the Associated General Contractors it was agreed that the Portland Chapter of the Associated General Contractors would be responsible for installation of the equipment at the Highway Building in Salem and would pay all expenses involved in connection with the installation and the transmittal of the telephonic bid opening broadcasts thereafter. The Commission confirmed the arrangement, which the Engineer stated, would be in operation for the bid opening November 12, 1958.

A proposed payment to the Bureau of Land Management in the amount of $268.40 was presented by the Engineer. He explained that in the grading and paving of the Divide-Anlauf Section of the Pacific Highway it was necessary to open a quarry. In clearing the land for the quarry, the contractor cut down between 12 and 14 fir trees outside the boundary of the land owned by the State and on land controlled by the Bureau of Land Management. The cutting was caused by a misunderstanding by both the contractor and the State's Engineer as to location of the property boundary lines. He recommended that the Bureau be paid the sum of $268.40 for the value of timber removed from its land. The Commission approved the payment.

A request from the Oregon State Game Commission to use State property for a public access to dredge ponds near the John Day River in the vicinity of Mt. Vernon was presented by the Engineer. He explained that the Game Commission intends to stock the ponds with fish and the access would be for the public. Such access would not be harmful to the State property and would not preclude the State from obtaining road building materials in the future. He therefore recommended that the Commission enter into an agreement with the Game Commission allowing it to use the property. The Commission accepted his recommendation.

The Commission considered a request from the U. S. Army Recruiting Service to erect a recruiting sign on the northerly side of the right of way of the Santiam Highway at M.P. 3.83. This type of sign, the Engineer stated, complies with Oregon laws and the location and sign text have been approved. The Commission accepted his recommendation that the permit be granted.

Attention was given to a request from the United States National Bank of Portland for permission to use the Highway Department IBM type 650 computer if its own machine should be out of order. The Engineer pointed out that the bank has offered to reciprocate allowing the State to use their machine in case the State machine is out of order. The proposed agreement provides use of the Highway Department machine by the bank during the night hours and weekends, and state use of the bank's machine during the daytime hours. In either case the party using the other's machine is to furnish its own personnel and materials and pay $35 per hour for the use of the machine. Following his favorable recommendation the Commission approved the arrangement.

The Commission also considered a proposal by the City of Newberg to annex an additional area to the city, part of which is composed of the Pacific Highway West on the easterly side of the city. The Engineer recommended that the Commission consent to the annexation as the status of the highway would not be affected. The Commission accepted his recommendation.

The Engineer reported that a new section of the Hay Canyon-John Day River portion of the Wasco-Heppner Secondary Highway in Sherman County has been completed. Under terms of an agreement previously entered into with the County, the old section of highway is now ready

to be transferred to the County and he recommended that such transfer be formally made. The Commission approved the transfer by adopting the attached abandonment resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented for the Commission's consideration a resolution designating as Lake of the Woods Secondary Highway the route of the former Little Butte Secondary Highway extending from a junction with the Crater Lake Highway at Eagle Point southerly and easterly to a junction with the Klamath Lake Secondary Highway at Rocky Point and thence southerly over the Klamath Lake Secondary Highway No. 421 to a junction with The Dalles-California Highway in Klamath Falls. This entire route, he stated, has been redesignated as the Lake of the Woods Secondary Highway No. 270 and is in accord with previous conversations and agreements with Jackson and Klamath Counties. The Commission approved the designation of the Lake of the Woods Secondary Highway by adopting the attached resolution relative thereto marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In connection with the designation of the Lake of the Woods Secondary Highway, the Engineer recalled that Klamath County had agreed to take over the portion of the Klamath Lake Secondary Highway from Rocky Point to Fort Klamath when the State designated as a secondary highway the old Lake of the Woods Highway in Klamath County. Such action has been taken and he recommended that the northern end of the Klamath Lake Highway from a point near Fort Klamath southerly to Rocky Point be abandoned to Klamath County. The Commission approved the abandonment and thereupon adopted the attached resolution relative thereto marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered the appointment of an Assistant Secretary to succeed Floyd Query who has been appointed as Secretary effective upon Mr. Glaisyer's retirement November 1, 1958. On the recommendation of the Secretary, the Commission approved the appointment of Mr. Cecil W. Head, Office Manager in the Secretary's Office, as Assistant Secretary for a period of four years and at a starting salary of $575 per month to be effective November 1, 1958. The Commission also adopted the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A resolution was presented by the Engineer extending the Lafayette Secondary Highway No. 154 from its present northerly terminus to an intersection with the new Dayton By-Pass road (Three Mile Lane) approximately one-half mile west, and extending the Salem-Dayton Secondary Highway No. 150 from its present northerly terminus at Dayton approximately one-half northeasterly to a connection with the new Dayton By-Pass road. In the same resolution a portion of the old Amity-Dayton Highway No. 155 which was abandoned to Yamhill

County sometime ago is being placed on the Dayton By-Pass road. This short section extends from a junction with the Pacific Highway West southerly to the point where the new Dayton By-Pass joins the old alignment of the Amity-Dayton Secondary Highway. The Commission adopted the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Based upon the favorable recommendation of the Engineer, the Commission approved redesignating the Albany Airport Secondary Highway No. 214 as a part of the Pacific Highway No. 1. The Engineer explained that this is caused by construction of the interstate highway which follows the route of the existing Albany Airport Secondary Highway. The Commission adopted the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period September 8, 1958, through October 17, 1958.

The next Commission meeting date was confirmed for December 11 and 12, 1958, in the Conference Room of the State Highway Building in Salem, and a tentative date, January 22 and 23, 1959, was set for the following meeting.

Consideration was given to a Commission inspection trip through northeastern and central Oregon. The Commission selected the dates of November 14 through 17, 1958, and instructed the Engineer to prepare an itinerary which would take them over portions of the Columbia River Highway and U.S. 30 to the Brownlee and Oxbow Dam sites on the Snake River and over portions of Highway 26.

The Commission discussed with the Engineer matters to be presented by delegations scheduled on the following day, but no action was taken pending appearance of the delegations.

The Commission also discussed with the Engineer and the Right of Way Engineer the status of future contract jobs.

At 4:00 p.m. Commissioner Chessman announced the award of contracts for which bids had been received September 30 and October 21, 1958.

BIDS RECEIVED IN SALEM ON SEPTEMBER 30, 1958

"Construction of Clear Creek Bridge on County Road No. FAS 810 at Viola in Clackamas County. The Commission awarded the contract to the low bidder, Inland Construction Co., Milwaukie, at $38,360.00.

"Construction of Bear Creek Bridge and grading and paving on Bear Creek County Road, south of Svensen, in Clatsop County.

The Commission awarded the contract to the low bidder, Palmberg Paving Co., Inc., Astoria, at $25,704.00.

"Sunset Bay State Park Extension in Coos County. The Commission awarded the contract to the low bidder, Rex Kimsey Construction Co., Stayton, at $58,764.00.

"Grading and bituminous surfacing on the Bullards Bridge-Bandon Section of the Oregon Coast Highway in Coos County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, under Alternate "A", at $324,877.50.

"Grading and paving the East Unit, Garden Valley Road Section of the Garden Valley County Road, just north of Roseburg, in Douglas County. The Commission rejected all bids as being too high.

"Santiam Junction-Suttle Lake Rock Production project on the Santiam Highway, near Hogg Butte, in Jefferson and Linn Counties. The Commission awarded the contract to the low bidder, F. H. McEwen, Eugene, at $34,000.00.

"Grading, paving, and construction of two concrete structures on the Redwood Highway Junction Section of the Pacific and Redwood Highways at Grants Pass in Josephine County. The Commission elects to accept the low bid of R & M Construction Co. & W. M. Ausland, Grants Pass, in the sum of $754,059.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving the North Albany Junction-Lebanon Road Section of the Pacific Highway, south of Albany, in Linn County. The Commission awarded the contract to the low bidder, Roy L. Houck & Sons and Roy L. Houck Sons Corp., Salem, at $1,683,464.50.

"Construction of two undercrossings and six twin drainage structures on the South Santiam Junction-Lane County Line Section of the Pacific Highway in Linn County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Inc., Eugene, at $641,485.60.

"Grading and paving, construction of two reinforced concrete deck girder bridges, and furnishing crushed materials in stock pile on the Gwynn Undercrossing-Jonesboro and Tunnel-Namorf Sections of the Central Oregon Highway in Malheur County. The Commission awarded the contract to the low bidder, Twin City Construction Co. and Clarence Braden, Pasco, Washington, at $792,571.10.

"Construction of Detroit Maintenance Building in Marion County. The Commission awarded the contract to the low bidder, Meyer Construction Co., Silverton, at $27,114.00.

"Roadside improvement on the Battle Creek Junction-North Albany Junction Section of the Pacific Highway, north of Albany, in Marion and Linn Counties. The Commission awarded the contract to the low bidder, Knight Pearcy and Kenneth E. Nielsen, Salem, at $42,803.10.

"Stone leveling course and oiling the North Unit, Bomber Range Road Section of the Bomber Range Road, east of Boardman, in Morrow County. The Commission awarded the contract to the low bidder, Dorman Construction Co., Vancouver, Washington, at $87,008.50.

"Construction of Hillsdale-Barbur Boulevard-Hamilton Street structures, grading and paving on the Beaverton-Hillsdale and Pacific West Highways in Multnomah County. The Commission elects to accept the low bid of Hannan Brothers Company, Portland, in the sum of $407,386.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading the Tillamook Bay-Coleman Creek Section of the Cape Meares Loop Road, near Oceanside, in Tillamook County. The Commission awarded the contract to the low bidder, Access Construction, Oreg. Ltd., Roseburg, at $40,379.90.

"Metal Guardrail on the Wallowa Lake Section of the Joseph-Wallowa Lake Highway, near Joseph, in Wallowa County. The Commission awarded the contract to the low bidder, J. C. Denton & Sons, Beaverton, at $45,305.00.

"Paving and furnishing crushed materials in stock piles on the Big Eddy-Rufus Section of the Columbia River Highway, near The Dalles, in Wasco and Sherman Counties. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $305,388.00.

"Construction of Sunset Highway Undercrossing of First Street at North Plains in Washington County. The Commission awarded the contract to the low bidder, Richard L. Martin Co., Oswego, at $92,614.00.

BIDS RECEIVED IN SALEM ON OCTOBER 21, 1958

"Construction of Eagle Creek Bridge on County Road No. FAS-511, near Richland, in Baker County. The Commission rejected all bids as being too high.

"Construction of Sandy Sand Storage Shed in Clackamas County. The Commission awarded the contract to the low bidder, Serge R. Perrin, Oregon City, at $9,140.00.

"Construction of Fairview Bridge over North Fork Coquille River on Myrtle Point-Fairview Highway, near Coquille, in Coos

County. The Commission elects to accept the low bid of Sig Andersson, Coos Bay, in the sum of $48,935.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Coos County is received and the sum of $14,200.00 is deposited by the County.

"Traffic signal installation on Cape Arago Highway at Newmark Avenue and Ocean Boulevard in Empire in Coos County. The Commission awarded the contract to the only bidder, Trowbridge Electric, Roseburg, at $3,600.00.

"Construction of Deschutes River Bridge on Century Drive Highway in Deschutes County. County Project. The Commission referred all bids to Deschutes County for award.

"Grading and oiling on Fairgrounds Interchange Frontage Road on the Pacific Highway at Roseburg in Douglas County. The Commission awarded the contract to the low bidder, Thornton-Bell, Roseburg, at $12,965.00.

"Grading and paving East Unit, Garden Valley Road Section of the Garden Valley County Road, north of Roseburg, in Douglas County. The Commission elects to accept the low bid of Inter-City Sand & Gravel Co., Inc., Eugene, in the sum of $89,080.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Douglas County is received and the sum of $12,400 is deposited by the County, and approval of the Bureau of Public Roads is received.

"Myrtle Creek-Fords Bridge Roadside Improvement on Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, E. P. Baltz & Son, Portland, at $18,200.25.

"Jumpoff Joe Creek-Louse Creek Roadside Improvement on Pacific Highway, north of Grants Pass, in Josephine County. The Commission awarded the contract to the low bidder, Rich & Sons Nursery, Hillsboro, at $17,544.00.

"Construction of three structures on the Nevada Avenue Interchange in Klamath Falls on the Klamath Falls Section of The Dalles-California Highway in Klamath County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Co., Reedsport, at $334,099.50.

"Construction of Lost River Bridge on Langell County Road, near Bonanza, in Klamath County. The Commission elects to accept the low bid of Tom Lillebo Construction Co., Reedsport, in the sum of $34,101.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Klamath County is received and the sum of $1,900.00 is deposited by the County.

"Beverly Beach Park Fencing Project on the Oregon Coast Highway, near Depoe Bay, in Lincoln County. The Commission awarded the contract to the low bidder, Highway Protection Corp., Chicago, Illinois, at $10,780.00.

"Devils Lake State Park Extension in Lincoln County. The Commission awarded the contract to the low bidder, Robert C. Wilson, Corvallis, at $57,976.70.

"Construction of Rock Creek Bridge, near Logsden, and Mill Creek Bridge, near Toledo, in Lincoln County. The Commission elects to accept the low bid of Workman & Wilson, Canby, in the sum of $47,840.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lincoln County is received and the sum of $22,470.00 is deposited by the County.

"Construction of nine undercrossing structures on the South Santiam Junction-Lane County Line Section of the Pacific Highway, south of Albany, in Linn County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Inc., Eugene, under Alternate "A", at $560,873.00.

"Grading and paving of access road on the Fort Hill Truck Scale Site on the Salmon River Highway, west of Willamina, in Polk County. The Commission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $25,765.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading the Grass Valley-Rutledge Section of the Grass Valley-Rutledge County Road in Sherman County. The Commission elects to accept the low bid of R. C. Marvel Construction Co., Inc., Goldendale, Washington, in the sum of $32,924.20 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Sherman County is received and the sum of $1,850.00 is deposited by the County.

"Grading Deadmans Pass-Meacham Section of the Old Oregon Trail Highway, east of Pendleton, in Umatilla County. The Commission elects to accept the low bid of Rogers Construction Co., Portland, in the sum of $1,658,362.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading The Dalles-Eightmile Creek Section of The Dalles-California Highway in Wasco County. The Commission elects to accept the low bid of Roy L. Houck & Sons and Roy L. Houck Sons Corp., Salem, in the sum of $686,428.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of structure and grading on the Dry Creek Bridge Section of Long Hollow Road, near Dufur, in Wasco County. The Commission elects to accept the low bid of Erick Enquist, Troutdale, in the sum of $34,832.50 and directs the State Highway Engineer to award

the contract to said bidder as soon as approval of Wasco County is received and the sum of $9,700.00 is deposited by the County.

The Commission signed the following agreements and other papers:

"Bargain and Sale Deed" conveying to the State Game Commission 1.76 acres of excess property on Cascade Locks-Viento Section of Columbia River Highway.

"Easement for Reservoir and Water Line" accepting a water line easement from Oregon Pulp and Paper Company in connection with water service for Beverly Beach State Park.

"Agreements" accepting a grant of right of way from Bonneville Power Administration which authorizes construction of a new highway across a power line easement and the Willamina and Grand Ronde Railway on Valley Junction-Wallace Bridge Section of Salmon River Highway.

"Permit" granting to Mr. and Mrs. Ernest Kuck an easement for livestock passage on right of way acquired for The Dalles-Eight Mile Creek Section of The Dalles-California Highway.

"Grant of Easement" granting the Stillwell Drainage District a dike easement on right of way on McKinley Moorage-Radio Station Section of Netarts Highway.

"Agreement" with the U. S. Forest Service and U.S. Bureau of Public Roads covering an extension of the Mt. Hood Highway northerly approximately three miles so as to connect the new Polallie Creek Section to the Mt. Hood Loop northeasterly from Parkdale.

"Agreement" with the U.S. Bureau of Reclamation and Crook County covering reconstruction of the Crooked River Highway necessitated by construction of the Crooked River Dam in Crook County.

"Agreement" with the U.S. Forest Service authorizing the use of $10,000 of Forest Highway funds heretofore programmed for surveys to finance a Forest Highway Needs Study.

"Agreement" with the State Game Commission allowing the use of State property as a public access to dredge ponds which are located on this property.

"Permit" U. S. Army Recruiting Service to erect a recruiting sign on the northerly side of the right of way of the Santiam Highway at M.P. 3.83.

"Agreement" with City of Newberg that the State consent to the annexation of a portion of state right of way to the city.

"Bargain and Sale Deed" deeding to the City of McMinnville 1.36 acres of land. (Authorized September 11, 1958)

"Sign Permit" permitting Pendleton Commandery No. 7, Knights Templar of Oregon to erect a sign on the southerly side of the Old Oregon Trail Highway. (Authorized July 31, 1958)

"Bargain and Sale Deed" covering direct sale of land to the City of Portland. (Authorized May 8, 1958)

"Agreement" between State and City of Grants Pass covering installation of railroad traffic signals on 6th and 7th Streets in Grants Pass. (Authorized August 16, 1956

"Agreement" between Multnomah County and State covering the reconstruction of Hamilton Street-Slavin Road and Hillsdale-Barbur Boulevard Section, Beaverton-Hillsdale Highway No. 40 and Pacific Highway West. (Authorized November 1, 1957)

"Finance Agreement" covering improvement of FAS Highway 667, Grass Valley-Rutledge Section.

"Finance Agreement" covering bridge construction in Lincoln County.

"Finance Agreement" covering Eagle Creek Bridge construction in Baker County.

"Finance Agreement" covering the North Fork Coquille River Bridge in Coos County.

"Finance Agreement" covering improvement of FAS 829, North Unit, Bomber Range Road Section in Morrow County.

"Finance Agreement" with Klamath County covering bridge construction over the Lost River at Langell Valley.

"Finance Agreement" with Clatsop County covering Bear Creek Bridge construction on FAS 755.

"Finance Agreement" with Clackamas County covering the Clear Creek Bridge construction on FAS 810.

"Indentures of Access" on the following properties:

(a) Wollett property on Calapooya Creek-Sutherlin Section of Elkton-Sutherlin Highway, Douglas County.

(b) Brandt property on Newberg-Gearin Corner Section of Hillsboro-Silverton Highway, Yamhill County.

"Agreements" with California Oregon Power Company, Oregon Water Corporation, and California-Pacific Utilities Company, re utility adjustments on the Klamath Falls Section of U.S. 97.

"Easement","Permit Agreement" granting to California Pacific Utilities Company an easement for a power line and a permit for a power line crossing the Hilgard-La Grande Section of Old Oregon Trail Highway, Union County.

The meeting was adjourned at 4:20 p.m. to reconvene at 10:00 a.m. the next day.

Salem, Oregon
October 24, 1958

The meeting of the Oregon State Highway Commission reconvened at 10:00 a.m. in Room 418, State Highway Building. The following people were present:

M. K. McIver, Chairman
R. B. Chessman, Commissioner
K. N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

A delegation from the Sandy Chamber of Commerce appeared before the Commission regarding plans concerning improvements on the Mt. Hood Highway between Sandy and Gresham. The following persons were present: Dick Revenaugh, Chairman of Joint Highway Committee of Chamber of Commerce; Tom Scales, Member of the Highway Committee, both from Sandy; Larry Aylsworth, Gresham Chamber of Commerce; and Glenn Schaeffer, School Board Member of Sandy Highway School, Boring. Mr. Revenaugh acted as spokesman for the group. He stated that they are submitting a plea for the modernization of the five and one-half mile section of the Mt. Hood Highway (US26) between the easterly edge of Gresham and the westerly edge of Sandy. It is their opinion, he continued, that this section is now inadequate, dangerous, and detrimental to the growth of the area and of the State and that it does not properly serve the local residents, the tourists, or the commercial transportation lines. It is their wish, he added, that

the Highway Commission proceed with plans to make this highway into a modern four-lane thoroughfare, especially in view of the fact that the highway east of Sandy is now being relocated and modernized. He mentioned that their request is based on the following facts: this highway is now part of the trans-state network; it intersects and joins with most of the modern metropolitan highways recently constructed or under construction in or around Portland; it taps a vast and plentiful Central Oregon farm and ranch land; and because of its scenery it is one of the most popular highways in the state from the standpoint of sightseers. He stated that the modernization of this highway had the unqualified support of the Sandy, Gresham, Portland, and Oregon City Chambers of Commerce, the Mt. Hood Pow Wowers; the Clackamas County Court, and various trucking and sportsmen's associations. He filed letters and other material with the Commission from some of these organizations endorsing this project. Chairman McIver advised the group that the Commission had had this highway in mind for many years and has started to modernize it; however, it is not possible to do the complete highway at one time but the section they have in mind is the next one to be constructed. In answer to Chairman McIver's question as to whether the group had contacted the Highway Department regarding the schedule of the programming of this section, Mr Revenaugh advised that he understood there is no concrete plan for improvement of the section and they felt there should be some planning on it. At the request of Chairman McIver the Engineer explained that in the current program the Commission has about $800,000 allocated to that portion of the highway outside of the national forest so that the most torturous section between Sandy and Alder Creek was put under contract. He added that it is the Commission's intention to continue improvement of this highway in the next five year program. However, there is a question where the money should be spent first -- from Alder Creek eastward or between Sandy and Gresham. He suggested that it might be desirable to make surveys of the uncompleted portion of the highway so the Commission would be in a better position to acquire right of way. Chairman McIver informed the group that the Commission would give due consideration to their project when the next five-year program is made up.

The Oregon Roadside Council appeared before the Commission regarding legislation to regulate outdoor advertising on state highways as set forth in the national standards contained in the Federal Highway Act. Representing this council were Harold Gill, President, and Thornton Munger, Vice President, both from Portland. Mr. Gill, who was spokesman, stated that the passage of the Federal bill regulating billboards and offering the states one-half of one percent bonus on their national allowance brings up the question of billboards along the two federal interstate highways -- US 99 and US 30. He advised that their original intention was to ask the Highway Commission to sponsor the bill, but after discussing it with the Engineer, it was decided to take their information to the State Legislative Council. However, it was their desire to appear before the Commission to present the points they thought should be in the bill including the following: (1) the principal points of the bill should be in compliance with the U.S. Department of Commerce standards in all particulars; (2) authorize the Highway Commission to

construct information sites and to lease the advertising spaces therein; (3) the bill should apply to the entire length of US 30 and US 99, both the constructed and yet to be constructed portions regardless of when the right of way was purchased; (4) authorize the Highway Commission to acquire by means of purchase or condemnation the rights to advertise on property adjacent to the right of way; (5) make revisions pertaining to prohibited areas retroactive after five years in the case of signs legally existing prior to the effective date of this bill; (6) place administration of informational sites and all other signs along the interstate highways under the jurisdiction of the State Highway Commission; and (7) adjust the terms of this bill so it will be consistent with the Oregon Statutes. The Engineer explained that any right of way purchased for the two interstate highways under the Federal Highway Act after 1956 could be controlled by federal legislation; however, a great deal of this right of way was purchased prior to 1956 so it does not come under the existing Federal bill. Chairman McIver thanked the delegation for appearing and informed them that the Commission would consider the information presented.

A delegation consisting of John Kendall, Attorney; Henry Carey, Jr., Attorney; and Victor Rosenfeld, client of Mr. Kendall, all from Portland, appeared before the Commission regarding landslides affecting two properties on Canyon Road at Highlands Interchange, Multnomah County. Mr. Carey advised that he was appearing on behalf of Mr. Wilbur Preble whose residence is near the new zoo in Portland. Due to excavation of Canyon Road by the Highway Commission's contractor a substantial slide occurred which resulted in damage to the Preble house. In fact, he added, the Commission has requested Mr. Preble to vacate the premises because of the great danger. He presented pictures to the Commission taken of Mr. Preble's house and property and stated that the State has admitted its liability. It was his understanding that the State is prepared to purchase the property so the only question involved is that of valuation. The State's appraiser has submitted an offer of $53,000; however, it was his contention that this is not sufficient compensation to allow Mr. Preble to replace his home. He commented that the insurance adjuster has valued this home at $80,000, exclusive of the land. Mr. Carey enumerated the many improvements which have been added to the Preble home and requested that he be compensated not less than $75,000 for his property.

Mr. Kendall spoke on behalf of Mr. Victor Rosenfeld whose residence is across the road immediately west of the Preble property. Mr. Rosenfeld, he stated, has a problem similar to Mr. Preble's. He exhibited pictures showing the present condition of the house and property and explained details regarding the size, the layout, and the special features of the house and property, including the cost of each. He advised that Mr. Rosenfeld has actually expended $84,746 in his residence property. The State, he added, has offered $54,000 as settlement. He requested that the Commission not adhere to the principle of the fair market value because he believes this is an unusual situation and the property owner should be entitled to what it is going to cost to replace his home with a comparable one. Chairman McIver advised the group that the Commission understands the problem and will give it consideration.

(Later in the session the Commission authorized the securing of options from Messrs. Preble and Rosenfeld. See ahead for additional entry.)

The Commission considered the adoption of the budget for the State Parks Division for the year 1959 which had been submitted by the Assistant State Parks Superintendent on the previous day. In compliance with the Commission's request of the preceding day, the Assistant State Parks Superintendent reported that the $100,000 which had been authorized for expenditure by the Commission in 1958 had been added to the expenditures for 1958. The Commission after careful consideration adopted the budget as presented. (For details of the budget see copy filed in the Salem Office.)

Adoption of the 1959 Forest Highway Program, totaling $5,022,625 was considered by the Commission. This program was presented to the Commission by Mr. W. A. Wood, Engineer with the U.S. Bureau of Public Roads on the preceding day at which time the State Highway Engineer recommended its adoption. After careful consideration, the Commission unanimously adopted the following program:

OREGON

FISCAL YEAR 1960 FOREST HIGHWAY PROGRAM

FH Route	Route Name and Type Work	Length (Miles)	Forest Hwy. Funds
3 (A5)	Neskowin-Otis Junction. Grading and Structures.	0.90	$ 450,000
7	Siuslaw Highway. Mapleton-Florence Grading, Surfacing & Paving	5.0	400,000
17	Crater Lake Hwy. Lewis Road-Cascade Gorge Grading	5.0	700,000
31	Fremont Highway Grading, Surfacing & Bituminous Surface	3.3	340,000
32 (A4)	Heppner-Spray Grading and Surfacing	5.0	250,000
46	Cascade Lakes Highway Grading Surfacing (Elk Lake - southward)	5.0 10.5	400,000
47	North Umpqua Highway Grading and Bridge (Marsters Bridge Section)	5.0	500,000

1960 Forest Highway Program (Cont.)

FH Route	Route Name and Type Work	Length (Miles)	Forest Hwy. Funds
51	Belknap Springs Highway. Grading, Bridge	9.6	$ 1,000,000
52	Ukiah-Starkey Highway Bituminous Surfacing	20.0	200,000
53	Lake of the Woods McAllister Sps. - East Grading	5.0	600,000
			$ 4,840,000
	Lump Fund Surveys		100,000
			$ 4,940,000
	Unprogrammed Balance		82,625
			$ 5,022,625

Mr. Walter W. Foster, Attorney, Dallas, appeared before the Commission regarding access to the R. W. Piper property at Clackamas on the Clackamas Secondary Highway. Also present were R. W. Piper, Clackamas, and Dirk Bennett, Portland. Mr. Foster stated that he was appearing on behalf of his uncle, Mr. Piper, who owns land adjacent to the Clackamas Overcrossing Section on the Clackamas Highway where it joins 82nd Street. He advised that in the process of negotiations, the Highway Commission adopted a resolution declaring the necessity of taking access on the south side of Mr. Piper's property; however, the negotiations were unsuccessful so it was necessary to try the case. During the progress of the trial, he continued, the counsel for the Highway Commission made an offer to Mr. Piper's attorney whereby a settlement might be arranged which would allow Mr. Piper certain access on the overcrossing section. He added that Mr. Piper was never informed of this offer and only learned of it a few months ago. He commented that apparently restriction of access is not as essential as it was originally indicated to be, so it is their feeling that the matter should be corrected and Mr. Piper allowed reasonable access to his property from the relocated section of highway. Chairman McIver thanked Mr. Foster for presenting the matter and advised him that he would be informed of the Commission's decision. (Later in the session the Commission denied the request for access. See ahead for additional entry.)

The Engineer brought to the Commission's attention a request from Sherman Pederson, Portland, and others, for the installation of traffic signals at the intersection of the Beaverton-Hillsdale Highway

and S. W. 82nd Avenue west of the community of Raleigh Hills. He reported that a traffic engineering investigation has been made which reveals that traffic conditions at this intersection meet the standard warrants for the installation of traffic signals at rural intersections. He recommended installation of a fully-actuated signal at this intersection at an estimated cost of $7,500 and advised that sufficient funds have been provided in the 1959 Minor Betterment Budget to cover the cost of the work. The Commission approved the signal installation.

The Engineer brought up for discussion administrative rules set forth in the Department of Finance and Administration's Bulletin No. 22, "Regulations Governing Professional Service Contracts". He pointed out that the regulations contained in this bulletin may cause interference with certain operations of the Highway Department, particularly the awarding of highway contracts, the employment of appraisers for right of way acquisition, title insurance investigations, etc. Also discussed was the matter of whether or not the Department of Finance and Administration because of these regulations would have the authority to select the advertising agency for the Travel Information Division for next year. The Commission authorized the Chief Counsel to make a thorough study of the matter and report his findings to the Commission.

County Judge O. E. Effenberger, Tillamook, appeared before the Commission to introduce the members of the new Road Committee of the Tillamook Chamber of Commerce. The following persons also appeared: T. H. Bailey, Chairman of the Highway Committee of the Chamber of Commerce; Fred Guyton and J. S. Livingston, Members of the Highway Committee; Burford Wilkerson, Manager of the Chamber of Commerce, all from Tillamook; and Verne Ayers, Newport, Manager of the Oregon Coast Association. Judge Effenberger advised the Commission that the Tillamook Chamber of Commerce has appointed a new Highway Committee and he introduced the Chairman of that Committee, Mr. Bailey. Mr. Bailey introduced the other members of the Highway Committee. He stated that their number one program is the Bay City-Garibaldi Section of U.S. 101. This Committee, he stated, will represent all of Tillamook County, and it is their desire to work in harmony with the Highway Department. Mr. Ayers advised that the Oregon Coast Association is going to have a directors' meeting on November 16 and it is his understanding that they will reiterate the stand they took two years ago designating US 101 from Bay City to Garibaldi as their number one objective. Judge Effenberger thanked the Commission for the opportunity of appearing before them.

The Chief Counsel read a resolution honoring H. B. Glaisyer upon his retirement as Secretary of the State Highway Commission which retirement will become effective on October 31, 1958. The Commission unanimously adopted the resolution as read which resolution is attached hereto marked EXHIBIT "I", and by this reference is made a part hereof with like effect as though extended in full herein.

Mr. Carl Jordan, Director of the Travel Information Division, advised the Commission that the film "Vacation Adventures in Oregon

State Parks" would be ready for viewing at 1:00 p.m. that day in Room 418. Chairman McIver stated that he and the other members of the Commission would be present to see this film and he extended an invitation to all persons present to attend. In answer to Mr. Fridley's query as to how many prints the Travel Information Division would have prepared, Mr. Jordan advised that at the present time six prints would be made and as others are needed they would be prepared.

Mr. Gene Huntley, Director of Personnel and Public Relations, on behalf of the members of the Highway Commission and the employees of the State Highway Department, presented to H. B. Glaisyer, Secretary, his service award pin in recognition of 40 years of faithful service to the State Highway Department. Mr. Glaisyer thanked the Commission and Mr. Huntley, and advised that he will wear his pin with a great deal of pride.

Chairman McIver brought up the matter of the property owned by Mr. Preble and Mr. Rosenfeld which has been damaged by landslides and on whose behalf their attorneys appeared earlier in the session. He pointed out that if the State can acquire these properties at this time some of the improvements thereon can be preserved, and should the ground ever stabilize, the State may have something to salvage. The Commission authorized the Chief Counsel to secure options from these property owners for as good a price as can be obtained, and to telephone the Commission the results thereof.

In this connection the Right of Way Engineer called to the Commission's attention a claim which has just been received for similar damages suffered by a property owner adjacent to the Preble property. He stated that the owner claims the land is cracking and as a result, the potential sale of the property has been ruined so he requests that the State purchase it. The Right of Way Engineer pointed out that his department would investigate the claim to see whether or not the State is liable.

Chairman McIver brought up for Commission action the request of Mr. R. W. Piper for access to his property on the Clackamas Overcrossing Section of the Clackamas Secondary Highway on whose behalf Mr. Walter W. Foster, an attorney, appeared earlier in the session. The Engineer recommended that the request for access be denied due to the fact that the State had acquired and paid for all access rights the value of which had been determined in a condemnation trial. Mr. Piper, he added, has the same access to 82nd Avenue that he had before the road was built. The Commission adopted the Engineer's recommendation.

The Engineer advised the Commission that at the bid opening to be held in Salem on November 12, 1958, there are two projects: (1) construction of the Eagle Creek Bridge in Baker County, and (2) construction of a reinforced concrete deck girder and prestressed concrete beam structure to carry The Dalles-California Highway over California Avenue in Klamath Falls, Klamath County, that are to be financed with "Crash Funds" and must be awarded before December 1,

1958, in order to qualify for these funds. Since the next Highway Commission meeting is not scheduled until December 11 and 12, 1958, he requested authority to award these two contracts if the bids received are acceptable and after he has contacted the Commission with the results of the bids received. The Commission authorized the Engineer to award these two contracts on the basis outlined above.

There being no further business to come before the Commission, the meeting adjourned at 12:00 noon.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

October 23 and 24, 1958

EXHIBIT "A"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

RUSSELL STREET-CURRY STREET (EAST BANK FREEWAY) SECTION - PACIFIC HIGHWAY

28292 Williams, Grant and Rose (Grant)
Right of Way, 1415 N. E. Williams Ct., Sta. 367
Option expires March 14, 1959
3,400 sq. ft. at $0.50 per sq. ft. $1,700.00
House 4,300.00

Amount to be paid owners - chrg to Right of Way $6,000.00

Grantors to vacate 40 days after notice.

Entire taking -

EXHIBIT "A" (Cont)

RUSSELL STREET-CURRY STREET (EAST BANK FREEWAY) SECTION - PACIFIC HIGHWAY

28289 DuBoise, Anderson D. and Irene J. (Grant)
Right of Way, 10 N.E. Halsey, Sta. 367
Option expires March 21, 1959

2,500 sq.ft. at $0.50 per sq.ft.	$1,250.00
House	3,250.00
Amount to be paid owners - chrg to Right of Way	$4,500.00

Grantors to vacate 40 days after notice.

Entire taking -

28335 Bennett, Della (Grant)
Right of Way, 1416 N.E. Williams Ct., Sta. 367
Option expires March 17, 1959

3,300 sq.ft. at $0.50 per sq.ft.	$1,650.00
House	2,850.00
Amount to be paid owner - chrg to Right of Way	$4,500.00

Grantor to vacate 40 days after notice.

Entire taking -

HILLSDALE BARBUR BOULEVARD SECTION - BEAVERTON-HILLSDALE HIGHWAY

28070 Rasmussen, Carl and Dorothy (Scott)
Right of Way, 646 S.W. Cheltenham, Sta. 2+75 PT
Option expires March 8, 1959

2,165 sq.ft. at $0.23+ per sq.ft.	$500.00
Amount to be paid owners - chrg to Right of Way	$500.00

Complete restriction of access -

28066 Hamel, Harlan E. and Mavis R. (Scott)
Right of Way, 870 S.W. Cheltenham, Sta. 6
Option expires March 18, 1959

14,055 sq.ft. at $0.1807+ per sq.ft.	$ 2,540.00
House	12,810.00
Damage	1,545.00
Amount to be paid owners - chrg to Right of Way	$16,895.00

EXHIBIT "A" (Cont)

HILLSDALE BARBUR BOULEVARD SECTION - BEAVERTON-HILLSDALE HIGHWAY

28066 Hamel, Harlan E. and Mavis R. (Cont)

Grantors to give possession 30 days from notice.

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Goshen-Divide Section of the Pacific Highway described as follows:

A parcel of land lying in the John Cochran DLC #55, Township 20 South, Range 3 West, W. M., Lane County, Oregon, and being a portion of that tract of land described in that certain deed dated March 9, 1954 to the State of Oregon, by and through its State Highway Commission, and recorded on Reel 33-54D, Instrument #24714 of Lane County Records of Deeds; the said parcel being that portion of said State of Oregon tract lying easterly of a line that is parallel to and 130 feet easterly of the center line of the relocated Pacific Highway.

The center line herein referred to is described as follows: Beginning at Engineer's center line Station 739+81.48, said station being 945.98 feet north and 576.82 feet west of the southeast corner of said Cochran DLC #55; thence South 20° 40' West, 234.2 feet; thence on a spiral curve right (the long chord of which bears South 21° 20' West) 400 feet to Station 746+15.68.

The parcel of land to which this description applies contains 0.35 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of the property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 72 be entered in the minutes and records of the Commission as of the 23rd day of October, 1958.

30777

EXHIBIT "B-2"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Gold Beach-Cape Sebastion Section of the Oregon Coast Highway described as follows:

A parcel of land lying in Lots 1 & 2, Block 5, Bailey's Second Division of Gold Beach, Curry County, Oregon, the said parcel being the West 25 feet of Lot 2, said Block 5 and that portion of Lot 1 said Block 5, lying Easterly of a line which is parallel to and 40 feet Easterly of the center line of the relocated Oregon Coast Highway, which center line is described as follows:

Beginning at Engineer's center line Station 15+62.79, said station being 3656.36 feet North and 1020.62 feet West of the East quarter corner of Section 1, Township 37 South, Range 15 West, W. M.,; thence South 0° 18' East, 510.01 feet; thence on a spiral curve right (the long chord of which bears South 1° 02' West) 400 feet to Station 24+72.80.

The parcel of land to which this description applies contains 5,775 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5,000.00; and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Oregon Coast Highway, except two 30-foot points of access unrestricted as to use will be allowed.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 73 be entered in the minutes and records of the Commission as of the 23rd day of October, 1958.

EXHIBIT "B-3"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Bunker Hill Section of the Oregon Coast Highway described as follows:

Lots 21 thru 28, Block 11, Bunker Hill Addition to Coos Bay (formerly Marshfield), Coos County, Oregon, containing 24,000 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 74 be entered in the minutes and records of the Commission as of the 23rd day of October, 1958.

30779

EXHIBIT "B-4"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway described as follows:

A parcel of land lying in Lots 6, 7 & 8, Blk. 12 of Lippincotts 2nd Addition to the Town of Dayton, also lying in Sections 17 & 18, Township 4 South, Range 3 West, W. M., Yamhill County, Oregon, and being a portion of that property described in that certain deed to State of Oregon by and thru its State Highway Commission, recorded in Book 179, Page 491 of Yamhill County Records of Deeds; the said parcel being described as follows:

Beginning at the Northwest corner of said Lot 8; thence South along the West line of said Lot 8, a distance of 390 feet, more or less, to a line which is parallel to and 115 feet Northwesterly of the center line of the relocated Three Mile Lane Highway as said center line is described in said State of Oregon deed; thence Northeasterly parallel to said center line 70 feet, more or less, to a point which is opposite and 115 feet Northwesterly of Station 276+00 on said center line; thence Easterly in a straight line to a point which is opposite and 70 feet Northwesterly of Station 277+00 on said center line; thence Northeasterly parallel to and 70 feet Northwesterly of said center line 530 feet, more or less, to the North line of said Lot 6; thence West along the North lines of said Lots 6, 7 and 8, a distance of 590 feet, more or less, to the place of beginning.

Reserving a permanent construction easement across the following described tract:

Beginning at the most Southerly corner of the above described tract, said corner being 115 feet Northwesterly of (when measured at right angles to) the center line of the relocated Three Mile Lane Highway; thence North along the West line of said State of Oregon property 80 feet; thence Easterly in a straight line 165 feet more or less to a point which is opposite and 70 feet Northwesterly of Station 277+00 on said center line said point being on the Southeasterly line of the above described tract; thence Southwesterly along said Southeasterly line to the place of beginning.

The parcel of land to which this description applies contains 2.84 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

EXHIBIT "B-4" (Cont)

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be. and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Three Mile Lane Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 75 be entered in the minutes and records of the Commission as of the 23rd day of October, 1958.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 76 shall be entered in the minutes and records of the Commission as of the 23rd day of October, 1958.

EXHIBIT "D"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway, or any section thereof, and by reason of said relocation or realignment there is eliminated from the original route of the highway, any section thereof, the eliminated section shall:

(a) If needed for the service of persons living thereon or for communities served thereby, be maintained by the Commission at state expense, or by the county or by state and county, under terms and conditions agreed upon;

(b) If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, they shall revert to the abutting property owners, unless, in the judgment of the Commission, some of such sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated a section of the Wasco-Heppner Highway, State Secondary Highway No. 300, known as the Hay Canyon-John Day River Section, in Sherman County, the northwesterly terminus of which is at relocated Highway Engineer's Centerline Survey Station 25+00 and the southeasterly terminus of which is at relocated Highway Engineer's Centerline Survey Station 303+92.50 on said relocated highway, and said relocated section of highway has now been completed and open to public travel; and

WHEREAS, due to the relocation of aforesaid section, certain portions of the former right of way are no longer needed for right of way purposes and may be eliminated as sections of said relocated Wasco-Heppner Highway, State Secondary Highway No. 300, which said sections are designated as Units "A", "B", "C", "D" and "E". Units "A", "B" and "C" are shown colored in brown on a map attached hereto, marked "Exhibit A" and by this reference made a part hereof. Units "D" and "E" are shown colored in red on said "Exhibit A"; and *

WHEREAS, Sherman County and the State Highway Commission entered into an agreement on the 13th day of January, 1958, relating to the disposition to be made of certain sections of said original Wasco-Heppner Highway, State Secondary Highway No. 300, and which are subject to elimination; and

WHEREAS, said agreement provided the State, by resolution, would formally eliminate said Units "D" and "E" as part of the Wasco-

Heppner Highway, State Secondary Highway No. 300 from the State Highway system, and that all the right, title, and interest which State has in Units "D" and "E" should pass to and vest in County and the County would accept jurisdiction over and all right, title, and interest which State has in Units "D" and "E", for the purpose of maintaining them as county roads as long as needed for the service of persons living thereon or communities served thereby; and

WHEREAS, in the judgment of the Commission, Units "A", "B" and "C" are no longer needed for State Highway right of way purposes or for the service of persons living thereon or communities served thereby, or for any other public use and therefore may be eliminated from the boundaries of the relocated highway; and

WHEREAS, in the judgment of the Commission certain other sections of the right of way of the former and the relocated Wasco-Heppner Highway, State Secondary Highway No. 300, together with the real property acquired by State for roadway and other public purposes, are needed and are valuable for public use and that title should remain in the public. The sections in which title is retained by the State are shown colored in green on the map attached hereto, marked "Exhibit A".*

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That by reason of the relocation of the Hay Canyon-John Day River Section of the Wasco-Heppner Highway, State Secondary Highway No. 300, the hereinafter described sections of the former right of way of the former Hay Canyon-John Day River Section of the Wasco-Heppner Highway, State Secondary Highway No. 300, are no longer needed by the State of Oregon and are no longer required for part of the said new right of way of the said relocated Wasco-Heppner Highway. The said sections are identified as Units "A", "B", "C", "D" and "E" as shown on said "Exhibit A" and are described as follows: *

Unit A

All the land situated within the right-of-way boundaries of the Wasco-Heppner Highway as formerly routed, beginning at the westerly right-of-way line opposite Highway Engineer's Center Line Survey Station 45+00 of said highway as relocated in the northeast quarter of the southwest quarter (NE¼ SW¼), Section 32, Township 1 North, Range 18 East, W. M.; thence southeasterly via said highway as formerly routed to the southerly right-of-way line opposite Highway Engineer's Center Line Survey Station 68+40 of said highway as relocated in the northwest quarter of the northeast quarter (NW¼ NE¼), Section 9, Township 1 South, Range 18 East, W. M.

EXHIBIT "D" (Cont)

Unit B
All the land situated within the right-of-way boundaries of the Wasco-Heppner Highway as formerly routed beginning at the easterly right-of-way line opposite Highway Engineer's Center Line Survey Station 111+30 of said highway as relocated in the northeast quarter of the southwest quarter (NE¼ SW¼), Section 4, Township 1 South, Range 18 East, W. M.; thence southeasterly via said highway as formerly routed to the easterly right-of-way line opposite Highway Engineer's Center Line Survey Station 118+30 of said relocated highway in the northeast quarter of the southwest quarter (NE¼ SW¼), Section 4, Township 1 South, Range 18 East, W. M.

Unit C
All the land situated within the right-of-way boundaries of the Wasco-Heppner Highway as formerly routed, beginning at the easterly right-of-way line opposite Highway Engineer's Center Line Survey Station 122+70 of said highway as relocated in the northeast quarter of the southwest quarter (NE¼ SW¼), Section 4, Township 1 South, Range 18 East, W. M.; thence southerly and easterly via said highway as formerly routed to the southerly right-of-way line opposite Highway Engineer's Center Line Survey Station 145+40 of said highway as relocated in the northwest quarter of the northeast quarter (NW¼ NE¼), Section 9, Township 1 South, Range 18 East, W. M.

Unit D
All the land situated within the right-of-way boundaries of the Wasco-Heppner Highway as formerly routed beginning at the northerly right-of-way line opposite Highway Engineer's Center Line Survey Station 145+80 of said highway as relocated in the southwest quarter of the southeast quarter (SW¼ SE¼), of Section 4, Township 1 South, Range 18 East, W. M.; thence easterly and southerly via said highway as relocated to the northerly right-of-way line opposite Highway Engineer's Center Line Survey Station 164+50 of the relocated highway in the northwest quarter of the northwest quarter (NW¼ NW¼), Section 10, Township 1 South, Range 18 East, W. M.

Unit E
All the land situated within the former right-of-way boundaries of the Wasco-Heppner Highway as formerly routed, beginning at the southerly right-of-way line opposite Highway Engineer's Center Line Survey Station 164+30 of said highway as relocated in the northeast quarter of the northeast quarter (NE¼ NE¼), Section 9, Township 1 South, Range 18 East, W. M.; thence southerly and easterly via

EXHIBIT "D" (Cont)

said highway as formerly routed to the southerly right-of-way line opposite Highway Engineer's Center Line Survey Station 124+79. 2 of said highway as formerly routed in the northeast quarter of the southeast quarter (NE¼ SE¼), Section 11, Township 1 South, Range 18 East, W.M.

2. That, pursuant to an agreement entered into with Sherman County on the 13th day of January, 1958, Units "D" and "E", as heretofore described and as shown colored in red on the attached map, marked "Exhibit A", are hereby duly eliminated as part of the Wasco-Heppner Highway, State Secondary Highway No. 300 and the State Highway system and that all right, title, interest and jurisdiction which State has in Units "D" and "E" hereby passes to and vests in said Sherman County. *

3. That Units "A", "B" and "C", as heretofore described, and as shown colored in brown on the attached map marked "Exhibit A", are hereby duly eliminated as part of the Wasco-Heppner Highway, State Secondary Highway No. 300 and the State Highway system, and that all right, title and interest which State has in said Units "A", "B" and "C" shall pass to and vest in the owner or owners of the property abutting thereon. *

4. That title shall remain in State to the right of way of the former and of the said relocated section of the Wasco-Heppner Highway, State Secondary Highway No. 300, known as the Hay Canyon-John Day River Section in Sherman County, together with real property acquired by State for right of way and other public uses as shown colored in green on said "Exhibit A" attached hereto. *

5. That this resolution shall be entered in full in the minutes and records of this Commission as Resolution No. 344, this 23rd day of October, 1958, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Sherman County.

---

*FOOTNOTE:

EXHIBIT "E-1"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, on November 13, 1931, the Oregon State Highway Commission selected and designated the Little Butte Highway, State Secondary Highway No. 270 in Jackson County and the Klamath Lake Highway, State Secondary Highway No. 421 in Klamath County; and

WHEREAS, Klamath County and the State Highway Commission entered into an agreement on the 27th day of June, 1957, which, among other things, provided that the State would extend the route of the Little Butte Highway and would redesignate the Little Butte Highway plus the said extension and a portion of the Klamath Lake Highway; and

WHEREAS, pursuant to ORS 366.290, the Highway Commission is authorized to select, establish and designate a system of state secondary highways within the State;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That pursuant to an agreement entered into with Klamath County on the 27th day of June, 1957, that portion of the Lake of the Woods County Road as shown colored in yellow on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof, is hereby selected and designated as an extension of the Little Butte Highway, State Secondary Highway No. 270 which said portion is described as follows: *

> Beginning at the presently easterly terminus of the Little Butte Highway, State Secondary Highway No. 270, at the Jackson County line at Mile Point 30.33 of said highway; thence easterly via the Lake of the Woods County Road to a junction with the Klamath Lake Highway, State Secondary Highway No. 421, at Mile Point 23.37 of said Klamath Lake Highway, a distance of approximately 14.0 miles.

2. That the existing Little Butte Highway, State Secondary Highway No. 270, plus the aforesaid extension as described in paragraph 2 and that portion of the Klamath Lake Highway, State Secondary Highway No. 421, from the Lake of the Woods Junction at Mile Point 23.37 southeasterly to a junction with the The Dalles-California Highway in Klamath Falls, all as shown colored in blue on the attached Exhibit "A", is hereby redesignated as the Lake of the Woods Highway, State Secondary Highway No. 270, which redesignated highway is described as follows: *

> Beginning at a junction with the Crater Lake Highway, State Primary Highway No. 22, in Eagle Point at Mile Point 9.42 of said Crater Lake Highway; thence easterly and southeasterly

EXHIBIT "E-1" (Cont)

along the existing Little Butte Highway, Lake of the Woods County Road and Klamath Lake Highway to a junction with the The Dalles-California Highway, State Primary Highway No. 4 at Mile Point 283.26 of said The Dalles-California Highway in Klamath Falls, a distance of approximately 69.47 miles.

3. That this resolution be entered in full in the minutes and records of this Highway Commission this 23rd day of October, 1958, as Secondary Highway Designation Resolution No. 46.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 46, under the heading "Secondary Highway Designation" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

30792

EXHIBIT "E-2"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, on November 13, 1931, the Oregon State Highway Commission selected and designated the Klamath Lake Highway, State Secondary Highway No. 421 in Klamath County; and

WHEREAS, Klamath County and the State Highway Commission entered into an agreement on the 27th day of June, 1957, which, among other things, related to the disposition of a section to be eliminated from the route of the Klamath Lake Highway; and

WHEREAS, pursuant to ORS 366.290, with the written consent of the County Court, the State may, in the interest of the State, eliminate from the system of secondary highways, any section thereof and said section shall pass to the County for its maintenance and control as a county road;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That a section of the Klamath Lake Highway, State Secondary Highway No. 421, is no longer needed by the State of Oregon as part of the said Klamath Lake Highway, which section is identified as Unit "A" as shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof, and is described as follows: *

> Unit "A"
> Beginning on the Klamath Lake Highway, State Secondary Highway No. 421 at the Lake of the Woods junction at Mile Point 23.37 of said highway; thence northerly via said Klamath Lake Highway to a junction with the Crater Lake Highway, State Primary Highway No. 22 at Fort Klamath at Mile Point 0.0 of said Klamath Lake Highway, a distance of approximately 23.37 miles.

2. That pursuant to the agreement entered into with Klamath County on the 27th day of June, 1957, and in the best interest of the State of Oregon, Unit "A" of said Klamath Lake Highway as heretofore described, is hereby eliminated as part of the Klamath Lake Highway, State Secondary Highway No. 421, and the state highway system; and all right, title and interest which the State has in the right of way of said Unit "A" does hereby pass to and vest in Klamath County.

EXHIBIT "E-2" (Cont)

3. That this resolution be entered in full in the minutes and records of this Highway Commission this 23rd day of October, 1958, as Abandonment & Retention Resolution No. 333.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 333, under the heading "Abandonment and Retention" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, ORS 366.135 authorizes the State Highway Commission to appoint an Assistant Secretary for a term not exceeding four years; and

WHEREAS, said law further provides that said Assistant Secretary shall receive an annual salary to be fixed by the Commission; and

WHEREAS, this Commission has duly considered and examined the qualifications of Cecil W. Head,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED, all members being present and voting affirmatively as follows:

1. That it is the judgment of this Commission that Cecil W. Head is, by training and experience, qualified to fill the position of Assistant Secretary.

2. That Cecil W. Head be and he hereby is, appointed to the position of Assistant Secretary for a period of four years commencing on November 1, 1958 and shall perform such duties as may be assigned to him by the Secretary or by this Commission and shall, under the direction of or in the absence of the Secretary, have full authority to perform any duty required or permitted by law to be performed by the Secretary.

3. That the Assistant Secretary shall receive a starting annual salary of $6900.00 payable in monthly installments of $575.00 per month as approved by the Civil Service Commission and the Department of Finance and Administration for Executive II in the first step and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

4. That this resolution be entered in the minutes and records of this Commission as of the 23rd day of October, 1958.

36795

EXHIBIT "G"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, the Three Mile Lane Highway, State Secondary Highway No. 152; the Lafayette Highway, State Secondary Highway No. 154; and the Amity-Dayton Highway, State Secondary Highway No. 155; are all state secondary highways in Yamhill County under the jurisdiction and control of the Oregon State Highway Commission; and

WHEREAS, County Market Road No. 18 and a certain county road which in the City of Dayton, Oregon, is known as Third Street, are county roads under the jurisdiction and control of Yamhill County; and

WHEREAS, under the authority of ORS 366.290, the Commission may select, locate, designate, improve and maintain out of the highway fund a system of secondary state highways, and for that purpose may, by mutual agreement with the county courts of the several counties, select market roads or other county roads as part of the state secondary highway system and the Commission, by appropriate order entered in its records, may designate and adopt said roads as state secondary highways; and thereafter all construction, improvement, maintenance and repair of said roads shall be under the jurisdiction and control of the Commission; and

WHEREAS, State and Yamhill County entered into an agreement on November 4, 1955, which provided, among other things, that State would extend the Lafayette Highway as shown colored in yellow on the map attached hereto marked Exhibit "A" and by this reference made a part hereof; extend the Salem-Dayton Highway as shown colored in blue on the attached Exhibit "A"; and redesignate a portion of the Amity-Dayton Highway as part of the Three Mile Lane Highway as shown colored in brown on the attached Exhibit "A". *

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Lafayette Highway, State Secondary Highway No. 154, is hereby extended from its present terminus with the Amity-Dayton Highway northerly along County Market Road No. 18 to a new junction with the relocated Three Mile Lane Highway as shown colored in yellow on the said attached Exhibit "A". The altered route of said Lafayette Highway as extended, is described as follows: *

> Beginning at a junction with the relocated Three Mile Lane Highway, State Secondary Highway No. 152, at Mile Point 5.12 of said relocated Three Mile Lane Highway; thence southerly to a junction with the Bellevue-Hopewell Highway, State Secondary Highway No. 153 at Mile Point 11.16 of said Bellevue-Hopewell Highway, a distance of 6.27 miles.

EXHIBIT "G" (Cont)

2. That the Salem-Dayton Highway, State Secondary Highway No. 150, is hereby extended from its present terminus with the Amity-Dayton Highway northerly along that certain county road which in the City of Dayton, Oregon is known as Third Street, to a new junction with the relocated Three Mile Lane Highway as shown colored in blue on the attached Exhibit "A". The altered route of said Salem-Dayton Highway as extended is described as follows: *

> Beginning at a junction with the relocated Three Mile Lane Highway, State Secondary Highway No. 152, at Mile Point 6.43 of said relocated Three Mile Lane Highway; thence southerly via Dayton to a junction with the Willamina-Salem Highway, State Primary Highway No. 30, at Mile Point 25.16 of said Willamina-Salem Highway in the City of Salem, a distance of 20.90 miles.

3. That a portion of the present Amity-Dayton Highway, State Secondary Highway No. 155, is hereby redesignated as a part of the relocated Three Mile Lane Highway from a point opposite Highway Engineer's Centerline Survey Station 367+20 of said relocated Three Mile Lane Highway northerly to a junction with the Pacific Highway West as shown colored in brown on the attached Exhibit "A". The altered route of the relocated Three Mile Lane Highway as extended is described as follows: *

> Beginning at a junction with the Pacific Highway West, State Primary Highway No. 1W, at the intersection of Third and Adams Streets in the City of McMinnville; thence easterly to a junction with the Pacific Highway West, State Primary Highway No. 1W, at Mile Point 29.79 of the said Pacific Highway West, a distance of 7.85 miles.

4. That this resolution be entered in the minutes and records of the Commission this 23rd day of October, 1958, as Secondary Highway Resolution No. 47 and the Secretary is ordered to mail a certified copy hereof to the Yamhill County Court.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 47, under the heading "Secondary Highway Designation" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

36797

EXHIBIT " H"

Minutes of October 23 and 24. 1958

RESOLUTION

WHEREAS, pursuant to ORS 366. 220, the Oregon State Highway Commission may select, establish, designate, construct, maintain, operate and improve or cause to be constructed, maintained, operated and improved a system of state highways within the state, and may classify and reclassify the highways comprising the state highway system as primary and secondary highways; and

WHEREAS, pursuant to ORS 366. 295, the State Highway Commission may make such changes in the location of highways as in the judgment and discretion of the Commission will result in better alignment, more advantageous and economical highway operation and maintenance, or as will contribute to and afford a more serviceable system of state highways; and

WHEREAS, pursuant to ORS 374. 095, the State Highway Commission may provide utility or service roads to serve properties following the route of and immediately parallel to a throughway highway; and

WHEREAS, on June 13, 1941, the Oregon State Highway Commission duly selected and designated the Albany Airport Road as State Secondary Highway No. 214; and

WHEREAS, the State Highway Commission has relocated the Pacific Highway, State Primary Highway No. 1 east of Albany, Oregon, and established said Pacific Highway as a throughway; and

WHEREAS, the Albany Airport Highway, State Secondary Highway No. 214 as hereinafter described, is necessary for use as a service road to the said relocated Pacific Highway, State Primary Highway No. 1

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Albany Airport Highway, State Secondary Highway No. 214 as shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof, is hereby removed from the state secondary system and is selected and redesignated as a portion of the right of way of the relocated Pacific Highway, State Primary Highway No. 1. The said Albany Airport Secondary Highway which is hereby redesignated as a part of the relocated Pacific Highway is described as follows: *

> Beginning at the junction of the Pacific Highway East with the Albany Airport Road; thence southerly to the junction of the Santiam Highway with the Albany Airport Road, a distance of approximately 1. 05 miles.

EXHIBIT "I"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, H. B. GLAISYER has expressed to the State Highway Commission his desire to retire from his position as Secretary to the State Highway Commission as of October 31, 1958; and

WHEREAS, H. B. GLAISYER has faithfully served the State Highway Department since May 19, 1919, as a registered professional engineer and, in addition, since December 12, 1930 as Secretary to the State Highway Commission; and

WHEREAS, H. B. GLAISYER during his employment by the State Highway Commission has, by his efficiency, materially assisted in the growth of the State Highway Department and has continually exhibited outstanding loyalty, integrity, fidelity and executive ability to the State Highway Commission during his employment as an engineer as well as in carrying out the legal and detailed duties of his office as Secretary to the State Highway Commission; and

WHEREAS, the above mentioned qualities of H. B. GLAISYER have been recognized nationally since he is a charter member and former director of the Northwest Society of Highway Engineers and in addition has served as Secretary-Treasurer for the Western Association of State Highway Officials during the years of 1955, 1956, and 1957; and

WHEREAS, H. B. GLAISYER'S career in the State Highway Department has been an inspiration to his fellow employees and brought great credit to himself, the State Highway Commission, and the State of Oregon.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. That, in behalf of the State Highway Department and the people of the State of Oregon, sincere and deep appreciation is hereby expressed to H. B. GLAISYER for his many years of loyal and faithful public service to the citizens of the State of Oregon as an engineer and as Secretary to the State Highway Commission.

2. That the Oregon State Highway Commission hereby officially expresses its appreciation for the many years of public service by H. B. GLAISYER to the State, the nation, and the citizens thereof.

3. That a signed copy of this resolution be delivered to H. B. GLAISYE

4. That this resolution be entered in the minutes and records of this Commission this 24th day of October, 1958.

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture or road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Grants Pass-Rock Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-1" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Grants Pass-Rock Point Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Grants Pass-Rock Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-1" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of October, 1958, as Condemnation Resolution No. 1021.

EXHIBIT "J-2"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-2" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-2" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of October, 1958, as Condemnation Resolution No. 1022.

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1022, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-3"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-3" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system and the relocation, construction, improvement and maintenance of the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A," under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A," no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Deadmans Pass-Meacham Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

EXHIBIT "J-3" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of October, 1958, as Condemnation Resolution No. 1023.

---

*FOOTNOTE:

30803

EXHIBIT "J-4"

Minutes of October 23 and 24, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain The Dalles-Eight Mile Creek Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and
